\*The Corrections Program is funded in part by Grant EF-4 from the National Institute of Corrections (U.S. Department of Justice).

THE CORRECTIONS PROGRAM

A "Corrections Program" within the Office of Vocational and Adult Education has been established by the Department of Education. The National Institute of Corrections has provided senior level staffing through a cooperative grant as their commitment to this new corrections initiative.

The overall goal of this joint effort is to increase the quality and quantity of education and training opportunities for adult and juvenile offenders. In order to reach this goal, the Corrections Program will initiate a variety of liaison, technical assistance and clearinghouse activities, including:

1. Coordinate existing ED funding programs which could benefit corrections.
2. Coordinate ED programs with those of other federal agencies such as the Departments of Labor, Justice, Health and Human Services, Housing and Urban Development, Veterans' Administration, and the Military Services.
3. Link corrections with existing, mandated resources currently being underutilized by facilitating coordination among correctional agencies, state and local agencies channelling federal funds, and the federal agencies listed above.
4. Prepare a directory of currently available federal funding programs for correctional education and training.
5. Work with State Departments of Education to increase their knowledge of and sensitivity to the needs of offenders.
6. Assist in the establishment of liaison between correctional education and other educational programs and systems.
7. Provide linkage between corrections and the National Center for Research in Vocational Education and regional Education Curriculum Centers to ensure better access for corrections to available skills packages and curricula.
8. Disseminate information to the field of corrections about relevant, successful, replicable programs and service delivery models.
9. Provide technical assistance in areas such as educational planning, program development and implementation, evaluation and research, and architectural design.
10. Serve as an information base in terms of pending federal education and training legislation.
11. Promote better training for correctional teachers.
12. Promote increased quality research in correctional education.
13. Work with the Commission on Accreditation for Corrections and the American Correctional Association to ensure the development of adequate standards for correctional education.
