National Criminal Justice Reference Service

ncjrs

This microfiche was produced from documents received for inclusion in the NCJRS data base. Since NCJRS cannot exercise control over the physical condition of the documents submitted, the individual frame quality will vary. The resolution chart on this frame may be used to evaluate the document quality.

ANNUAL REPORT OF THE DIRECTOR OF THE ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS FOR THE TWELVE MONTH PERIOD ENDED JUNE 30, 1981

To: The Chief Justice of the United States, Chairman, and Members of the Judicial Conference of the United States

Pursuant to the provisions of Title 28 Section 604(a) (3) of the United States Code, I have the honor to report on the business of the courts and the activities of the Administrative Office of the United States Courts for the twelve month period ended June 30, 1981. This report is submitted in four subdivisions: Judicial Business, Judicial Administration, Judicial Appropriations and Expenditures, and the reports of the courts on the Equal Employment Opportunity Program of the Judicial Conference, as required by resolution of the March 1980 session of the Conference (Conference Report, p. 5). Appended is the detailed statistical analysis of the workload of the federal courts during the reporting period.

JUDICIAL BUSINESS

COURTS OF APPEALS

The workload of the 11 U. S. courts of appeals continued its upward trend in 1981 as 26,362 new appeals were filed. This was nearly 14 percent above the level of 1980 and more than 58 percent higher than the filings in 1975. The increased filings in 1981 resulted in 599 new appeals for each authorized three-judge panel. This level was higher than any previous year.

Table 1
U.S. Courts of Appeals
Appeals Commenced, Terminated, and Pending
on June 30, 1975 through 1981

Year Ended June 30	Authorized Judgeships	Appeals Commenced		Appeals Terminated	Appeals Pending June 30
		Number	Cases Per Panel		
1975	97	16,658	515	16,000	12,128
1976	97	18,408	569	16,426	14,110
1977	97	19,118	591	17,784	15,444
1978	97	18,918	585	17,714	16,648
1979	132	20,219	460	18,928	17,939
1980	132	23,200	527	20,887	20,252
1981	132	26,362	599	25,066	21,548
Percent Change 1981 over					
1975	36.1	58.3	16.3	56.7	77.7
1980	-	13.6	13.7	20.0	6.4

The addition of the 35 judgeships in late 1978 and the subsequent appointments to fill most of those positions accounted, in part, for the 20.0 percent increase in terminations in 1981. The 25,066 terminations were the highest ever recorded by the courts of appeals, but 1,296 short of the number of new appeals filed. As a result, the pending caseload grew 6.4 percent in 1981. The 21,548 pending caseload on June 30, 1981, was a record high and more than 77 percent above the number of cases pending on June 30, 1975.

The overall increase of 13.6 percent in appeals filings was primarily a result of an 18.4 percent increase in appeals of private civil actions from district courts. These appeals rose by 1,874 over the previous year. Appeals from administrative agencies also rose substantially as 28.8 percent more cases were filed in 1981 than in 1980. Original proceedings and appeals of U. S. civil actions from district courts rose by 18.7 percent and 6.1 percent, respectively. The only decline in filings in 1981 came in criminal appeals from district courts. The 4,377 criminal appeals filed in 1981 were 0.6 percent below the total of the previous year.

Table 2

Original Proceedings	595	706	18.7

STATUS OF JUDGESHIP POSITIONS

On June 30, 1981, there were 132 judgeship positions authorized for the U.S. courts of appeals. Nine of these positions were vacant at the end of the year, including one position which has been vacant since its creation in October 1978. The length of the remaining eight vacancies ranged from 1 to 18 months. In addition to the 132 authorized judgeships, there were 45 senior judges in the courts of appeals on June 30, 1981.

In the U.S. district courts, there are 516 authorized judgeships. On June 30, 1981, there were 41 vacant positions. Eight have been vacant since their creation in October 1978. The remaining 33 positions have been vacant from 2 weeks to 29 months. In addition to the authorized positions in the district courts, there were 149 senior judges on June 30, 1981.

Table 3
Status of Judgeship Positions
In U.S. Courts of Appeals and U.S. District Courts
During the Twelve Month Period Ended June 30, 1975 through 1981

June 30	U.S. Courts of Appeals			U.S. District Courts		
	Authorized Judgeships	Vacancies	Senior Judges	Authorized Judgeships	Vacancies	Senior Judges
1975	97	1	47	400	13	102
1976	97	3	43	399	24	109
1977	97	10	48	398	25	120
1978	97	2	46	399	15	119
1979	132	38*	46	516	119*	127
1980	132	6	45	516	32	126
1981	132	9	45	516	41	149

* Of the 38 vacancies in courts of appeals, 35 were in judgeships created in October 1978. In district courts, 100 of the vacancies were in positions created in October 1978.

DISTRICT COURTS

Civil Cases

Civil filings in the U. S. district courts rose by 7.0 percent in 1981 as 180,576 new cases were filed compared to 168,789 filings in 1980. In terms of authorized judgeships, civil filings rose to 350 per judgeship, two above the previous record high of 348 recorded in 1978.

The district courts terminated 177,975 civil cases in 1981, 10.9 percent above 1980 and 41 percent above 1978. This increase over 1978 was due, in part, to the addition of the 117 authorized judgeships in 1978 and subsequent appointments to fill the positions. Even with the increased terminations, the pending civil caseload rose by 1.4 percent to 188,714 on June 30, 1981.

Table 4
U.S. District Courts
Civil Cases Filed, Terminated, and Pending
For the Twelve Month Periods Ended
June 30, 1975 through 1981

Year Ended June 30	Cases Authorized Judgeships	Civil Cases Commenced		Civil Cases Pending Terminated	June 30
		Number	Civil Cases Judgeship		
1975	400	117,320	293	104,783	119,767
1976	399	130,597	327	110,175	140,189
1977	398	130,567	328	117,150	153,606
1978	399	138,770	348	125,914	166,462
1979	516	154,666	300	143,323	177,805
1980	516	168,789	327	160,481	186,113
1981	516	180,576	350	177,975	188,714
Percent Change 1981 over					
1975	29.0	53.9	19.5	69.9	57.6
1980	-	7.0	7.0	10.9	1.4

The overall 7.0 percent rise in civil filings occurred primarily because of a 15.6 percent increase in diversity of citizenship cases and a rise of 11.7 percent in federal question case filings. Also contributing to the increase was a rise of 1.8 percent in U.S. defendant cases. Because of a reduction in the filing of land condemnation actions, U.S. plaintiff cases dropped by 5.6 percent in 1981. Local jurisdiction cases also fell (15.8 percent) and in 1981 numbered only 773 cases.

The nationwide increase of 7.0 percent in civil filings was highlighted by substantial increases in civil rights filings. Actions filed by prisoners alleging civil rights violations rose by more than 26 percent to 16,473 cases compared to 13,000 filed in the previous year. Employment civil rights cases also rose substantially in 1981 as 6,245 such cases were filed. This was 24.5 percent above the level recorded in 1980. Other civil rights actions rose from 7,927 in 1980 to 9,174 in 1981, an increase of 15.7 percent. Cases involving recovery of overpayments and enforcement of judgments, most of which relate to student loans and veteran's benefits, also rose substantially this year by 16.5 percent.

The only significant decline in filings occurred in land condemnation. The substantial reduction in case filings related to the Big Cypress project in Southern Florida was largely responsible for the 53 percent drop. Land cases filed during 1981 totaled only 2,179 compared to 4,674 in 1980.

Table 5
U.S. District Courts
Civil Cases Filed By Jurisdiction
During the Twelve Month Periods Ended June 30, 1977 through 1981

Year	Total	U.S. Cases		Private Cases

Criminal Cases

Criminal filings in the district courts this year reversed a three-year declining trend by rising 8.2 percent over the number of cases filed in 1980. The 31,287 criminal case filings for 1981 exceeded the previous year by 2,366 cases, but were still 28 percent below the number of cases filed in 1975.

Terminations of criminal cases also rose this year as 30,221 cases were terminated. This was 3.2 percent above the number terminated in 1980 but 30.6 percent fewer than in 1975. The number of terminations fell short of filings by 1,066 resulting in an increase of 7.4 percent in the number of criminal cases pending on June 30. The 15,850 cases pending on June 30, 1981 were the highest since 1977.

The overall increase in criminal case filings this year resulted from increased prosecutions in most major offense categories. Weapons and firearms prosecutions rose by 40 percent over the 1980 level and embezzlement filings increased by more than 16 percent. Prosecutions for all drug related offenses were up 18 percent this year, while cases charging marihuana violations alone rose by more than 76 percent. Robbery prosecutions also rose substantially by more than 13 percent over 1980.

1980	-	8.2	8.2	3.2	7.4

Petit Juror Utilization

The use of petit jurors in the district courts continued to increase in 1981 as 7.2 percent more prospective jurors were called than in 1980. In 1981, there were nearly 649,000 total available jurors compared to 605,547 in 1980. The number of jurors who were selected for or serving on a jury trial rose to 396,746 and represented 61.1 percent of the total available to serve. This was the highest percentage recorded in the 11 years that the juror statistics have been maintained. The percentage of jurors who were challenged (15.2 percent), was slightly higher than in 1980. The percentage not selected, serving, or challenged fell to its lowest level ever at 23.4 percent. This was a slight improvement over 1980 when 23.9 percent of the prospective jurors were not selected, serving, or challenged.

The increase in the number of jurors called for service was a direct result of the increase in the number of jury trial days. Overall, jury trial days rose by nearly 11 percent in 1981. Civil jury trial days rose to nearly 20,000 or 19 percent above the 1980 level. Criminal jury trial days rose by just 1.8 percent.

The Juror Usage Index (J.U.I.) is a measure of the efficiency of the juror system. It represents the average number of jurors on hand for each jury trial day. The 1981 J.U.I. of 18.23 was 3.2 percent below the 1980 index and the lowest figure recorded since the juror statistical system began 11 years ago.

Grand Juror Utilization

Grand juror activity continued to increase in 1981 as 10,997 grand jury sessions were convened. This was more than 6.0 percent above the 1980 level and 12.3 percent above 1979. The number of jurors in session and the number of hours in session also increased this year by 6.4 percent and 7.6 percent, respectively. The average number of jurors per session remained constant in comparison with 1980 at 20.0 while the average hours per session increased slightly to 5.30 hours compared to 5.24 in 1980.

During all of 1981, there were 738 grand juries in existence, 5.6 percent more than in 1980. There were 328 grand juries impaneled and 308 discharged during the year.

BANKRUPTCY COURTS

Bankruptcy Filings

Since the Bankruptcy Reform Act (P.L. 95-598) became effective on October 1, 1979, the twelve month period ended June 30, 1981 was the first full statistical year under the revised bankruptcy code.

Table 9 shows bankruptcy filings since 1948, the first year under the Referee's Salary Act. Because of a change in the new bankruptcy code permitting the filing of joint petitions by husband and wife, it is necessary to use the number of separate estates in bankruptcy after October 1, 1979 to provide a comparative basis with all statistical data presented prior to October 1, 1979.

In the twelve month period ended June 30, 1981, a total of 360,329 cases representing 518,152 estates were commenced in the bankruptcy courts. Additionally, 911 cases (estates) originally filed under the Bankruptcy Act prior to October 1, 1979, were reopened during the year, making a total of 519,063 estates filed in the bankruptcy courts. This is the largest number of bankruptcy estates ever filed during any year. It constitutes a numerical increase of 158,106 estates, or 43.8 percent over the previous record high of 360,957 estates filed in 1980.

Table 9
Bankruptcy Filings
(By Estate)
During the Twelve Month Periods Ended
June 30, 1948 - 1981

Year Ended June 30	Number of Estates	Increase or Decrease	Percent Change
1948	18,510	5,340	40.5

1963	155,493	7,713	5.2
1964	171,719	16,226	10.4
1965	180,323	8,604	5.0
1966	192,354	12,031	6.7
1967	208,329	15,975	8.3
1968	197,811	-10,518	-5.0
1969	184,930	-12,831	-6.5
1970	194,399	9,469	5.1
1971	201,352	6,953	3.6
1972	182,869	-18,483	-9.2
1973	173,197	-9,672	-5.3
1974	189,513	16,316	9.4
1975	254,484	64,971	34.3
1976	246,549	-7,935	-3.1
1977	214,399	-32,150	-13.0
1978	202,951	-11,448	-5.3
1979	226,476	23,525	11.6
1980	360,957	134,481	59.4
1981	519,063	158,106	43.8

As shown in Table 10, substantial increases in filings were registered in all circuits. The greatest numerical increase was in the Ninth Circuit with an increase of 32,129 estates. The Third Circuit had the largest percentage increase with an 86.3 percent rise in filings.

Table 10
Bankruptcy Filings
(By Estate)
During the Twelve Month Periods Ended
June 30, 1980 and 1981

Tenth	23,070	32,868	9,798	42.5

Bankruptcy Terminations

The number of bankruptcy estates terminated rose by 62.1 percent from 198,540 during the year ended June 30, 1980 to 321,749 in 1981. This is the largest number of bankruptcy estates ever closed in any twelve month period. The estates terminated during 1981 included 66,149 estates filed under the Bankruptcy Act and 255,600 estates filed under the new bankruptcy code.

Pending Estates

In spite of the dramatic increase in bankruptcy estates closed during 1981, the pending caseload increased to a record 617,896 estates in 1981. This was an increase of 46.9 percent over a year ago, slightly more than the 43.8 percent increase in the number of estates filed. The pending caseload is comprised of 97,938 estates filed under the Bankruptcy Act, and 519,958 estates filed under the new bankruptcy code. The figures below compare the bankruptcy estate workload during the twelve month periods ended June 30, 1980 and 1981.

Year Ended June 30	Filings	Term-nations	Pending
1980	360,957	198,540	420,582
1981	519,063	321,749	617,896
Percent Increase	43.8	62.1	46.9

Business Bankruptcies

Business bankruptcy estates increased from 45,857 in 1980 to 66,006 in 1981. Although this constitutes a numerical increase of 20,149 estates, the ratio of business bankruptcies to total estates has remained relatively stable. The number of business bankruptcies filed in 1981 represents 12.7 percent of the total filings, the same as reported last year. Table 11 shows the number of business and non-business estates filed and the percent each group bears to the total filings over the past ten years. Table 12 indicates filings by Chapter for the past ten years.

Table 11
Business and Non-Business Bankruptcies
During the Twelve Month Periods Ended
June 30, 1972 through 1981

Year Ended June 30	Total Filings	Non-Business	Percent of Total	Business	Percent of Total
1972	182,869	164,737	90.1	18,132	9.9
1973	173,197	155,707	89.9	17,490	10.1
1974	189,513	168,767	89.1	20,746	10.9
1975	254,484	224,354	88.2	30,130	11.8
1976	246,549	211,348	85.7	35,201	14.3
1977	214,399	182,210	85.0	32,189	15.0
1978	202,951	172,423	85.0	30,528	15.0
1979	226,476	196,976	87.0	29,500	13.0
1980	360,957[1]	314,856	87.2	45,857	12.7
1981	519,063[2]	452,145	87.1	66,006	12.7

1 Included in the total are 239 involuntary cases filed under the Bankruptcy Act and five Section 304 cases filed under the Bankruptcy Reform Act not included in the breakdown of non-business and business cases.

2 Included in the total are 911 reopened Bankruptcy Act cases and one Section 304 case filed under the Bankruptcy Reform Act not included in the breakdown of non-business and business cases.

	Code ...	518,152	381,174	8,752	128,225	1
	Total ...	519,063	381,996	8,785	128,281	1

Note: For purposes of uniformity, case filings in the years prior to October 1, 1979 are reported under the new Chapters provided by the Bankruptcy Reform Act, i.e., Chapters X, XI, and XII under the Act are shown in the aggregate under Chapter 11 of the Code.

Adversary Proceedings

Under the new bankruptcy code, adversary proceedings may arise out of any of the original bankruptcy cases filed. A total of 94,632 such proceedings were filed in 1981.

The filing of adversary proceedings has increased steadily since the bankruptcy code first went into effect on October 1, 1979. Stability has still not been achieved. The number of adversary proceedings filed by calendar quarter since the bankruptcy code went into effect on October 1, 1979 are:

Quarter Ended	Proceedings
12/31/79	3,086
3/31/80	12,966
6/30/80	15,900
9/30/80	19,635
12/31/80	22,261
3/31/81	24,802
6/30/81	27,934
Total	126,584

During the nine months when the bankruptcy code was in effect in 1980, there were 31,952 adversary proceedings filed. In a comparable period during statistical year 1981, there were 74,997 adversary proceedings filed, an increase of 43,045 proceedings, or 134.7 percent.

During the twelve month period ended June 30, 1981, there were 94,632 adversary proceedings filed and 58,753 proceedings terminated. The number of pending adversary proceedings increased from 20,948 to 56,827.

MAGISTRATES

During the twelve month period ended June 30, 1981, U.S. magistrates continued to provide increasing assistance to the district courts. The number of matters handled by magistrates increased from 283,217 last year to 312,944 this year, an increase of 10.5 percent, with the bulk of the increase occurring in the more time consuming "additional duties" under Title 28 Sections 636 (b) and (c). Table 13 reflects the changing volume and nature of services rendered by magistrates during the first full year of nationwide operation of the system, and during the last five years. The workload handled by U.S. magistrates is discussed in more detail later in this report.

PROBATION

During the twelve month period ended June 30, 1981, the number of persons received for supervision by the Federal Probation System decreased 5.8 percent from the previous year. Removals from supervision increased by 6.5 percent during the year to 36,550 (excluding transfers). The combination of persons received and removed resulted in a reduction of 8.4 percent in the number of persons under supervision on June 30. The 59,016 persons under supervision on June 30, 1981 was the lowest number since 1973.

Table 14
Federal Probation System
During the Twelve Month Periods Ended 1975 through 1981

Year	Persons Under Supervision[1] July 1	Received		Removed		Persons Under Supervision on June 30	Authorized Officers	Persons Supervised Per Officer[1]
		Total	Total Less Transfers	Total	Total Less Transfers			
1975	59,615	45,291	36,061	40,645	31,430	64,261	1,468	44
1976	64,261	44,620	35,102	44,635	35,086	64,246	1,543	42
1977	64,246	44,529	35,098	44,348	34,979	64,427	1,632	39
1978	65,960[2]	43,060	34,808	42,339	34,102	66,681	1,673	40

2 Revised

Table 15
Persons Received for Supervision
During the Twelve Month Periods Ended June 30, 1980 and 1981

Type of Supervision	1980		1981	
	Number	Percent	Number	Percent
Total Cases	31,410	100.0	29,575	100.0
Probation, District Court	12,189	38.8	11,886	40.2
Probation, U.S. Magistrate	4,589	14.6	5,423	18.3
Pretrial Diversion	2,015	6.4	2,014	6.8
Parole	7,652	24.4	6,452	21.8
Mandatory Release	2,671	8.5	1,939	6.6
Military Parole	226	0.7	340	1.1
Special Parole	2,068	6.6	1,521	5.1

The number of persons under supervision from district court probation dropped 8.4 percent, while U.S. magistrate probation supervision cases rose by 1.3 percent. The number of persons under supervision also dropped in the areas of pretrial diversion (-4.1 percent); parole (-6.4 percent); mandatory release (-28.1 percent); and special parole (-29.1 percent).

Table 16
Persons Under Supervision
During the Twelve Month Periods Ended June 30, 1980 and 1981

Type of Supervision	Under Supervision on June 30		Increase or Decrease	Percent Change
	1980	1981		
Total	64,450	59,016	-5,434	-8.4
Probation, District Courts	34,530	31,643	-2,887	-8.4
Probation, U.S. Magistrates	6,928	7,019	91	1.3
Pretrial Diversion	2,178	2,089	-89	-4.1
Parole	14,492	13,561	-931	-6.4
Mandatory Release	1,704	1,226	-478	-28.1
Military Parole	293	410	117	39.9
Special Parole	4,325	3,068	-1,257	-29.1

The probation system prepared 115,079 investigative reports in 1981, 3.0 percent more than in 1980. Presentence investigations ordered by the court represented 24,957 or 4.2 percent more than the previous year. Bail investigations showed the largest increase at 78 percent with collateral investigations rising nearly 10 percent.

A more detailed discussion of the workload of the Federal Probation System appears later in this report.

Table 17
Workload of Federal Probation Officers
During the Twelve Month Periods Ended June 30, 1975 through 1981

Year	Probation Officer Positions	Presentence Investigations	Officers Required For PSI	Officers Available for Supervision	Supervision Cases	Average Supervision Cases per Officer
1975	1,377	31,740	248	1,129	64,261	57
1976	1,452	32,193	252	1,200	64,246	54
1977	1,578	29,678	232	1,346	64,427	48
1978	1,604	27,278	213	1,391	66,681	48

Parole Revocation Hearing Reports	1,522	1,884
Bail	921	1,639
Collateral Bail	220	302

JUDICIAL ADMINISTRATION

DIVISION OF INFORMATION SYSTEMS

At the end of the reporting year, the Division was preparing to assume responsibility for certain equipment, personnel and operations related to Courtran operations from the Federal Judicial Center on October 1, 1981. Initially, the Center plans to transfer 19 computer operation positions, title to three computers and budget authority of $2,083,000. In fiscal year 1982, six additional programmers will be hired and trained on the Courtran systems in preparation for the second phase of the transfer when the Administrative Office will assume responsibility for the software of six operational Courtran systems. The six Courtran applications to be transferred during fiscal year 1983 are Criminal, Index, Speedy Trial Accounting and Reporting System (STARS), Central Violations Bureau (CVB), Appellate Information Management System (AIMS), and the Electronic Mail System.

Plans are also underway to achieve the following:

- Publish the second edition of the directory **Judges of the United States** on behalf of the Bicentennial Committee of the Judicial Conference.
- Plan a new computer center and system configuration for a "unified technology" concept in conjunction with the Federal Judicial Center; develop a five-year plan for all ADP activities.
- Obtain management approval of the Probation Information Management System (PIMS) User Requirements and proceed with Phase III to select the systems approach to be followed by the Federal Judicial Center in the design and development of the system.
- Begin development of a new Personnel Resources Services System for the Judiciary. The new system will automate and streamline many of the processes related to the authorization, assignment and payment of personnel within the Judiciary.
- After the initial replacement of the Inforex operations in November 1981, proceed to incorporate in the design of the criminal system the ability to handle multiple offenses as well as more complete probation processing.
- Under the assumption that it is feasible and that funds can be reprogrammed from contractual services to Administrative Office/U.S. Court operations, commence implementing the Automated Bankruptcy Noticing System in up to 20 courts.
- Evaluate the District Financial Management System to determine its effectiveness and possible implementation in other Federal courts.

The Division further reported that the following activities were completed during the year:

- The District Court Financial Management System was tested in the Eastern District of California during October and November 1980. The application programs were accepted as of December 5, 1980.
- A new computer system was installed in the spring of 1981 for more effective processing of payments authorized under the Criminal Justice Act.
- Information from the Judicial Survivors Annuity System (JSAS) was prepared and submitted for an actuarial study being conducted by the Martin E. Segal Company.

- The Case Inventory Report, which was being operated for the U.S. District Court in Catlettsburg, Kentucky using the teleprocessing services, was completed.

- Detailed reports were produced and sent to the court Equal Employment Opportunity (EEO) Coordinators to aid in verification of data to be used by the Administrative Office in the assimilation of EEO statistics.

- A system for capturing and reporting information on the word processing equipment in the courts was installed the end of February 1981, on the DEC-10 computer.

- The Automated Bankruptcy Noticing System was accepted and is operating in the New Jersey Bankruptcy Court utilizing the contract services of EPI, Inc. in Kansas City, Missouri.

The Division further reported on activities undertaken and still in progress as of June 30, 1981:

- The acquisition of peripheral equipment to take advantage of increased speed of the Magnuson computer is expected to be completed by September 30, 1981.

- Activities began in June 1981 to transfer systems from the Inforex mini-computer to the Magnuson computer. The transfer of systems and subsequent release of Inforex hardware is scheduled for November 1981.

- The PIMS User Requirements (Phase II.A.) is scheduled for completion the end of July 1981.

- Activities are under way to determine the feasibility of operating the Automated Bankruptcy Noticing System centrally at the Administrative Office.

- Production of automated A.O. 340 A-B-C-D series reports will be used to supplement the EEO segment of the Director's **Annual Report.**

- Seven additional Lexis terminals were installed during the year, bringing the total to 41 now in use by the Federal courts. The administration of the contract with Mead Data Central, Inc. was transferred to the Library Services Branch of the Administrative Services Division in January 1981.

STATISTICAL ANALYSIS AND REPORTS DIVISION

Federal Judicial Statistics is a Growth Industry

The acquisition of all of the court statistical data is made possible by some 2,000 judicial personnel who, as part of their duties, provide statistics for the management of the courts. It is their careful attention to this monumental task that provides the continuity and credibility of the Federal judicial statistics information system.

Increases in all statistical program areas demand better use of staff and equipment. This year the processing of bankruptcy forms increased by 77 percent over last year. Courts of appeals reports increased by 15 percent; civil reports increased by 11 percent. Criminal and probation reporting appeared to level off, only to increase toward the end of the year.

These increases created a need to improve the data acquisition techniques with emphasis on clearly designed forms and concise instructions, together with better use of computer technology. With the ever increasing requirement for reports, other methods of handling and storing statistical information will be investigated. Assuming that all programs required by statute or regulation will continue and that every effort has been made to use staff and equipment with full efficiency, methods such as optical scanner equipment or case sampling will be studied.

Publications

This Division continues to produce timely statistical reports for the Federal judiciary. **The Judicial Workload Statistics** reports (issued for each 12 month period ended September 30, December 31, and March 31) and five other reports were published during the year.

- The 1979 **Federal Offenders in U.S. District Courts.** This series was first published in 1964.

- **The Sixth Report on the Implementation of the Speedy Trial Act of 1974** covers the year ended June 30, 1980. The 1981 report on the Speedy Trial Act appears in the workload analysis part of this report.

- **Civil and Trials Statistical Tables** (featuring appendix tables excerpted from the **Annual Reports of the Director** for the ten year period — 1970 through 1979), continues a series containing ten years of data which began with tables for the courts of appeals.

