PROBATION AND PAROLE IN WYOMING

DCT 4 1982

ACQUISITIONS

The Department of Probation and Parole operates under the direction of the Governor of the State of Wyoming and the Board of Parole. (See Figure 1) Agents supervise the conduct of persons granted a parole by the Board of Parole as well as those granted a conditional release from the State's several correctional institutions (Wyoming State Penitentiary, Wyoming Industrial Institute, Wyoming Girl's School, Wyoming Women's Center). Under direction of the district courts of the State, agents supervise those individuals granted probation by the district and juvenile courts. In addition, they are responsible for investigating and preparing written reports or social summaries in pre-release, pre-sentence and Interstate Compact Matters. (See Figure 2)

The overall objectives of the Department of Probation and Parole are as follows:

- a) To provide adequate, imaginative and practicable supervisory services for the rehabilitation and reintegration of juvenile and adult offenders so that they may become and remain law-abiding, productive citizens;
- b) To support the evolution and implementation of innovative and realistic methods of treating individuals subject to the juvenile or criminal justice systems, so that noncriminal behavior is possible;
- c) To take such actions as may be necessary and feasible to prevent, consistent with the protection of the public interest and safety, children and adults from becoming deliquent or criminal;

- 1 -

- d) To collect and evaluate information and data relating to the nature, extent and causes of crime and delinquency;
- e) To cooperate with and assist, within the scope of its functions and duties as provided by law, other public and voluntary agencies and organizations in the development and coordination of programs beneficial to offenders;
- f) To supplement its rehabilitative and reintegrative services to offenders by referring them to appropriate social services and activities to citizens generally;
- g) To encourage that any supervisory condition imposed on an individual be reasonably related to the correctional liberty and compatible with his needs, subject always to the interest and safety of others and of the public generally;
- h) To conduct supervision on the ba: , of factors relating to the individual offender rather than to the offense committed;
- i) To provide for maximum involvement of the individual offender in determining the nature and direction of his own goals, and the mechanisms for attaining the same; and
- j) To be guided by the criteria that no offender should receive more surveillance or help than he requires, and no offender should be supervised or scrutinized more than his potential risk demands.
