CRIMINAL INJURIES COMPENSATION COMMISSION ANNUAL REPORT 1981 ACQUISITIONS

We have the honor to submit the 14th Annual Report of the Criminal Injuries Compensation Commission. The report covers activities of the Commission for the period December 16, 1980 through December 15, 1981.

The Hawaii program was established in 1967 to assist victims of criminal acts by providing compensation for victims of certain crimes or dependents of deceased victims, and for indemnification of private citizens for personal injury or property damage suffered in the prevention of crime or apprehension of a criminal.

From the first enactment of a victim compensation program in the United States, the idea of victim compensation has met with growing acceptance. The number of states implementing victim compensation programs have steadily increased each year. There are also renewed attempts each year to institute a federal program in support of victim compensation. To date, 35 states and the Virgin Islands have enacted legislation to compensate victims of crime.

Since the inception of the program in 1967, the Hawaii Commission has made 2,387 awards totaling \$3,281,864.86; denied 764 claims; and, had 39 applications withdrawn prior to formal hearings.

The Criminal Injuries Compensation Commission is composed of three (3) members appointed by the Governor with the consent of the State Senate. One (1) member of the Commission must be an attorney licensed to practice in the State of Hawaii.

In March, Governor George R. Ariyoshi appointed Alana Lau, an Attorney, to fill a vacancy created by the resignation of Chairman, Daniel S. Ukishima, and reappointed Sophie Sheather to a second term. The Commission has been meeting twice weekly to reduce the backlog of pending applications.

The Commission has a staff of three (3) persons: An Administrator, one Investigator, and a Secretary.

The Hawaii program obtains its funds for victim compensation from the General State Revenues. There are two broad areas of operating costs - administrative expenses and benefit expenditures (awards). Administrative expenses include such cost elements as staff salaries, office rental, Commissioners' fees, travel, and materials and supplies. Benefits include payments to victims, their dependents, and the providers of services. The total Operating Budget of the Commission for FY 1981-82 is \$77,418.

During the period December 16, 1980 through December 15, 1981, the Commission received 441 new applications from victims for compensation and disposed of 309 of them. 226 claims carried over from previous years were also finalized. As of December 16, 1981, there were 154 applications still pending. Most of the pending claims are of recent vintage. Of the 535 applications disposed of in 1981, 393 resulted in awards, 140 were denied, and 2 were withdrawn.

Details of the number of applications and orders are summarized in Table 1 of this part. Summaries of each of the awards, denials, and withdrawals are contained in Appendixes A, B, and C of this report.

The work of the Commission was accomplished at 54 formal meetings. Several days of hearings were held on Maui, Hawaii and Kauai. Every application from the neighbor islands which was ready for hearing at the time was acted on. In addition to the formal hearings, the Commission held one public hearing and two meetings to discuss administrative matters.

The awards in 1981 total \$432,512.55. Appendix A of this report sets forth in great detail a financial analysis of each award. Statistical data for the period 1968-1981 may be found under Appendix D.

An analysis of the "average award" is set out in Table 3, herein.

One of the more important sections of the statute is Section 351-31(c), which provides that the Commission "shall reduce the amount of compensation in accordance with its assessment of the degree of such responsibility attributable to the victim".

There were 77 cases in which the Commission determined that the victim shared in the responsibility for the crime that caused his or her injury or death. In 66 of those cases, the Commission denied the application entirely. In 11 cases, the Commission reduced the awards by various percentages.

Awards were made to nine private citizens under Part IV ("good samaritan" provision) of the statute. The only difference between an award under the "good samaritan" provision and the other provisions of the statute is that under the former the Commission may make an award for personal property losses.

This year 42 applicants were represented by attorneys. 26 of the attorneys were given awards, 4 attorneys waived their legal fees, while 12 attorneys received no compensation because the Commission was unable to order an award for compensation.

Attorneys' fees awarded pursuant to Section 351-61, Hawaii Revised Statutes, amounted to \$1,525 and were included as part of, and not in addition to, the awards. The average of the attorneys' fees awarded amounted to \$58.65.