- **Juror Utilization Statistics for U.S. District Courts** continues to show data on the service of petit and grand juries together with costs.

- **Management Statistics for U.S. Courts** provides a workload profile for each court of appeals and district court. In addition, a similar report was prepared for the Ninth Circuit Judicial Conference using the computer stored data, thereby reducing manual preparation. This breakthrough was accomplished in cooperation with the Division of Information Systems.

Data Collection

As well as meeting its publication schedule, the Division emphasized quality control of incoming statistics from the courts and internal review of data entry procedures. Instructions used by court personnel for reporting statistics were updated this year and, for the first time, county codes were collected on district court civil cases. For bankruptcies, this information has been collected for several years and will be collected from criminal cases starting next year. County codes will be extremely helpful in determining the source of litigation within a district.

The **Criminal Offense Citation Manual** was revised and will be augmented by statutory sentence information as an aid to the clerks of court and Probation Office staffs. A similar manual for civil litigation is almost completed. This will offer the courts a more flexible method of reporting the type of civil complaint.

Data Acquisition

This year the bankruptcy statistical reports were entered directly into the computer operated by the Division of Information Systems using cathode ray terminals. Other statistical programs including criminal, persons under supervision of the Federal Probation System, civil, trials, and appeals presently use stand alone mini-computer processors. These programs are being converted to the on-line data entry system.

Mini-computers, first introduced in 1974 as a replacement for card punch machines, have served the agency well. However, with increased workload and data collection requirements, the conversion is timely.

Training

As part of the training program, the Division cooperates with the Training and Education Division of the Federal Judicial Center in providing faculty. With the escalating cost of seminars, however, the technology of videocassettes has been explored. The first such presentation was prepared this year for the training of probation clerks who complete the statistical forms sent to the Administrative Office. In addition, a workbook was designed for the viewers to follow the program and as a permanent record of the training. Similar videotapes are planned for district court personnel responsible for filling out criminal and civil statistical reports.

New Report Program

On October 1, 1981, the Equal Access to Justice Act (Title II of P.L. 96-481, 94 Stat. 2325) will take effect. For reporting purposes, a special form and instructions have been prepared and reviewed by all of the clerks of district and appeals courts. The Act requires that the Administrative Office report annually on attorney fees and other expenses requested and awarded under provisions of the Act. The Act has a sunset date of October 1, 1984. However, all non-tort cases filed prior to that time will be subject to provisions of the Act. The first report under the Equal Access to Justice Act will be made by the Administrative Office in 1982.

ADMINISTRATIVE SERVICES

The report of the Administrative Services Division reflects a myriad of diverse activities. Planning was begun to implement H.R. 2645, a bill to authorize 42 additional judicial positions in the courts of appeals and district courts, should it be enacted.

As a result of the space utilization survey, the Judicial Conference, at its March 1981 session approved the closure of and release to the General Services Administration certain court facilities at 18 district court locations. This action should result in a savings of $168,364 in fiscal year 1981 and subsequent years.

Automation of the lawbook holdings of all courts of appeals has been completed. Although coding of the entire inventory of lawbooks in the judiciary will not be completed until 1983, benefits realized to date include automated subscription, renewal, and computer-printed inventories for the courts of appeals. Also, monthly computer generated reports listing all lawbook renewal orders are now being provided to court libraries and Federal public defenders.

In continuing the implementation of the forms management program, 59 new forms were designed, 185 were revised, 881 were reprinted, and 18 forms were cancelled. The cancellation of these forms resulted in a total savings of $34,618. New Central Violations Bureau (CVB) ticket and arrest warrant forms were developed in order to implement a new system for processing petty offense cases in the district courts through the CVB's.

As of April 1981, judicial space holdings totaled 10,193,866 square feet for which the annual rental bill was $86,249,816 under the General Services Administration's Fair Annual Rental Rate Appraisal System. This is in contrast to the Judiciary's April 1980 space holdings of 9,679,639 square feet for which the annual rent was $78,556,386. There are 35 circuit courtrooms, 738 district courtrooms, (of which 15 district facilities are limited to non-jury use), 237 bankruptcy courtrooms, and 212 magistrate courtrooms.

As of June 30, 1981, a new building containing court facilities was under construction at Miami, Florida, and new buildings have been approved for East St. Louis, Illinois; Madison, Wisconsin; San Jose, California; Springfield, Massachusetts; and Ashland, Kentucky. The Birmingham, Alabama new building prospectus has been approved by the House Committee on Public Works and Transportation and is awaiting Senate action.

PERSONNEL

Within the Administrative Office itself, development of new personnel programs, as mandated by the Civil Service Reform Act (CSRA) for employees of the Administrative Office continued last year. The revised performance appraisal system entered the final developmental stage with training sessions for all employees and development of the required performance standards. Implementation will be completed by October, 1981 as required. Revision of other personnel policies and plans, such as Merit Promotion and Incentive Awards, as required by CSRA, has continued with completion expected early in FY 1982. Work is also nearing completion on a career planning guide designed to aid employees of the Administrative Office in setting career goals.

Major projects completed by the Court Branch included a revision of the district court clerk's portion of the Judiciary Salary Plan; automation of information regarding judges; and automation of EEO statistical data. Continuing projects include revision of all other portions of the Judiciary Salary Plan; updating of standard personnel forms; planned automation of the personnel system; and writing the personnel chapter of the **Guide to Judiciary Policies and Procedures.** The life insurance open season actions were processed with a minimum of disruption to normal services.

Judicial Survivor's Annuities Fund

Of the 152 judgeships established by the Omnibus Judgeship Act (P.L. 95-486), a total of 140 appointments have been made and approximately 68 percent of the judges appointed have elected to participate in the Judicial Survivor's Annuities System (JSAS).

Public Law 96-504, enacted September 5, 1980, increased annuities of widows of Supreme Court Justices who died prior to the establishment of the JSAS. The increase was from $10,000 to $20,000, and brought these widows under the System for future cost-of-living increases.

The number of Judicial officials on the roll rose from 814 to 838. Participation in the JSAS increased from 667 to 683 during the year. The number of annuitants decreased by 2, while the number of children receiving an annuity increased by 2.

Table 19
Personnel in the Federal Judiciary
During the Twelve Month Periods Ended June 30, 1980 and 1981

Personnel	1980	1981
Total Personnel	14,011	14,259

Court Interpreters Program

Since July 1, 1980, the Court Interpreters Program has finished two complete cycles of certification testing for Spanish/English interpreters. During the twelve month period ended June 30, 1981, the Administrative Office received 2,059 applications. There were 1,601 persons who actually took the written portion in November, 1980 with 582 passing. Beginning in March, 1981, oral tests were given to the 484 candidates who attended the oral portion of the test, including approximately 80 persons who took the oral portion for the second time. An additional 75 persons were certified, bringing the total number of certified English/Spanish interpreters to 196.

Interpreters were used for 34 languages in federal courts. A review of the use of interpreters shows the following statistics in terms of docketable events in the courts for calendar year 1980.

As Reported By District Courts		As Reported By District Courts	
Language	Number of Times Used	Language	Number of Times Used
Spanish	23,394	Papago	9
Haitian	223	Hebrew	9
Farsi	163	Cambodian	7
Navajo	117	Vietnamese	7
Arabic	96	Japanese	5
Chamorro	94	Turkish	4
French	63	Polish	3
Thai	63	Lebanese	3
Italian	45	Filipino	2
Portuguese	27	Hungarian	2
Pima	20	Togalog	2
Korean	19	Serbian	1
German	19	Sioux	1
Chinese (all dialects)	17	Russian	1
Hindu	13		
Croatian	13	As Reported By Bankruptcy Courts	
Sign (For Deaf)	12		
Apache	11	Spanish	313
Carolinian	10	Sign (For Deaf)	5
Slavic	10	German	1

The relevancy of the test was challenged in the Southern District of New York by two interpreters who failed the test. The test and the certification process were upheld by the Court.

Two languages that cause problems in specific geographic areas are: Navajo in New Mexico and Arizona, and Haitian Creole in Miami. If funds are available, development of certification tests for one of these languages will begin in the fall of 1981.

CLERKS OF COURT

On behalf of the clerks of court, the Clerks Division continued to serve as a liaison and focal point on many areas affecting court administration during 1981. The Division worked closely with the Personnel Division in drafting new landmark functions for the Judiciary Salary Plan, evaluating the administrative impact of the proposed job classification plan for clerks of district and bankruptcy courts and chief probation officers on compensation, and classifying unique positions such as supply/warehousemen or consolidated Central Violations Bureau coordinators. In addition, projects on work measurement, word processing usage, service of civil process, amending and evaluating aspects of the miscellaneous fee schedules, and staffing the magistrates' clerical functions have all been coordinated with Administrative Office officials and representative committees of the clerks of court. Areas worthy of specific mention are detailed in the following pages.

Local Rules

The Clerks Division frequently receives inquiries from clerks, judges, and attorneys concerning local rule requirements in other courts. Formerly, each inquiry necessitated a survey of all local rules on file with the Division. This year the Clerks Division created a local rules index in which rules are categorized by subject matter, greatly facilitating a speedy and comprehensive response, as well as analyses of rules common to many courts or particularly effective ones. The index has been used to handle questions relating to non-filing of discovery materials, recusal and reassignment of judges, admission of non-resident attorneys, dismissal for lack of prosecution, security for sensitive exhibits, and service of process and taxation of costs.

Case Management

In February 1980, the General Accounting Office (GAO) published its report, **Better Management Can Ease Federal Civil Case Backlog.** GAO found that the severity of a backlog problem was directly related to the efficiency of case management, and recommended greater delegation of responsibility for movement of cases to clerks of court. As a consequence of this report, the Clerks Division requested all clerks to complete a questionnaire describing their court's case management practices. These responses are now being analyzed in conjunction with a review of Management Review Division reports and local rules. A summary of findings and a compendium of case management practices will be made available to clerks of court, and will also be submitted to the Subcommittee on Judicial Improvements.

Prisoner Litigation

The Clerks Division is responsible for administering the district research assistance program. During statistical year 1981, the Division provided staff support to the newly-created Ad Hoc Committee on Prisoner Litigation (a subcommittee of the Judicial Conference Committee on Court Administration). In conjunction with a review of prisoner litigation procedures, the Division reviewed the district research assistant pilot program, developed standards for its administration, and presented a status report with recommendations to the Supporting Personnel Subcommittee of the Judicial Conference. In September 1980, the Clerks Division organized a meeting on prisoner litigation for all district research assistants, which was also attended by several judicial officers.

Taxation of Costs

Through the joint efforts of the clerks of court and the Clerks Division, strides continue to be made in the development of uniform procedures. One area in need of some model guidelines is taxation of costs. The clerks completed questionnaires on taxation of costs and provided local rules and descriptions of local procedures. The division then compiled this information to be used as a reference guide and made it available to all clerks to assist them in taxing costs. One area of continuing need is the development of a compendium of current applicable case law.

Central Violations Bureaus

Automation of court procedures continues to be important to the clerks in terms of saving clerical effort, expediting processing of cases and providing information necessary for case management purposes. Central Violations Bureaus (CVB) coordinate the processing of all petty offense cases in the districts. Through the past year, the Clerks Division has assisted in the development of a consolidated CVB program which, when fully operational, will eventually

concentrate CVB operations for all interested districts into eight different court locations having automated systems. At the time of this report, six different court locations have automated CVB systems. This Division will continue to assist the Federal Judicial Center and the clerks in the development of these automated systems.

Courtroom Deputy Travel

Due to the severe shortage of funds this fiscal year, significant effort has been expended in reduction of travel by courtroom deputies. The Clerks Division provided liaison and coordinated efforts to insure that the receiving court provided courtroom deputy services to the visiting judge wherever possible. Efforts to reduce available travel costs have insured the availability of funds for vital travel needs.

Staffing (Work Measurement)

The Clerks Division continues to review and refine the staffing formula used to allocate positions to the district courts. In this regard, new equivalents have been developed for workload added to clerks' offices in the areas of administrative services, particularly the procurement of furniture and furnishings, and personnel management. The Division has also worked with a committee of clerks to identify categories of work used in the work measurement survey of district court clerks offices now in progress. The Clerks Division will continue to provide guidance for this study and to assist the work measurement analysts in the identification of common or unique workload factors, and to determine which of these factors should be included in an overall staffing standard.

PROBATION

Drug Aftercare

Implemented in October 1979, the Drug Aftercare Program is now nearing completion of its second year of operation. For the current fiscal year, over $3,000,000 has been awarded to 200 treatment contractors to provide services for over 2,500 drug dependent Federal offenders. In addition, nearly 2,000 drug dependent Federal offenders have received treatment from U.S. probation staff members or from local treatment programs at no additional cost to the government. Funds of over $400,000 have been obligated to provide urinalysis services for all probation offices and treatment contractors.

Congress has been asked to appropriate $3,750,000 for fiscal year 1982. The Probation Division has committed nearly $3,000,000 to the districts for treatment contracts for the forthcoming fiscal year. The balance of funds will be used for urinalysis services, an evaluation of the drug aftercare program by the Federal Judicial Center, and a reserve fund for the treatment contracts.

Legislation has been introduced in the House of Representatives (H.R. 3963) to amend the Contract Services for Drug Dependent Federal Offenders Act of 1978, extending the periods for which funds are authorized to be appropriated for drug aftercare purposes beyond the close of fiscal year 1982.

As in past years, the performance of the probation system has been exemplary. Chief probation officers and their drug specialists have closely monitored their contracts and managed the provision of services and the expenditures of funds with few problems. Close monitoring by the Probation Division has quickly identified problems in the urinalysis program. The Division, along with the Office of General Counsel, and the agency's contracting officer, has taken steps to correct those problems identified.

Pretrial Services

Title II of the Speedy Trial Act of 1974 authorized the Director of the Administrative Office to establish a pretrial services agency, on a demonstration basis, in ten judicial districts to assist in the reduction of crime by persons released to the community pending trial and to reduce the volume of unnecessary pretrial detention. Five of the agencies have been administered by the Division of Probation and five by boards of trustees appointed by the chief judges of the district courts. The agencies make prebail investigations for U.S. judicial officers and maintain supervision over and provide supportive services to defendants released pending trial.

The Director's comprehensive report concerning the pretrial services program was submitted to Congress on June 19, 1979, with recommendations that the program be made permanent in the demonstration districts, that it be expanded to other districts on the basis of demonstrated need, and that funds be authorized to maintain the program in the ten demonstration districts until final congressional action occurs. Legislation to continue and expand the pretrial services agencies was introduced in both Houses of the Congress in 1980 and passed the Senate, but did not pass the House. The legislation has been reintroduced in the 97th Congress, has passed the Senate again, and as of June 30, 1981, is awaiting consideration on the floor of the House. The ten demonstration programs have continued to operate through yearly authorizations and appropriations. The field offices are reducing staff through attrition where possible and the Pretrial Services Branch is operating with two vacancies pending the outcome of the legislation to continue and expand the program.

During the year, one of the pretrial services specialists served on the Federal Judicial Center Faculty and the Administrative Office Task Force which was charged with teaching Equal Employment Opportunity procedures throughout the Federal judiciary.

In the past year, the Pretrial Services Branch has provided statistical information regarding detention, crime on bail, and failure to appear to the Chief Justice, Senators, Representatives, and other governmental agencies interested in criminal justice. At the request of the House Judiciary Subcommittee on Crime, the Branch recently completed a statistical analysis of the fugitive problem in drug cases in the Southern District of Florida. The results of this study have been provided to the House Select Committee on Narcotics Abuse and Control.

The pretrial services data were further used to develop information regarding the use of drugs by defendants entering the Federal criminal system. This information assisted the Probation Division in preparing testimony presented to the House Judiciary Subcommittee on Crime regarding the continuation of the drug aftercare program.

Case Classification and Supervision Planning System

Chapter II of Publication 106, the **Supervision Monograph**, has been distributed to all probation officers. It incorporates a system of classification based on two prediction devices, one for probation cases and one for those on parole. There is also a new supervision contract rate.

National Alliance of Business Ex-Offender Employment Project

The probation system is involved in the National Alliance of Business Ex-Offender Employment Project. This is directed by a probation officer from the Northern District of California detailed as a loaned executive to the headquarters office of NAB in Washington. The program is designed to develop, implement, and evaluate a model delivery system for employment assistance to ex-offenders. It will be developed in three communities of different

sizes and structures. At the present time the leading areas for selection include Philadelphia, Pennsylvania; Portland, Oregon; Wilmington, Delaware; and Vermont.

Chief Probation Officers Management Council

As a result of recommendations made at the December 1978 national chiefs seminar, the Chief Probation Officers Management Council was formed. A chief probation officer selected by his peers from each of the five regions meets with Division staff to review proposed policy matters, advise the Division on field concerns, and assist in implementing policy in the districts. This has improved communications between the probation offices and the Probation Division.

Probation Information Management System (PIMS)

During the year much of the second phase of this project, that of developing a statement of PIMS User Information Requirements, was completed. Representatives of eight districts worked with the Probation Division, Division of Information Systems, and the Federal Judicial Center's Innovations and Systems Development Division. Input forms and output reports were designed along with a statement of privacy and security guidelines, and a data element dictionary. Subsequent phases will be feasibility study, software development, pilot testing, and, finally, expansion of PIMS to additional probation offices.

UNITED STATES MAGISTRATES

U.S. magistrates continued to provide considerable assistance in processing the caseloads of the district courts. The on-going development of the federal magistrates system and its importance in the district courts is reflected in the numbers and types of magistrate positions authorized by the Judicial Conference. As Table 23 indicates, the magistrates system is continuing to evolve toward a system of full time judicial officers as envisioned by the Congress.

The Federal Magistrate Act of 1979 has mandated new procedures for the selection of magistrates which were implemented by Judicial Conference regulations promulgated in March 1980. During the twelve month period ended June 30, 1981, there were 18 new full time magistrates appointed, while seven full time magistrates were reappointed to new terms of office. During the same period, 11 individuals were appointed to part time magistrate positions and 36 part time reappointments were made. Clerks of court and bankruptcy judges may also be authorized to serve as part time magistrates. During the past year, there were four renewals of prior designations under that authority.

Among the new appointments made during the year, the average age of the full time appointees was 56, and that of the new part time magistrates was 39. New full time magistrates had been admitted to the bar for an average of 14 years, and new part time magistrates for an average of 12 years. Twelve of the new full time magistrates came to the bench from private practice, and six were serving with the court or in other agencies of the Federal government when appointed.

The 1979 legislation called for a study of the magistrates system and the submission of a comprehensive report to the Congress by January 1982 on the implementation of that law and the most desirable future directions for the magistrates system. Work on that study has progressed throughout the year. The chief judge of each district court and all full time magistrates were polled as to their experience with and views on the revised jurisdictional provisions and selection procedures. Statistical data reflecting the increased duties of magistrates and additional background information are being compiled as part of the study. In addition, the results of a study conducted separately by the Federal Bar Association and the

views of the National Council of United States Magistrates as to the success of the magistrates system to date and its future directions are also being reviewed.

The administrative implementation of the 1979 legislation continued throughout the year, with the following projects accomplished:

- Distribution of a pamphlet describing the background of the magistrates system and the selection process for use by the courts and members of the new selection panels;
- Completion of revised forms for reporting the duties performed by magistrates;
- Allocation of the first 120 legal assistants for magistrates, authorized by the Judicial Conference subject to congressional appropriation of the necessary funds;
- Development of interim guidelines for the automated handling of violation notices which will conserve the amount of time which magistrates must devote to such cases; and
- Revision of forms for the defendant's consent in misdemeanor cases to conform with the requirements of the new statute and misdemeanor rules.

BANKRUPTCY

On June 30, 1981, the Bankruptcy Reform Act (P.L. 95-598), hereinafter referred to as the Bankruptcy Code, had been in effect for 21 months. Starting with the effective date of the Bankruptcy Code, an unprecedented rise in bankruptcy filings began. The number of bankruptcy estates rose from 226,476 in statistical year 1979 (under the former Bankruptcy Act) to 360,957 in statistical year 1980. In 1981, the number of bankruptcy estates filed will exceed half a million and no downward trend is yet in sight. This dramatic and unanticipated increase in bankruptcy estate filings created severe staffing, equipment, space, and budgetary problems in many of the bankruptcy offices. Much of the time of the staff of the Bankruptcy Division during the past year has been spent in attempting to resolve or ease these problems. During the past year, the Bankruptcy Division requested and received from Congress two separate supplemental fund appropriations of $1.2 and $2 million. The receipt of these additional monies was essential to avoid a deficit in postage for bankruptcy purposes and to permit the furnishing of additional temporary clerical help in bankruptcy offices which were substantially understaffed. More than 600 additional clerical employees, fully justified under work measurement standards scientifically developed by the Work Measurement Section of the Administrative Services Division, has been requested in the 1982 fiscal year appropriation.

The activities of the Bankruptcy Division during the year ended June 30, 1981, have been primarily devoted to the administrative matters generated from the Bankruptcy Code.

Transition to a New Court System

The Bankruptcy Reform Act has created a new federal court system with greatly expanded jurisdiction compared to that exercised by former referees and bankruptcy judges. The administrative tasks associated with the genesis of the new court during the past year have included:

- transition from separate offices to centralized bankruptcy courts for each judicial district;
- creation of the office of the Clerk of the bankruptcy court;
- establishment of a completely revised statistical reporting system in order to properly capture and report all aspects of the courts' activities and jurisdiction;
- computerization of notices and claims; and
- technical assistance.

Centralized Bankruptcy Courts

The transition from as many as five separately operated bankruptcy offices within a judicial district into a centralized court for each judicial district has created many organizational, as well as housekeeping difficulties. Among the problems the courts face are acquisition of sufficient space and facilities. Acquisition has moved very slowly. Guidelines for space to be authorized for bankruptcy judges' and clerks' offices were approved by the Judicial Conference at its March 1981 session and are now included in Chapter 9 of the **Space Design Guide.**

Also, budget limitations and increased demand have resulted in delays for needed office equipment, particularly copying machines and word processors.

Creation of the Office of the Clerk of the Bankruptcy Court

The clerk's offices in each of the 92 judicial bankruptcy districts vary a great deal in caseload size and staffing need. Work measurement personnel within the Administrative Office have recently developed a staffing formula for bankruptcy clerks' offices based on the time necessary to perform certain tasks and meet responsibilities. This formula has been tentatively accepted by the Bankruptcy Division subject to review following re-evaluation of weights assigned to certain areas of responsibility not fully developed in the original work measurement effort. Implementation of the formula in each clerk's office within existing resources is an on-going activity of the Division.

Establishing proper grades for clerks of the bankruptcy courts has not been fully resolved. The initial findings of a private consulting firm ostensibly basing grades on responsibilities of the bankruptcy court clerk are being re-evaluated. In the interim, it has been determined that the previously established formula will not be modified.

Revisions in Statistical Reporting

In order to properly capture and analyze bankruptcy workload data, a new statistical reporting system for bankruptcy courts has been developed and implemented. In addition to capturing caseload information (filings, terminations, pending cases, etc.), the new system now gathers information on the volume and nature of adversary proceedings commenced in the courts. Additionally, information is now being collected on judicial activity.

Computerization of Notices and Claims

With bankruptcy estate filings exceeding an annual rate of 500,000, notices and claims can number in the tens of millions. The Bankruptcy Division, in coordination with the Division of Information Systems, has continued the development of a program for the computerization of the noticing and claims process. A software package was designed and an extended operational test monitored throughout the year in three court locations in the District of New Jersey. Funds have been provided by Congress to extend the program, but the Administrative Office is deferring implementation pending consideration of the Administrative Office's in-house capabilities to use government equipment (computers and mailing facilities) to accomplish the same results more economically.

Technical Assistance

The legal staff of the Division continues to devote a substantial amount of its time in advising and answering inquiries received from bankruptcy judges, law clerks, clerks of court, and deputy clerks in all phases of court operations.

Survey of Bankruptcy Judges

The Bankruptcy Reform Act provides that the Director will conduct studies and make recommendations regarding the number of bankruptcy judges needed and the locations of places of holding court, when the new system becomes fully operational on April 1, 1984.

These recommendations will be based on an analysis of bankruptcy court workload. The studies leading up to the Director's report will include the development and application of case weights for bankruptcy judges. The Bankruptcy Division has worked with the Federal Judical Center in developing this aspect of the study. Approximately 100 bankruptcy judges have agreed to participate and have partially completed a 12 week study of their activities. Once

all time study data are received, it will be coordinated with data received by the Administrative Office as part of its statistical reporting system. Preparations are being made to supplement these data with personal visits to most judicial districts. These visits will be conducted by the staff of the Bankruptcy Division.

The recommendations to be made by the Director will be completed by June 30, 1982, in order to allow time for comment and consideration by the Judicial Conference before it is forwarded to the Congress and the President in January 1983.

Panels of Private Trustees

Pursuant to the Bankruptcy Reform Act, the Director has the responsibility to appoint and maintain panels of qualified private trustees to serve in Chapter 7 liquidation cases in the 74 judicial districts that are not part of the U.S. Trustee program. There are approximately 1,200 panel trustees who are currently serving on panels created by the Director. Maintaining these panels (through additions and removals) is a continuing function of the Bankruptcy Division. The Division has recently expressed its support for an amendatory bill which will provide increased compensation for the panel trustee. Almost two-thirds of resignations from the panels are due to lack of adequate compensation.

Advisory Committee Activities

The Bankruptcy Division actively participates with two advisory committees on matters related to the new bankruptcy court and the transition to the new system. The first of these is a statutory committee of seven bankruptcy judges. The second is a committee of bankruptcy court clerks. Each of these committees provides the Division with its considered views on various matters of mutual interest and importance. These committees have been extremely helpful in the development of policy for the guidance of the system.

CRIMINAL JUSTICE ACT

Assigned Counsel - Defender Program

As of June 30, 1981, the Administrative Office has recorded 43,500 appointments of counsel under the Criminal Justice Act (CJA) for the statistical year 1981. Of this number, 22,900 persons, or 53 percent, were represented by attorneys in the 39 Federal Defender Organizations throughout the country and 20,600 persons, or 47 percent, by private panel attorneys.

