P R E F A C E

It is well known that law enforcement alone cannot control the causes of crime, but rather it is the responsibility of the entire community. Statistical information on crime accumulated over a period of time enables us to marshal the resources of both the public and private sector in an effort to diminish the crime problem. Our Uniform Crime Reporting Program now provides reliable statistical information for use by law enforcement managers, planners and the public.

Crime in Massachusetts, 1978, is the second annual report published by the Massachusetts Department of Public Safety's Crime Reporting Unit since the inception of the state UCR program in 1977. Prior to that time, no statewide system existed for the collection of accurate crime statistics from Massachusetts law enforcement agencies.

It is heartening to see the majority of the law enforcement community contributing to a central crime reporting program. Such statistics not only help to focus on high crime areas in the Commonwealth, but will also help in future studies of the causes of crime.

In light of this cooperative criminal justice effort, I compliment the law enforcement agencies of Massachusetts on the publication of their second annual report, Crime in Massachusetts, 1978.

Edward J. King
Edward J. King
Governor

FOREWORD

Crime in Massachusetts 1978 is the second annual report published by the Massachusetts Crime Reporting Unit which is the result of a completely voluntary program by law enforcement agencies throughout the Commonwealth. We are pleased that it is being used increasingly by many interested groups both inside and outside law enforcement.

Our hope is that these detailed statistics will also help our citizens to realistically assess the crime problem and support both public and private efforts to reduce the causes of crime.

We commend all law enforcement agencies for their efforts in making this program a success.

SECTION 1

THE MASSACHUSETTS
UNIFORM CRIME
REPORTING
PROGRAM

HISTORY OF UNIFORM CRIME REPORTING

Although the impetus for collecting nationwide crime information dates back to the 1890's, no ongoing program was initiated until the Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) was established in 1927. This Committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930, when the FBI received a Congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the Uniform Crime Reporting Program (UCR) in an advisory capacity, and has been joined in this responsibility by the Committee on Crime Records of the National Sheriffs' Association.

UCR receives crime information through voluntary reports submitted by individual law enforcement agencies across the country. In 1966, the FBI began coordinating UCR data collection through designated state level agencies which report statewide information to the FBI each month. Massachusetts is pleased to be one of the 43 states now participating in the state level UCR program.

OBJECTIVES OF MASSACHUSETTS UCR

Because increasing attention has been focused on the problem of crime in our communities in recent years, many segments of our population need more complete information for a variety of reasons.

Citizens are understandably concerned about the possibility of becoming victims of crime, but may not know what the real probability is. Law enforcement professionals, managers and administrators who must focus on crime in their own jurisdictions, also need to know what is occurring in surrounding jurisdictions in order to deploy personnel and equipment most efficiently to protect citizens and bring criminals to justice. Legislators need statewide information about crime in order to pass realistic laws that will increase the stability of our society. Researchers and planners need to know what is actually happening to predict trends and recommend changes.

The goal of *Crime in Massachusetts* is to identify the nature and extent of criminal activity in this state and present the information needed by each of these groups. This information will not in itself prevent crime, but it may encourage all segments of society, by understanding the problem, to work together with law enforcement agencies to reduce crime through more effective enforcement.

The objectives of *Crime in Massachusetts* are:

1. To identify the nature and extent of crime in our state;
2. To provide the management information needed by the law enforcement community to augment their ability to attack the crime problem;
3. To provide our citizens with the most complete information available;
4. To provide legislators with the information necessary to formulate laws which address the crime problem; and
5. To include sufficiently detailed data for researchers and planners.

CONSIDERATIONS FOR INTERPRETATION

Statistics are a tool used to summarize information so that patterns or trends become clearer. All statistics must be interpreted with an understanding of just what it is that they can say. Too often, numbers of the type in this report are used incorrectly to draw conclusions that the statistics simply do not support. In order to avoid this error, it is necessary to know what information is included and how it is reported.

To obtain accurate information from many different agencies, the national UCR program had to precisely define the methods for counting such information as the number of offenses, arrests, clearances and value of stolen or recovered property. The methods of counting and some resulting limitations are explained below.

CLASSIFICATION OF OFFENSES

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each. Part I offenses include 1) Violent Crimes: murder and non-negligent manslaughter, negligent manslaughter, forcible rape, robbery and aggravated assault; and 2) Property Crimes: burglary, larceny-theft and motor vehicle theft. All other offenses are classified under Part II (see Offense Definitions section).

Part I offenses, excluding negligent manslaughter, are used to calculate the Crime Index and Crime Rate (see sections entitled Crime Index and Crime Rate).

All offenses are classified on the basis of law enforcement officer investigation in accordance with UCR offense definitions (which are NOT necessarily identical to Massachusetts General Law definitions). Because UCR identifies a Police problem, offense classifications are not based on the findings of a court, medical examiner, jury or decision of a prosecutor.

COUNTING OF OFFENSES

The number of offenses is counted only for Part I crimes and simple assault. The method of counting varies with the type of crime committed, and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and non-negligent manslaughter, negligent manslaughter, forcible rape, aggravated assault and simple assault, one offense is counted for each VICTIM, regardless of the number of offenders involved.

