### PREFACE

The information in this publication was compiled by the Research and Reporting Unit, Division of Program Development and Evaluation. The report was prepared by Zona G. Jackson, Statistician. Betty Mayer, Clerk, provided special assistance. Typesetting and graphics were done by Sharon S. O'Keefe, Graphic Artist Illustrator. Coordination and review were done by Helen S. Hinshaw, Reporting Supervisor. The data concerning adult probation and parole districts were supplied by the information system administered by the Division of Youth and Community Services.

The responses to a survey of the 1980 annual report entitled *Adults and Children Under Community Supervision* indicated the desirability of dividing the adult and juvenile data into two separate annuals. Thus, this fiscal year 1981 report entitled *Adults Under Community Supervision* is the first of such adult annual reports. Individuals interested in juvenile data should request a copy of the fiscal year 1981 *Children Under Community Supervision*. Copies of annual reports containing both juvenile and adult data are available for fiscal years 1978 through 1980.

All questions, remarks or requests concerning this publication should be addressed to:

#### EXPLANATION OF WORKLOAD STATISTICS

The data in this statistical report reflect the workload of the adult probation and parole districts. The information sources for the 1981 annual statistical report are the *Probation and Parole Caseload/Workload Report*, the *Probation Statistical Report*, and a manually done *Monthly Statistical Report* for discretionary parolees, mandatory parolees and pardonees under supervision. In addition, for the first time, two computer printouts are reproduced — the *Probation Length of Stay Report*, and the *Probation Case Closing Report*.

It is not appropriate to draw comparisons between the individual districts. The services provided by the probation/parole districts are impacted by the needs of their locality. The workload cannot be considered comparable between the localities because of the divergent demands of the individual communities. The variation in workload is affected by the level and type of request received from the court, the geography and size of the district, and by the level of supervision required by the individual client.

## Adults Under Supervision of the Division of Youth and Community Services Fiscal Year Ending June, 1981

*The data in this report were submitted to the central office of the Division of Youth and Community Services by each district office in Virginia. The map on page 4 shows the 39 adult probation and parole districts and the administrative regions in which they are located.*

### PROBATION CASELOADS

Probationers are received for supervision from courts of record (Circuit Courts) or courts not of record (General District Courts). Of the total clients received during fiscal year 1981 there were 5,895 from Circuit Courts and 1,300 from District Courts. At the end of the fiscal year there were 11,345 probationers remaining under supervision from Circuit Courts and 1,334 from District Courts. At the end of last fiscal year there were 10,536\* probationers under supervision from courts of record and 927\* from courts not of record. This is a 7.7% increase in the number of clients under supervision from Circuit Courts and a 43.9% increase in clients from District Courts. Although Region I (Western) had the largest number of probationers remaining under supervision in June, with 3,079, Region V (Southeast) had 3,064. Region IV (East Central) had the fewest number of probationers under supervision with 1,673.

### PAROLE/PARDON CASELOADS

There were 3,568 active cases of parolees and pardonees under supervision in June, 1980. During fiscal year 1981, there were 3,915 parolees and pardonees received and 3,406 removed from the supervision of the Division of Youth and Community Services. At the end of the fiscal year there were a total of 4,078 parolees and pardonees under supervision. This represents a 14.3% increase in the number of parolees and pardonees under supervision at the end of the fiscal year. Region V (Southeast) had the largest number of parolees under supervision in June, with 1,128; Region IV (East Central) was second, with 1,006 parolees under supervision. Region I (Western) had the fewest number of parolees/pardonees under supervision, with 579.

### CLIENT FLOW

Among the 7,195 probationers received for supervision during the fiscal year, 6,099 or 84.8% were new cases from court. This represents a 7.1% increase over the 5,694 new cases from court received in fiscal year 1980. During fiscal year 1981 there were also 699 probationers or 9.7% received from other states, 248 or 3.4% restored to supervision and 53 or 0.7% Virginia cases returned from other states.

Of the 5,783 probationers removed from probation supervision during the fiscal year, 1,855 or 32.1% were removed due to the expiration of their term of probation. This represents a 9.5% decrease over the 2,049 probationers removed by expiration of probation in fiscal year 1980. In addition, 1,735 probationers or 30.0% were removed from supervision by order of the court. Warrants were issued for 613 or 10.6% percent of the probationers who were discharged, 665 or 11.5% were probationers who had their probation revoked, and 564 or 9.8% were out-of-state probation cases that were terminated.