Newly Established Defender Offices

Expansion of the Defender System continued with the creation of two branch offices. The Federal Defender for the District of Oregon established a branch office at Eugene, and the Federal Defender for the Western District of Missouri set up a temporary branch office in Fort Smith, Arkansas. The Fort Smith office was created to meet the increased and immediate need for Criminal Justice Act representation resulting from the large number of Cuban refugees located at Fort Chaffee, Arkansas, awaiting resettlement.

In addition, the Federal Defender for the Central and Southern Districts of Illinois was authorized to provide representation pursuant to the Criminal Justice Act in the Eastern District of Missouri. Because of the geographic proximity of the headquarters of the Federal Defender for the Central and Southern Districts of Illinois to the Eastern District of Missouri, this added responsibility will be accomplished without a branch office.

Prisoner Transfer Program

The CJA Division has continued to provide liaison and coordination in connection with the transfer of prisoners between the U.S. and foreign countries pursuant to Prisoner Transfer Treaties with Canada, Bolivia, Mexico, Peru, Panama, and Turkey.

Since the commencement of the transfer program, representation has been provided to a total of 973 prisoners, 624 of whom were U.S. citizens being returned to this country.

A proposed Prisoner Transfer Treaty with Thailand has been initialled and is awaiting signature and ratification. The 21-member "Council of Europe" is expected to complete a final draft of a multi-lateral Prisoner Transfer Treaty during the summer of 1981. Although not a member of the "Council," the U.S. will be permitted to accede to the resulting multi-lateral pact. There are presently approximately 600 U.S. citizens being held as prisoners in five "Council of Europe" countries.

JUDICIAL APPROPRIATIONS AND EXPENDITURES

FISCAL YEAR 1981

For the first time since the passage of the Congressional Budget and Impoundment Control Act of 1974, an appropriation bill for the Judiciary was not enacted before the fiscal year began. The Judiciary has been operating with funds provided by two joint resolutions. The first joint resolution (P.L. 96-369), approved October 1, 1980, provided new budget authority in the amount of $157,452,000, exclusive of the Supreme Court, to operate until December 15, 1980. This amount represents approximately 21 percent of the budget authority as adjusted for seasonal variations of individual appropriations, inflation, and termination costs. The continuing resolution also provided for continuing the operations of the ten Pretrial Services Agencies under the appropriations "Salaries of Supporting Personnel," "Travel and Miscellaneous Expenses," and "Space and Facilites." Heretofore, funds for this program were provided under the appropriation "Pretrial Services Agencies." The second joint resolution (P.L. 96-536), approved December 16, 1980, made funding available for the Judiciary as provided by H.R. 7584 which was approved by Congress but not signed by the President. This action gave the Judiciary new budget authority in the amount of $461,022,000 for the remainder of the fiscal year ending September 30, 1981. In addition, the Congress approved an amendment of $1,200,000 to be transferred from the appropriation "Speedy Trial Planning" to the appropriation "Bankruptcy Courts, Salaries and Expenses." The additional funds were requested in light of the rapidly rising caseload in the bankruptcy courts.

The Congress, in the Supplemental Appropriations and Rescission Act, 1981 (P.L. 97-12), approved an additional $14,116,000 and transferred $14,500,000 from the "Space and Facilities" appropriation for increased pay costs ($26,000,000), for the "Bankruptcy Courts, Salaries and Expenses" ($2,000,000), and for the "Judicial Survivors' Annuity Program" ($616,000). The supplemental of $2,000,000 for the Bankruptcy Courts was requested for temporary personnel, postage and rental of copiers. The amount approved for the "Judicial Survivors' Annuity Program" was necessary to cover the actuarial deficiency in the "Judicial Survivors' Annuities Fund" resulting from passage of P.L. 96-504, approved December 5, 1980. This law provided that surviving spouses of any Justice of the Supreme Court who died before October 19, 1976, shall be paid an annuity at a rate of $20,000 per year from the Judicial Survivors' Annuity Fund. These funds which were transferred from the "Space and Facilities" appropriation were available as a result of savings from delays in construction and acquisition of new facilities for circuit and district judges as well as bankruptcy judges.

As displayed in Table 24, the total budget authority for fiscal year 1981, taking into account the supplemental appropriations, is $633,790,000. The Judicial Dollar graph reflects the cost of various programs and activities in the Judiciary.

1 Includes $1,200,000 transferred from the appropriation "Speedy Trial Planning" as authorized by P.L. 96-536.
2 Transferred from the appropriation "Space and Facilities" as authorized by P.L. 96-536.

FISCAL YEAR 1982

The budget estimates submitted to the Congress for fiscal year 1982 (excluding the Supreme Court) were in the amount of $728,941,000. The House Subcommittee on Appropriations approved $703,300,000. This is $25,641,000 less than the amount requested, but $69,510,000 over the amount appropriated for 1981.

Salaries of Judges

The Committee approved all but $160,000 of the $60,160,000 requested by the Judiciary for this appropriation for fiscal year 1982. In addition, the Committee deleted from the text of the appropriation language reference to the payment of annuities of widows of Justices of the Supreme Court of the U.S. Public Law 96-504 provided for the payment of annuities to the surviving spouses of Justices who died before October 19, 1976, from the Judicial Survivors' Annuities Fund.

Total	$ 633,790	$ 728,941	$ 703,300	$ 69,510	$ -25,641

1 Includes pay costs and program amendment.
2 The appropriation "Salaries and Expenses of Magistrates" ($31,200,000) has been consolidated into the following appropriations: "Salaries of Supporting Personnel" ($25,800,000) and "Expenses of Operation and Maintenance of the Courts" ($5,400,000).

Salaries of Supporting Personnel

The House approved the additional positions required incident to passage of the Fifth Circuit Reorganization Act of 1980, (P.L. 96-452). In addition, the Committee approved five staff positions for the offices of the circuit executives of the courts of appeals; 46 deputy clerk positions for the courts of appeals; 16 attorneys and secretaries for central legal staffs, supporting personnel for senior judges; and 18 of the 36 positions requested for satellite libraries to improve the Federal Court Library System.

The Committee did not approve the nine positions associated with the expansion of the reorganization of the Ninth Circuit Court of Appeals; the 17 positions requested incident to passage of the Judicial Councils Reform and Judicial Conduct and Disability Act; and the 14 positions to expand the court interpreters program. The request for 134 additional deputy clerks for the U.S. district courts was denied pending the result of the work measurement study that is currently being conducted. The Committee denied the funds for the reclassification of probation officers, financial deputies, and jury clerks for economy reasons, suggesting that the request may be reconsidered at some future date.

Defender Services

The Committee reduced the budget authority requested for the operation of defender organizations and the compensation of court-appointed attorneys from $27,320,000 to $26,500,000. This reduction was based on a continued decline in criminal filings. This appropriation is uncontrollable, and if the funds provided prove to be insufficient, a supplemental appropriation request may be necessary.

Fees of Jurors and Commissioners

An increase of nine million dollars over the current appropriation was approved by the Committee to cover the current level of juror activity, the increase in the cost of parking, meals and lodging furnished sequestered jurors, and an anticipated increase in the use of petit jurors. The Committee reduced the Judiciary's request by $1,950,000 to $45 million. Citing a GAO study, the Committee felt that savings should occur through improved juror utilization, thereby reducing the amount paid for unused jurors.

Expenses of Operations and Maintenance of the Courts

The House approved the change in title of this appropriation from "Travel and Miscellaneous Expenses." The sum of $56,400,000 was approved for the expenses of judges, magistrates, and supporting personnel. The allowance is consistent with the denial of certain positions under the heading "Salaries of Supporting Personnel."

Salaries and Expenses of Magistrates

The House recommended the consolidation of this account with "Salaries of Supporting Personnel" and "Expenses of Operation and Maintenance of the Courts." The Committee indicated that since magistrates were judicial officers of the district courts, there was no reason to maintain a separate account. The Committee approved $31,200,000, which represents a reduction of $167,000 from the amount requested. The Committee approved 13 new full time magistrate positions, their supporting staffs, 125 legal assistants for magistrates, and a salary increase for the magistrates. The Committee denied an additional six legal assistant positions that were included as support for six of the new magistrate positions requested. Of the $31.2 million approved by the Committee, $25.8 million was transferred to "Salaries of Supporting Personnel" and the remaining $5.4 million to "Expenses of Operation and Maintenance of the Courts."

Bankruptcy Courts, Salaries and Expenses

The House approved $82 million, which represents an increase of $12,506,000 over the amount appropriated in 1981, but $3,070,000 less than the amount requested. Of the 583 full time permanent positions requested, the Committee approved 333 full time permanent deputy clerks and provided funding for up to 250 additional temporary deputy clerk positions. The Committee felt that if the workload in the court eventually declined, it would be more efficient and economical to provide temporary positions. The Committee also approved 51 additional deputy clerk (estate administration) positions, funding for additional word processing equipment, and funds to cover the cost of increased usage of postage and printing. Funds were denied to expand the number of pilot districts taking part in the computerization of bankruptcy notices and claims.

Space and Facilities

The Committee approved $124 million, which represents an increase of $18.5 million above the amount appropriated in fiscal year 1981, but $11,280,000 less than the amount requested. The Committee felt that funding should be adequate based on the continued delays experienced with the General Services Administration in obtaining space for the new judges and the bankruptcy courts.

Services for Drug Dependent Offenders

The Committee approved $3,750,000, the full amount requested, to enable the Federal Probation Service to provide special supervision and services to drug dependent offenders. The Drug Dependent Federal Offenders Act transferred this function in fiscal year 1980 from the Federal Prison System in the Department of Justice to the Federal Judiciary.

ENHANCEMENTS TO THE FINANCIAL MANAGEMENT SYSTEM

In a continuing effort to improve response time and quality of service to the field, a series of system and procedural changes have been implemented in the financial area.

New Criminal Justice Act Voucher Processing System

As a result of several major breakdowns and a generally deteriorating condition of the mini-computer, the processing of vouchers submitted for payment last year under the Criminal Justice Act suffered frequent and serious delays and it became obvious that the mini-computer, which was acquired in 1974, had to be replaced. During the summer of 1980, the Administrative Office began development of a new CJA voucher processing system. Following its installation on February 15, 1981 until the end of June, the Financial Management Division paid over 13,500 CJA vouchers, an average of over 700 payments a week and well in excess of the 525 vouchers received every week. As a result, a backlog of 3,900 vouchers in February dropped to less than 800 vouchers in June, a backlog which can be audited and processed for payment in seven to ten working days. After more than four months of experience with the new system, it is expected that the Financial Management Division can maintain its target of auditing and paying or taking corrective action on all CJA vouchers within ten working days of their receipt.

Microfiching Payroll Records

During this past year, the Payroll Section installed a procedure to microfiche all retained records. Such records are used for reference and research purposes by payroll auditors and clerks who receive frequent inquiries. With an annual payroll of 360,000 pay checks, the computer records became extremely voluminous, filling over 450 linear feet of shelving. One report, the History file, totaled 80 volumes of binders, each six inches thick at the time of the last quarterly printing last year. After microfiching, these records have been reduced to three books containing approximately 550 fiche with 268 pages of payroll records on each fiche. This reduction in size and volume of pages has greatly facilitated handling of payroll records by the payroll personnel when responding to telephone inquiries.

Travel Regulations for Justices and Judges

On September 25, 1980, the Judicial Conference of the U.S. adopted travel regulations for U.S. justices and judges. This was the first major revision of the travel regulations by the Financial Management Division since October 1970 when they were published in the guide to Administrative Organization of the U.S. Courts. The new regulations reflect several changes, particularly their publication in a handy booklet form, in addition to being included in the binders containing the **Guide to Judiciary Policies and Procedures.** The regulations also clarified and expanded upon the authorities and restrictions governing the travel of justices and judges, and included all applicable revisions and amendments issued subsequent to the printing of the previous travel regulations.

Payroll Audit

The first comprehensive audit of the new Uniform Payroll System, which was implemented in January 1980, was performed during an eight-week period by a team of persons drawn from the Office of Accounting Systems and Planning, the Accounting Branch, and the Audit Branch of the Financial Management Division. The integrity of the system was confirmed by comparing the information recorded in the Payroll Master Records to that contained in the Official Personnel Files of approximately 14,000 full time, part time, temporary, and intermittent employees. Among the data elements validated were grade, step, salary, retirement status, appropriation from which paid, and certain withholdings and government contributions such as civil service retirement, social security, life insurance, and health insurance. Follow-up action on approximately 250 discrepancies is being undertaken by both Personnel and Financial Management Divisions. The payroll audit which will be placed on a permanent basis, greatly reduces the possibility of mistaken payments being made for long periods, thus protecting employees from having to make large refunds.

Improvements in the Bankruptcy Trustee Payment System

The automated bankruptcy trustee payment system was up-graded to allow for on-line computer processing of trustee checks by the Administrative Office. Batch processing of such payments through the U.S. Treasury was discontinued. As a result, checks are printed and mailed on a daily basis, instead of bi-weekly. Enhancements were made to the system to provide the bankruptcy courts with a report showing the activity in their account for their use in reconciliation. The system also maintains balances for each trustee paid by the system so that information returns (IRS 1099) could be prepared.

REGISTRY FUNDS

There is a total of $352,548,887 in the registry fund accounts of the U.S. courts. Of this amount $326,977,050 is in the custody of the district courts and $25,571,837 is in the custody of the bankruptcy courts. These monies are deposited as follows.

	Deposits	Percent
Total	$352,548,887	100.0
U.S. Treasury	60,985,430	17.3
Local Depositaries:		
Non-Interest Bearing Accounts	6,947,058	2.0
Interest Bearing Accounts (including U.S. Securities)	284,616,399	80.7

Despite the resolution of the September 1976 Judicial Conference that registry funds be deposited to either interest bearing accounts or the Treasury, the change in the amounts deposited in non-interest bearing accounts has been minimal. As of June 30, 1981, there was $6,947,058 in non-interest bearing accounts. This represents an increase of $52,355 in the amount of money deposited in non-interest bearing accounts over the prior year. However, based on a percentage of the total registry funds, there was a slight decline (0.13 percent).

Sixteen courts (8 district and 8 bankruptcy) maintained balances in excess of $100,000 in non-interest bearing accounts in local depositaries. These 16 courts accounted for 90.4 percent of the funds deposited in non-interest bearing accounts.

The percentage of funds deposited in local depositary non-interest bearing accounts by the district courts and the bankruptcy courts differs substantially; i.e. district courts 1.0 percent versus bankruptcy courts 12.76 percent. However, the percentage of monies in non-interest bearing accounts held by the bankruptcy courts has actually declined from 23.85 percent in fiscal year 1980 to 12.76 percent in fiscal year 1981. The majority of the monies held by the bankruptcy courts in these accounts are comprised of unclaimed dividends or distribution checks. Since these unclaimed dividends or disbtribution checks are in relatively small amounts and seldom claimed, some courts have not considered it desirable to deposit them in interest-bearing accounts.

Tables 26 and 27 show the amounts on deposit in the Treasury and in local depositaries for the respective district and bankruptcy courts.

EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

At its March 1980 session, the Judicial Conference adopted a model plan for the progress of equal opportunity of employment in the federal courts. That action reaffirmed the Conference's 1966 resolution endorsing the national policy of a positive program for Equal Employment Opportunity. The Conference's resolution also required each court to report annually on its activities under the program. A separate report, published in conjunction with this **Annual Report**, discusses the development of the new program during the twelve month period ended June 30, 1981, the first full year of the program's operation.

The Conference's plan contains a statement of the courts' commitment to providing equal opportunity of employment to all persons, regardless of race, sex, color, national origin, religion, age, or handicap. To implement that commitment, the plan requires that each vacancy arising in the courts be widely publicized to attract applicants from throughout all sectors of the relevant work force. Further, the courts will seek to develop practices to ensure that personnel decisions — such as hiring, promotions, and advancement — will be made on the basis of legitimate, job-related standards. The plan also provides for the processing of complaints alleging discriminatory actions by court officers and for the designation in each court of an employee to serve as a coordinator of the program for the court.

In general, the first year was a transition period for the courts. However, almost all of the courts have now adopted plans based on the Judicial Conference's model plan. Only three district courts (Puerto Rico; West Virginia, Northern; and Utah), and three bankruptcy courts (Pennsylvania, Eastern; North Carolina, Eastern; and Indiana, Northern) have not adopted plans for the program. In addition, modified plans were adopted by three district courts and three bankruptcy courts which have not yet been appproved by the respective circuit councils. Many of the courts, in fact, adopted the Judicial Conference's model plan without amendment. Modified versions of the plan were adopted by 66 courts.

During the year, court officials were also asked to take a systematic look at their personnel practices with a view to ensuring that equality of employment opportunity was not being hindered by existing practices, however inadvertently. For many court managers and supervisors, this represented their first formal and extensive exposure to the developing body of Equal Employment Opportunity laws and policies.

The Administrative Office has provided basic assistance to the courts in setting up their programs during the first transitional year. The staff has been designated to advise court officials on problems and questions as they arise. Background data on the representation of various groups in the relevant work forces have been furnished to the courts. In conjunction with the Federal Judicial Center, a series of six seminars was held for the newly designated coordinators in the courts. The seminars provided an opportunity for these individuals to familiarize themselves with the basic principles of Equal Employment Opportunity, to review the particular requirements of the court's program, to explore the reporting requirements imposed on them, and to evaluate the potential impact of the program on their existing personnel practices.

In addition, a newsletter has been established to serve as a channel for communications between the Administrative Office and the coordinators in the field. Finally, the development of a computer capability for generating most of the reports required by the new program has been virtually completed. The capability to generate the reports by computer will free the time of court personnel from the process of keeping records so that they will be able to devote more time and attention to the substantive problems associated with implementing a comprehensive program of Equal Employment Opportunity.

During the first year, it has been necessary to focus the efforts of the limited resources available in the courts on the basic elements of the program. Most of the courts' efforts were directed to the review and adoption of plans and to the development of record-keeping procedures to ensure the availability of the information needed for the year-end reports. With regard to specific personnel practices, the emphasis during the first year has been on advertising vacancies to ensure that all qualified potential applicants are informed of the availability of positions with the courts. Overall, these efforts have been successful. However, more needs to be done.

During the next several months, the actual operation of the program as reported by the courts will be reviewed. The Conference's model plan will also be examined to determine whether any changes are desirable. More difficult questions on the implementation of the plan will also have to be addressed. For instance, merit promotion practices for the advancement of employees, as envisioned by the model plan, must be developed which will conform with the requirement that all vacancies must be announced. In addition, new comparative figures for local work forces based on the 1980 census have to be developed and furnished to the courts. Finally, the extent to which additional resources will be needed on a continuing basis must be assessed.

The federal courts have taken an important step in adopting the Equal Employment Opportunity program. Much has been accomplished during the first year. Although more needs to be done during the next several years, the cooperation and the commitment exhibited by court personnel in implementing the program to date provides ample basis for viewing the tasks ahead with optimism.

AN ANALYSIS

OF THE WORKLOAD

FOR THE

TWELVE MONTH PERIOD

ENDED JUNE 30, 1981

The statistical anaylsis of the workload of the Federal judiciary which appears in this chapter was prepared by the Statistical Analysis and Reports Division based on statistical reports received from Judges, Clerks of Court, Probation Officers, and Federal Public/Community Defenders. A majority of the tables appearing in the text and appendix for the courts of appeals, civil, criminal, bankruptcy, and probation statistics were computer generated by the Division of Information Systems.

UNITED STATES COURTS OF APPEALS

Summary of Workload

During the twelve month period ended June 30, 1981, the workload of the U. S. courts of appeals reached the highest level ever as 26,362 appeals were filed in the 11 circuits. This total number of filings represents an increase of 13.6 percent over the 23,200 cases filed in 1980. Case dispositions increased significantly during the twelve month period, rising 20.0 percent from 20,887 in 1980 to 25,066 in 1981. Despite the substantial rise in case terminations, the pending appellate caseload grew to 21,548 cases, an increase of 6.4 percent over 1980. Table 1 is a summary of the workload in the courts of appeals for each of the twelve month periods ended June 30, 1962 through 1981.

Tenth	1,298	1,631	25.7

Filings

The 13.6 percent rise in appellate filings during 1981 can be attributed to the fact that 10 of the 11 courts registered increases in the number of appeals filed. The most dramatic rise was reported in the Second Circuit, where filings increased 41.0 percent from 2,171 in 1980 to 3,061 in 1981. Significant increases in filing activity were also reported in the Eighth and Fifth Circuits, up 19.3 percent and 16.3 percent, respectively. The only circuit to register a decrease in case filings was the District of Columbia, where filings declined 0.3 percent from the previous year.

Part of the growth in appeals filings this year was the result of a change in the reporting criteria which allowed the inclusion of types of cases in the 1981 figures that were not included in prior years.

Administrative agency appeals reflected the largest growth among the various types of appeals, up 28.8 percent from 2,950 in 1980 to 3,800 in 1981. The number of original proceedings and bankruptcy appeals also increased substantially during this period, rising 18.7 percent and 17.4 percent, respectively. The only group of appeals to decline during 1981 was criminal appeals, down a slight 0.6 percent from last year.

Types of Appeals from District Courts

Appeals arising from the U.S. district courts accounted for 81.1 percent of the appellate filing activity for the twelve month period ended June 30, 1981. A total of 21,391 cases were appealed from the district courts, a rise of 11.1 percent over the 19,259 cases reported in 1980. This overall increase was due entirely to civil appeals which were up 14.5 percent over last year. Criminal appeals declined during the twelve month period from 4,405 cases in 1980 to 4,377 cases in 1981. Of all civil cases, the largest increases were in appeals of Federal prisoner civil rights cases (up 47.2 percent) and private copyright, patent and trademark cases (up 45.9 percent). The greatest increase of criminal cases was found in appeals of larceny and theft cases, up 32.8 percent. The largest civil decline was found in appeals of U.S. plaintiff contract actions (down 44.4 percent). Among criminal appeals, the largest decline was extortion, racketeering and threats appeals, down 29.5 percent. Additional data on appeals from the district courts is provided in Appendix Table B-7.

Impact of State Prisoner Petitions

A total of 3,156 petitions were filed in the courts of appeals by state prisoners during the twelve month period ended June 30, 1981. This total represents an increase of 18.3 percent over last year's high of 2,668 petitions. State prisoner petitions comprised 12.0 percent of the overall filing activity for 1981. The greatest number of such petitions was reported in the Fourth Circuit, where 790 or 25.0 percent of all state prisoner petitions were filed. In relation to the total number of filings, state prisoner petitions accounted for 35.2 percent of the Fourth Circuit's filing activity. The circuit with the smallest proportion of state prisoner petitions was the District of Columbia, where such petitions represented only 0.9 percent of cases filed. Table 4 provides a comparison, by circuit, of the impact of state prisoner petitions on appellate workload.

Table 4
Impact of State Prisoner Petitions
On Filings in U.S. Courts of Appeals, by Circuit,
During the Twelve Month Period Ended June 30, 1981

Circuits	State Prisoner Petitions	Percent of Total	Total Filings	Percent of Total	Filings Excluding State Prisoner Petitions

Tenth	184	5.8	1,577	11.7	1,393

Reviews of Administrative Agency Cases

During the twelve month period ended June 30, 1981, reviews of administrative agency cases reached a record high of 3,800 filings, up 28.8 percent from the previous high of 2,950 cases filed in 1980. In 1981, these appeals accounted for 14.4 percent of the total appellate workload, up from 12.7 percent last year. The largest number of administrative agency filings was reported by the District of Columbia Circuit (851 cases); the Ninth Circuit (671 cases); and the Fifth Circuit (508 cases). These three circuits continued their trend of accounting for over 50 percent of the total administrative agency reviews filed. The agency with the greatest number of appealed reviews was the National Labor Relations Board with a total of 1,151 cases (30.3 percent of all agency cases). Other agencies, with comparatively large numbers of reviews, were the Environmental Protection Agency (383 cases); the Immigration and Naturalization Service (355 cases); and the Internal Revenue Service (331 cases). A summary, by circuit, of the number of appeals of decisions from each administrative agency during the twelve month period ended June 30, 1981 is displayed in Table 5.

* Includes all agencies involved in less than 10 appeals during the twelve month period.

Dispositions

Total appellate dispositions rose a sizable 20.0 percent during the twelve month period, up from 20,887 in 1980 to 25,066 in 1981. The largest increases in case terminations were reported in the Ninth Circuit (up 42.8 percent) and the Second Circuit (up 35.3 percent). The only circuits to experience a decrease in their termination activity during the year were the Fourth and Tenth Circuits, where dispositions declined 5.4 percent and 2.4 percent, respectively. The most significant turnaround in case dispositions came in the Seventh Circuit, where terminations decreased by 206 cases in 1980 then increased by 246 cases in 1981.

Pending Appeals

During the twelve month period ended June 30, 1981, a total of 1,296 more cases were filed than were terminated in the courts of appeals. The pending appellate caseload rose from 20,252 in 1980 to 21,548 in 1981, an increase of 6.4 percent. Only the Ninth Circuit was able to reduce the pending caseload during this period, down 5.9 percent to 4,344 cases. The most substantial growth in pending caseload was in the Tenth Circuit (up 25.7 percent); the Seventh Circuit (up 21.1 percent); and the Eighth Circuit (up 18.8 percent).

Oral Hearings and Submissions on Briefs

Oral hearings in the courts of appeals rose to 8,511 during the twelve month period ended June 30, 1981, 12.5 percent above the 7,563 in 1980. While not as substantial as last year's 19.0 percent rise, this increase signifies a continued upward trend for oral hearings. The largest increases in oral hearings were reported in the Ninth Circuit (up 35.3 percent); the Sixth Circuit (up 30.7 percent); and the First Circuit (up 16.4 percent). The Second and Seventh Circuits registered modest declines in hearing activity, down 1.7 percent and 0.6 percent, respectively. Table 6 is a comparison, by circuit, of the number of oral hearings conducted in the courts of appeals during each of the twelve month periods ended June 30, 1975 through 1981.