For robbery and larceny, one offense is counted for each distinct OPERATION which is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if 20 people are robbed in a bar at the same time, only ONE offense has occurred. However, if that robber then leaves the bar and holds up a passerby, a second offense has occurred.

For burglary, one offense is counted for each structure which is illegally entered. However, when the structure is an apartment house, or business or office building in which units are leased for a period of time, one offense is counted for each unit burglarized.

For motor vehicle theft, one offense is counted for each vehicle stolen.

Note: Attempts to commit any of the Crime Index offenses are counted as actual offenses, except that attempts to kill and assaults to kill are counted as aggravated assault.

For multiple offenses that occur in one crime incident, *only the most serious offense is counted*. Part I crimes are ranked according to seriousness and appear in order from most serious to least serious under "Classification of Offenses," page 6. Example: A robber takes a man's wallet and then beats him causing serious injury. Both a robbery and an aggravated assault have occurred, but because robbery is considered by UCR to be more serious, only the robbery is counted. From one perspective, this method of counting seriously understates the crime problem, but from another, it prevents undue inflation of crime statistics.

Note: The number of offenses is not counted for Part II offenses.

ARRESTS

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because the arrest totals count all offenders arrested for each offense, and clearance totals count only the offenses for which an arrest or arrests have occurred.

CLEARANCES

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved. Offenses may also be cleared by exceptional means when the offender: commits suicide; makes a dying declaration; confesses while in custody or serving time for another crime; is prosecuted in another jurisdiction for the same offense; is a juvenile who is handled by notifying the parents; or when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender.

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are exclusively involved in the clearance of an offense. If the arrest of both adults and juveniles results in a clearance, it is counted as an "adult" clearance.

Note: Not all crimes are cleared within the calendar year in which the offense occurs.

PROPERTY STOLEN AND RECOVERED

The figures for value of property stolen and recovered are not set forth in this report due to the fact that compiling this information manually is virtually impossible. At the present time, the Crime Reporting Unit (CRU) is implementing an automated system to capture the information. Property Stolen and Recovered information will be published as soon as it is available.

REPORTING VARIATIONS

Massachusetts now receives Uniform Crime Reports from 329 law enforcement agencies. Because the number of reporting agencies is so large, one must be aware that unintentional variations from UCR guidelines may occur that would affect the validity of the data presented here.

Offense totals will probably vary from the actual number of offenses that occur because UCR statistics are based on crimes that are reported to law enforcement agencies and many crimes are not reported.

INFORMATION GROUPING

The crime statistics reported by an individual agency indicate what is happening in one particular area, but to make rational comparisons among a number of jurisdictions, communities with similar characteristics need to be grouped together. It may be important to know how a city compares with cities of similar size, or how patterns of crime differ in various types of communities. Grouping agencies with similar characteristics allows these determinations to be made. Aside from being merely interesting, such comparative analysis provides the basic information for long-range criminal justice planning.

UCR groups jurisdictions on the basis of population size in this report and if any types of comparisons are to be made the reader should also consider what type of community it is that he is comparing. Communities should be classified as urban, suburban or rural. This is essential in order to view a jurisdiction in the proper perspective. Grouping by population size considers only the population of the relevant area in this report. It does not consider proximity to a major metropolitan area in spite of the fact that widely different crime patterns could be expected in a city of 30,000 which is a suburb of Boston or Worcester and one which is in a rural area. In this report, grouping by population does not take into account the urban/suburban/rural character of the area, and includes a wide range of populations in each category. For use in interpreting this report, the UCR grouping systems are listed below.

POPULATION GROUPINGS - CITIES AND TOWNS

<u>GROUP</u>	<u>POPULATION</u>
1	Over 250,000
2	100,000 to 250,000
3	50,000 to 100,000
4	25,000 to 50,000
5	10,000 to 25,000
6	2,500 to 10,000
7	Under 2,500

CRIME INDEX

The Crime Index is a basic measure of crime which can be used for comparing the extent of crime among cities, counties and states of similar size. The Index is simply the total number of certain offenses that occur in a given area in a given calendar period (usually quarterly and annually). The offenses are murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft--all of the Part I offenses except negligent manslaughter and simple assault.

The offenses were selected as indicators of the total amount of criminal activity because they are serious offenses that are the focus of widespread concern; they occur with sufficient frequency to reflect fluctuations in the overall level of criminal activity; they are most likely to be reported, and reported accurately, to law enforcement officers due to their seriousness; and, they are offenses that can be clearly and specifically defined.

Notwithstanding its usefulness, the Index does have limitations. The relationship between the Index offenses and total criminal activity, both reported and unreported, has never been firmly established. The varying severity of offenses is not taken into account, resulting in equal weight being given to a shoplifting and a forcible rape. Furthermore, the actual incidence of crime in a city may not be accurately depicted by the Index if the majority of the city's crime involves non-Index offenses such as gambling and narcotics.

CRIME RATE

The Crime Rate is based on the Index, but adjusts the Index for variances in population by indicating the number of Index offenses for each 1,000 persons (other base population increments may be used such as the number of Index offenses per 100,000). This means that comparisons may be made among several areas with different populations, or within one area with different populations over a period of time, without the information being biased by population differences. Factors other than population that also influence crime rates include level of economic activity and unemployment; the cultural, religious, racial and age mix of the population; the time of day, day of the week, or the season of the year; local standards and enforcement policies; proximity to a metropolitan area; and, transience of the population, among others. For most general comparisons, the Crime Rate is probably the most accurate to use.