The majority of parolees/pardonees who were received came directly from Virginia institutions (3,264 or 83.4%). In addition, 8.3% of the clients were transferred from other districts and 5.5% were received from other states. Among those removed from supervision, 1,904 or 55.9% were discharged from parole, 722 or 21.2% were issued warrants and 332 or 9.7% were transferred to other districts. In addition, among parolees removed from supervision, 6.2% were out-of-state cases terminated and 4.4% were Virginia cases transferred to other states.

*\*This total under supervision on June 30, 1980 is slightly different from what was reported in the 1980 Adults and Children Under Community Supervision because a different source, the automated, Probation and Parole Caseload/Workload Report, is being used.*

#### PROBATION LENGTH OF STAY BY OFFENSE

Of the 5,783 probationers removed from probation, 2,566 or 44.4% were recidivists whose average length of stay was 22.6 months. The average length of stay for the 3,217 (55.6%) non-recidivists was 19.3 months or 3.3 months less than for the recidivists. The overall average length of stay for all probationers removed from probation in fiscal year 1981 was 20.8 months.

Of the 5,783 probationers released in fiscal year 1981, 754 or 13.0% had been convicted of violent crimes and 4,977 or 86.1% had been convicted of non-violent crimes. For 52 or 0.9% the committing offense was non-specific. The most frequent violent offenses for which probation was given were Assault (419 or 55.6%) and Robbery (188 or 24.9%). The average length of stay for the probationers who committed Assault was 21.0 months; for the probationers who committed Robbery it was 27.5 months.

The most frequent non-violent offenses for which probation was given were Larceny (1,317 or 26.5%), Dangerous Drugs (1,076 or 21.6%) and Burglary (940 or 18.9%). For the probationers who committed Larceny, Dangerous Drugs and Burglary offenses, the average length of stay was 19.4 months, 20.7 months, and 24.8 months, respectively. For more information concerning the offense and average length of stay for all recidivist and non-recidivist probationers released in fiscal year 1981, see pages 48 and 49.

#### PROBATION CASE CLOSING

Variation in workload is affected by the level of supervision required by the client. Level 5 can be the most time consuming level of supervision, depending upon the number of personal contacts required. Then, in successive order, probationers in levels 1, 2, or 3 require more personal contacts and time to supervise. It is difficult to rank level 4 because of the variety in number of contacts that could be required.

Overall, of the 5,783 probation cases closed in fiscal year 1981, 44.2% were on Level 1 Supervision (at least one personal contact every month), 25.1% were on Level 2 (personal contact required at least every other month) and 26.3% were on Level 3 (at least one personal contact every calendar quarter). In Level 4, relaxed supervision, and Level 5, intense supervision, the number of contacts required are established by the Chief or Deputy Chief. Approximately 4.3% of probation cases closed in fiscal year 1981 were on Level 4 and 0.1% were on Level 5.

Of the 5,783 probation cases closed, 4,168 or 72.1% were successful case closings. Approximately 1,369 or 32.8% of these successful case closings were on Level 1 of supervision and 1,369 or 32.8% were on Level 3. In addition, 1,150 or 27.6% were on Level 2.