In addition to oral hearings, a total of 3,469 cases were submitted on briefs in the courts of appeals in 1981, up 14.3 percent from the 3,035 cases submitted in 1980. The number of en banc submissions on briefs declined slightly during the year from 20 to 17. Fifty-two of the oral hearings for 1981 were reported as en banc compared to 45 in 1980. Table 7 summarizes the number of oral hearings and submissions on briefs in the courts of appeals during the twelve month period ended June 30, 1981.

Table 7

Case Participations by Resident, Senior, and Visiting Judges

Case participations include cases that were orally argued or submitted on briefs before panels of judges in the courts of appeals. During the twelve month period ended June 30, 1981, the total number of case participations by federal judges in the courts of appeals rose to 36,629, an increase of 12.3 percent over 1980. Participations by resident active judges as a percent of total participations declined slightly from 80.2 percent in 1980 to 78.8 percent in 1981. Participations by resident senior circuit judges also declined from last year, dropping to 7.7 percent of total participations. Case participations by visiting judges increased to 13.5 percent of the total participations, up from 10.6 percent in 1980. The most extensive use of visiting judges was in the Ninth Circuit, where these judges accounted for 24.4 percent of all case participations. Visiting judges were used the least in the Fifth Circuit, where these judges accounted for only 4.6 percent of total case participations. The activity of resident active, senior, and visiting judges in the courts of appeals during the twelve month period ended June 30, 1981 is summarized in Table 8.

Opinions and Memoranda

Signed opinions and other papers (including per curiam opinions, memorandum decisions, and decisions from the bench), which set forth reasons for a decision, accompanied 85.6 percent of the cases disposed of after oral hearing or submission on briefs during 1981. This figure represents a slight decline from the 86.4 percent recorded a year ago. Table 9 provides a summary of opinions and other papers filed, by circuit, during the twelve month period ended June 30, 1981.

Table 9

* Includes cases reported on the JS-34 closing report as "Signed" or "Unsigned" opinions.

Reversal Rates

During the twelve month period ended June 30, 1981, the rate of reversal in cases disposed of after oral hearing or submission on briefs increased slightly from 17.4 percent in 1980 to 17.7 percent in 1981. The number of cases reversed in all courts of appeals totaled 2,140, up from the 1,843 cases recorded a year ago. The highest reversal rate was posted in the Seventh Circuit at 23.1 percent, with the majority of reversals occurring in civil appeals. The First Circuit recorded the lowest reversal rate (7.3 percent) which is a significant drop from the 18.2 percent reported in that Circuit a year ago. Table 10 is a comparison of the reversal rates in the courts of appeals during the twelve month periods ended June 30, 1980 and 1981.

Table 10
Reversal Rate of Cases Terminated After Hearing or Submission*
During the Twelve Month Periods Ended June 30, 1980 and 1981

Type of case	Total		Reversed or denied		Percent reversed or denied	
	1980	1981	1980	1981	1980	1981
Total	10,604	12,057	1,843	2,140	17.4	17.7
Civil	6,829	7,828	1,295	1,513	19.0	19.3

Administrative	993	1,338	222	274	22.4	20.5

* All figures exclude original proceedings.
NOTE: For purposes of this report, a lower court decision that is affirmed in part and reversed in part is considered, for statistical purposes, to be an affirmance.

Cases Disposed of After Oral Hearing or Submission on Briefs

During the twelve month period ended June 30, 1981, the courts of appeals terminated 12,168 cases after oral hearing or submission on briefs, an increase of 14.7 percent over the 10,607 cases in 1980. Of all case dispositions in 1981, 48.5 percent were terminated in this manner, a slight decrease from the 50.8 percent recorded a year ago. Cases terminated without oral hearing or submission on briefs increased 23.5 percent during this period, up from 7,576 in 1980 to 9,360 in 1981. As a percent of total terminations, these cases rose slightly from 36.3 percent in 1980 to 37.3 percent in 1981. The percent of cases disposed of by consolidation increased from 12.9 percent in 1980 to 14.1 in 1981. More detailed data on the appellate caseload in 1981 can be found in Appendix Table B-1.

Median Time Intervals

The median time interval from filing of the complete record to final disposition for cases disposed of after oral hearing or submission on briefs was 9.3 months in 1981. This was a slight increase over the 8.9 month interval recorded in 1980. Median times among the individual circuits ranged from 17.2 months in both the Sixth and Ninth Circuits, to 3.8 months in the Second Circuit. The interval from filing a case in the lower court to final disposition in the appellate court rose to 26.4 months, a slight increase over the 24.9 month median recorded a year ago. For individual circuits, this median time ranged from 32.8 months in the Ninth Circuit to 17.2 months in the Second Circuit. Additional data on median time intervals, by case type, for individual circuits can be found in Appendix Table B-4.

Other Federal Courts

Rail Reorganization Court

The Special Court was established by the Regional Rail Reorganization Act of 1973 primarily to determine the value of properties transferred by seven principal bankrupt railroads and numerous other transfers in the Northeast and Midwest region. The amounts claimed by the transferors ranged into the billions of dollars and the proceedings to determine these claims necessarily have been conducted in several stages. The Special Court announced the general principles it would follow in an opinion dated October 12, 1977, 445 F. Supp. 994. After the court had completed taking evidence as to the amount which the transferors claim could have been obtained for certain properties for continued rail use in the absence of the Rail Act, and evidence presented by the Government Parties in response thereto, the Penn Central Corporation entered into a settlement agreement with the Government Parties. This settlement was approved by the court on December 5, 1980.

Settlement agreements between the Government Parties and four smaller transferors were approved by the court during January and February 1981. However, their settlements have not significantly reduced the burdens on the court. In January, the Government Parties and the remaining transferors, including the Erie Lackawanna, Reading, and Lehigh Valley railroad systems, filed voluminous briefs. In May, the final briefs were received and in June the court heard oral argument on the "rail use phase" of the valuation proceedings. Also in June, the court issued its Sixth Pre-trial Order in which it established a schedule for the production of evidence relating to the realizable non-rail use value of all the remaining transferors' conveyed properties. In other collateral proceedings arising under its original and exclusive jurisdiction, the Special Court reported six cases filed and five terminated during the year leaving 23 such cases pending as of June 30, 1981.

Temporary Emergency Court of Appeals

The Temporary Emergency Court of Appeals litigates all appeals from the district courts in controversies arising under Section 4(e) of the Economic Stabilization Act of 1971, as well as those pursuant to the Emergency Petroleum Allocation Act of 1973, the Energy Policy and Conservation Act of 1975, and the Emergency Natural Gas Act of 1977.

During the twelve month period ended June 30, 1981, a total of 57 cases were filed in the Temporary Emergency Court of Appeals, an increase of 39.0 percent over the 41 cases filed in 1980. Termination activity increased slightly, rising from 55 cases in 1980 to 57 cases in 1981. As of June 30, 1981, a total of 19 cases were pending before the Temporary Emergency Court of Appeals.

Cases Under Submission in the Courts of Appeals and Other Federal Courts

The Administrative Office receives quarterly reports from clerks of the Courts of Appeals, Court of Claims, Court of Customs and Patent Appeals, and Temporary Emergency Court of Appeals which provide information regarding cases under submission over 90 days. Cases awaiting additional memoranda or briefs, or awaiting an opinion in another case are not included in the reports.

Table 11 provides a breakdown by circuit of cases held under submission over 90 days. A total of 817 cases were reported as of June 30, 1981, only 50 cases over the total reported for the same period last year. There were 494 cases (60.5 percent) held more than three but less than six months; 210 cases (25.7 percent) held more than six but less than nine months; 32 cases (3.9 percent) held more than nine months but less than one year; and 81 cases (9.9 percent) held over one year.

The Ninth Circuit reported the greatest number of cases with 212, followed by the Fifth Circuit with 205 cases, and the Tenth Circuit with 100 cases. These three circuits reported a total of 517 cases, 63.3 percent of the total cases reported.

Table 11
Cases Under Submission
More Than Three Months on June 30, 1981

Circuit	Total	Months Under Submission			
		3 - 6	6 - 9	9 - 12	Over 12
Total	817	494	210	32	81
District of Columbia	80	47	14	1	18
First	4	2	1	1	-
Second	15	13	1	-	1
Third	2	1	1	-	-
Fourth	55	37	18	-	-
Fifth	205	138	58	2	7
Sixth	47	15	24	4	4
Seventh	64	40	19	2	3

Ninth	212	111	55	18	28
Tenth	100	61	15	4	20
Court of Claims	4	4	-	-	-
Court of Customs and Patent Appeals	1	-	1	-	-
Temporary Emergency Court of Appeals	3	3	-	-	-

In the District of Columbia Circuit, 18 out of 80 cases were held over one year, while 28 cases, or 13 percent of the pending caseload in the Ninth Circuit had been held over one year. The First, Third, Fourth, and Eighth Circuits, and the other federal courts reported that no cases were held under submission over one year.

Three circuits reported increases in cases under submission compared to last year. The Fifth Circuit reported 68 cases over 1980 (up 50 percent); the Seventh Circuit reported 10 over 1980 (up 37 percent); and the Ninth Circuit reported 69 (up 48 percent). Other courts that reported increases were the Court of Claims, the Court of Customs and Patent Appeals, and the Temporary Emergency Court of Appeals. The Sixth Circuit reported the same number of cases as last year.

The District of Columbia, First, Second, Third, Fourth, Eighth, and Tenth Circuits reported decreases in cases under submission over 90 days.

Table 12 shows that the number of cases under submission over 90 days continues to climb steadily. The current total of 817 cases is a 170 percent increase over the 306 cases reported in 1975.

UNITED STATES DISTRICT COURTS

CIVIL CASES

Summary of Workload

Civil litigation in the federal courts continued a 20 year trend of steady growth, with activity for the twelve month period ended June 30, 1981, reaching all-time highs in both filings and dispositions. A total of 180,576 civil cases were filed during the year, an increase of 7.0 percent over the 168,789 cases filed during the same period a year ago. A more substantial increase occurred in case terminations, which reached 177,975 in 1981, up 10.9 percent from the 160,481 cases disposed of in 1980. Despite this significant increase in termination activity, the number of civil cases pending rose from 186,113 in 1980 to 188,714 in 1981. This 1.4 percent increase in the pending caseload is the smallest such increase since 1960. Table 13 summarizes civil cases filed, terminated, and pending during each of the twelve month periods from 1960 through 1981. Table 14 is a comparison, by district, of the civil workload during the twelve month periods ended June 30, 1980 and 1981. Additional data on civil litigation activity in the district courts is provided in Appendix Tables C-1, C-2, C-3, C-3A, C-4, C-4A, C-5, C-5A, C-5B, C-6A, and C-6B.

Workload Per Authorized Judgeship

With the passage of the Omnibus Judgeship Act of 1978, the number of authorized judgeships in the district courts increased from 399 to 516. As a result, the number of civil cases filed per authorized judgeship declined to 300 cases in 1979. The steadily increasing influx of civil cases into the district courts caused this figure to rise to 327 in 1980. This trend was continued in 1981, with per judgeship filings reaching 350, or approximately the level at the time the Judgeship Act was passed. The large increase in dispositions resulted in per judgeship terminations rising to 345, compared to a previous high of 316 in 1978. With the small increase in the pending caseload, the number of civil cases pending per judgeship increased only slightly to 366, compared to the record of 417 cases in 1978. Table 15 summarizes the per judgeship workload during the twelve month periods ended June 30, 1940, 1950, 1960, 1970, and 1974 through 1981.

Table 15
Civil Cases Per Authorized Judgeship

1981 ...	516	350	345	366

Civil Filings

During the twelve month period ended June 30, 1981, a total of 70 districts experienced increases in the number of cases filed compared to 77 districts in 1980. The largest increases over 1980, other than the territorial courts, were in Louisiana, Middle (up 63.8 percent) and Washington, Eastern (up 46.8 percent). These increases were largely the result of rises in the number of prisoner petitions filed, especially prisoner civil rights cases. Nevada also experienced a large increase, with 39.7 percent more filings, primarily because of the substantial litigation resulting from the fire at the MGM Grand Hotel in Las Vegas. Other districts experiencing significantly higher filing levels were Maine and Tennessee, Middle, both up 36.2 percent, and Wisconsin, Western, up 35.7 percent. The largest declines in filing activity, other than the territorial courts, occurred in Florida, Southern (down 28.3 percent); Puerto Rico (down 21.3 percent); and Hawaii (down 17.6 percent). These declines were largely the result of reductions in the number of land condemnation, real property, and U.S. contract cases filed, respectively. More detailed data on the number and type of civil cases filed in the district courts is provided in Appendix Tables C-2 and C-3.

Civil Filings by Origin

Most of the civil cases filed in the district courts during any given period are original filings. During the twelve month period ended June 30, 1981, original filings accounted for 159,172 cases, or 88.1 percent of total filings. This compares with 88.5 percent a year ago. Removals from state courts and reopened cases continued to increase while remands from the courts of appeals and transfers both declined. Appeals to district judges from magistrate judgments, filed pursuant to the Federal Magistrate Act of 1979, totaled 34 cases. A summary of civil filings, by origin, during each of the twelve month periods ended June 30, 1975 through 1981 can be found in Table 16.

Table 16
Civil Filings by Origin
During the Twelve Month Periods Ended June 30, 1975 through 1981

Year	Total Filings	Original	Removals From State Courts	Remands From Courts of Appeals	Reopens	Transfers[1]	Appeals From Magistrate Judgments[2]

Types of Civil Cases Commenced

During the twelve month period ended June 30, 1981, litigation involving the U. S. as either a plaintiff or defendant totaled 61,845 cases, or 34.2 percent of total filings. U.S. plaintiff cases declined 5.5 percent, while U.S. defendant cases increased 1.8 percent to 24,247. Civil cases involving federal question and diversity of citizenship increased 11.7 percent and 15.6 percent, respectively. Cases involving local jurisdiction, however, declined for the second straight year, dropping 15.8 percent. This decline is largely the result of the phasing out of the district court in the Canal Zone, where filings dropped from 306 in 1980 to only 7 in 1981. Table 17 is a comparison of civil filings, by jurisdiction, for each of the twelve month periods ended June 30, 1975 through 1981.

Table 17
Civil Cases By Jurisdiction
During the Twelve Month Periods Ended June 30, 1975 through 1981

Year	Total	U.S. Cases		Private Cases		
		Plaintiff	Defendant	Federal Question	Diversity of Citizenship	Local Jurisdiction
1975 ...	117,320	12,742	19,037	52,688	30,631	2,222
1976 ...	130,597	15,599	24,265	56,823	31,675	2,235
1977 ...	130,567	16,320	23,890	57,011	31,678	1,668
1978 ...	138,770	22,534	24,277	59,271	31,625	1,063
1979 ...	154,666	31,003	24,827	63,221	34,491	1,114
1980 ...	168,789	39,810	23,818	64,928	39,315	918
1981 ...	180,576	37,598	24,247	72,514	45,444	773
Percent change 1981 over:						
1975 ...	53.9	195.1	27.4	37.6	48.4	-65.2
1980 ...	7.0	-5.6	1.8	11.7	15.6	-15.8

The overall rise in civil filings of 7.0 percent over 1980 was highlighted by significant increases in several case types. The largest increases were in state prisoner petitions (up 20.6 percent; tax suits (up 20.1 percent); and civil rights cases (up 19.1 percent). In recent years, the most dramatic increase has occurred in cases involving recovery of overpayments and enforcement of judgments, largely the result of efforts by the U.S. to recover defaulted student loans and veteran overpayments. A comparison of the activity regarding these cases during the twelve month periods ended June 30, 1975 through 1981 is depicted in Table 18. As indicated in the table, filings rose from 681 in 1975 to 15,588 in 1980, before jumping 16.5 percent to 18,161 cases in 1981. The largest increases in these recovery cases during 1981 were in Massachusetts, (where these filings jumped from 63 to 630); Ohio, Southern (from 153 to 541); and California, Central (from 235 to 616).

Table 18
Civil Actions for Recovery of Overpayments
And Enforcement of Judgments,
During the Twelve Month Periods Ended June 30, 1975 through 1981

Civil Actions	1975	1976	1977	1978	1979	1980	1981	Percent Change 1981 over 1980
Filings	681	1,087	865	1,856	9,254	15,588	18,161	16.5
Terminations	470	905	809	1,279	5,773	13,613	16,804	23.4
Pending	425	607	663	1,240	4,721	6,696	8,053	20.3

Despite the overall increase in case filings, declines occurred in several case types. The most significant declines were in land condemnation cases (down 54.3 percent) and Freedom of Information Act cases (down 19.1 percent). Detailed data on civil cases commenced, by case type, during the twelve month periods ended June 30, 1975 through 1981 is provided in Table 19. Additional data on civil cases commenced during 1981, by case type, is provided in Appendix Tables C-2 and C-3.

Prisoner Petitions

Petitions filed by state and federal prisoners consistently comprise a significant portion of civil litigation in the federal courts. During the twelve month period ended June 30, 1981, prisoner petitions represented 15.3 percent of the cases filed (state prisoners alone representing 13.1 percent). Table 20 compares prisoner petitions filed during each of the twelve month periods ended June 30, 1960 through 1981. Petitions from state prisoners reached 23,607 in 1981, up from the previous high of 19,574 filed last year. The most significant increases in state prisoner petitions were in Virginia, Eastern and Texas, Northern. Petitions filed by federal prisoners increased in 1981 after declining the previous two years, up 10.5 percent from 1980 but well below the high of 5,047 in 1975. There were increases in federal civil rights petitions (up 38.3 percent); habeas corpus (up 15.3 percent); and mandamus (up 5.9 percent). Other types of federal prisoner petitions declined. A comparison of prisoner petitions filed, by type, during each of the twelve month periods ended June 30, 1975 through 1981 is shown in Table 21. Table 22 summarizes, by district, the federal and state prisoner petitions filed during the twelve month period ended June 30, 1981.

Antitrust

Table 23 is a comparison of the number of antitrust cases filed in the district courts during each of the twelve month periods ended June 30, 1960 through 1981. Antitrust filings declined to 1,434 cases in 1981, a drop of 6.6 percent from 1980. Private antitrust cases declined significantly from 1,457 cases in 1980 to 1,292 in 1981. The most dramatic increase was in criminal antitrust cases, which jumped from the previous high of 39 in 1980 to 82 in 1981. This increase is largely the result of prosecutions related to improper bidding for the construction of federal highways.

Table 23
Antitrust Cases Commenced,
During the Twelve Month Periods Ended June 30, 1960 through 1981

Year	Total	U.S. Cases		Private Cases	
		Civil	Criminal	Electrical equipment industry	Other[4]

1969 ...	797	43	14	-	740
1970 ...	933	52	4	-	877
1971 ...	1,515	60	10	-	1,445
1972 ...	1,393	80	14	-	1,299
1973 ...	1,224	54	18	-	1,152
1974 ...	1,294	40	24	-	1,230
1975 ...	1,467	56	36	-	1,375
1976 ...	1,574	51	19	-	1,504
1977 ...	1,689	47	31	-	1,611
1978 ...	1,507	42	30	-	1,435
1979 ...	1,312	50	28	-	1,234
1980 ...	1,535	39	39	-	1,457
1981 ...	1,434	60	82	-	1,292

[1] Includes 9 U.S. electrical industry cases filed in 1961, 2 in 1962 and 3 in 1963.
[2] Includes 26 cases transferred under Title 28 U.S.C. Section 1404(a).
[3] All cases were transferred under Title 28 U.S.C. Section 1404(a).
[4] Includes antitrust cases transferred under Title 28 U.S.C. Section 1407.

Despite the overall decline, private antitrust litigation increased significantly in several districts. The largest increase was in New York, Southern, where filings rose from 99 in 1980 to 144 in 1981. Other districts experiencing significant increases include New York, Eastern (up from 27 to 51) and Massachusetts (up from 34 to 51).

Land Condemnation

Cases filed by the U. S. involving condemnation of land declined for the third straight year, since reaching a high of 6,906 filings in 1978. During the twelve month period ended June 30, 1981, a total of 2,021 such cases were filed, down 54.4 percent from the 4,433 filed in 1980. The majority of this decline was in Florida, Southern, where filings dropped from 2,844 in 1980 to 706 in 1981.

For the second consecutive year, the number of land condemnation cases disposed of exceeded the number filed. As a result, the pending caseload of land condemnation litigation dropped 29.8 percent to 6,836 cases. Table 24 provides a comparison of U.S. plaintiff land condemnation cases filed, terminated, and pending during each of the twelve month periods ended June 30, 1962 through 1981. During 1981, the largest number of U.S. land condemnation cases were filed in Florida, Southern with 706 and California, Southern with 492.

Product Liability

During the twelve month period ended June 30, 1981, a total of 9,071 product liability cases were filed in the district courts. This represents an increase of 17.0 percent over the 7,755 such cases filed in 1980, and continues a trend of steadily increasing caseload which began in 1974. The most significant increase was in torts to land cases, which rose from 52 in 1980 to 88 in 1981, a jump of 69.2 percent.

Table 25 summarizes product liability cases filed, by type and district, during the twelve month period ended June 30, 1981. The largest concentration of these filings was in Pennsylvania, Eastern, with 426 such cases. A total of 69 districts experienced increases in product liability filings over 1980, while 24 districts experienced declines.

Environmental, Economic Stabilization Act, and Energy Allocation Litigation

The number of civil cases filed involving environmental matters rose to 582 in 1981, a slight increase from the 557 cases filed in 1980. The largest concentration of environmental litigation was in New Jersey and the District of Columbia, with 41 and 35 filings, respectively.

Litigation related to the Economic Stabilization Act of 1971 increased 34.3 percent over 1980, rising from 35 cases to 47 during the twelve month period ended June 30, 1981. The districts experiencing the most activity regarding the Act were Connecticut with seven filings and Kentucky, Western with five filings.

Energy Allocation Act litigation declined substantially from the 153 cases filed during the twelve month period ended June 30, 1980. In 1981, a total of 104 such cases were filed, with the most significant filing activity in Texas, Northern (11); New York, Eastern (10); and Delaware (10).

Table 26 is a summary, by district, of the number of cases involving environmental matters, the Economic Stabilization Act and the Energy Allocation Act filed during the twelve month periods ended June 30, 1980 and 1981. Table 27 is a historical summary of these filings for the twelve month periods ended June 30, 1972 through 1981.

Table 27
Filings of Environmental, Economic Stabilization Act and Energy Allocation Act Legislation
During the Twelve Month Periods Ended June 30, 1972 through 1981

Year Ended June 30	Environmental Matters[1]	Economic Stabilization[2]	Energy Allocation[3]
1972	-	376	-
1973	270	283	-
1974	343	175	97
1975	406	60	108
1976	499	30	85
1977	480	30	91
1978	519	40	79
1979	559	50	121
1980	557	35	153
1981	582	47	104

[1] Cases filed under the National Environmental Policy Act of 1969 and amendments thereto, were separately classified beginning July 1, 1972.

[2] Cases filed under the Economic Stabilization Act of 1970 and amendments thereto. Statistics for 1972 are for period August 15, 1971 through June 30, 1972.

[3] Cases filed under the Emergency Petroleum Allocation Act (November 27, 1973) which incorporated Sections 205 and 211 of the Economic Stabilization Act of 1970 were first recorded beginning January 1974.

Fraud, Including Truth in Lending

During the twelve month period ended June 30, 1981, the number of private fraud cases filed in the district courts, including those filed pursuant to the Truth in Lending Act, declined to 1,421 cases, a drop of 35.8 percent from the 2,214 cases filed during the same period a year ago. Despite the overall decline, several districts still experienced substantial filings of these cases. The largest number of private fraud cases were recorded in Georgia, Northern, where 313 such cases were filed in 1981. Other districts with substantial numbers of fraud filings were Connecticut (173); Mississippi, Southern (82); and Louisiana, Eastern (71). No other district had more than 45 such filings. Table 28 is a comparison of the number of fraud cases filed, by district, for each of the twelve month periods ended June 30, 1975 through 1981.

* Includes only federal question litigation.

Civil Rights

Civil rights cases (excluding prisoner petition civil rights) regularly comprise a significant portion of civil litigation filed in the district courts; 1981 was no exception. During the twelve month period ended June 30, 1981, a record high of 15,419 such cases were filed, an increase of 19.1 percent over the 12,944 civil rights cases filed in 1980. The largest increases in civil rights litigation were in employment discrimination suits and general civil rights cases, which rose 24.5 and 16.9 percent, respectively. The only categories experiencing declines were voting rights cases and public accommodations cases. The 15,419 civil rights cases filed in 1981 include 1,885 involving the U.S. as either plaintiff or defendant and 13,534 involving private parties. A summary of civil rights filings, by case type, for each of the twelve month periods ended June 30, 1973 through 1981 is shown in Table 29.

Table 29
Civil Rights Cases Commenced in U.S. District Courts*
During the Twelve Month Periods Ended June 30, 1973 through 1981

Welfare	145	163	222	222	219	214	195	212	253

* Excludes Prisoner Petition Civil Rights Cases.

Table 30 is a comparison, by district, of the number of employment civil rights cases filed pursuant to the Civil Rights Act of 1964 during each of the twelve month periods ended June 30, 1973 through 1981. As indicated in the table, the largest number of employment cases were filed in Illinois, Northern, which recorded 344 such filings. Other districts with significant numbers of such filings include California, Central (243); the District of Columbia (216); Michigan, Eastern (211); and Texas, Southern (205).

Social Security Act Litigation

The number of cases filed in the district courts pursuant to the Social Security Act has been declining steadily from a high of 10,355 filings in 1976. This trend was reversed during the twelve month period ended June 30, 1981, when social security filings totaled 9,780, a jump of 8.1 percent from the 9,043 cases filed in 1980. Overall, a total of 59 districts experienced increases in social security filings. Districts with large numbers of social security filings include Michigan, Eastern (628) and Ohio, Southern (491). Despite the overall increase, several districts still experienced declines in filing activity in this area, most notably Puerto Rico with 387 cases filed in 1981 compared to 484 in 1980. Table 31 is a summary, by district, of social security filings during each of the twelve month periods ended June 30, 1971 through 1981.

All categories of social security cases except "Black Lung" showed increases over 1980 with the largest increase occurring in claims for supplemental security income payments based upon disability (up 66.8 percent). Table 32 is a summary of social security filings, by type and district, during the twelve month period ended June 30, 1981.