To calculate the Crime Rate, first divide the population of the area by 1,000, and divide the Crime Index by that answer. For example, if a city has a population of 273,000 and a Crime Index of 21,257, the calculations would be:

- 1) 273,000 divided by 1,000 = 273.00
- 2) 21,257 divided by 273.00 = 77.86

Thus, although the city's Crime Index is 21,257, its Crime Rate (the number of crimes for each 1,000 people) is 77.86.

In this report, calculations for a town under 1,000 are based on 100 rather than 1,000. For example a town has 963 population and a Crime Index of 158:

- 1) 963 divided by 100 = 9.63
- 2) 158 divided by 9.63 = 16.41 per 100

RISK FACTOR

The Risk Factor, which has been calculated for each Index offense, indicates the likelihood that an individual Massachusetts citizen or his or her property would have been the victim of a particular crime. Because the Risk Factor identifies the risk to each individual, it differs from the Crime Rate which specifies the number of offenses for every 1,000 people.

Interpretation: If the Risk Factor states "1 in 273 people," it should be interpreted to mean that one person was victimized by that crime for every 273 people in Massachusetts.

Risk Factors have been computed for 1977 and 1978 for each Index offense to point out whether the degree of risk has increased or decreased. If the Risk Factors for a particular crime are:

1977	1 in 273 people
1978	1 in 265 people

the degree of risk *increased* from 1977 to 1978 because there was one crime for a fewer number of people in 1978 than in 1977. Thus, each individual was more likely to have become a victim. However, if the Risk Factors are:

1977	1 in 273 people
1978	1 in 295 people

the degree of risk *decreased* from 1977 to 1978. This is indicated by the fact that there was one crime for a larger number of people in 1977, and consequently, each individual was less likely to have become a victim.

The interpretation is the same whether the risk is stated for people, residences, businesses or vehicles.

OFFENSE DEFINITIONS

Uniform Crime Reporting, as a nationwide program, received information from nearly 15,000 law enforcement agencies in 50 states. Because titles and descriptions of crimes can vary widely among state codes, it was necessary to ensure that each agency would define offenses the same way. For this reason, UCR established the following standard offense definitions:

PART I OFFENSES

Criminal Homicide:

- a. Murder and Non-negligent Manslaughter:
The willful, non-negligent killing of one person by another. Excludes attempts to kill and assaults to kill (classified as aggravated assault), suicide, accidental death and justifiable homicide.
- b. Negligent Manslaughter
The killing of another person through gross negligence (stupidity). Does NOT include traffic fatalities.

Forcible Rape

The carnal knowledge of a female forcibly and against her will. Includes rape by force or threat of force, assault to rape and attempted rape. Excludes statutory rape which is based on the victim's age.

Robbery

The taking or attempting to take anything of value from a person or persons by force, or threat of force or violence and/or putting the victim in fear. Includes assault to rob, strongarm robbery and armed robbery.

Aggravated Assault

An unlawful attack by one person on another for the purpose of inflicting severe bodily injury or death, usually accompanied by the use of a weapon that is likely to produce death or great bodily harm. Includes attempted murder and attempted aggravated assault when a non-personal weapon (not part of the attacker's body) is used, even though there is no injury. Attacks using personal weapons (part of the attacker's body) must result in serious personal injury to be classified as aggravated assault. Excludes simple assault.

Burglary

The unlawful entry of a structure to commit a felony or a theft. It is not necessary that force be used in the entry or that a loss result from it. Includes attempted forcible entry.

Larceny

The unlawful taking or stealing of property from the possession of another without the use of force, violence or fraud. Includes attempted larceny. Excludes motor vehicle theft (classified separately because of volume), embezzlement, forgery, worthless checks and other thefts by fraud.

Motor Vehicle Theft

The unlawful taking of a motor vehicle. Includes attempted motor vehicle theft. Excludes the theft of motor boats, construction equipment, airplanes and farming equipment.

PART II OFFENSES

Other Assaults

An unlawful attack or attempted attack on another person which does not result in serious injury to the victim and which does not involve the use of a dangerous weapon.

Arson

The willful or malicious burning of property with or without the intent to defraud. Includes attempted arson. NOTE: Beginning in 1979, Arson will be classified as a Part I offense.

Forgery and Counterfeiting

The making, altering, using or possession, with intent to defraud, of anything false which is made to appear true. Includes attempts.

Fraud

Fraudulent conversion, and obtaining money or property by fraudulent means. Includes confidence games, larceny by bailee and bad checks (except forged or counterfeit checks).

Embezzlement

Misappropriation or misapplication of money or property entrusted to one's care, custody or control.

Stolen Property Offense

The buying, receiving and possessing of stolen property, or the attempt to do so.

Vandalism

The willful or malicious destruction, injury, disfigurement or defacement of real or personal property without the consent of the owner or person having custody or control.

Weapons Offense

All violations of regulations or statutes that control carrying, using, possessing, furnishing and manufacturing deadly weapons or silencers. Includes attempts.

