Introduction

This report is a description of the characteristics of the inmates released to the street from the Massachusetts Department of Correction. It contains information on personal background characteristics, present offense, criminal history and furlough participation. These tables were derived from the computerized data base developed by the Correction and Parole Management Information System (CAPMIS) and produced by the Research Unit of the Department of Correction on the Massachusetts State College Computer Network (MSCCN).

NOTE: This report differs from that of last year in format. Last year, the number of unknown data for each table was listed at the bottom of that table. This year, each table has an unknown category included in that table.

EXPLANATION OF TABLES

Each column represents a correctional institution. There are 20 of these categories which take up 2 pages (10 on one page, 10 on the other). Each row represents a category of the specified variable. For example: the variable race has 4 categories (4rows) which are white, black, other and unknown.

At the bottom of each table there are 2 numbers under each column. The top number is the actual number of inmates for the corresponding institution. The bottom number represents the percent of the total population at that institution. When a table has more categories than can be listed on one page, the column totals are listed on each page and they represent the totals of the institutions for the complete table.

At the right of each table, there are 2 numbers for each row. Similarly the top number is the actual number of inmates who fall into the corresponding category and the bottom number is the percent of the total population in the corresponding category. The row totals are listed on each page of the table and represent the totals of the categories for the complete table.

The rest of the table consists of boxes (cells) each with 2 numbers. The top number represents the number of inmates at the corresponding institution (column) who fall into the corresponding category (row). The bottom number is the column percent. The column percent is the percent of the inmates at the particular institution (column) who fit into the corresponding category. For example:

BOSTON	
STATE	
I-----I	
I 23 I	
BLACK I 39.7 I	
I-----I	

23 people are black in Boston State
39.7% of all people in Boston State are black.

GLOSSARY OF TERMS

INSTITUTIONS:

Page 2

BOSP (Boston Offenders Services Program)
SECC (Southeastern Correctional Center)

Page 19

Court from which committed
A. Municipal courts: lower courts of Suffolk County
B. District courts: lower courts of all other counties

Page 27

Occupational field
These categories were derived from a code scheme developed by Martin Hamburger, Teachers College, Columbia University. The following are examples of occupations in each category:

Page 29

Professional: lawyers, doctors, clergy, engineers

Semi-professional: teachers, social workers, artists, youth workers, researchers

Business: owners or managers of any business sales

Clerical: insurance salesmen, secretaries, dime store clerks

Skilled manual: tradesmen such as carpenters & plumbers of a skill level above apprentice

Semi-skilled manual: factory workers, construction laborers

Unskilled manual: general laborers, dish washers

Services: police, firemen, bartender, taxi driver

Agriculture: farmers and farm workers

Armed services: those in armed services without special training

Unemployed: little or no work experience

Drug Use

This data is based upon information obtained from the probation department report prepared on each commitment. A person is described as a drug user if he (1) describes himself as such or (2) has had arrests for narcotic offenses.

Page 29

Minimum sentence in years

Indeterminate: sentences without a minimum term, parole eligibility determined by Parole Board

regulations.

Page 39

Present Offense

If the present commitment is for more than one charge, present offense refers to the most serious charge.

Page 51-64

Arrests

An arrest is defined as an arrest followed by a court appearance and a final disposition. In many cases, several charges are tried at the same time. For the purposes of the table of total arrests, such a situation is considered to be one court appearance and thus one arrest.

Page 67

Number of county incarcerations

A county incarceration is defined as a sentence of not more than 2-1/2 years to be served in an institution such as a house of correction

Page 93-96

Age at 1st arrest for drunkenness, drugs

Not applicable: never arrested for such offenses

Page 103-107

Furlough outcomes

Successful: returned to facility within designated number of hours without any difficulties

Late Under: returned to facility within 2 hours after designated time of return without furlough problems

Escape: declared escape, did not return voluntarily within 24 hours of designated time of return

Arrest: arrested while on furlough