Class Action Litigation

During the twelve month period ended June 30, 1981, a total of 1,672 cases were filed in the district courts involving class action allegations. This figure is up 6.6 percent from the 1,568 class action cases filed in 1980, but 53.3 percent below the high of 3,584 in 1976. The 1,672 such cases filed in 1981 represent 0.9 percent of the 180,576 civil cases filed in the district courts, the same proportion as in 1980. The pending class action caseload continued to decline, dropping 13.6 percent to 3,950 cases, which is 37.1 percent below the high of 6,281 recorded in 1977. Table 33 is a comparison of the proportion of class action allegations to total civil filings for each of the twelve month periods ended June 30, 1974 through 1981.

Table 33

The number of class action allegations filed by prisoners increased substantially in 1981, rising from 122 in 1980 to 171 in 1981. Pending prisoner class action suits dropped from 321 in 1980 to 312 in 1981. Table 34 summarizes the number of prisoner class action filings and pending cases for each of the twelve month periods ended June 30, 1973 through 1981.

Table 34

1980 ...	23,287	122	18,008	321
1981 ...	27,711	171	20,957	312

Districts with the largest number of class action suits filed during 1981 were New York, Southern and Illinois, Northern, where 111 and 107 such cases were filed, respectively. Other districts with substantial numbers of class action filings include Alabama, Northern (71); Pennsylvania, Eastern (67); Florida, Southern (62); and Maryland (61). Several districts currently have a substantial pending class action caseload, most notably Illinois, Northern (220); New York, Southern (215); and Texas, Southern (203). Table 35 summarizes, by district, of the number of class action cases filed and pending during the twelve month period ended June 30, 1981.

Civil Terminations

During the twelve month period ended June 30, 1981, a total of 177,975 cases were disposed of in the district courts, an increase of 10.9 percent over the 160,481 cases terminated during the same period a year ago. This represents the largest number of civil cases ever terminated during a comparable twelve month period. Of the 95 district courts, a total of 66 reported increases in terminations over 1980. The largest increases were in Michigan, Western (up 106.1 percent); Kentucky, Eastern (up 97.0 percent); Louisiana, Middle (up 92.7 percent); West Virginia, Southern (up 91.8 percent); and Massachusetts (up 89.2 percent). These increases were largely the result of rises in the number of social security (Michigan, Western; Kentucky, Eastern; and West Virginia, Southern), prisoner civil rights (Louisiana, Middle), and interstate commerce (Massachusetts) case dispositions. The most significant declines in terminations, excluding the territorial courts, occurred in Hawaii and Illinois, Central, down 31.3 and 22.6 percent, respectively. These reductions resulted primarily from drops in the number of civil rights and U.S. contract case dispositions, respectively.

The proportion of civil cases terminated without court action totaled 41.7 percent for the twelve month period ended June 30, 1981, down from the all-time high of 44.4 percent recorded in 1980. The percentage of civil cases reaching trial had been steadily declining since 1974 when these cases represented 8.7 percent of total terminations. During 1981, civil cases reaching trial represented 6.6 percent of total terminations, up slightly from the 6.5 percent recorded in 1980. Table 36 is a comparison of civil cases terminated, by action taken, during each of the twelve month periods ended June 30, 1969 through 1981. Additional data on civil cases terminated in the district courts during the twelve month period ended June 30, 1981, can be found in Appendix Tables C-4 and C-4A.

1981 ...	172,942	41.7	58.3	6.6

Terminations by Nature of Suit

Civil terminations (excluding land condemnation cases) totaled 172,942 for the twelve month period ended June 30, 1981, an increase of 11.6 percent over the 154,985 cases disposed of in 1980. The most significant increase in terminations involved prisoner civil rights cases, particularly federal prisoner cases. Federal prisoner civil rights dispositions increased from 572 in 1980 to 780 in 1981, a jump of 36.4 percent. Other case types with substantial increases were U.S. contract actions (up from 20,707 to 23,882) and forfeiture and penalty cases (up from 2,684 to 3,109). More detailed information on civil cases terminated, by nature of suit, is provided in Appendix Table C-4.

Median Time to Dispose of Civil Cases

The median time from filing to disposition for civil cases terminated in the district courts increased during 1981 from eight to nine months. The shortest median time from filing to disposition was four months, recorded in Tennessee, Eastern and California, Northern. The longest median time, excluding Massachusetts, was 40 months for cases disposed of in Kentucky, Eastern. (The median in Massachusetts of 51 months is disproportionately high due to the fact that 4,396 three-year old interstate commerce cases were disposed of in this district during 1981. Last year, Massachusetts recorded a median time of 27 months.) The median time for cases going to trial remained constant at 20 months. The shortest median time for cases going to trial was six months in Tennessee, Eastern; the longest median was 40 months in Arizona.

More detailed data on median time intervals for civil cases terminated during the twelve month period ended June 30, 1981 is provided in Appendix Tables C-5, C-5A, and C-5B.

Pending Civil Caseload

As of June 30, 1981, a total of 188,714 civil cases were pending in the district courts, an increase of 1.4 percent from the 186,113 cases pending a year ago. This is the smallest increase in pending caseload since 1960. This can be attributed, in part, to the significant increase in terminations resulting from the additional judges appointed under authority of the Omnibus Judgeship Act of 1978. The increase in termination activity was such that case filings in 1981 exceeded case dispositions by only 2,601 cases. Despite the increase in pending cases, 19 districts were able to reduce their individual caseloads. Excluding the Canal Zone, the most substantial declines in pending caseload occurred in Massachusetts (down 39.4 percent) and West Virginia, Southern (down 25.7 percent). These declines can be attributed to reductions in the number of pending interstate commerce cases and social security cases, respectively. Despite the small overall increase, several districts reported large increases in pending caseload during 1981. The largest were in Nevada (up 49.0 percent); Colorado (up 32.7 percent); and Illinois, Central (up 32.1 percent). More detailed data on civil cases pending in the district courts as of June 30, 1981 is provided in Appendix Table C-3A.

The largest reduction in pending cases during 1981 was in private interstate commerce cases, which dropped 72.2 percent from 6,122 in 1980 to 1,704 in 1981, due primarily to the number of dispositions in Massachusetts. Other litigation with substantial declines were social security cases (65.8 percent) and land condemnation cases (28.2 percent). The largest increases in pending caseload occurred in personal injury cases (other than marine and motor vehicle) and state prisoner civil rights cases, up 22.8 and 22.3 percent, respectively. Table 37 is a comparison of civil cases pending, by case type, for each of the twelve month periods ended June 30, 1975 through 1981.

Civil Cases Pending Three Years or More

Because of the increasing volume of civil cases pending three years or more in the district courts, the Judicial Statistics Subcommittee, through the Court Administration Committee of the Judicial Conference, proposed that the Conference adopt a resolution regarding these cases. In March 1981, the Conference adopted the following resolution:

> Each district judge should periodically review his docket to determine the status of all cases which have been pending three years or more. At the end of June each year, each district judge should review his docket and report, in writing, to the chief judges of the district and circuit, with a copy to the Administrative Office, the reason each such case has been pending for more than three years, its current status, and the prospects for closing it. (Conference Report, page 7)

In order to facilitate compliance with the resolution, special listings of civil cases pending three years or more on June 30, 1981 were prepared and transmitted to each judge. Similar listings will be forwarded to the respective judges on an annual basis.

The number of civil cases pending three years or more in the district courts (excluding land condemnation cases) declined to 15,275 cases as of June 30, 1981, a drop of 25.8 percent from the all-time high of 20,592 cases pending on June 30, 1980. The bulk of this decline was in Massachusetts, where three-year old cases dropped from 5,361 in 1980 to 1,673 in 1981. Despite this reduction, the 15,275 cases pending three years or more on June 30, 1981 is still 107.7 percent greater than in 1974. Cases pending three years or more now represent 8.4 percent of the total civil pending caseload, down from a high of 11.7 percent last year. A comparison of the age of civil cases pending for each of the twelve month periods ended June 30, 1961 through 1981 is shown in Table 38.

The largest reduction in civil cases pending three years or more was in interstate commerce cases, which dropped from 4,448 in 1980 to 747 in 1981. Other case types declining substantially include airplane personal injury suits (down 36.7 percent) and antitrust cases (down 10.1 percent). The most significant increase was in miscellaneous personal injury cases, which rose from 955 in 1980 to 1,096 in 1981. Table 39 summarizes, by jurisdiction and nature of suit, civil cases pending three years or more as of June 30, 1981.

The district with the largest number of civil cases (excluding land condemnation) pending three years or more is Massachusetts with 1,673, or 11.0 percent of all such cases pending in the district courts on June 30, 1981. These 1,673 cases represent 26.3 percent of the total pending caseload (excluding land condemnation) in the district. Even so, this represents a significant reduction from the 5,361 such cases pending only a year ago. The district with the smallest comparable percentage is Tennessee, Eastern, where only one such case was pending on June 30, 1981. Appendix Tables C-6A and C-6B provide more detailed data on civil cases pending three years or more as of June 30, 1981.

Transfer of Cases Under Title 28 U.S.C. Section 1407

The Judicial Panel on Multidistrict Litigation transferred 960 civil actions, which were originally filed in 86 different district courts, during the twelve month period ended June 30, 1981. These actions were transferred to 22 transferee district courts for inclusion in coordinated or consolidated pretrial proceedings with 285 actions already pending in the transferee districts. In the previous year, there were 1,260 civil cases transferred from 89 different district courts. These actions were transferred to 21 transferee districts for the purpose of coordinated or consolidated pretrial proceedings with 166 actions already pending in the transferee districts.

The district judges to whom actions have been assigned by the Panel have the responsibility of conducting coordinated or consolidated pretrial proceedings in those actions. Unless an action is closed in the transferee court or ordered transferred by the assigned judge (Title 28 U.S.C. Sections 1404(a) or 1406) each action will, at the conclusion of the coordinated or consolidated pretrial proceedings, be remanded by the Panel to the district from which the action was transferred for trial and any other appropriate proceedings.

The Multidistrict Litigation Act (P.L 90-296), approved April 29, 1968, established Title 28 U.S.C. Section 1407 and the Multidistrict Litigation Panel. Since that time, multidistrict dockets have included 6,925 transfers of civil actions and 3,485 civil actions originally filed in the districts receiving the transfers. Thus, 10,410 cases have been part of Section 1407 pretrial proceedings in the 62 different transferee district courts from 1968 through June 30, 1981. To date, 6,027 actions have been terminated by the transferee courts or reassigned to transferor judges within the transferee courts and 1,773 actions have been remanded by the Panel.

The caseload in the transferee districts as of June 30, 1981 reveals that the 2,610 pending actions are distributed throughout 144 dockets. To date, 3,763 actions in those dockets have been terminated by the transferee courts or remanded by the Panel. In 158 other dockets that are completely closed, there have been 4,037 actions terminated. In addition, 1,582 actions in 166 groups of multidistrict litigation have been docketed by the Panel, but have not been centralized under Title 28 U.S.C. Section 1407.

Tables 40 and 41 provide statistics on the number of cases transferred since the Panel was created, and the flow of cases into and out of individual districts for the twelve month period ended June 30, 1978 and cumulative since 1968. Information on specific cases transferred can be obtained by writing the Judicial Panel on Multidistrict Litigation.

Table 40
Cumulative Summary of Actions Subjected to
Title 28 U.S.C. Section 1407 Proceedings, 1968 through 1981

Actions	Adjusted As of July 1, 1980	1981	As of June 30, 1981
Transferred	5,965	960	6,925
Originally Filed in Transferee Districts	3,200	285	3,485
Total Subjected to Section 1407 Proceedings	9,165	1,245	10,410
Terminated by Transferee Courts or Remanded by the Panel	(6,457)	(1,343)	(7,800)*
Total Presently Pending and Subjected to Section 1407 Proceedings	2,708	-	2,610

* Includes a total of 1,773 actions which have been remanded by the Panel and 46 actions reassigned to transferor judges within the transferee districts.

* Cumulative figures include six cases transferred from the Eastern District of Illinois which existed prior to April 1, 1979.

CRIMINAL WORKLOAD

The criminal workload in the U.S. district courts showed a significant increase during the twelve month period ended June 30, 1981. The number of criminal cases filed (exclusive of transfers) increased by 8.5 percent, from 27,968 cases in 1980 to 30,355 this year. This was the first increase recorded in filings since 1977. Case terminations also increased for the first time since 1977, as 30,221 cases were terminated, 3.2 percent more than the 29,297 dispositions reported last year. The substantial increase in filings combined with a smaller rise in terminations resulted in the first increase in the pending caseload since 1972. There were 15,850 cases pending on June 30, 1981, 7.4 percent more than the 14,759 cases pending on June 30, 1980. Table 42 presents an overview of the criminal caseflow since 1955.

Table 42
Criminal Cases Commenced, Terminated and Pending
In the District Courts
During the Twelve Month Periods Ended June 30, 1955 through 1981

Year	Pending July 1	Total filed		Total terminated	Pending June 30
		Original proceedings	Received by transfer

Percent Change 1981 over 1980	-2.4	8.5	-2.2	3.2	7.4

Appendix Table D-1 provides the number of filings, terminations, and pending cases (inclusive of transfers) by offense levels in each of the 95 district courts during 1981. The offense levels are defined as:

Felony offense - A criminal offense punishable by imprisonment for a term exceeding one year (Title 18 U.S.C. Section 1).

Misdemeanor offense - A criminal offense punishable by imprisonment for a term not exceeding one year without regard to the fine amount involved (Title 18 U.S.C. Section 3401).

Petty offense - A criminal offense punishable by imprisonment for a term not exceeding six months or a fine of not more than $500 or both (Title 18 U.S.C. Section 1(3)).

Offense Classification for Criminal Filings

Criminal cases are classified by the Administrative Office on the basis of the offense which carries the highest possible penalty at conviction. If several offenses are involved and carry the same penalty, the crime against person would take priority over the crime against property. All attempts (except attempted homicide, which is classified as assault) are classified as substantive offenses, as are all conspiracies, aiding and abetting, and accessory crimes. Appendix Tables D-2 and D-3 were developed using these classification standards.

Criminal Filings by Major Offense

During the twelve month period ended June 30, 1981, criminal case filings (exclusive of transfers) increased from 27,968 to 30,355, or 8.5 percent. Increases in 11 of the 15 major offense categories contributed to the overall rise in filings this year. Appendix Table D-2 provides the number of defendants and cases filed in 1981 by offense categories. Table 43 highlights the change in case filings during 1981 by the type of offense. Prosecutions for homicide; liquor, Internal Revenue; DAPCA; and embezzlement increased by more than 15 percent in 1981.

Table 43
Criminal Cases Filed by Nature of Offense (Excludes Transfers)

1 See text for information regarding this table.
2 Any offense punishable by death or imprisonment for a term exceeding one year (Title 18 U.S.C. Section 1).
3 Includes escape from custody, aiding and abetting an escape, failure to appear in court, and bail jumping.
4 These are principally cases removed from State Courts under provisions of the Civil Rights Act, (Title 28 U.S.C. Section 1443).
NOTE: Percent change computed on 25 or more.

Within homicide, case filings for second degree murder increased by 68.0 percent, from 25 cases in 1980 to 42 cases this year. Under the Federal statutes, prosecutions for antitrust violations rose by 110.3 percent from 39 cases to 82 this year. The substantial increase in antitrust cases was the result of prosecutions initiated in several districts by the Justice Department, regarding collusion among bidders for federal highway construction. Also, within the Federal statutes classification, contempt case filings rose from 40 to 76 cases, or 90.0 percent, and cases involving agricultural acts rose from 300 to 490, or 63.3 percent. The increase in the Drug Abuse Prevention and Control Act (DAPCA) cases was primarily the result of a substantial rise in marihuana prosecutions, which rose from 675 to 1,189 cases, a 76.1 percent increase. Under Miscellaneous General Offenses, prosecutions for weapons and firearms violations showed the largest percentage increase, 40.3 percent, or from 931 cases in 1980 to 1,306 this year. This reversed the trend of the previous two years in which filings for weapons and firearms violations decreased appreciably, with a 23.0 and 60.7 percent decrease in 1980 and 1979, respectively. Bribery prosecutions rose by 27.2 percent from 136 to 173 cases this year. Case filings for drunk driving and traffic violations continued to increase, with a 13.8 percent rise this year.

Only 4 of the 15 major offense categories showed a decrease in case filings. These were:

Offense Category	Case Filings 1980	Case Filings 1981	Percent Decrease
Auto Theft	381	305	-19.9
Burglary	151	125	-17.2
Forgery and Counterfeiting	2,124	1,810	-14.8
Larceny and Theft	3,033	3,030	-0.1

Criminal Cases by Type of Proceedings

There are 11 types of proceedings by which criminal cases are commenced in U.S. district courts. Appendix Table D-2 provides the number of cases and defendants, by offense levels, according to these proceedings for 1981. Table 44 provides data for all cases and for felony cases only, for 1978 through 1981.

2 This data was not separately recorded prior to August 1979.
NOTE: Percent change computed for 25 or more cases.

With the national upswing in case filings in 1981, several of the proceedings increased for the first time in several years. Proceedings by indictment, the most common method to commence a criminal case, increased 4.3 percent from 16,522 in 1980 to 17,235 this year. Cases that were commenced by information, when the indictment was waived by the defendant, increased by 4.0 percent from 470 cases last year to 489 this year. These two proceedings accounted for 58.4 percent of all cases commenced and for 86.1 percent of all felony cases filed.

There was a 10.9 percent increase in cases brought to the court by information. The 10,034 cases filed by information comprised 33.1 percent of all cases, a slight increase over the proportion last year when informations accounted for 32.4 percent of the criminal caseload in U.S. district courts.

Cases commenced on consent before magistrates increased by 41.5 percent this year from 1,464 cases to 2,071. There was also a significant increase, 31.4 percent, in this type of proceeding during 1980. The Magistrates Act of 1979, which enlarged the jurisdiction of the U.S. magistrates to include all misdemeanors regardless of the amount of the fine involved, appears to be influencing the number of cases commenced by consent before the U.S. magistrates. Proportionately, cases commenced by consent before a magistrate have increased from 3.5 percent of the total criminal caseload in 1979 to 6.8 percent this year.

Filings by District

Table 45 provides criminal cases filed, terminated, and pending in each of the 95 district courts for 1981. Fifty-eight districts reported increases in case filings this year. Of these, 11 districts reported increases of more than 30 percent. These districts were:

District	Case Filings 1980	Case Filings 1981	Percent Increase
Arkansas, Western	73	140	91.8
Vermont	43	75	74.4
Michigan, Western	79	127	60.8
Mississippi, Northern	37	57	54.1
Pennsylvania, Middle	119	183	53.8
Mississippi, Southern	83	124	49.4
Rhode Island	56	82	46.4
Connecticut	155	211	36.1
Illinois, Central	122	166	36.1
Wisconsin, Eastern	116	157	31.9
Nevada	153	201	31.4

Several of these districts had substantial increases in filings for fraud offenses. The Middle District of Pennsylvania had 41 additional filings; Illinois, Central had 24 additional filings; and Wisconsin, Eastern had 18 additional filings for fraud. In Arkansas, Western there was a significant rise in larceny cases (31 additional filings), while in the other districts, the increase in case filings was generally spread across various offense groups.

While 37 districts recorded a decline in case filings, four districts had decreases greater than 30 percent.

District	Case Filings 1980	Case Filings 1981	Percent Decrease
Canal Zone	78	13	-83.3
Louisiana, Middle	73	33	-54.8
Delaware	84	51	-39.3
Tennessee, Eastern	167	110	-34.1

In the Canal Zone, the caseload has consistently decreased due to the Panama Canal Treaty of 1977 and the passage of the Panama Canal Act of 1979 (P.L. 96-70). The Act reduced the jurisdiction of the district court allowing only the filing of criminal informations against U.S. citizens until the court is phased out on June 30, 1982.

The 54.8 percent decrease in Louisiana, Middle was caused by a substantial decline in cases filed under migratory bird laws. Three cases were filed for migratory bird laws in Louisiana, Middle this year compared to 35 cases last year. In Delaware, 25 fewer fraud cases and ten fewer larceny cases contributed largely to the decrease in filings. Tennessee, Eastern had 28 fewer filings for auto theft, along with decreases in a number of other offense groups.

Appendix Table D-3 (cases) provides data on the number of cases commenced by district and by offense groups for the twelve month period ended June 30, 1981. Appendix Table D-3 (defendants) indicates the number of defendants by district and offense group.

Case Terminations by District

Nationally, criminal case terminations increased by 3.2 percent during the twelve month period ended June 30, 1981. Forty-nine districts recorded increases in the number of cases terminated this year. Of these districts, 13 had increases that exceeded 30 percent.

District	Case Terminations 1980	Case Terminations 1981	Percent Increase
Arkansas, Western	74	138	86.5
Mississippi, Northern	34	61	79.4
Vermont	35	61	74.3
Louisiana, Middle	41	66	61.0
Connecticut	130	190	46.2
Montana	116	167	44.0
Florida, Southern	478	683	42.9
Pennsylvania, Middle	97	135	39.2
Illinois, Southern	106	144	35.8
Ohio, Southern	184	247	34.2
New Mexico	181	240	32.6
North Carolina, Eastern	326	431	32.2
Tennessee, Middle	217	286	31.8

Forty-six districts reported decreases in case terminations. There were four districts with declines greater than 30 percent.

Disposition of Defendants

There were 38,127 defendants disposed of during the twelve month period ended June 30, 1981. This was a 4.3 percent increase over the 36,560 disposed of during the same period last year. Table 46 summarizes the disposition of criminal defendants during 1980 and 1981.

Average Term	33.1	31.7	-

[1] Includes Federal Juvenile Delinquency Act Sentences.
[2] Youth Correction Act and youth offenders.

This year, 29,868 defendants, or 78.3 percent, were convicted and sentenced. This conviction rate is slightly higher than the 78.2 percent conviction rate last year. More than 80 percent (24,322) of the convicted defendants pled guilty or nolo contendere; 6.3 percent (1,867) of the defendants were convicted after court trial; and 12.3 percent (3,679) were convicted after jury trial. Defendants not convicted totaled 8,259, with 6,981 dismissed and 1,278 acquitted by court or jury trial.

Of the 29,868 defendants convicted, 8,908 defendants, or 29.8 percent were sentenced to regular imprisonment terms. The average sentence of imprisonment was 55.3 months, which is 3.4 months higher than the average sentence last year. A term of probation was imposed on 12,173 defendants, or 40.8 percent of those convicted. The average probation term was 31.7 months, a decrease of 1.4 months from last year's average. There were 4,792 defendants sentenced under special statutes, including split sentences (3,069 defendants), indeterminate sentences (1,232); and Youth Corrections Act or youth offender sentences (491).

Disposition by Offense

Appendix Tables D-4 and D-5 provide data on disposition and sentence by nature of offense. Violations under the Drug Abuse Prevention and Control Act (DAPCA) accounted for 7,008 defendants, or 18.4 percent of all defendants disposed of in 1980. Within the DAPCA classification, the proportion of marihuana dispositions, as compared to narcotic drugs and controlled substances, increased substantially this year. Marihuana dispositions accounted for 34.1 percent of all drug offenders this year compared to 26.6 percent last year; narcotic drug dispositions accounted for 44.5 percent this year compared to 51.9 percent last year.

Dispositions for fraud offenses totaled 5,712, with most of these in income tax fraud (1,436); postal fraud (1,386); and false claims and statements (846). Drunk driving and other traffic violations accounted for 4,899 of all defendants terminated this year.

The conviction rate for defendants charged under DAPCA was 76.3 percent. The majority of those convicted received regular imprisonment terms, with an average sentence of 55.5 months. The conviction rate for fraud offenses was 81.5 percent. Of those convicted for fraud, more than 22 percent were sentenced to regular imprisonment and the average sentence was 33.2 months. Drunk driving and traffic violations had a 74.1 percent conviction rate, and close to 92 percent of the convictions resulted in fines or probation.

Disposition by District

The number of defendants terminated by the type of disposition and sentence in each of the U.S. district courts appears in Appendix Table D-7.

The greatest number of defendants disposed of by a district was 1,827 reported by Texas, Southern. This district also reported the largest number of dispositions (1,643) last year. Other districts disposing of more than 1,400 defendants during the twelve month period ended June 30, 1981 were: Florida, Southern (1,680); California, Central (1,574); Virginia, Eastern (1,509); and Hawaii (1,412).

Florida, Southern and New York, Southern sentenced 650 and 340 defendants, respectively, to regular imprisonment terms. These statistics are the largest numbers reported this year. The highest average sentence imposed for regular imprisonment was 94.5 months in Pennsylvania, Western. The district court with the next highest average was 91.0 months in Illinois, Northern. (Statistics on regular imprisonment sentences exclude split sentences, indeterminate sentences, Youth Corrections Act and youth offenders sentences).

Median Time from Filing to Disposition

Appendix Table D-6 presents the median time interval from the filing to the disposition of criminal defendants in each of the 95 districts during the twelve month period ended June 30, 1981. The median time interval is the middle time value where one-half of the defendants had cases disposed of in greater time than the median, and one-half had cases disposed of in less time than the median. The time intervals are computed from filing to disposition, including conviction, acquittal, and dismissal. For convicted defendants, the interval covers all time through sentencing, including time for observation and study.

The overall median time from filing to disposition for the 38,127 defendants terminated during 1981 was 3.2 months. This median matches exactly the 3.2 month median time interval for the 36,560 defendants terminated in 1980. The median time for court trial decreased slightly from 2.0 months in 1980 to 1.9 months this year, while the median time for jury trials increased from 4.7 to 5.1 months this year.

The lowest median time interval in a district was 0.6 months in Georgia, Middle. This district has had the lowest median time since 1978 with a 0.6 month median time each year. The Eastern District of Virginia recorded a 0.9 month median, the second lowest interval for criminal case dispositions in the U.S. district courts.

Pending Cases by District

To measure the change in pending cases, a one-day count of the number of cases pending on June 30, 1981 is compared to a count of the number pending on the same day of the previous year. On June 30, 1981, there were 58 districts which showed an increase in their pending caseload over last year. Comparatively, there were 50 districts that recorded a rise in their pending caseload in 1980, and only 26 that showed an increase in 1979.