Prostitution and Commercialized Vice

Sex offenses and attempted sex offenses of a commercialized nature.

Sex Offenses

All offenses against common decency and morals. Includes statutory rape and all other sex offenses or attempted sex offenses not previously defined.

Narcotic Drug Laws

The unlawful possession, sale, use, growth or manufacture of narcotic drugs.

Gambling

Promoting, permitting or engaging in illegal gambling.

Offenses Against Family and Children

Nonsupport, neglect, desertion or abuse of family and children.

Driving Under the Influence

Operating any motor vehicle or common carrier while under the influence of liquor or narcotics.

Liquor Laws

Violation of state or local regulatory liquor laws. Includes sale to minors and drinking on a public conveyance. Excludes driving under the influence and drunkenness.

Protective Custody (Not included in State arrest totals).

Indicates the number of persons taken into protective custody for such reasons as drunkenness and self-protection. (Captures information for manpower studies and analyses).

Disorderly Conduct

Breaching the peace or attempting to do so.

Vagrancy

Offenses such as begging and loitering.

All Other Offenses

All violations of state or local laws except traffic violations and offenses defined above.

Suspicion

(Not an offense in Massachusetts). Arrest for no specific offense and release without formal charges being filed.

Curfew and Loitering Laws

Violations of local curfew and loitering ordinances.

Runaway

The unlawful truancy from a legal place of residence by a juvenile.

SPECIAL NOTICE

The definitions for the Part II offenses are being provided (above) although publication of 1978 state arrest statistics for both Part I and Part II offenses will not occur until later this year due to computerization of the information. The arrest statistics will be published as soon as they are available in the form of a supplement to this annual report.

SECTION 2

OFFICERS ASSAULTED
AND KILLED
1978

OFFICERS ASSAULTED AND KILLED - 1978

In 1978, contributing agencies reported 2,624 officer assaults with 41.7% of the total assaults resulting in personal injury to the officer. Responding to "disturbance calls" resulted in the highest number of officer assaults (40.1% of the total) followed by arrests for offenses other than burglary and robbery (14.2% of the total) and handling, transporting, custody of prisoners (9.0% of the total). Personal weapon (hands, fists, feet, etc.) and other dangerous weapon (excluding firearms and knives) assaults occurred more often during disturbance calls than during any other type of activity. These same two types of weapons were also the most frequent types used during arrests for offenses other than burglary or robbery. The officer assignment which most often resulted in an assault was a two man vehicle, which accounted for 47.1% followed by a one man vehicle when the officer was assisted, for 17.8% and a one man vehicle when the officer was alone, for 12.7%. Of all instances of assaults on police officers involving serious injury, firearms accounted for 1.2%, knives or cutting instruments accounted for 2.1%, and other dangerous weapons accounted for 21.5%. Personal weapons (hands, fists, feet, etc.) were employed in 79.2% of all assaults and accounted for 75.2% of all injuries. 57.2% of all assaults on police officers occurred between 8 P.M. and 2 A.M.; and only 5.2% between 6 A.M. and 12 P.M.

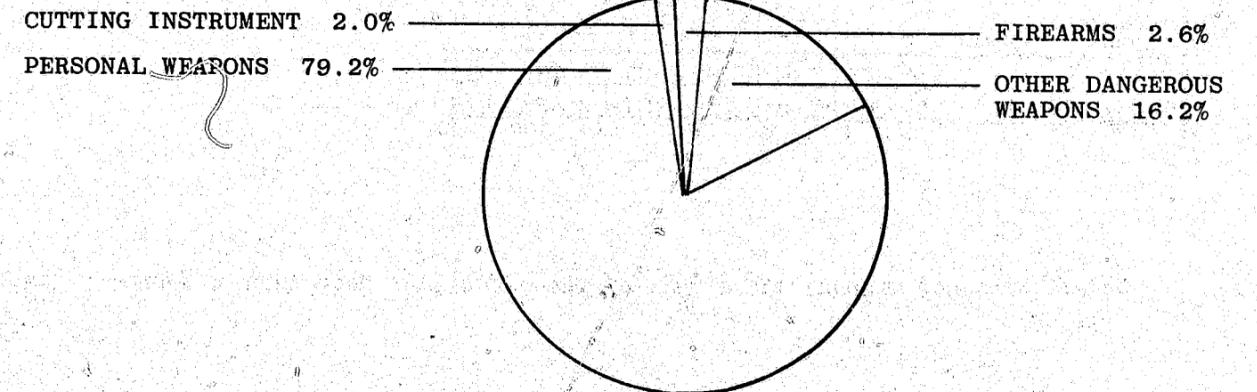

The most potent combination of all factors in 1978 assault situations was a two man vehicle when officers were involved in responding to a disturbance call situation; between 8 P.M. and 2 A.M.; confronting an offender who had only personal weapons.

During 1978 police assaults were cleared (by arrest or exceptional means) 88.1% of the time.