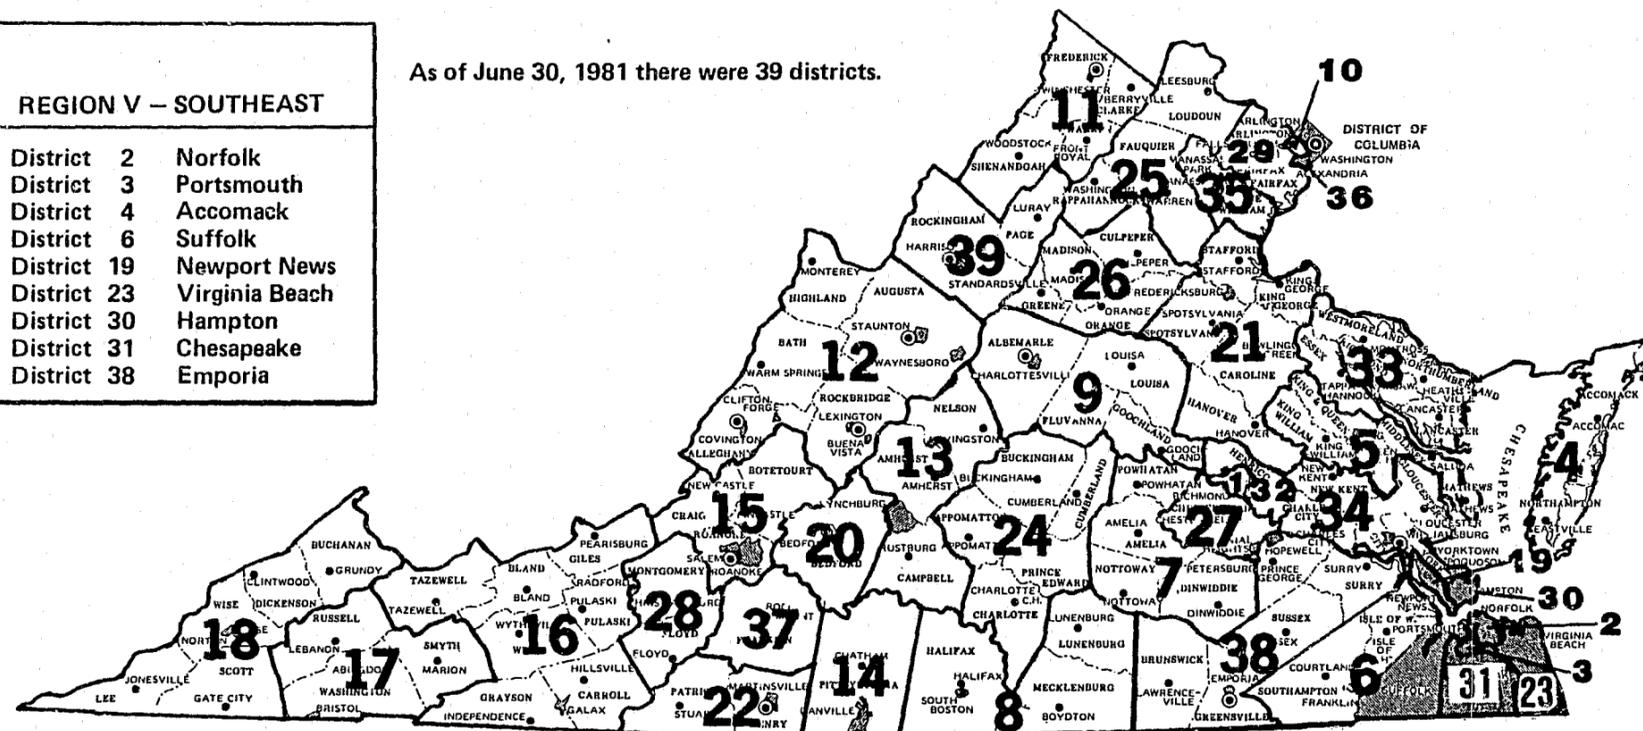

There were 1,524 (26.4%) unsuccessful case closings. Of these unsuccessful cases, 1,097 or 72.0% were on Level 1 Supervision, 250 or 16.4% were on Level 2, and 105 or 6.9% were on Level 3. In addition, it is known that of these unsuccessful cases, 421 or 27.6% violated probation by committing a new felony, 393 or 25.8% absconded, 356 or 23.4% committed technical violations, 186 or 12.2% committed new misdemeanor offenses and 32 or 2.1% failed to pay a fine, cost or restitution. For 136 probationers or 8.9% the reason for the unsuccessful case closing is not specified. For more information concerning case closings, level of supervision and type of violation, see pages 50 and 51.