Section 351-63, Hawaii Revised Statutes, requires the Commission to reduce the amount of compensation to the extent the applicant received any recovery from collateral sources. In our investigation, and during the course of our hearings the Commission reviews all payments received by the applicant from medical insurance, Workers' Compensation, TDI, Social Security, VA, insurance, etc. During the past year, recovery from such collateral sources amounted to \$581,766.27, and accordingly, the Orders for Payment of Compensation were reduced by that amount.

The following table has been prepared to provide data in those areas where compensation were withheld from applicants since the victims had already received such economic benefits from collateral sources.

An important feature of the Hawaii program is the victim's right for judicial review. During the year, 13 claims were submitted for reconsideration by the Commission. 7 requests were approved and the Orders amended while 6 requests were turned down. One case is still pending before the Supreme Court.

Several events dominated the activities of the Commission in 1981. Pursuant to the provisions of Chapter 91, Hawaii Revised Statutes, the Commission held a hearing to update its Rules to conform with current law and policy considerations, and the Program Administrator participated extensively in the legislative process during the last session of the State Legislature.

A significant development this year was the decision rendered by the Hawaii Supreme Court. The case involved Mr. Walter Edmundson who was denied compensation by the Commission in 1976 because he received collateral benefits far in excess of what he would have received from the Commission. By law, the State Commission can pay no more than \$10,000 to victims of certain crimes or to the dependents of deceased victims. The Commission interpreted the law to mean it did not have to compensate a victim who already has received more than \$10,000 in benefits from public or private funds. The Supreme Court, however, disagreed with the Commission and remanded the case back to the Commission for further proceedings.

The Court held that "The State's limitation would impose a narrow interpretation of the law by automatically denying an award where a victim received more than \$10,000 in benefits without regard to the gross economic loss plus pain and suffering." The State's interpretation would have the effect of denying awards to persons who have suffered great economic loss, but who have received collateral benefits in excess of \$10,000, while compensating claimants who have suffered small economic losses but who have received less than \$10,000 in collateral benefits.

The Commission held a hearing on October 23, 1981, for the limited purpose of reviewing the Commission's decision of November 23, 1976 denying compensation to Mr. Walter Edmundson, and applying procedures consistent with HRS, Sections 351-62(b) and 351-63(a), which procedures were ordered by the Supreme Court in its Opinion dated March 12, 1981, Case No. 6470.

At the conclusion of the hearing, a decision was rendered by the Commission and Mr. Edmundson's claim was again denied.

As a result of the Supreme Court ruling, applications involving Workers' Compensation payments will require more time to resolve.

Our Program Administrator, Wilfred S. Pang, attended the 8th International Conference for the Compensation of Innocent Victims of Violent Crimes held in Minneapolis, Minnesota, May 24-27, 1981.

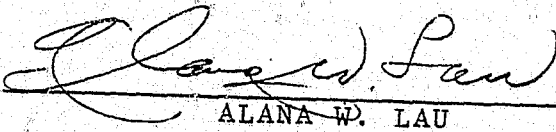

The purpose of the conference was to bring together representatives of the various countries with crime victim compensation programs and leading scholars in the field to discuss all aspects of crime victims compensation, and to develop better methods to improve the administration of crime victims compensation statutes.

The conference proved beneficial to the Commission because it improved lines of communication with our counterpart in other States, and it provided an opportunity to exchange valuable data.