Four Massachusetts Officers were killed in the line of duty in 1978:

- Fitchburg Police Department - August
- Lowell Police Department - November
- Newton Police Department - December
- Massachusetts State Police - December

INJURIES BY WEAPON

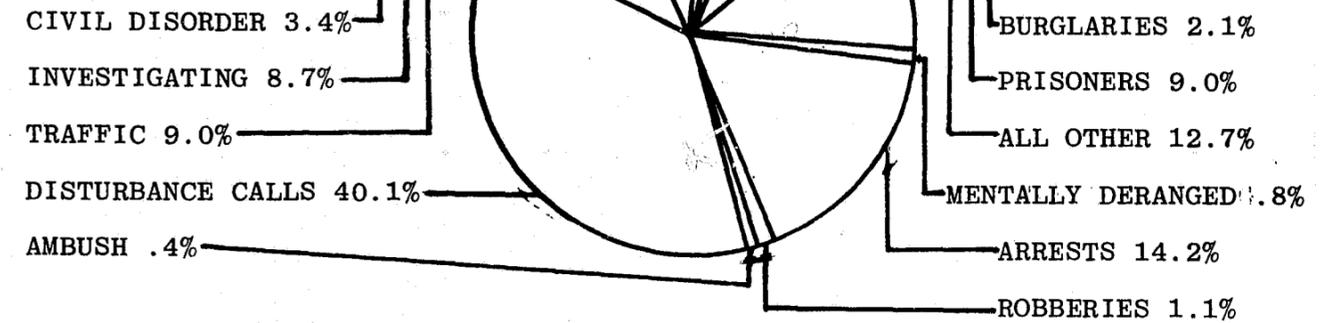

MASSACHUSETTS OFFICERS ASSAULTED: 1978

ACTIVITY BY WEAPON, ASSIGNMENT AND CLEARANCES

ASSAULTS BY ACTIVITY

ASSAULTS BY TIME OF DAY

SECTION 3

MASSACHUSETTS
CRIME
INDEX
1978

INTRODUCTION

Over the past five years, Massachusetts has, overall, experienced moderately higher index crimes (9.2% above the national average over the five year period) per 100,000 people than the nation as a whole. Although violent crime averaged 12.5% lower than the national average, property crime was significantly higher by 11.1% over the five year period (1973-1977).

During 1978, 301,408 crime index offenses were reported or made known to Massachusetts law enforcement agencies. Considering the total population of the Commonwealth (5,916,495) and the total number of offenses reported in 1978 (301,408), there were 50.9 serious crimes per 1,000 Massachusetts residents.

After compiling Massachusetts crime index for 1978 the following comparative results were obtained:

<u>YEAR</u>	<u>TOTAL CRIME INDEX</u>	<u>TREND</u>
1977	311,422	
1978	301,408	-3.2

<u>YEAR</u>	<u>TOTAL VIOLENT CRIME</u>	<u>TREND</u>
1977	24,534	
1978	26,255	+7.0

<u>YEAR</u>	<u>TOTAL PROPERTY CRIME</u>	<u>TREND</u>
1977	286,888	
1978	275,153	-4.1

The approximate number of crime index offenses that came to the attention of Massachusetts law enforcement agencies every 24 hours in 1978 were as follows:

MURDERS	.57
FORCIBLE RAPES	3.48
ROBBERIES	27.00
AGGRAVATED ASSAULTS	41.00
BURGLARIES	234.00
LARCENIES	351.00
MOTOR VEHICLE THEFTS	170.00
VIOLENT CRIMES	72.00
PROPERTY CRIMES	754.00
TOTAL INDEX CRIMES	826.00

Serious crime reported in the six largest cities in the Commonwealth decreased 2.4% overall, during 1978 when compared with 1977 (based on analysis of reported crime (1978) from Boston, Cambridge, Fall River, New Bedford, Springfield and Worcester). See page 20 for a detailed breakdown. Considering the six largest cities as a whole, a total of 107,958 serious crimes were reported in 1978 as compared with 110,604 serious crimes reported to the police in 1977. These two total index figures account for the 2.4% decrease in reported crime in the six largest urban cities.

The crime index trends for the six major cities (1978) broke down as follows:

Murder	-1.0
Forcible Rape	+8.4
Robbery	+1.1
Aggravated Assault	+10.1
Burglary	-.07
Larceny-Theft	-2.8
Motor Vehicle Theft	-7.0
Violent Crime	+5.3
Property Crime	-3.4
Total Crime Index	-2.4

Commonwealth of Massachusetts - Crime Trends 1977-78

Murder	+16.2
Forcible Rape	+6.2
Robbery	+ .5
Aggravated Assault	+11.8
Burglary	-3.7
Larceny-Theft	-3.8
Motor Vehicle Theft	-5.3
Violent Crime	+7.0
Property Crime	-4.1
Total Crime Index	-3.2

Of the 301,408 (State total) crime index offenses reported to the Crime Reporting Unit by 329 local and state law enforcement agencies 26,255 or 8.7% were crimes of violence (homicide, forcible rape, robbery and aggravated assault) and 275,153 or 91.3% were property crimes (burglary, larceny-theft and motor vehicle theft).