Ten districts had increases of more than 30 percent in their pending caseload. These districts were:

District	Cases Pending		Percent Increase
	1980	1981	
Georgia, Southern	34	73	114.7
Mississippi, Southern	41	75	82.9
Pennsylvania, Middle	76	121	59.2
Pennsylvania, Eastern	163	257	57.7
Missouri, Western	117	181	54.7
Alabama, Middle	47	72	53.2
Washington, Eastern	36	53	47.2
Kentucky, Western	89	125	40.4
Indiana, Southern	58	81	39.7
Nevada	107	141	31.8

In Georgia, Southern, there were 26 additional cases pending for traffic violations on June 30 this year. The Western District of Missouri had a substantial rise of 77 pending cases involving traffic offenses. The Middle District of Pennsylvania had 44 additional cases pending for fraud offenses; Pennsylvania, Eastern had 44 additional cases pending for contempt; and Kentucky, Western had 28 additional cases pending for marihuana.

Thirty-five districts showed fewer pending cases this year, and two districts showed no change. Seven districts recorded a decrease in pending cases of more than 25 percent.

District	Cases Pending 1980	Cases Pending 1981	Percent Decrease
Louisiana, Middle	54	20	-63.0
Illinois, Southern	37	20	-45.9
North Carolina, Middle	51	31	-39.2
Oklahoma, Northern	36	23	-36.1
Wyoming	29	20	-31.0
Guam	33	24	-27.3
Utah	82	60	-26.8

The reduction in Louisiana, Middle resulted from the district terminating nearly all the migratory bird law cases that were pending on June 30, 1980.

Pending Cases by Offense

The pending criminal caseload showed an increase this year, reflecting the large rise in case filings without a comparable rise in terminations. There were 15,850 cases pending on June 30, 1981 in U.S. district courts, 7.4 percent more than the 14,759 cases pending last year. Table 47 provides the pending caseload by offense on June 30, 1975 through 1981. This year, an increase in pending cases occurred in most of the major offense groups.

Table 47
Criminal Cases Pending June 30, By Nature of Offense*
During the Twelve Month Period Ended June 30, 1975 through 1981

Nature of Offense	1975	1976	1977	1978	1979	1980	1981
Total	22,411	19,756	17,150	15,847	15,124	14,759	15,850
Homicide	61	56	67	56	70	57	80
Robbery	969	780	708	557	460	484	603
Assault	364	263	248	229	223	228	200

Larceny and Theft	1,851	1,441	2,382	1,166	1,038	1,054	1,124
Embezzlement	599	542	516	576	473	548	564
Fraud	2,166	2,176	2,355	2,250	2,229	2,283	2,460
Auto Theft	576	521	390	305	212	214	179
Forgery and Counterfeiting	1,970	1,569	1,665	1,562	1,245	1,062	942
Narcotics Laws	4,911	4,620	4,121	3,768	3,676	3,733	3,996
Miscellaneous General Offenses	4,003	3,778	3,914	3,672	3,517	3,320	3,793
Weapons and Firearms	1,443	1,124	1,154	1,212	623	612	752
Other Miscellaneous General Offenses	2,560	2,654	2,760	2,460	2,894	2,708	3,041
Immigration Laws	602	517	569	706	783	818	874
Liquor, Internal Revenue	83	49	48	22	8	9	9
Federal Statutes	4,032	3,248	1,056	917	1,129	882	966

* All offenses.

Over the past several years, the number of narcotic drug law cases pending on June 30 have been decreasing, but have remained the largest proportion of pending cases each year. During 1981, narcotic drug law cases, again, accounted for the largest number of pending cases (3,996 cases or 25.2 percent of the total pending caseload); and unlike previous years, pending drug cases showed a 7.0 percent increase in pending cases over the number pending last year.

Cases involving fraud offenses accounted for 15.5 percent (2,460 cases) of the pending caseload on June 30, 1981. Pending fraud cases have generally been increasing over the years and this year was no exception. Pending fraud cases increased by 7.8 percent this year, as compared to a 2.4 percent increase last year.

Larceny and theft cases, which totaled 1,124 pending cases, increased by 6.1 percent this year. Substantial increases occurred in robbery and in weapons and firearms, each of which accounted for more than 600 pending cases. These categories increased by 24.6 percent and 22.9 percent, respectively.

Four of the offense groups showed a decrease in pending cases: assault, burglary, forgery and counterfeiting, and auto theft cases. Except for assault, these offenses also showed a decrease in case filings this year.

The pending caseload in each of the district courts on June 30, 1981 is presented in Appendix Table D-8 by the type of offense.

Status of Pending Defendants

On June 30, 1981, there were 22,570 criminal defendants pending in U.S. district courts, 6.7 percent more than the 21,150 pending on June 30, 1980. The status of the 22,570 defendants pending on June 30, 1981 were:

22,570 - Total
9,031 - triable defendants;
9,223 - non-triable fugitive defendants;
300 - other non-triable defendants;
3,503 - tried defendants; and
513 - defendants that could not be classified under an excludable delay or other status category.

This year, the classification into triable and non-triable categories has been changed in order to consider defendants in certain excludable delay categories as triable. Tables 50 and 51 in the Speedy Trial section of this report indicate the new classification of excludable delay and other status categories for pending defendants.

Appendix Table D-9 provides all triable pending defendants by offense and by district. The criminal defendants pending on June 30, 1981 by triable, non-triable, and tried status are provided in Appendix Table D-10. Data from these tables cannot be compared to data in the Appendix Tables D-9 and D-10 from previous years because of the change in classification of triable and non-triable defendants. Table 50 provides comparable status information for the years 1977 through 1981.

See the Speedy Trial section of this report for detail information on the status of defendants pending on June 30, 1981.

IMPLEMENTATION OF THE SPEEDY TRIAL ACT

Introduction

The Speedy Trial Act of 1974 (Title 18 U.S.C. Section 3161-3174) was implemented July 1, 1976. During the first three transitional years, separate reports were published and submitted to the Congress. Comprehensive data on the first three years were published on February 29, 1980. The last report covering the twelve month period ended June 30, 1980 provided a summary of the major provisions of the amendments of August 2, 1979 (P. L. 96-43) to Title I of the Speedy Trial Act.

The major amendments did the following:

- postponed to July 1, 1980 (the beginning date of this report) the date when criminal cases could be dismissed when a defendant was not tried within 100 days of arrest;

- established the 30 day period from arrest to indictment as the first Speedy Trial interval and merged the former ten day indictment to arraignment interval with the 60 day arraignment to trial interval, which became a 70 day interval. The total arrest to trial interval remained 100 days, excluding all applicable reasons for delay provided by the Act and its amendments (Title 18 U.S.C. Section 3161 (b)(c)(1));

- provided that all defendants have a minimum period of 30 days to prepare for trial (Title 18 U.S.C. Section 3162 (c)(2));

- added two new types of excludable delay. These are:

  - transportation between district courts or for examination or hospitalization (Title 18 U.S.C. Section 3161 (h)(1)(H)); and

  - consideration by the court of a proposed plea agreement (Title 18 U.S.C. Section 3161(h)(1)(I)).

- expanded the category of excludable delay under "ends of justice" by providing four reasons:

  - failure to grant continuance would stop further proceedings or result in miscarriage of justice (Title 18 U.S.C. Section 3161(h)(8)(B)(i));

  - unusual or complex case (Title 18 U.S.C. Section 3161(h)(8)(B)(ii));

  - indictment following arrest which for some reason cannot be filed within 30 days (Title 18 U.S.C. Section 3161(h)(8)(B)(iii)); and

  - continuance granted in order to obtain or substitute counsel, or give counsel reasonable time to prepare the case (Title 18 U.S.C. Section 3161(h)(8)(B)(iv)).

- expanded excludable time for motions to include all time from filing of a motion to the hearing or disposition of the motion (Title 18 U.S.C. Section 3161(h)(1)(F));

- made permanent the 90 day limit to try high risk defendants on release and awaiting trial and those held in custody awaiting trial. It further provided that excludable delays applied to both high risk defendants and defendants detained in custody (Title 18 U.S.C. Section 3164));

- extended the time for retrials from 60 to 70 days with provision that excludable delays did not apply. Further, for cases returned for retrial after an appeal, a 70 day time limit was provided. In either case, if the court determined that the 70 day period was impractical, the court retrying the case could extend the time period not to exceed 180 days (Title 18 U.S.C Section 3161(e));

- allowed circuit judicial councils at the request of the chief district judge to grant suspensions of the Speedy Trial time limits for up to one year (Title 18 U.S.C. Section 3174(a)). Previously, only the Judicial Conference of the United States could approve such suspensions;

- allowed the chief judge of a district court to suspend the Speedy Trial time limits for a period not to exceed 30 days if it is determined that there is "a great urgency." Within ten days of the entry of such an order, the chief judge must apply for the suspension (Title 18 U.S.C. Section 3174(e)); and

- determined that Congressional approval would be required for a second suspension of the Speedy Trial time limits. Prior to the amendment, the U.S. Judicial Conference could grant a second suspension which would remain in effect unless Congress decided to the contrary (Title 18 U.S.C. Section 3174(d)(2)).

Adoption of the Speedy Trial Time Intervals and Dismissal Sanctions

Of the 95 U.S. district courts, three were granted a suspension of the time intervals of the Speedy Trial Act. The three districts were the Western District of Tennessee, which was a granted a suspension by the Sixth Circuit Judicial Council for the period July 1, 1980 through June 30, 1981; the Eastern District of New York, which was granted two six-month suspensions by the Second Circuit Judicial Council to July 1, 1981; and the Eastern District of North Carolina which was granted a suspension by the Fourth Circuit Judicial Council from December 1, 1980 through May 31, 1981. The remaining 92 districts adopted in their plans submitted in 1980 the 30 day time period for the first interval and the 70 day time period for the second interval, exclusive of applicable excludable reasons for delay.

Beginning September 1980, clerks of the U.S. district courts were requested to report to the Administrative Office all defendants whose cases were dismissed pursuant to Title 18 U.S.C. Section 3162(a). During the ten month period ended June 30, 1981, a total of 19 defendants had their cases dismissed pursuant to this section. Only three of these defendants had their case dismissed because the net time was greater than 30 days in the first interval. Cases against the remaining 16 defendants were dismissed when their second Speedy Trial interval was greater than 70 days.

Nine defendants had their cases dismissed without prejudice; five were dismissed with prejudice; and for five defendants neither was indicated. Three of the latter were defendants dismissed in the Northern District of Illinois, where the government is appealing the dismissals to the Seventh Circuit Court of Appeals. Also, the Districts of Florida, Middle and South Carolina dismissed three defendants each under Title 18 U.S.C. Section 3162(a). Montana dismissed two defendants. Districts with one dismissal each were: District of Columbia; Florida, Southern; Kansas; Massachusetts; New York, Western; Pennsylvania, Eastern; Washington, Eastern; and West Virginia, Northern.

The U.S. district courts disposed of 30,500 defendants during the ten month time period, September 1980 through June 1981. Of these, 5,500 were dismissals. The 19 dismissals under Section 3162(a) amounted to 0.06 percent of all dispositions and 0.3 percent of dismissals for this time period.

No sanctions were imposed against U.S. attorneys or against counsel for the defense in any of the 19 dismissals under provisions of Title 18 U.S.C. Section 3162(a).

Status of the Criminal Docket on June 30, 1981

This year the number of criminal cases pending on June 30 increased by 7.4 percent over 1980. Defendants in these same cases increased by 6.7 percent. This reversed a downward trend which commenced in 1976 when there were 27,770 defendants pending on June 30. Even with the increase this year, the number of defendants was 5,200 fewer or 18.7 percent less than the 27,770 defendants in pending criminal cases on June 30, 1976, the first year of the three year transition period. Criminal cases and defendants pending on the criminal dockets of the district courts on June 30, 1975 through 1981 are provided in Table 48. Since June 30, 1975, the day preceding the implementation of the Speedy Trial Act, all but 16 districts showed reductions in the number of criminal defendants pending as of June 30, 1981. Some of the districts with increases were those with prosecutions of assimilated state offenses committed on Federal military bases or national parks.

As shown in Table 49, 7,466 defendants who were available for trial or final plea on June 30, 1981, accounted for 33.1 percent of the pending defendants compared to 34.2 percent in 1980.

* Available for final plea or trial by judge or jury.

Table 50 presents for each year ended June 30, 1977 through 1981, the status of all defendants pending in criminal cases. Table 51 provides data on how long defendants had been pending as of June 30, 1981 and their status as of that date.

The 6.7 percent increase in the number of criminal defendants pending on June 30, 1981 over the same day in 1980 can be attributed to a rise in drug law prosecutions, a group with over half being fugitives from justice. In 1981, drug law violators pending in the district courts increased 8.8 percent over 1980 with a corresponding increase in drug law fugitives (8.6 percent) over 1980.

Time Intervals from Arrest to Indictment, Indictment to Trial and Conviction to Sentencing

Overall, the 95 district courts improved the net time for processing a defendant within both the first and second Speedy Trial intervals. The improvement over last year appears below.

Year Ended June 30	First Interval			Second Interval		
	Total Defendants Terminated	Arrest to Indictment 30 Net Days or Less		Total Defendants Terminated	Indictment To Trial 70 Net Days or Less	
		Number	Percent		Number	Percent
1980	13,193	11,977	90.8	32,019	28,264	88.3
1981	14,773	13,913	94.2	35,358	33,040	93.4

In 1981, 94.2 percent of the defendants were brought to indictment within 30 days compared to 90.8 percent in 1980. In the second interval, 93.4 percent of the defendants were brought to trial, dismissal, or plea in 70 days or less compared to 88.3 percent in 1980.

Interval One - Time Period from Arrest to Indictment or Information

Table 53 provides for each district, the number and percentage of terminated defendants who were indicted in 30 days or less (net time) during the twelve month period ended June 30, 1981. The table is divided between defendants arrested prior to July 1, 1980 and those arrested during the current year. For those arrested prior to July 1, 1980, 49 districts had 100.0 percent compliance with the 30 day time limit exclusive of applicable reasons for delay. Another 23 districts had compliance rates of 90.0 percent or better for the first interval.

For defendants arrested during the year ended June 30, 1981, 96.8 percent of 10,570 defendants were indicted or had an information filed in 30 days or less. For this time period 48 districts showed 100.0 percent compliance with the first interval. Another 39 districts had compliance rates of 90.0 percent or better for the first interval.

Interval Two - Interval from Indictment or First Appearance to Trial (Including dismissal, plea, or acquittal)

Table 54 provides the compliance rate for the second Speedy Trial time interval of 70 days from indictment to trial. These rates ranged from a low of 53.4 percent for one district to 100.0 percent for 21 districts. The nationwide compliance rate was 93.4 percent. A total of 77 districts achieved a compliance rate of 90 percent or more including those with 100.0 percent. In 1980, 7 of the 95 districts achieved full compliance with 55 districts recording compliance rates of 90.0 percent or more.

For defendants who entered the second Speedy Trial interval during the current year 90 of the districts had a 90.0 percent or better compliance rate compared to 74 of the districts in 1980.

	Defendants without excludable time	35,884	31,286	26,649	20,829	21,420
	All defendants terminated[4]	46,897	41,404	36,818	32,589	35,371

1 Paragraph and subsection of Title 18 U.S.C. Section 3161, Speedy Trial Act of 1974, as amended, are shown with reason for delay below. Special statistical codes are used by the district courts to identify excludable delay.
2 An exclusion category newly created or modified by August 1979 amendment.
3 Ends of Justice continuance, per 3161 (h)(8).
4 DEFENDANT FIGURES DO NOT INCLUDE: Juveniles, Appeals from U.S. Magistrate decisions, Rule 20 transfers out of district, pretrial diversion dispositions, removals from State courts, and any petty offenses.

Interval Three - Time Interval Between Conviction and Sentence

The Speedy Trial Act sets forth no mandate on the time limit between conviction and sentence. However, the Committee on the Administration of the Criminal Law of the Judicial Conference of the United States recommended in 1976 a 45 day standard time limit. This time limit can be compared to the elapsed time between conviction and sentence reported by the district courts. This data appears in Table 55.

In 1981, there were 21,977 or 75.1 percent of the 29,272 convicted defendants sentenced in 45 days or less. This can be compared to 74.6 percent in 1980.

In 1981, one district sentenced all its convicted defendants in 45 days or less. Nineteen other districts sentenced 90.0 percent or more of the defendants in 45 days or less. In 1980, two districts sentenced all defendants in 45 days or less and 22 others sentenced 90.0 percent or more of the defendants in 45 days or less.

Excludable reasons for delay do not apply to the time period between the date of conviction and sentence. Therefore, included in the computations are defendants who were sentenced following a period of observation and study, those who jumped bail and were sentenced following apprehension, and those who appealed their convictions, thereby delaying sentence.

Incidences and Reasons for Delay

Of the 35,371 defendants terminated in 1981, there were 13,951 defendants or 39.4 percent reported to have one or more excludable delay periods applied during the first or second Speedy Trial Intervals. The number of defendants with excludable delays in 1981 was the largest on record as shown in Table 56.

As shown in Table 57, most (94.3 percent) of the Speedy Trial excludable time periods were applied to the second interval.

Table 57
U.S. District Courts
Speedy Trial Interval in Which Excludable Delay Occurred
During July 1, 1976 through June 30, 1981

Speedy Trial Interval in which excludable delay occurred	July 1, 1976 through June 30, 1977	July 1, 1977 through June 30, 1978	July 1, 1978 through June 30, 1979	July 1, 1979 through June 30, 1980	July 1, 1980 through June 30, 1981
Total incidence of excludable delay	15,318	14,300	14,561	17,516	21,980
Arrest to indictment	4.2%	4.0%	3.8%	5.2%	5.7%
Indictment to arraignment	20.1%	14.9%	10.0%	94.8%*	94.3%
Arraignment to trial	75.7%	81.1%	86.3%		

* Former intervals, indictment to arraignment and arraignment to trial, combined pursuant to August 2, 1979 amendments to the Speedy Trial Act of 1974.

Table 58 shows that the proportion of excludable delay in the 1 to 10 day range and the 121 days and over range was slightly lower this year. There were proportionately more incidences of delay between 22 and 84 days. There was a slight increase in incidences of delay per defendant up to 1.6 compared to 1.5 last year and 1.4 in the previous three years.

Table 58
U.S. Distrtict Courts
Percentage of Excludable Delay Reported For Defendants Terminated
During July 1, 1976 through June 30, 1981

Length of Excludable Delay	July 1, 1976 through June 30, 1977	July 1, 1977 through June 30, 1978	July 1, 1978 through June 30, 1979	July 1, 1979 through June 30, 1980	July 1, 1980 through June 30, 1981
Total incidence of excludable delay.....	15,318	14,360	14,561	17,516	21,980
	Percentage of incidence of Excludable Delay				
1 to 10 days	47.4	47.4	42.5	31.4	28.2
11 to 21 days	11.3	10.9	11.1	15.7	15.9
22 to 42 days	18.1	17.1	18.7	21.4	23.1
43 to 84 days	10.4	11.4	12.8	15.9	17.3
85 to 120 days	3.9	4.2	4.4	5.4	6.0
121 days and over	8.9	9.1	10.5	10.2	9.5
Number of defendants with excludable delay.....	11,013	10,118	10,169	11,760	13,951
Incidence of excludable delay per defendant	1.4	1.4	1.4	1.5	1.6

As shown in Table 59, 53.6 percent of the incidences of excludable delay was due to the time required for motions. Another 22.2 percent was due to "ends of justice" continuances granted under Title 18 U.S.C. Section 3161 (h)(8); the unavailability of a defendant or essential witness accounted for 4.8 percent. The 1,046 defendants unavailable to stand trial, as an incidence of delay, was the lowest number during the five year period and was 58.2 percent lower than the 2,503 such incidences in 1977.

Detention Prior to Dismissal, Plea or Commencement of Trial

Beginning August 2, 1979, excludable delays could be applied to the time period a defendant was confined while awaiting indictment and trial. Thus, if a defendant filed a pretrial motion, all time from the date of the filing through the disposition by a judge or magistrate would be excluded from the "custody time clock."

Custody, as used in this report, reflects detention in either a Federal correctional facility or in a local or state detention facility where payment is made by the U.S. This includes detention in metropolitan correctional centers or other correctional institutions administered by the U.S. Bureau of Prisons. No detention time includes custody on charges of state or local authorities or Federal authorities when a new federal charge has been filed.

As shown in Table 60, four of the 95 district courts reported no defendants detained in custody in 1981. Some defendants may have been detained in these jurisdictions, but with excludable delay time periods applied, time in custody resulted in zero days and therefore was not reported.

The range of defendants detained was from 0.5 percent in the Eastern District of New York to a high of 86.7 percent in the Southern District of California. The latter district prosecutes predominately immigration law violations and narcotic drug law defendants who, without detention, could flee the country and therefore would not be available for trial.

In 1981, only 293, or 3.2 percent of the 9,039 defendants placed in custody, exceeded the 90 day "custody clock." Some of these were defendants who had detention periods prior to August 2, 1979 for which the excludable delay periods were not applied. Some were held in custody for their protection, as well as to assure their court appearance. Some could not meet the bail requirements. For the border districts, non-citizen defendants were held since experience has shown that such individuals, if not held, will not generally make their court appearance.

Further comments about defendants whose cases were disposed of by plea or trial appear in the earlier discussion of the criminal workload.

WEIGHTED CASE FILINGS PER AUTHORIZED JUDGESHIP

The total number of weighted case filings per judgeship increased substantially from 358 a year ago to 396 in the year ended June 30, 1981. This increase of 10.6 percent was due almost entirely to a large increase (from 311 to 345) in civil filings per judgeship. The figures for each district can be found in Appendix Table X-1. These statistics reflect the workload for the court as a whole. The criminal figures in Appendix Table X-1A exclude all but felony cases and are a better measure of the judges' workload since they deal with misdemeanors and petty offenses only rarely. A complete discussion of the weighted caseload and its history in the federal courts can be found on pages 290 - 295 of the 1980 **Annual Report of the Director. The 1979 Federal District Court Time Study,** published by the Federal Judicial Center, describes the study which produced the weighting system currently in use.

Table 61

1981	511	345	51	396	351	58	409

Note: Territorial Courts excluded. Criminal caseloads exclude transfers.

TRIALS

Trials Completed

During the twelve month period ended June 30, 1981, judges in the district courts completed 21,239 trials, an increase of 7.1 percent over the previous high of 19,825 trials completed in 1980. For purposes of this report, a trial is defined as a contested proceeding before a court or jury in which evidence is introduced. The significant increase in the past two years in the number of trials completed can be attributed, in part, to the increase in the number of authorized judgeships from 399 to 516 as a result of the Omnibus Judgeship Act of 1978.

Table 62 is a summary of the number of trials completed, by type, during each of the twelve month periods ended June 30, 1962 through 1981. Of the 21,239 trials completed during the year, 14,697 (69.2 percent) were civil trials and 6,542 (30.8 percent) were criminal trials. Civil trials continued to increase, rising 11.4 percent, while criminal trials declined 1.4 percent from the 6,634 completed in 1980 and was 23.7 percent below the all-time high of 8,571 completed in 1973. Civil non-jury trials rose by 8.6 percent, while civil jury trials increased by more than 18 percent. Non-jury trials (both civil and criminal) comprise 61.3 percent of all trials and jury trials 38.7 percent. Appendix Table C-7 provides data, by district, on the number of civil, criminal, jury, and non-jury trials completed during the twelve month period ended June 30, 1981.

Length of Trials

As the total number of trials completed this year rose 7.1 percent, the number of long trials, those lasting four days or more, also increased, by 12.5 percent to 4,465. These long trials now comprise 21.3 percent of all trials completed, compared to only 16.6 percent in 1975. Civil trials accounted for 64.1 percent of the long trials completed this year, with trials of civil rights cases alone accounting for 12.7 percent of the total.

Trials lasting 20 days or more increased to 187 in 1981, up slightly from the 181 such trials completed in 1980. During 1981, the number of jury trials lasting 20 days or more rose 18.7 percent, while non-jury trials dropped by 29.3 percent. During the twelve month period ended June 30, 1981, jury trials comprised 78.1 percent of the 20 day or more trials, compared to 68.0 percent in 1980. Table 63 is a comparison of completed trials, by length, during each of the twelve month periods ended June 30, 1972 through 1981. Additional information on the length of trials, by type of case, is provided in Appendix Table C-8. Appendix Table C-9 lists each case which involved a completed trial lasting 20 days or more.

* Excludes trials of miscellaneous cases.

Median Time From Issue to Trial

Since 1976, the median time from issue to trial in civil cases rose slowly, from 11 months in 1976 to 15 months in 1980. In 1981, this median dropped to 14 months. For purposes of this report, the date issue is joined is defined as the date the last answer or response of the defendant is filed. The median time for jury trials was 15 months in 1981, while the median time for non-jury trials was 14 months. Table 64 provides a comparison of median time intervals for the twelve month periods ended June 30, 1962 through 1981.

The shortest median time from issue to trial during 1981 was three months recorded in Tennessee, Eastern. Other districts with short median times include Virginia, Eastern and Alabama, Middle, both with medians of five months. The longest median time from issue to trial was in Rhode Island, which recorded a median time of 37 months. Appendix Table C-10 summarizes median time intervals, by district, for the twelve month period ended June 30, 1981.

Table 64
Median Time Interval From Issue to Trial in Civil Cases,
In Which Trials Were Completed,

Percent Change 1981 over 1980	13.4	-	9.5	-	18.3	-

NOTE: Excludes the following non-jury trials: Land condemnation, forfeitures and penalty cases, prisoner petitions (habeas corpus, motions to vacate sentence under 28 USC 2255, hearings on evidentiary matters), bankruptcy petitions, and three judge court cases.

Three-Judge Court Hearings

Over the past two years, the volume of three-judge district court hearings has increased slightly but still totaled only 35 during the year ended June 30, 1981. Three-judge court hearings have dropped 83 percent since legislation was passed in June 1976 reducing requirements for designating three-judge courts.