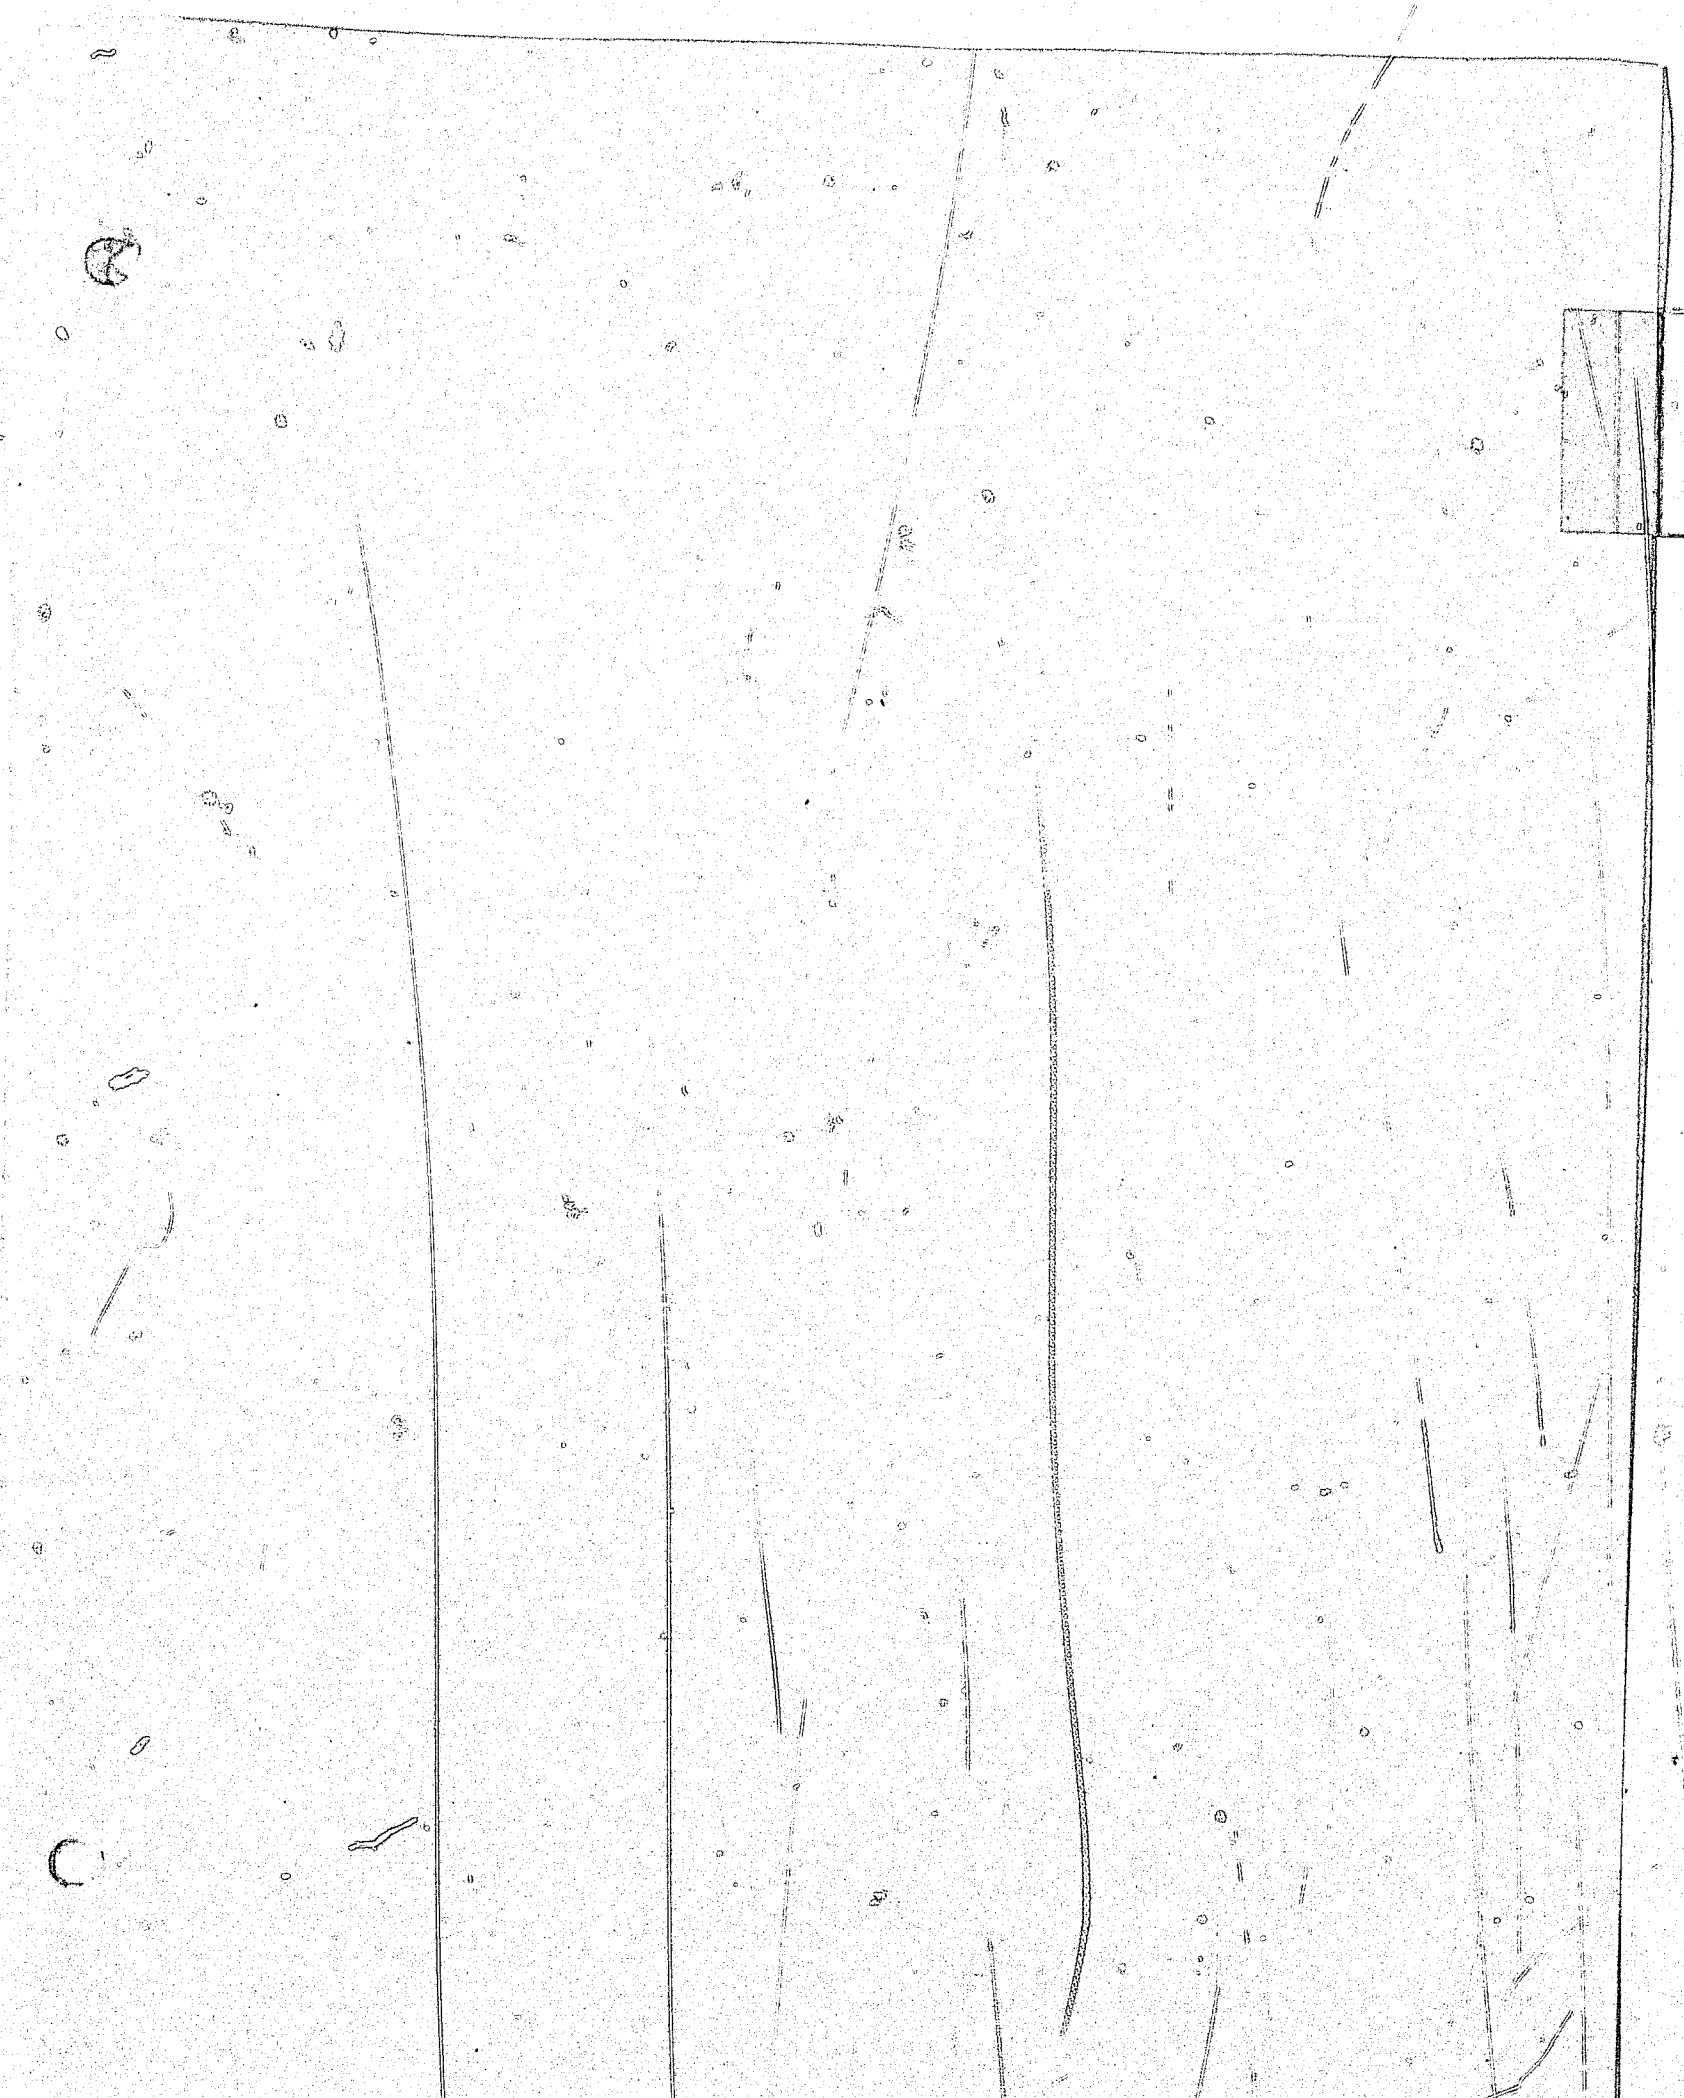

Another effort is being made to introduce crime victims compensation legislation in the 98th Congress. However, in light of federal cutback in funds, there is little indication that federal legislation will be enacted. Your Commission will continue to work for and support legislation to make victim compensation nationwide.

The Commission again expresses its sincere thanks and appreciation to the police departments of the various counties for their excellent cooperation and assistance. It also acknowledges with thanks the support of Mr. Franklin Y.K. Sunn, Director, Department of Social Services & Housing, and his staff.

Finally, the Commission acknowledges with much thanks the outstanding contribution of its dedicated administrative staff. In spite of its limited size, the heavy caseload of victim applications and the severity of the injuries, the staff completed numerous details required in a statewide compensation program. The details include the pre-application stage, the application stage, the investigative stage, setting up the hearings, the hearing stage, reviewing collateral sources, compliance with the Administrative Procedures Act and many other details.

81-350	9-9-81	8-29-80	12-9-81	Assault	Victim is a policeman. Police Officers who are actively engaged in the performance of their official duties are excluded from coverage.
81-353	9-14-81	8-25-81	12-9-81	Assault	Victim shared in the responsibility for the crime that caused his injury.

81-379	10-14-81	11-3-79	12-9-81	Assault	The application was filed late.