The City of Boston with 65,366 crime index offenses, accounted for 21.7% of the total crime reported in the Commonwealth, while the City of Cambridge added 2.4% with 7,267 offenses. Other cities of significance were:

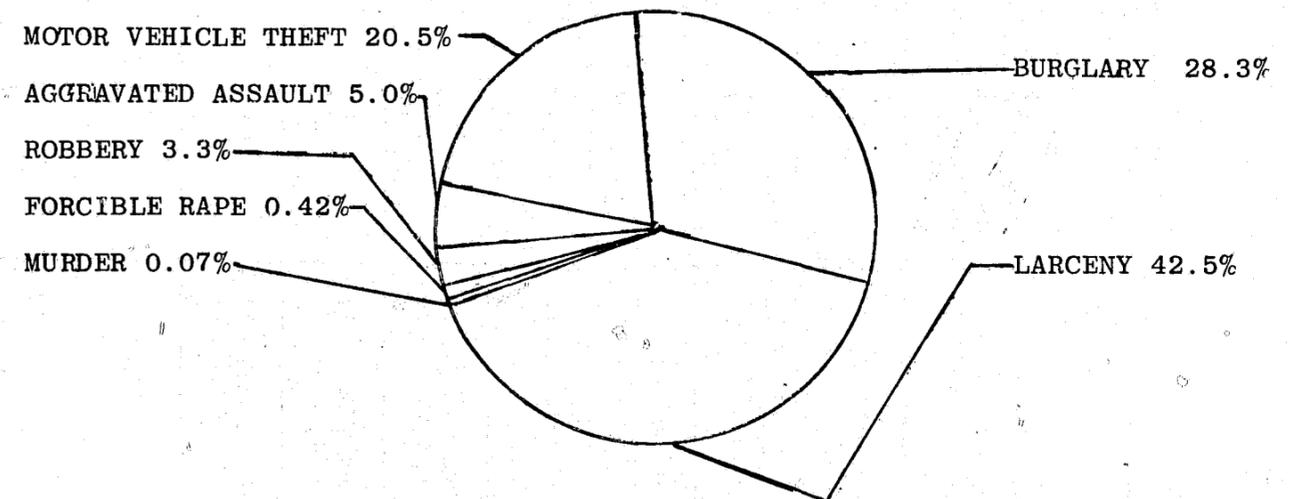

<u>CITY</u>	<u>TOTAL INDEX OFFENSES</u>	<u>%</u>
Fall River	6,031	2.0
New Bedford	4,206	1.4
Springfield	12,511	4.2
Worcester	12,577	4.2
Brockton	7,063	2.3
Lowell	4,995	1.7
Lynn	6,141	2.0
Quincy	4,085	1.4
Somerville	4,353	1.4
All other Massachusetts Cities/ Towns	166,813	55.3

For a detailed analysis of each index offense, please refer to the remainder of the pages in this section (3).

AN OVERVIEW OF THE SEVEN CRIME INDEX OFFENSES - 1978

1. MURDER

a.	% OF TOTAL CRIME INDEX (MASSACHUSETTS) - 1978	=	.07
b.	% OF TOTAL VIOLENT CRIME (MASSACHUSETTS) - 1978	=	.79
c.	RATE PER 1,000 INHABITANTS (NATIONAL) - 1977	=	.09
d.	RATE PER 1,000 INHABITANTS (MASSACHUSETTS) - 1978	=	.04
e.	RISK FACTOR (NATIONAL) - 1977		
	1 IN 11,314 INHABITANTS		
f.	RISK FACTOR (MASSACHUSETTS) - 1978		
	1 in 28,445 INHABITANTS		
g.	CRIME TREND - FROM PREVIOUS YEAR (MASSACHUSETTS) - (77-78)	=	+16.20%
h.	COMPARISON - 1977 vs. 1973 (NATIONAL)	=	-2.65%
i.	COMPARISON - 1978 vs. 1973 (MASSACHUSETTS)	=	-18.36

2. FORCIBLE RAPE

a.	% OF TOTAL CRIME INDEX (MASSACHUSETTS) - 1978	=	.42
b.	% OF TOTAL VIOLENT CRIME (MASSACHUSETTS) - 1978	=	4.84
c.	RATE PER 1,000 INHABITANTS (NATIONAL) - 1977	=	.29
d.	RATE PER 1,000 INHABITANTS (MASSACHUSETTS) - 1978	=	.21
e.	RISK FACTOR (NATIONAL) - 1977		
	1 IN 3,433 INHABITANTS		
f.	RISK FACTOR (MASSACHUSETTS) - 1978		
	1 IN 4,659 INHABITANTS		
g.	CRIME TREND - FROM PREVIOUS YEAR (MASSACHUSETTS) - (77-78)	=	+6.19
h.	COMPARISON 1977 vs. 1973 (NATIONAL)	=	+22.61
i.	COMPARISON 1978 vs 1973 (MASSACHUSETTS)	=	+33.83