Table 65

All Other	19	17	37	10	-	3	2

Title 28 U.S.C. Section 2284 provides that a district court of three judges shall be convened when:

1) an action is filed challenging the constitutionality of the apportionment of Congressional districts;

2) an action is filed challenging the constitutionality of the apportionment of any statewide legislative body;

3) required by special statute elsewhere in the law. Such statutes include three-judge court provisions of the Voting Rights Act of 1965 and the Civil Rights Act of 1964.

Table 66 indicates that the 35 three-judge court hearings were held in 20 districts during the year ended June 30, 1981. The District of Columbia reported ten hearings (28.6 percent of the total) and Texas, Southern reported three hearings (8.6 percent). The remaining districts reported two hearings or less.

The majority of hearings (31) were in civil rights cases. Of these, 18 were voting rights and 13 concerned other areas such as employment, penal codes and prisoner petitions, and taxation. Only one case was heard on reapportionment and another reviewed an order by the Interstate Commerce Commission.

* These cases were reported last year but further hearings have been held.

Juror Utilization

The Administrative Office receives monthly reports from all U.S. district courts on grand and petit jury management. The following information was compiled from the Grand Juror reporting form (JS-11G) and the Petit Juror reporting form (JS-11).

Data on estimated payments to jurors is not available at this time, but will appear in the fall publication of the 1981 report, **Juror Utilization in United States District Courts.**

Grand Jury

During the twelve month period ended June 30, 1981, activity increased for grand jurors across the country. Table 67 shows a 6.4 percent increase from last year in sessions convened and jurors in session, and a 7.6 percent rise in total grand jury hours. Compared to 1980, 39 additional grand juries were in existence this year, 16 more were impanelled and 20 more were discharged.

Table 67
U. S. District Courts
National Grand Juror Statistics
For the Twelve Month Periods Ended June 30, 1978 through 1981

Grand Jurors and Juries	1978	1979	1980	1981	1981 over 1980 Increase	1981 over 1980 Percent Change
Total Number of:						
Sessions Convened	8,929	9,791	10,338	10,997	659	6.4
Jurors in Session	176,459	194,168	206,627	219,860	13,233	6.4
Hours in Session	46,739	50,896	54,163	58,278	4,115	7.6
Average Number of:						
Jurors Per Session	19.8	19.8	20.0	20.0	-	-
Hours Per Session	5.23	5.20	5.24	5.30	-	-
Total Number of Grand Juries:						
In Existence	659	674	699	738	39	5.6
Impaneled	321	311	312	328	16	5.1
Discharged	295	286	288	308	20	6.9

As in previous years, the average number of jurors per session and hours per session have remained virtually unchanged.

A regular grand jury meets to investigate the probability that a specific crime was committed in a district. Its term of service is 18 months, but it may be discharged by court order at any time during that period.[1]

A special grand jury meets to study the overall picture of criminal activity in the district. Its term of service can last up to 36 months. A special grand jury generally serves as an advisory body, usually has greater discretion than a regular grand jury, and often submits a report on organized crime or the misconduct of public officials in a district.[2] The total number of grand juries in existence during the twelve month period ended June 30, 1981 increased by 5.6 percent over last year. The 699 grand juries in existence in 1980 climbed to 738 in 1981. Of these, 123 were special grand juries. Detailed information on special grand juries will be included in the 1981 report, **Juror Utilization in United States District Courts.**

Table 68 shows the number of cases commenced by indictment and the number of defendants proceeded against by indictment for 1976 through 1981. The total number of grand jury sessions convened and grand jury hours in session is also included. The actual production of the grand jury system can be measured from this table. From the nation's 10,997 grand jury sessions in 1981, 17,235 cases involving 27,367 defendants were commenced by indictment. Since 1976, the number of grand jury sessions convened has risen consistently, but until 1981 the average number of defendants indicted per session has fallen steadily. For the twelve month period ended June 30, 1981, an average of only 2.49 defendants were indicted per session compared to an average of 4.61 defendants indicted in 1976.

Appendix Tables J-1 and J-2 provide grand juror data by individual district. Table J-1 shows the number of grand juries in existence on July 1, 1980, the number impanelled, the number discharged in the twelve month period, the number in existence at the close of the twelve month period, and the total number of grand juries that were in existence at some point during the twelve month period.

2 Title 18 U.S.C. Section 3333

Table 68
U. S. District Courts
Proceedings by Indictment and Grand Jury Sessions
For the Twelve Month Periods Ended June 30, 1976 through 1981

Years	Proceedings Commenced by Indictment: Cases	Proceedings Commenced by Indictment: Defendants	Average Defendants per Case	Grand Jury Sessions Convened	Average Defendants Indicted per Grand Jury Session	Hours in Session	Average Hours per Session
1976	26,150	38,753	1.48	8,404	4.61	44,765	5.33
1977	25,016	36,608	1.46	8,849	4.14	47,094	5.32
1978	22,694	32,740	1.44	8,929	3.67	46,739	5.23
1979	18,973	28,395	1.50	9,791	2.90	50,896	5.20
1980	16,764	25,612	1.53	10,338	2.48	54,163	5.24
1981	17,235	27,367	1.59	10,997	2.49	58,278	5.30

Appendix Table J-2 contains data for grand jury sessions convened, jurors in session, and hours in session. Between 16 and 23 jurors must be present to convene a grand jury session. The category "Jurors in Session" includes only those who participated in a convened session. Jurors not included in the category "Jurors in Session" include: those reporting for orientation, reporting only for impanelment, in travel status, and those waiting for a quorum of 16. Guam reported the lowest average of grand jurors per session at 18.2. The highest averages in jurors per session were reported by the Northern Mariana Islands and Montana with 22.5 and 22.3, respectively. The Northern Mariana Islands and Nevada reported averages of 3.00 and 3.91 hours per session. Twelve other districts averaged seven hours or more per session.

The current twelve month period began with 410 grand juries already in existence. During the year 328 grand juries were impanelled, resulting in a total of 738 grand juries in existence at some time during the twelve month period ended June 30, 1981. There were 308 grand juries discharged during the year. Factors such as the number of places of holding court and type of criminal activity affect the number of grand juries in existence in a district. For example, six districts reported that only one grand jury served during the entire twelve month period; but the Eastern District of New York reported 52 grand juries in existence during 1981.

The Southern District of New York reported 1,116 sessions convened, the highest number of grand jury sessions reported by the 93 districts reporting grand jury activity. This district also reported the largest number of grand jury sessions at 22,200 and the highest number of hours in session at 5,476. On the other hand, there was little grand jury activity in the Northern Mariana Islands; where only two sessions involving 45 grand jurors were reported. The Virgin Islands and the Canal Zone reported no grand juries in existence in the twelve month period ended June 30, 1981.

Petit Jury

According to monthly reports received from U.S. district courts, overall utilization of petit jurors improved during the twelve month period ended June 30, 1981.

Efficient juror usage can be measured by the Juror Usage Index (J.U.I.) which is calculated by dividing the total number of available jurors by the total number of jury trial days. The result is the average number of jurors available for each jury trial day. For the twelve month period ended June 30, 1981 the national J.U.I. was 18.23, which indicates that, on the average, approximately 18 jurors were called for every jury trial day.

The status for each juror is categorized daily as one of the following: selected or serving; challenged by court or counsel; or not selected, serving, or challenged. Jurors, required to travel to court in order to serve, are paid while in travel status and must be reported. These jurors are counted in the category of not selected, serving, or challenged although they are not actually "available" to serve on a trial.

Table 69 shows that of the 648,929 jurors available to serve during the twelve month period, 396,746 or 61.1 percent were selected or serving; 100,041 or 15.4 percent were challenged for cause or peremptorily by counsel; 152,142 or 23.4 percent were not selected, serving, or challenged, and of the jurors not used, 5,078 or 0.8 percent of the total available were in travel status. The number of jurors selected or serving increased 7.6 percent over 1980; the number of jurors challenged increased 8.6 percent; and the number of jurors not used rose 5.1 percent.

Table 69
U. S. District Courts
National Petit Juror Usage
For the Twelve Month Periods Ended June 30, 1976 through 1981

Percent	24.1	24.1	24.0	24.6	23.9	23.4	-	-
In Travel Status	*	*	*	*	4,582	5,078	496	10.8
Percent	*	*	*	*	0.8	0.8	-	-
Jury Trial Days	30,032	29,875	29,238	28,851	32,159	35,596	3,437	10.7
Criminal	17,818	16,945	16,084	15,171	15,649	15,925	276	1.8
Percent	59.3	56.7	55.0	52.6	48.7	44.7	-	-
Civil	12,214	12,930	13,154	13,680	16,510	19,671	3,161	19.1
Percent	40.7	43.3	45.0	47.4	51.3	55.3	-	-

* The jurors in travel status are included in the category of jurors not selected, serving or challenged.

Compared to 1980, the number of criminal jury trial days increased by a modest 1.8 percent, while the number of civil jury trial days jumped by 19.1 percent. This was the second consecutive year that the number of civil jury trial days was greater than criminal jury trial days.

Appendix Table J-3 provides district J.U.I.s for the twelve month period which ranged from 11.64 in Wyoming to 32.42 and 31.23 in the Northern Mariana Islands and Puerto Rico, respectively.

For 1981, the national average for jurors selected or serving in jury trials was 61.1 percent. The District of South Carolina reported 79.5 percent of the district's 8,539 available jurors as selected or serving, the highest percentage reported in this category by any district for the twelve month period. Fifty-one districts recorded percentages higher than the national figure. On the other hand, the Northern Mariana Islands and the Canal Zone reported only 21.1 and 25.2 percent of the jurors as selected or serving on jury trials.

The Western District of Virginia reported the highest percentage of jurors challenged at 42.0 percent. The lowest percentages of jurors challenged were 8.0 and 8.2 in the Canal Zone and the Western District of New York, respectively. The proportion of jurors challenged varies widely because of many differing local court practices regarding peremptory challenges. The presence of notorious trials also tends to increase the number of challenged jurors.

Efficient jury management includes methods of minimizing the number of jurors who appear in court but do not serve on a jury, but many times a high number of jurors in this category cannot be avoided. Reasons for excessive jurors in the not selected category include the following: late settlements or pleas, an overcall of jurors for the number of scheduled trials, and poor jury pool management. Methods of limiting the number of jurors in the not selected category differ from district to district depending on the court size and the number and size of places of holding court. Techniques that improve juror utilization include less than 12 member civil juries, jury pooling, multiple voir dire, staggered trial starts, deadlines for settlements and pleas, reduction in voir dire size, effective use of pretrial hearings, and use of the code-a-phone for notifying jurors of postponement or cancellation of a trial.

The district with the lowest percentage of jurors not selected, serving, or challenged was the Southern District of Alabama with 3.2 percent. Several districts reported high proportions of jurors not used during 1981. Out of 22 prospective jurors in Guam, none were selected to serve. In the Canal Zone, 101 out of 151 jurors (66.9 percent) were not selected, serving or challenged. Nevada and the Northern Mariana Islands reported 40.7 percent and 51.7 percent of all jurors as not used. Twenty-six districts reported that 15 percent or below of available jurors were not selected, serving, or challenged.

Distinguishing courts with a greater proportion of criminal jury trial days from courts with a greater proportion of civil jury trial days is important when studying juror utilization. Due to anticipated increases in challenges and requirements for alternates, a district with a higher proportion of criminal jury trials is generally less able to use jurors as efficiently as a district with a majority of civil jury trials. Excluding the Canal Zone which had no criminal trials, the percentage of criminal jury trial days for 1981 ranged from 90.0 percent in Hawaii to 11.9 percent in Nebraska.

Fifty-three of the 61 districts (or 86.9 percent) with a majority of civil trial days reported J.U.I.s of 20.00 or below, while only 14 of the 33 districts (or 42.4 percent) with a majority of criminal trial days reported J.U.I.s of 20.00 or less.

Federal Public/Community Defenders

There were 33 federal public defenders and seven community defender organizations in operation on June 30, 1981, an increase of one over 1980. The federal public defender office in the Western District of Arkansas, established as a branch office of Missouri, Western, began reporting in October 1980. This office opened primarily to represent Cuban refugees housed at Fort Chaffee, Arkansas.

Tables 70 and 71 summarize the number and type of cases opened, closed and pending in the defender organizations during the last six years. Appendix Tables K-1 and L-1 provide detailed statistical information on the case activity of each defender office during the year ended June 30, 1981. The data is classified into three major categories of representations: criminal, appeals, and other. The last category includes habeas corpus, parole/probation revocation, witness, and motions to correct or reduce sentence. The statistics in this report cover only representations by federal public/community defenders and, therefore, do not include representations provided by private panel attorneys under the Criminal Justice Act of 1964. Those statistics are available in the **Report to the United States Judicial Conference Committee to Implement the Criminal Justice Act.**

Federal Public Defenders

The number of representations assigned to federal public defenders during the year ended June 30, 1981 increased 10.0 percent to 15,311, thereby reversing a two year decreasing trend. The number of criminal defendants represented rose 15.2 percent to 9,876 and now account for 64.5 percent of all assigned cases. Other representations (including appeals) increased for the fifth consecutive year, but only by a modest 1.7 percent. Court-directed representations of inmates at the U.S. Medical Center for Federal Prisoners at Springfield, Missouri continued a five year decline. The number of these prisoner representations have decreased 50.5 percent from their high of 1,144 in 1976 to 566 during 1981.

Florida, Southern reported the largest number of case openings with 1,594, a substantial 52.7 percent increase over 1980. This increase was primarily due to the rise in immigration cases (created by the influx of Cuban Refugees) from 79 in 1980 to 596 in 1981. The Central District of California, which had the largest number of representations the previous nine years, opened 1,484 new cases. The fewest number of cases were opened by the West Virginia, Southern (105) and the Illinois organizations (133).

Sixteen of the 31 offices which operated during the entire twelve month periods ended June 30, 1980 and 1981 reported increases in the number of cases opened. The largest percentage increase was shown by Florida, Northern, which opened 232 cases, a rise of 90.2 percent over the 122 cases assigned in 1980. Most of this increase can be traced to petty offense representations which rose from 28 in 1980 to 100 during 1981. Maryland experienced a 66.3 percent increase in the number of cases received. The Southern District of Georgia, however, opened 44.2 percent fewer cases in 1981. This decrease is related to the large decline in the number of traffic cases represented by this office. Washington, Western and Pennsylvania, Western opened 37.3 percent and 26.6 percent fewer cases, respectively, in 1981.

Federal Public Defenders closed 14,523 cases, an increase of 8.4 percent over 1980 and the most since 1978. Criminal dispositions rose 14.9 percent to 9,497, generating 65.4 percent of all terminations. Conversely, closings of other representations (including appeals) actually showed a 2.1 percent decline when compared to 1980. California, Central reported the most dispositions with 1,437, while West Virginia, Southern closed the least, with only 101 case terminations.

Twenty federal public defender offices reported increases in the number of cases they closed. Florida, Northern reported the largest increase at 91.4 percent. Again, its rise in the number of petty offense cases was primarily responsible. The number of dispositions in Ohio, Northern and Maryland rose 65.0 percent and 54.6 percent, respectively. At the other end of the scale, Georgia, Southern terminated 49.2 percent fewer cases than a year ago. Large decreases were also reported by the organizations in Washington, Western (down 32.2 percent) and Pennsylvania, Western (down 24.7 percent).

For the past seven years (1974 - 1980) the number of hours in court per closed case has averaged between 1.6 and 1.7. This pattern was broken in 1981 when the time public defenders spent in court for each disposition rose to an average of 2.0 hours. The individual offices ranged from a high of 4.1 hours in Connecticut to a low of 1.1 hours in Florida, Northern; Maryland; and New Mexico.

The number of cases pending grew by a substantial 21.7 percent as 23 federal public defenders' caseloads rose. The offices of Georgia, Southern and South Carolina doubled their pending caseloads. Washington, Western (down 37.6 percent) and New Mexico (down 20.2 percent) were among the few to experience a decline in the number of cases pending.

[1] The Minnesota community defender organization closed on September 30, 1978.
[2] This category includes both the appeals and other representations as shown in Appendix Table L-1.

Community Defender Organizations

The seven community defender organizations received 8,146 cases during the year ended June 30, 1981, a significant 14.5 percent increase over the 7,112 cases opened in 1980. Criminal matters rose an even greater 18.7 percent and now account for 76.0 percent of community defender representations. Other representations (including appeals) rose a modest 3.1 percent to 1,956.

The Southern District of California reported the largest number of case openings with 4,110, slightly more than half (50.5 percent) of the total. Immigration cases (1,621) and petty offense representations (1,500) were responsible for 75.9 percent of California, Southern's workload. The New York organization opened 2,037 cases or 25.0 percent of all community defender representations. Georgia, Northern and Oregon opened the fewest cases at 342 and 242, respectively.

For the third consecutive year, California, Southern recorded the largest increase (29.6 percent) in the number of cases received. Since the year ended June 30, 1978, California, Southern's caseload has risen a remarkable 190.3 percent. Much of this increase can be traced to a substantial increase in petty offense representations. During the current year alone, these representations rose by 157.3 percent from 583 in 1980 to 1,500 in 1981. Georgia, Northern also experienced a substantial 21.7 percent increase in its case openings. At the other end of the scale, Oregon registered the largest decline, reporting 29.0 percent fewer openings than last year.

Five of the seven community defender organizations closed fewer cases compared to a year ago. Nevertheless, there was an 11.0 percent rise in the total number of dispositions from 7,174 in 1980 to 7,965 in 1981. Criminal dispositions increased 13.5 percent and were responsible for 75.7 percent of all case closings, while other representations (including appeals) recorded a more modest 3.9 percent increase.

California, Southern was almost totally responsible for this increase in closed cases, experiencing a 30.7 percent rise in dispositions. This office's large increase can be attributed to its 161.0 percent rise in petty offense terminations. California, Southern and the New York organization generated 76.1 percent of all community defender dispositions. The largest decline in terminations was recorded by Illinois, Northern, which closed 437 cases in 1981, 125 (22.2 percent) fewer than a year ago.

Community defenders spent an average of 1.9 hours in court per closed case; the same as in 1980. Georgia, Northern reported the highest average at 5.2 hours per closed case, primarily because of one lending institution fraud case which required 712 hours of in-court time. Excluding this case, Georgia, Northern's average would be 2.5 hours. The lowest average was recorded by California, Southern (1.0 hour per closed case), due to the short amount of in-court time needed to dispose of its numerous petty offense cases.

Five of the seven community defenders experienced rises in their pending caseloads. Overall, the pending caseload grew by 10.9 percent. Georgia, Northern's pending caseload nearly doubled (from 81 in 1980 to 159 in 1981), when cases opened (342) outdistanced the number of cases closed (264). California, Southern and Michigan, Eastern reported decreases in their pending caseloads of 7.3 percent and 6.0 percent, respectively.

UNITED STATES MAGISTRATES

United States magistrates continued to assist the district judges in expediting civil and criminal litigation in the majority of the 92 district courts covered by the Federal Magistrates Act. The volume of time consuming "additional duties" heard by magistrates for district judges under Title 28 U.S.C. Sections 636 (b) and (c) increased substantially during the year. Magistrates handled 47,392 such proceedings in criminal cases and 97,718 in civil cases, compared to 39,416 and 84,261 "additional duties," respectively, last year. The 3,736 evidentiary proceedings heard by magistrates this year represents an increase of 5.5 percent over the last 3,541 evidentiary proceedings completed by magistrates last year.

During the twelve month period ended June 30, 1981, magistrates in 78 districts filed written reports and recommendations for the disposition of 14,041 prisoner petitions. Magistrates conducted 23,109 civil pretrial conferences for the judges in 82 districts. In 84 district courts, they reviewed 51,015 motions in civil cases, including 7,324 "dispositive" matters in which the magistrates submitted findings and recommended decisions to the court under Title 28 U.S.C. Section 636(b) (1) (C). In addition, magistrates filed reports and recommendations on 4,101 social security appeals in 76 districts.

In criminal cases, magistrates conducted 18,981 arraignments following indictment under Rule 10 of the Federal Rules of Criminal Procedure in 90 districts. There were 541 final hearings on probation revocation conducted by magistrates in 62 districts and 2,626 separate sessions in which grand juries returned indictments to magistrates in 76 districts. Magistrates also conducted 3,199 pretrial conferences or omnibus hearings in 49 districts and reviewed 18,652 motions in 77 districts, including 2,105 "dispositive" matters in which magistrates submitted findings and recommended actions under Title 28 U.S.C. Section 636(b) (1) (C).

Appendix Table M-5 reflects the implementation of the 1976 and 1979 amendments to the Federal Magistrates Act which more clearly authorized magistrates to conduct evidentiary proceedings, including full trials of civil cases upon the consent of the parties. The 3,736 trials and other evidentiary proceedings conducted by magistrates in 85 districts during the year ended June 30, 1981, provided significant assistance to the district judges and represented an increase of 5.5 percent over the 3,541 such proceedings conducted last year.

Magistrates conducted 857 evidentiary hearings in criminal cases in 56 districts and 928 hearings in civil cases in 69 districts. There were 776 hearings conducted by magistrates in prisoner cases in 56 districts. These figures compare to 719 criminal, 977 civil, and 773 prisoner hearings conducted by magistrates last year. Further, magistrates completed 564 special master references this year in 54 districts, an increase from the 475 references completed in 1980. In 56 districts, magistrates presided over 611 full trials of civil cases, including 181 jury trials, upon the consent of the parties. Last year, they had conducted 597 such trials, including 139 jury trials. Moreover, the trials held this year were in addition to the 1,322 civil cases terminated by magistrates upon the consent of the parties without trial. There were 67 appeals of magistrate's decisions in civil cases, 34 of which were to district judges. Of the 33 appeals to courts of appeals, 25 were first appealed to district judges and eight were direct appeals of magistrate's decisions.

Magistrates disposed of 95,152 misdemeanor cases, including petty offenses, during the twelve month period ended June 30, 1981. This represents an increase of 5.3 percent, reversing the pattern of declining misdemeanor caseloads of the previous four years. Of the total misdemeanor caseload this year, 30,944 were petty offenses, an increase of 4.0 percent over last year. Petty offense cases involving traffic, food and drug violations, drunk and disorderly conduct offenses, trespassing, and hunting, fishing and camping citations increased during the year. Cases involving immigration, mail, and theft charges decreased.

The remaining 14,208 misdemeanor cases were above the level of petty offenses, an increase of 12.6 percent from the 12,622 reported in 1980. Traffic charges, such as driving while intoxicated, accounted for 8,606 of the cases, an increase from last year's figure of 8,056. Non-petty misdemeanor cases involving trespass, mail, and assault declined during the year, while all other specific categories of violations increased as did offenses under the general "other" category.

Of the 95,152 misdemeanors coming before magistrates this year, 17,958 received a full trial on the merits, including 46 jury trials. There were 63,345 defendants who pled guilty, and the remaining 13,849 misdemeanor charges were dismissed in open court by the magistrates. Of the 17,958 defendants who participated in full trials before magistrates 12,219 were convicted of the charges against them. Defendants appealed the magistrate's decision in 211 criminal cases during the year.

Table 72 shows the number of misdemeanor cases disposed of by the U.S. magistrates for 1972, 1977, 1978, 1979, 1980, and 1981, classified by nature of offense. Table 73 indicates the ten districts with the largest number of misdemeanor cases disposed of by magistrates during the twelve month period ended June 30, 1981.

Kentucky, Western	3,071	2,445	-	626
Oklahoma, Western	2,859	2,592	-	267

The number of initial proceedings in criminal cases conducted by U.S. magistrates during the year increased by 3.1 percent, from 65,597 last year to 67,624 this year, ending a decline from recent years.

Applications for arrest warrants considered by magistrates rose from 9,721 in 1980 to 10,173 for the twelve month period ended June 30, 1981. The number of summonses sought dropped from 1,552 to 1,461. Search warrant applications, however, rose from 4,756 to 5,442 for the same period.

The number of bail hearings, including those involving material witnesses and alleged probation violators, decreased slightly from 38,506 in 1980 to 37,453 for the twelve month period ended June 30, 1981. Removal proceedings under Rule 40 of the Federal Rules of Criminal Procedure, including initial appearances in such cases, increased from 1,638 to 2,697. This year, 6,828 applications for review of bail determinations were reported, 25 percent greater than the 5,458 applications reported last year. Preliminary examinations conducted by magistrates declined from 3,966 to 3,570 for this period.

There were 201 full time magistrate positions authorized for appointment on October 1, 1980. During the twelve month period ended June 30, 1981, full time magistrates handled 250,821 matters — 80 percent of the total disposed of by magistrates nationally. The remaining 62,123 proceedings were conducted by part time magistrates.

Full time magistrates conducted 86 percent of the preliminary proceedings in criminal cases, 54 percent of the misdemeanor cases, and 93 percent of the "additional duties" performed during the year. Table 74 shows the breakdown of matters handled by full time magistrates vis-a-vis part time magistrates for the twelve month period ended June 30, 1981.

At least two full time magistrates had been authorized for appointment in each of the 25 largest districts courts by October 1, 1980. The extent to which these full time positions have been used in each of these courts is reflected in Table 75.

Table 74
Breakdown of Matters Handled By Full-time and Part-time Magistrates
For the Twelve Month Period Ended June 30, 1981

Activity	Total	Full-time	Part-time
Total All Matters	312,944	250,821	62,123

1 District judgeships authorized under Public Law 95-486, October 1978.
2 Full-time Magistrate positions authorized for appointment as of October 1, 1980.

FEDERAL PROBATION SYSTEM

Appendix Tables E-1 through E-7 contain data for those individuals supervised by probation officers during the remainder of institutional terms after release from prison and those supervised during the terms of probation. Probation terms can be imposed by judges and U.S. magistrates after conviction in lieu of service of all or part of a term of imprisonment, or by U.S. attorneys as a pretrial alternative to pursuing federal prosecution. Appendix Table E-1 is a display, by district, of the number of persons received for supervision, the number removed from supervision, and the number being supervised at the end of the year.