79-13

Applicant is a 16 year old male who alleges that he was assaulted with a hammer. However, there is no record of the crime having been reported to the police. Because the crime was not reported to police as required by law, the claim is denied.

79-58

Applicant is a 23 year old male who alleges that he was assaulted. The more credible evidence indicates that he was drinking with 2 men when an argument erupted into a fight. Medical bills were paid by the Public Welfare Division, DSSH, State of Hawaii. Applicant is unemployed. Because he shared in the responsibility for the crime that caused his injury, Applicant's claim is denied.

79-89

Applicant is a 15 year old boy who was assaulted in school. He suffered lacerations, abrasions, and contusions of the right eye. The application was filed 4 months beyond the statute of limitations. Also, Applicant received \$500 from the offender in the form of restitution. Because the application was filed late, the Commission is unable to order an award for compensation. Accordingly, the claim is denied.

79-192 (Hilo)

Applicant is a 31 year old male who alleges that he was assaulted on August 1, 1979. The Hilo Police Department does not have a report of the incident on file. No medical bills were submitted and Applicant is not gainfully employed. Because Applicant did not report the alleged crime to police as required by law, the Commission is unable to order an award for compensation. Accordingly, the claim is denied.

79-193 (Hilo)

Applicant is a 31 year old male who alleges that he was assaulted on August 29, 1979. The Hilo Police Department does not have a report of the incident on file. Because Applicant did not report the alleged crime to police as required by law, the Commission is unable to order an award for compensation. Accordingly, the claim is denied.

79-247 (Hilo)

Applicant is a 32 year old male who alleges that he was choked and shoved against a wall. The more credible evidence indicates that Applicant swore at a woman and had a confrontation with her husband. Applicant did not seek medical treatment, is unemployed, and did not report for his scheduled hearing. Because Applicant did not seek medical treatment and did not report for his scheduled hearing, the Commission is unable to determine whether he is an innocent victim of one of the enumerated crimes in the statutes. Accordingly, the claim is denied.

79-266 (Hilo)

Victim is a 49 year old female who was beaten to death by her boyfriend. She suffered multiple facial fractures. The more credible evidence indicates that both the victim and the suspect were drinking in an abandoned shack on the date of the incident. An argument ensued which caused the suspect to kill victim. There are no medical expenses, and victim was not employed at the time of the incident. Funeral expenses totaled \$652.20. Because victim shared in the responsibility for the crime that caused her death, the claim is denied.

79-273 (Hilo)

Applicant is a 30 year old male who was assaulted by 2 men. The more credible evidence indicates that Applicant was assaulted because he had threatened and harassed a female friend of the suspect. Applicant eventually withdrew his complaint and refused to prosecute the defendants. Applicant did not seek medical treatment, and is not gainfully employed. Because he shared in the responsibility for the crime that caused his injury, Applicant's claim is denied.

80-6

Applicant is a 29 year old male who was shot in the forehead while jogging. The more credible evidence indicates that Applicant and a male friend were drinking all evening and smoking marijuana. Both men were intoxicated. Shortly after 2 a.m., Applicant and his friend decided to go home. When they reached Alea Heights Drive, Applicant left the automobile to jog home. It was while he was jogging that he claimed he was shot. The Commission determined that the behavior of Applicant was such that he shared in the responsibility for the crime that caused his injury. Accordingly, the claim is denied.

80-8

Applicant is a 30 year old male who alleges that he was assaulted and robbed. However, there is no evidence to indicate that he reported the alleged crime to police. Medical expenses totaled \$59. Applicant is unemployed. Because the alleged crime was not reported to police as required by law, the claim is denied.

80-19 (Hilo)

Applicant is a 26 year old male who was shot in the right thigh. The more credible evidence indicates that Applicant was shot because he was squatting on the suspect's property without permission. Medical expenses totaling \$11,053.52 were paid by the Public Welfare Division, DSSH, State of Hawaii. There is insufficient evidence to support Applicant's claim for loss of earnings. Because Applicant shared in the responsibility for the crime that caused his injury, the claim is denied.

80-35