3. ROBBERY

- a. % OF TOTAL CRIME INDEX (MASSACHUSETTS) - 1978 = 3.26
- b. % OF TOTAL VIOLENT CRIME (MASSACHUSETTS) - 1978 = 37.46
- c. RATE PER 1,000 INHABITANTS (NATIONAL) - 1977 = 1.9
- d. RATE PER 1,000 INHABITANTS (MASSACHUSETTS) - 1978 = 1.7
- e. RISK FACTOR (NATIONAL) - 1977:
1 IN 534 INHABITANTS
- f. RISK FACTOR (MASSACHUSETTS) - 1978:
1 IN 602 INHABITANTS
- g. CRIME TREND - FROM PREVIOUS YEAR (MASSACHUSETTS) - (77-78) = +.47
- h. COMPARISON - 1977 vs. 1973 (NATIONAL) = +5.37
- i. COMPARISON - 1978 vs. 1973 (MASSACHUSETTS) = -7.09

4. AGGRAVATED ASSAULT

- a. % OF TOTAL CRIME INDEX (MASSACHUSETTS) - 1978 = 5.0
- b. % OF TOTAL VIOLENT CRIME (MASSACHUSETTS) - 1978 = 56.91
- c. RATE PER 1,000 INHABITANTS (NATIONAL) - 1977 = 2.4
- d. RATE PER 1,000 INHABITANTS (MASSACHUSETTS) - 1978 = 2.5
- e. RISK FACTOR (NATIONAL) - 1977
1 IN 414 INHABITANTS
- f. RISK FACTOR (MASSACHUSETTS) - 1978
1 IN 396 INHABITANTS
- g. CRIME TREND - FROM PREVIOUS YEAR (MASSACHUSETTS) - (77-78) = +11.76
- h. COMPARISON - 1977 vs. 1973 (NATIONAL) = +24.21
- i. COMPARISON - 1978 vs. 1973 (MASSACHUSETTS) = +72.06

5. BURGLARY

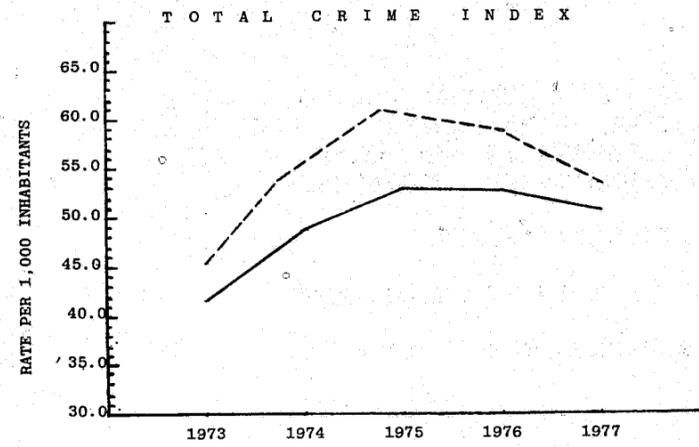

- a. % OF TOTAL CRIME INDEX (MASSACHUSETTS) - 1978 = 28.29
- b. % OF TOTAL PROPERTY CRIME (MASSACHUSETTS) - 1978 = 30.99
- c. RATE PER 1,000 INHABITANTS (NATIONAL) - 1977 = 14.1
- d. RATE PER 1,000 INHABITANTS (MASSACHUSETTS) - 1978 = 14.4
- e. RISK FACTOR (NATIONAL) - 1977
1 IN 71 INHABITANTS
- f. RISK FACTOR (MASSACHUSETTS) - 1978
1 IN 69 INHABITANTS
- g. CRIME TREND - FROM PREVIOUS YEAR (MASSACHUSETTS) - (77-78) = -3.67
- h. COMPARISON - 1977 vs. 1973 (NATIONAL) = +18.97
- i. COMPARISON - 1978 vs. 1973 (MASSACHUSETTS) = +10.16

6. LARCENY

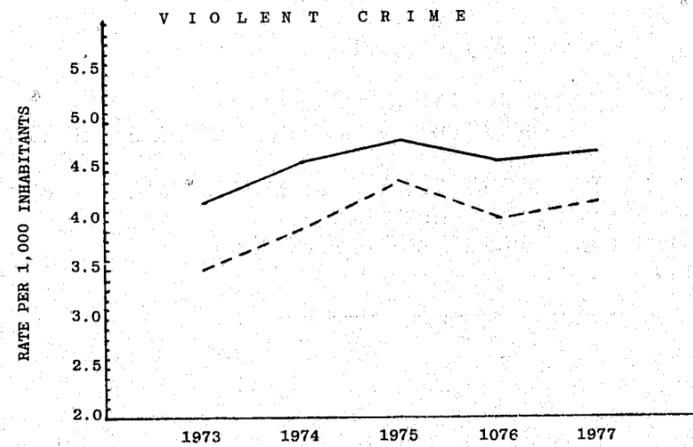

- a. % OF TOTAL CRIME INDEX (MASSACHUSETTS) - 1978 = 42.46
- b. % OF TOTAL PROPERTY CRIME (MASSACHUSETTS) - 1978 = 46.51
- c. RATE PER 1,000 INHABITANTS (NATIONAL) - 1977 = 27.3
- d. RATE PER 1,000 INHABITANTS (MASSACHUSETTS) - 1978 = 21.6
- e. RISK FACTOR (NATIONAL) - 1977
1 IN 37 INHABITANTS
- f. RISK FACTOR (MASSACHUSETTS) - 1978
1 IN 46 INHABITANTS
- g. CRIME TREND - FROM PREVIOUS YEAR (MASSACHUSETTS) - (77-78) = -3.78
- h. COMPARISON - 1977 vs. 1973 (NATIONAL) = +35.83
- i. COMPARISON - 1978 vs. 1973 (MASSACHUSETTS) = +27.20