CHART 1

CASES RECEIVED AND REMOVED FROM THE SUPERVISION OF PROBATION AND PAROLE OFFICES DURING FISCAL YEAR 1981

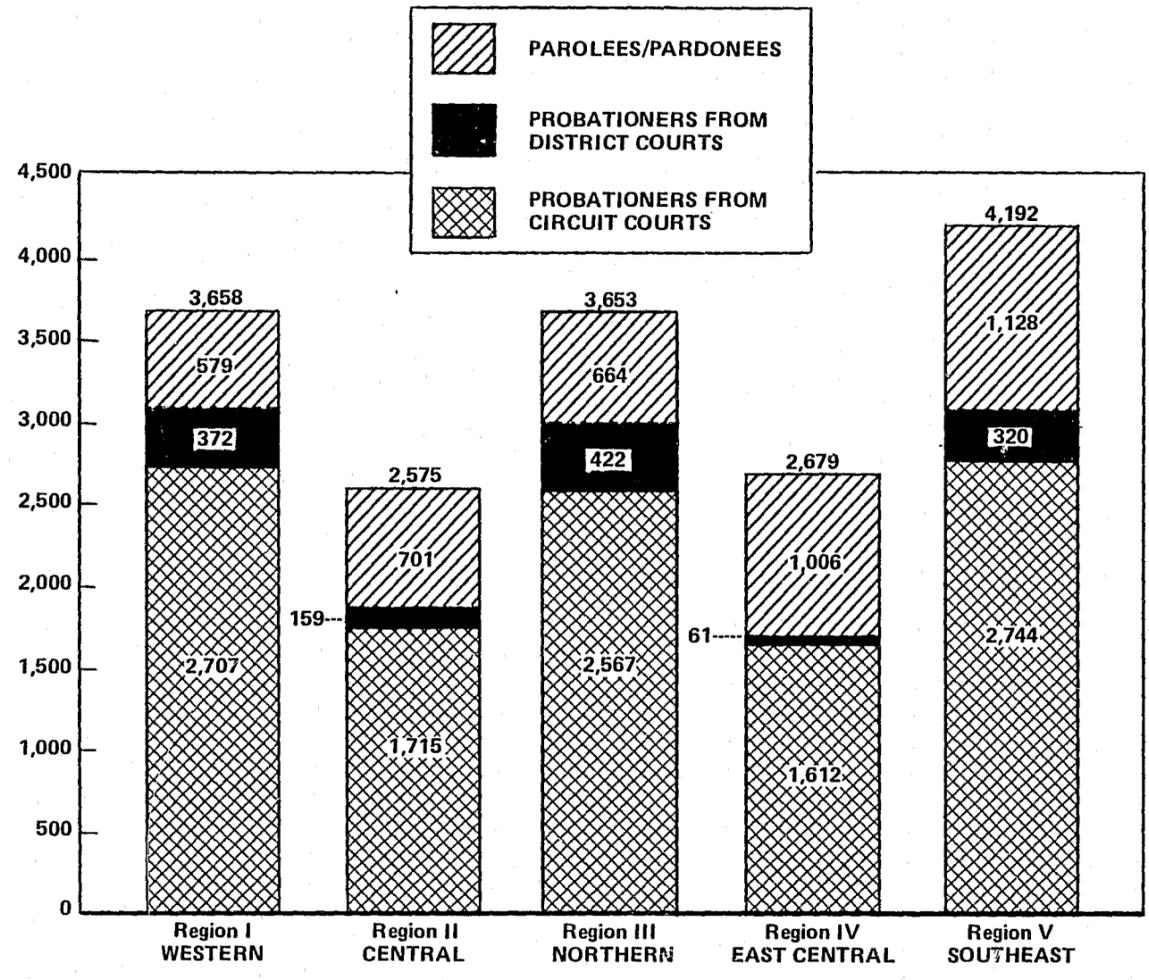

RECEIVED FOR SUPERVISION:

-  New Cases From Virginia Courts
-  From Virginia Institutions
-  Other
-  Transferred From Other Districts
-  Restored to Supervision
-  Virginia Cases Returned From Other States

REMOVED FROM SUPERVISION:

-  Discharged From Parole
-  Expiration of Probation
-  Removed by Court Order
-  Warrant Issued
-  Out-of-State Cases Terminated
-  Other
-  Probation Revoked
-  Virginia Cases Transferred to Other States

NOTE: 4,168 successful cases plus 1,524 unsuccessful cases totals 5,692 or 91 less than the 5,783 total probation cases reported closed earlier. The 91 difference is due to data error on records which were not included in the case closing report. Records on which the supervising district, level of supervision, closing action, or type of violation was left blank were not included.