During the past year, the number of persons received for supervision, excluding transfers, declined to 29,575, a drop of 5.8 percent compared to last year's figure of 31,410. The number of persons removed from supervision climbed to 36,550, which was an increase of 6.5 percent over the 34,318 removed last year. Fewer persons received during the year combined with more persons removed produced a sizeable decrease in the total under supervision. On June 30, 1981, the total number of persons under supervision was 59,016, down 8.4 percent from the 64,450 under supervision last year.

Persons Received for Supervision Declines 5.8 Percent

During the twelve month period ended June 30, 1981, there were 29,575 persons received for new or reinstated periods of supervision, a decline of 1,835 (5.8 percent) from last year and 6,486 (18.0 percent) from the peak year of 1975 shown in Table 76. The decrease this year was caused by a significant decline in persons received from prisons, rather than a decline in new probationers as in the last few years. The total of 10,252 institutional releasees received was the lowest in the last four years, following three years of increases. This figure represents a decline of 2,365 (18.7 percent) from last year.

Table 76
Federal Probation System
Persons Received for Supervision by Type of Supervision (Excludes Transfers)
During the Twelve Month Periods Ended June 30, 1970, and 1975 through 1981

Years Ended June 30	Total All Types Received	Probationary Terms				Institutional Release				
		Total	Court	U.S. Magistrate[1]	Pretrial Diversion[2]	Total	Parole	Mandatory Release	Military Parole	Special Parole

Number Change Since 1980	-1,835	530	-303	834	-1	-2,365	-1,200	-732	114	-547

* Special Parole under provisions of DAPCA not effective until 1971.
1 U.S. magistrate was U.S. Commissioner in 1970.
2 Pretrial Diversion, formerly Deferred Prosecution.

Technical Note

Since some records pertaining to a specific reporting period are received after that period has closed, the number of persons reported under supervision on a particular date changes in ensuing reports. Appendix Table E-1, therefore, shows a different figure for persons under supervision at the beginning of this year than was reported at the end of last year. Comparisons in the text are based on the ending figure reported last year.

On the other hand, the number of probation terms commenced during the year increased by 530 (2.8 percent) reversing a declining trend that has lasted five years. Reflecting the expanded jurisdiction granted to magistrates by the Magistrate Act of 1979, the number of probationers received on terms imposed by U.S. magistrates rose by 834 (18.2 percent) to 5,423. This increase countered a small decline of 303 (2.5 percent) in terms imposed by district courts. As a result, 31.3 percent of all probationers received this year were from U.S. magistrates, compared to 27.4 percent last year. The number of persons commencing supervision under conditions of pretrial diversion this year remained constant from last year. Military parolees received increased for the second year from 226 last year to 340.

The reduction of 1,200 (15.7 percent) in parolees received this year contributed heavily to the decline in institutional release terms. Last year, this type of supervision had increased by 823. The number of persons beginning mandatory release terms also fell by 732 (27.4 percent) to 1,939. In addition, the 1,521 special parole terms commenced during this year were 547 fewer than last year.

The table below shows the relationship between the number of prison sentences imposed in the district courts and the number of persons received on parole and mandatory release supervision in the Probation System during the past seven years.

Year	Number of Defendants Sentenced to Prison by district courts	Persons Received for Parole and Mandatory Release Supervision
1974....	13,818	8,697
1975....	13,714	10,296
1976....	15,838	8,221
1977....	15,588	7,743
1978....	13,649	9,114
1979....	11,305	10,051
1980....	10,179	10,323
1981....	10,631	8,391

The number of prison sentences imposed rose during the two-year period 1976 to 1977. A corresponding rise in parolees and mandatory releasees received for supervision occurred in 1978 and 1979 with a smaller increase in 1980. The number of prison sentences imposed began to decline in 1978 and continued to decline through last year when 4,283 fewer prison terms were imposed than in 1977. The decrease in parolees and mandatory releasees received this year reflects the decline in prison sentences imposed two and three years ago.

The following table indicates a similar relationship between prison sentences imposed under the Drug Abuse Prevention and Control Act (DAPCA) since 1972 and persons received for supervision on special parole terms, beginning three years later.

Year	Prison Sentences Imposed for DAPCA Offenses	Persons Received for Special Parole Supervision
1972....	1,753	N/A
1973....	4,161	N/A
1974....	4,044	N/A
1975....	3,801	873
1976....	4,507	1,205
1977....	4,332	1,746
1978....	3,473	1,908
1979....	2,811	2,142
1980....	2,980	2,068
1981....	3,329	1,521

The number of DAPCA prison sentences imposed reached a peak in 1976, contributing to the high number of special parolees received in 1979. As fewer prison terms were imposed under DAPCA in 1977, fewer special parole terms were commenced in 1980. This decrease has continued this year as a result of the decline in prison terms imposed for DAPCA offenses in 1978. The decline was intensified this year by the decision of the Supreme Court (Bifulco v. United States, No. 79-5010, June 16, 1980) ruling that a special parole term cannot be imposed where the conviction is for conspiracy only to commit a drug offense. Some individuals who would have commenced special parole terms this year were thus excluded. (See later sections for other effects of this ruling.)

Small Decline in Court Probationers Received

Appendix Table E-4 indicates that, excluding reinstatements, 11,214 defendants began probation terms imposed by district courts during the past year. This figure is 242 or 2.1 percent lower than the total last year. Last year's total, however, had been a decline of 1,735 or 13.2 percent from 1979.

Of those probationers commencing their terms this year, 9,873 or 88.0 percent received terms of two years or more. The 2,685 who were received for the statutory maximum of five years of supervision represented 23.9 percent of all new court probationers received. A further detail of the totals by length of term to be supervised is shown below:

Term of Supervision (Months)	Number	Percent
Total.....	11,214	100.0
1-6	178	1.6
7-11	99	0.9
12 only	646	5.8
13-23.....	418	3.7
24 only	2,067	18.4
25-35.....	533	4.8
36 only	3,627	32.3
37-59.....	961	8.6
60 or more.....	2,685	23.9

There were 39 districts that registered increases in probationers received this year; 52 districts showed declines; and 3 districts reported the same number of court probationers received this year as last year. The 12 districts shown below exhibited changes of 40 or more. The decrease shown for the Canal Zone this year is the result of preparations to discontinue the district court and probation office on June 30, 1982 in accordance with the Panama Canal Treaty.

District	Court Probationers Received in 1980	Court Probationers Received in 1981	Decrease
Washington, Western	201	100	-101
Canal Zone	78	11	-67
California, Central	578	519	-59
District of Columbia	326	270	-56
Pennsylvania, Eastern	172	126	-46
Massachusetts	285	242	-43
			Increase
Kansas	58	117	59
Minnesota	66	122	56
New York, Eastern	263	318	55
Montana	66	108	42

Terminations of Parole and Special Parole Terms Increase

The number of persons removed from supervision, excluding transfers, rose by 2,232 or 6.5 percent to 36,550 during the twelve month period ended June 30, 1981. This is the highest total ever recorded. Persons removed from special parole terms increased substantially from 2,004 to 2,909. This increase was due to the 900 special parolees who were removed as a result of the Supreme Court decision (Bifulco vs. U.S.). Parolees removed from supervision reached 7,726 this year, up by 1,131 or 17.1 percent from last year. The number of court probationers removed from supervision, which had been decreasing each year since 1976, rose by 356 or 2.4 percent from last year to 15,500 this year. Probationers removed from terms imposed by U.S. magistrates also increased 8.4 percent to 5,535. The number of mandatory releasees removed declined substantially by 561 or 18.4 percent, while persons removed from conditions of pretrial diversion also dropped from 2,277 last year to 2,152 this year. The number of military parolees removed increased by 95.

A major factor in the overall increase in persons removed was an increase in the number of statistical removals. These removals occur for reasons which do not fit regular coding descriptions. They generally include reversals of court decisions, as well as corrections to remove cases that had been carried as active. The 900 special parolees removed, in accordance with the Supreme Court decision, were statistical removals.

In addition, many statistical removals resulted from efforts to reconcile the Administrative Office files with the records of the courts. With the assistance of clerical personnel in the districts having the greatest imbalances, excess records were removed from the file. This special project increased the counts of records removed from the files, adding more than 1,600 to the total of court probationers removed, more than 700 to the number of probationers removed from U.S. magistrate supervision, and about 450 to the total of parolees removed. The other types of supervision were not greatly affected.

Number and Rate of Violations Increase Slightly

Appendix Table E-7 provides data on the total number of persons removed from each type of supervision, persons removed for new violations, and those removed without violations. The table does not include subsequent removals in cases that have been previously removed and reinstated, nor does it include institutional releasees who have previously violated their release supervision. Also excluded are persons removed statistically who cannot be classified as having been removed for violation or without violation.

Excluding the above individuals, 24,589 or 81.3 percent of the 30,230 removals occurred for reasons other than a new violation. Four out of every five persons removed, therefore, had either completed supervision successfully, or had no violations at the time they were removed for reasons other than sucessful termination, such as hospitalization, military enlistment, overseas transfers, and death.

The total of 5,641 violations committed during the year was a small increase from the 5,455 committed last year. Of this total, 63.7 percent were technical infractions not involving a new offense, 26.8 percent involved new major offenses (penalty for which was or could be more than 90 days in jail or more than one year probation), and the remaining 9.5 percent were minor offenses (drunk, disorderly, petty theft, etc.). The overall rate of violation increased also from 17.6 percent last year to 18.7 percent. The rate of violations for major offenses was up from 4.4 percent last year to 5.0 percent this year as was the rate for technical violations (from 11.3 percent to 11.9 percent). The rate of violations resulting from minor offenses decreased slightly from 2.0 percent to 1.8 percent.

Table 77 shows that the 1,999 parolees who committed violations was 35.4 percent of all violators and accounted for nearly one out of every three parolees removed from supervision during the year. The rate of 10.5 percent for violations for major offenses was more than twice the rate for any of the other categories of supervision. The rates of involvement in minor offenses and technical infractions were also the highest. The rate of violations committed by special parolees actually decreased from 19.8 percent last year to 18.9 percent this year. The rate remains high, however, in comparison to the other types of supervision.

Table 77
Rates of Violation for Types of Supervision of Persons Removed
During the Twelve Month Periods Ended June 30, 1980 and 1981

Type of Supervision	Violators Removed		Rate of Violations		Percentage of Total Violations	
	1980	1981	1980	1981	1980	1981
Total	5,455	5,641	17.6	18.7	100.0	100.0
Probation	2,135	2,138	15.3	16.3	39.1	37.9
Pretrial Diversion	67	47	3.2	2.3	1.2	0.8
U.S. Magistrate Probation	802	767	16.9	16.0	14.7	13.6
Parole	1,700	1,999	31.0	32.1	31.2	35.4
Mandatory Release	390	364	14.1	17.0	7.1	6.5
Special Parole	355	320	19.8	18.9	6.5	5.7
Military Parole (all)	6	6	4.4	2.7	0.1	0.1

The number of court probationers removed for violation increased by only three to 2,138, accounting for 37.9 percent of all violations. The violation rate rose from 15.3 percent to 16.3 percent. Those removed for technical infractions increased from 1,385 or 9.9 percent of all court probationers removed last year to 1,450 or 11.0 percent this year. Court probationers removed for involvement in new major offenses decreased by 29 from last year, though the rate remained the same. Those involved in minor offenses also declined by 33.

Fewer violations by probationers removed from U.S. magistrate probation (767 compared to 802 last year) pushed the violation rate for this group down 16.0 percent from 16.9 percent last year. There were fewer technical infractions and minor offenses committed by these probationers this year, but the number committing major offenses increased by five. Persons removed from pretrial diversion exhibited the lowest violation rate (2.3 percent) and also committed fewer violations this year (47) than last year (67). There were only two removals for involvement in a major offense, representing only one-tenth of one percent of all persons removed from pretial diversion supervision.

Fewer Court Probationers Have Their Terms Ended Early

Appendix Tables E-5 and E-6 provide data, by district, for court probationers removed from supervision after successful completion of their terms. The table below is a combination of totals from both tables.

Term of Supervison Completed	Total	Term Expired	Early Term	Percent of Early Terms
Total	10,679	7,238	3,441	32.6
1 - 12 Months	1,048	791	257	24.5
13-24 Months	3,021	1,936	1,085	35.9
25-36 Months	4,123	2,809	1,314	31.9
36 Months or less (Total)	8,192	5,536	2,656	32.4
37 - 48 Months	970	498	472	48.7
More than 48 Months	1,517	1,204	313	20.2

The number of persons completing supervision successfully (10,679) was a drop of 775 or 6.8 percent from last year. This is in contrast to the increase reported in the number of all court probationers removed. The expanded number of statistical removals this year accounts for the difference since those cases are excluded.

Court probationers whose supervision periods were terminated early due to satisfactory conduct declined by 643 or 15.7 percent. The rate of these early terminations also fell from 35.7 percent last year to 32.2 percent this year. In 1979, the rate of early terminations was 37.5 percent. The average successful term completed by all court probationers, indicated in Appendix Table E-6, rose slightly to 32.6 months this year from 31.2 months last year.

Three out of every four probationers who completed their terms successfully during this year served no more than three years under supervision and slightly less than one-third of this group were terminated early. For those supervised more than three years without violation, most of the early terminations occurred between the third and the fourth year. The 970 probationers completing three to four year terms represented only 9.1 percent of probationers removed without violation, but nearly half of them were terminated early. Those who completed more than four years of supervision successfully had a much lower rate of 20.6 percent for early terminations.

Persons Under Supervision Down 8.4 Percent

Appendix Table E-2 displays the number of persons under supervision on June 30, 1981 by district and type of supervision. For the third year, probationers and persons serving on conditions of pretrial diversion continued to decline, down a combined total of 2,885 or 6.6 percent from last year's ending figure (Table 78). The total number of persons supervised following institutional release, which had been rising for the past three years, declined this year by 2,549 or 12.2 percent. With both probationers and institutional releasees declining, the total number of persons under supervision at the close of this year fell by 5,434 or 8.4 percent to 59,016 from 64,450 last year.

Table 76
Persons Under Supervision of the Federal Probation System
As of June 30, 1980 and 1981

Type of Supervision	June 30		Change		Percentage of Total	
	1980	1981	Number	Percent	1980	1981
Total	64,450	59,016	-5,434	-8.4	100.0	100.0
From District Courts	43,636	40,751	-2,885	-6.6	67.7	69.1
Court Probation	34,530	31,643	-2,887	-8.4	53.6	53.6
Pretrial Diversion	2,178	2,089	-89	-4.1	3.4	3.5
U.S. Magistrate Probation	6,928	7,019	91	1.3	10.7	11.9
From Institutions	20,814	18,265	-2,549	-12.2	32.3	30.9
Parole	14,492	13,561	-931	-6.4	22.5	23.0
Mandatory Release	1,704	1,226	-478	-28.1	2.6	2.1
Military Parole	293	410	117	39.9	0.5	0.7
Special Parole	4,325	3,068	-1,257	-29.1	6.7	5.2

The decline in persons serving probationary terms resulted entirely from a loss of 2,887 or 8.4 percent in probationers serving terms imposed by district courts. The small numerical decrease in persons serving under pretrial diversion (89) was matched by an increase in the number of probationers under supervision at the end of the year on terms imposed by U.S. magistrates (91).

The 900 special parolees removed from supervision, as a result of the Supreme Court decision in the Bifulco case, made up the majority of a significant drop of 1,257 or 29.1 percent in special parolees under supervision at the close of this year. This decrease accounted for one-half of the total decline in institutional releasees. Parolees decreased also from last year, down 931 or 6.4 percent, while the 1,226 persons serving after mandatory release was the lowest figure in more than ten years. Military parolees under supervision rose from 293 at the close of last year to 410.

Caseloads Drop in Three-Fourths of the Districts

Table 79 provides data by district on the decline in persons under supervision. The decline was spread throughout the nation, as 73 districts or 77.7 percent reported decreases in their caseloads from last year's ending figures. There were 17 districts which reported numerical losses of more than 100. Two factors contributed to the relatively heavy losses in the number of persons under supervision in these 17 districts. First, 13 districts experienced decreases in the number of persons received for supervision this year ranging from 48 to 231. Second, 12 of these districts were involved in file reconciliation efforts during the year which contributed to a number of statistical removals in all of them.

In the 19 districts that ended this year with a higher number of persons under supervision than at the end of last year, only Tennessee, Middle (69); Hawaii (44); Montana (36); and Kentucky, Western (32) increased more than 30. Two districts, New York, Northern and Tennessee, Western had the same number of persons under supervision at the close of this year as last year.

"White Collar" Offenders Under Supervision Increase

The national totals for persons under supervision by offense appear in Table 80. Totals for each district are displayed in Appendix Table E-3. Offenders under supervision resulting from the "white collar" crimes of embezzlement and fraud increased since the end of last year to 13,621, representing 23.1 percent of the total caseload on June 30, 1981. This is the largest single category of offenders, increasing by just under 1,600 since the end of 1979.

Table 80
Persons Under Supervision
As of June 30, 1980 and 1981 by Offense Committed

Offenses	1980	1981	Percentage of Total 1980	Percentage of Total 1981
Total	64,450	59,016	100.0	100.0
Homicide, robbery, assault, and burglary	5,773	5,366	9.0	9.1
Larceny and theft	7,530	6,586	11.7	11.2
Embezzlement and fraud	13,274	13,621	20.6	23.1
Auto theft	1,557	1,217	2.4	2.1
Forgery and counterfeiting	6,507	5,263	10.1	8.9
All DAPCA offenses	15,204	13,416	23.6	22.7
Marihuana	3,827	3,285	5.9	5.6
Narcotics	8,402	7,580	13.0	12.8
Controlled substances	2,975	2,551	4.6	4.3
Weapons and firearms	3,244	2,575	5.0	4.4
Immigration	3,207	3,190	5.0	5.4
Drunk driving and traffic	1,008	1,209	1.6	2.0
Postal	1,816	1,278	2.8	2.2
All other	5,330	5,295	8.3	9.0

Conforming to the overall reduction in the national caseload, there were fewer persons classified in each of the other categories of offenses, except for drunk driving and traffic, which is a category comprised mostly of probationers serving terms imposed by U.S. magistrates. Despite an increase of 201 offenders since last year, the 1,209 traffic offenders accounted for only 2.0 percent of all persons under supervision at the end of this year.

Drug offenders, who represented 22.7 percent of all persons supervised at the end of the twelve month period, declined by 1,800 since last year to 13,416. More than half of this group (56.5 percent) had been involved in crimes with narcotic drugs. The remainder were comprised of 3,285 or 24.5 percent marihuana offenders and 2,551 or 19.0 percent controlled substance offenders under the Drug Abuse Prevention and Control Act (DAPCA) of 1970.

Persons under supervision for forgery and counterfeiting decreased from 6,507 or 10.1 percent of the total caseload last year to 5,263 or 8.9 percent of this year's total. Weapons and firearms offenders also declined notably from 3,244 or 5.0 percent of the total last year to 2,575 or 4.4 percent of all offenders supervised at the end of this year.

Cases and Motions Under Advisement in U.S. District Courts

U. S. district judges held a total of 1,097 matters under advisement over 60 days as of June 30, 1981. These statistics indicate a 35.2 percent decrease of pending matters from the 1,692 reported in 1980, however, because a substantial number of judges' reports were received too late to be included with this year's data, some undecided matters have not been tallied. Judges who report too late are listed as not reporting. Since 1980, the number of active judges not reporting has risen from 25 to 76. A total of 511 district judges (including 110 senior judges) reported on the status of matters before the court for the three month period ended June 30, 1981, compared to 534 district judges (including 100 senior judges) for the same period in 1980. Judges having no cases over 60 days totalled 331, or 64.8 percent of the judges reporting.

Table 81
District Judges Reporting on Cases Held Under Advisement
On June 30, 1981

Circuit	Total Judges reporting	Senior Judges reporting[1]	Judges not reporting[2]	Judges having no cases over 60 days	Judges having cases over 60 days
Total	511	110	76	331	180
District of Columbia	18	6	3	14	4
First	17	2	5	7	10
Second	51	12	6	24	27
Third	58	11	2	38	20
Fourth	40	7	4	30	10
Fifth	105	15	16	66	39
Sixth	49	8	7	28	21
Seventh	27	8	13	15	12
Eighth	42	14	1	31	11
Ninth	70	18	17	54	16
Tenth	34	9	2	24	10

[1] Included in total.
[2] Does not include Senior Judges.

While 65.1 percent of the pending matters were held less than six months, 22.2 percent were held over six months but less than one year, and 12.7 percent were held over a year.

As in recent years, the Seventh, Sixth, and Fifth circuits, respectively, reported the greatest number of pending matters. The Seventh Circuit reported 278 matters (or 25.3 percent of the total); the Sixth Circuit reported 177 matters (16.1 percent); and the Fifth Circuit reported 173 matters (15.8 percent). Judges in the Sixth Circuit also reported the highest number of matters held over one year. Many "Black Lung" and Social Security cases are prevalent in this geographical area and contribute to this circuit's total number of undecided cases.

Table 82
Cases and Motions Held Under Advisement Over 60 Days
On June 30, 1981
Which Have Not Been Reported As Decided

Ninth	8	36	8	21	-	14	-	1
Tenth	19	30	17	20	2	8	-	2

Historical data on the number of matters held under advisement over 60 days is provided in Tables 83 and 84. Despite the high percentage of non-reporting judges, the total number of matters under advisement is up 92.5 percent compared to the 1975 figure of 570. If 1981 statistics for those non-reporting judges were included, an even greater increase would be evident.

Matters held over 60 days but less than six months increased 46.3 percent since 1975. Cases and motions held more than six months but less than one year have also risen dramatically over the past several years. In 1975 only 60 matters were reported in this category; in 1981, 244 such matters were reported. The 22 matters held over one year in 1975 increased by 531.8 percent to 139 matters this year.

In 1975 each district judge reporting matters averaged 3.7 matters. This year, each district judge reporting matters averaged 6.1 matters.

1981	511	180	6.1	35

PASSPORT AND NATURALIZATION

Since 1971, the United States Postal Service has gradually taken over the processing of passport applications, thereby reducing the workload of many U.S. district courts. Compared to the year ended June 30, 1980, there has been a 21.6 percent reduction in the number of passport applications processed by U.S. district courts. There were 18,650 passport applications processed by 30 U.S. district courts in 1981. Twelve of the 30 districts processed between 3 and 78 applications. The Virgin Islands processed the largest number of passport applications with 2,690 during the year ended June 30, 1981. Ohio, Norhtern and Texas, Western processed 2,380 and 1,711 applications, respectively.

Petitions for naturalization decreased 4.4 percent from 150,646 in 1980 to 144,019 in 1981. A total of 20,509 petitions were filed with the Eastern District of New York for the year ended June 30, 1981. California, Central reported 12,226 petitions filed during 1981, a 48 percent decrease or 11,221 less than last year.

The number of aliens naturalized increased 20 percent from 133,721 in 1980 to 159,962 in 1981. California, Central reported 29,690 aliens naturalized, accounting for 18.6 percent of the total.

Table 85 summarizes passport and naturalization statistics for the past 26 years. Appendix Table P-1 provides data by district on the number of passport applications processed, the number of petitions for naturalization filed, and the number of aliens naturalized during the year ended June 30, 1981.

OF
DETAILED
STATISTICAL TABLES

JULY, 1980 - JUNE, 1981

Table A-1
Supreme Court of the United States
Cases On Docket, Disposed of, and Remaining On Dockets
At Conclusion of October Terms 1976 through 1980*

Cases	Total	Original	Paid	In Forma Pauperis
1976				
Cases on Docket	4,730	8	2,324	2,398
Disposed of	3,918	2	1,852	2,064
Remaining on Dockets	812	6	472	334
1977				
Cases on Docket	4,704	14	2,341	2,349
Disposed of	3,867	3	1,911	1,953
Remaining on Dockets	837	11	430	396
1978				
Cases on Docket	4,731	17	2,383	2,331
Disposed of	4,017	-	2,021	1,996
Remaining on Dockets	714	17	362	335
1979				
Cases on Docket	4,781	23	2,509	2,249
Disposed of	3,889	1	2,050	1,838
Remaining on Dockets	892	22	459	411
1980				
Cases on Docket	5,144	24	2,749	2,371
Disposed of	4,358	7	2,324	2,027
Remaining on Dockets	786	17	425	344

Cases	October Terms 1976	1977	1978	1979	1980
Argued during term	176	172	168	1,561	154
Disposed of by full opinions	154	153	153	143	144
Disposed of by per curiam opinions	22	8	8	12	8
Set for reargument	-	9	8	1	2
Granted review this term	169	162	163	154	183
Reviewed and decided without oral argument	207	129	110	124	122
Total to be available for argument at outset of following term	88	75	79	78	102

* October term 1980 statistics are as of July 2, 1981 and are subject to revision.

[1] Total available jurors divided by total jury trial days gives the average number per jury trial day.
[2] Indicates those districts which have not adopted local rules reducing the size of civil juries.

NOTE: Due to rounding, percents may not add to 100.0 percent.

1 Detail may not add to total due to rounding to whole hours.
2 Other representations include court directed prisoner representations, bail/presentment, witness, probation revocation, and parole revocation representations.
3 Arkansas, Western opened in October, 1980, as a branch office of Missouri, Western.
4 Includes 566 court directed prisoner representations of inmates of the U.S. Medical Center for Federal Prisoners at Springfield, Missouri.
5 Two extortion cases which went to jury trial accounted for 1,630 of the total hours in court. Excluding these two cases the average number of hours per criminal case is 2.9.

[1]Individual visits to the court of assignment.
[2]Senior judge during all or part of the year ended June 30, 1981.
[3]Districts are identified by the two-letter state abbreviations authorized by the U.S. Post Office.

NOTE: Service shown in this table is by assignment made by the Circuit Council within the Circuit or by the Chief Justice of the Supreme Court outside the Circuit. Also district judges elevated to circuit court judgeships often close out matters in which they participated as district judges. Such judges providing service to the original district after elevation to the circuit court are considered visiting judges.

Table V-2
United States Courts of Appeals
Service of Visiting Judges During the Twelve Month Period Ended June 30, 1981

Visiting Judges by Circuit Visited	Total Number of visiting judges and assigned court	Days of Service	Cases heard