7. MOTOR VEHICLE THEFT

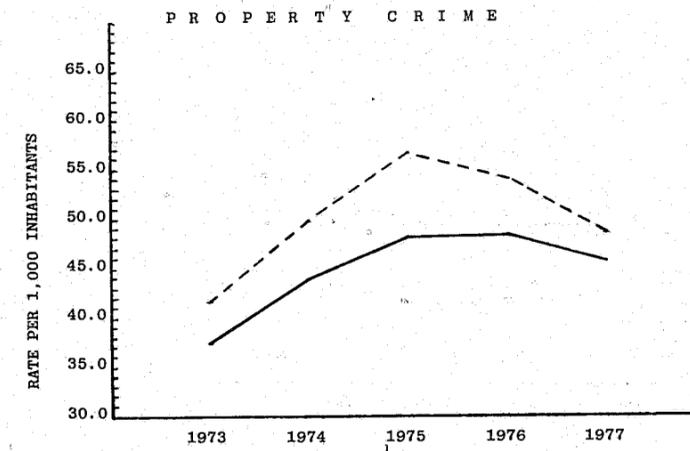

- a. % OF TOTAL CRIME INDEX (MASSACHUSETTS) - 1978 = 20.5
- b. % OF TOTAL PROPERTY CRIME (MASSACHUSETTS) - 1978 = 22.51
- c. RATE PER 1,000 INHABITANTS (NATIONAL) - 1977 = 4.5
- d. RATE PER 1,000 INHABITANTS (MASSACHUSETTS) - 1978 = 10.5
- e. RISK FACTOR (NATIONAL) - 1977
1 IN 223 INHABITANTS
- f. RISK FACTOR (MASSACHUSETTS) - 1978
1 IN 96 INHABITANTS
1 FOR EVERY 57 MOTOR VEHICLES REGISTERED
- g. CRIME TREND - FROM PREVIOUS YEAR (MASSACHUSETTS) - (77-78) = -5.29
- h. COMPARISON - 1977 vs. 1973 (NATIONAL) = +4.26
- i. COMPARISON - 1978 vs. 1973 (MASSACHUSETTS) = -4.07

MURDER - 1978 - SUMMARY

Definition:

The willful, non-negligent killing of one person by another, excluding attempts to kill, assaults to kill, suicide, accidental death and justifiable homicide.

Murder is the most serious of the four violent index offenses. In 1978, there were 208 murders in Massachusetts, which represented .8% of all violent crime and .07 of one percent of the total index. the greatest number of murders in one month was 28 in April, followed by 26 in November. Suffolk County, of which Boston is the main population center, accounted for 83 murders or 39.9% of the total.

The number of murders increased by 13.9 percent from the 1977 level, but decreased 18.7 percent from 1973. With the exception of the increase from 1977 to 1978, a steady decline by substantial increments has been evident since 1973 and 1974 when there was an all time high of 256 murders in each of those years. Nevertheless, murder has risen by 62.5 percent since 1966.

Massachusetts murder rate increased from 3.0 per 100,000 people in 1977 to 4.0 per 100,000 in 1978, and was much lower than the 1977 estimate of 8.8 per 100,000 people in the nation. However, the current rate is substantially higher than the 2.4 per 100,000 people in 1966 for the Commonwealth.

The risk factor indicates that there was 13.2% more chance that any Massachusetts citizen would become a victim of murder in 1978 than in 1977.

Due to the seriousness of the offense, more detailed information is collected concerning victims, offenders, weapons used and the circumstances in which the offenses took place, than for any other offense. Murder victims were 20 or more years old 87.0% of the time, males 72.6% of the time, 77.9% white and 19.2% negro. In the Single Victim/Offender situation, offenders were male 89.7% of the time, 10.3% were female, 72.4% white, 25.9% negro and 1.7% other races.

Handguns were used in 33.2% of the murders and firearms of all types in 43.3%.

The situation most frequently resulting in murder were arguments and fights which accounted for 45.2% of the murders. Felony and suspected felony-type murders were second at 38.0%. Drug related situations occurred in only 2.9% of the cases.

The clearance rate for murder was 77.4%, the highest for any index offense.

RISK FACTOR:

1976	1 in 29,943 people
1977	1 in 32,777 people
1978	1 in 28,445 people

TREND:

Year	Number of Offenses	Rate per 100M People

SECTION 4

REPORTED
INDEX OFFENSES
BY
AGENCY
1978

National Crime Rate averages (1977): (Rate per 1,000 inhabitants)

*Crime Index Total: 50.6
*Violent Crime: 4.7
*Property Crime: 45.9

UNLESS OTHERWISE STATED, ALL CRIME RATES ARE CALCULATED PER
1,000 INHABITANTS

Comparative notes:

- *a. National clearance rate (1977) = 21.0% of all index crimes.
- b. Massachusetts clearance rate (1978) = 16.8% of all index crimes.

* based on information obtained from Crime in the U.S., 1977,
Federal Bureau of Investigation, UCR Section
