Acknowledgments. This report was prepared for the Bureau of Justice Statistics by the Bureau of the Census, Governments Division, under the direction of John R. Coleman, Chief. In the Bureau of Justice Statistics, project direction was provided by Sue A. Lindgren and editorial supervision by Marilyn Marbrook. In the Bureau of the Census, Governments Division, general supervision was provided by Alan R. Jones and Diana M. Cull. Significant contributions were made by Bernice J. Brigham, Pamela H. Butler, Victoria E. Campbell, Ora E. Dorsey, Pauline E. Fain, Dennis E. Gosier, Martha S. Haselbush, Laverne N. Hicks, Purnell E. Johnson, Helen M. Kneeland, Charlene M. Seboid, Gloria A. Spicer, Joyce M. Stanford, and Joan B. Taylor. Preparation of publication copy was supervised by Corrine W. Davis. In the field Division, general coordination was provided by Blair Russell, and in the Data Preparation Division by Janet Kitterman and Mary Helen Isaacs.

The Bureau of the Census is indebted to the many Federal, State, and local government officials who provided the information and gave other assistance for the preparation of this report.

Foreword

The annual criminal justice expenditure and employment survey has been conducted by the Census Bureau for the Department of Justice since 1971. The 1979 data collection effort, which produced the data in this report, was the last survey using methodologies and geographic coverage that have remained virtually unchanged throughout the period. There are two reasons for discontinuing the series: necessary economies in the Bureau of Justice Statistics data collection program and changes in the need for expenditure and employment data. In the past, the data from the survey were used in the formula distribution of funds from the Law Enforcement Assistance Administration (LEAA) to State and local governments—a purpose requiring geographic coverage and data precision that could be accomplished only with a large and costly sample of State and local governments.

The demise of the LEAA program in 1980 allowed BJS to pursue less costly data collection strategies. These take two forms:

First, for 1980 and 1981, selected data on police protection, corrections, and judicial functions are being extracted from the Census Bureau's ongoing annual public finance, expenditure, and employment surveys and will be presented in a separate report. Those surveys use methods similar to those used in past criminal justice expenditure and employment surveys and will produce much data readily comparable to previously published data. However, the geographic coverage will not be as extensive—data will not be available for cities with a population less than 300,000 nor counties under 500,000. In addition, because those surveys lack some substantive detail, national and State-by-State estimates will be available only for police protection and corrections, although total justice expenditure and other functional detail will be available for State governments and the large city and county governments. The report containing 1980 and 1981 data should be available in early 1983, although the actual data can be obtained before then by contacting BJS.

The second data collection strategy affects data beginning in 1982. The Census Bureau is revising its annual governmental surveys to provide justice data with more substantive detail than in the past. Beginning with that year's data, total justice expenditure and judicial estimates will be available for the Nation as a whole, State governments, and large cities and counties.

We believe these new data collection strategies will produce data that meet a wide variety of data needs at a sharply reduced cost. As always, we look forward to hearing from the users of our data and will make whatever refinements we can to improve the usefulness of the data.

Deputy Director
Bureau of Justice Statistics

TABLE FINDING GUIDE

Subjects by Type of Government and Table Designation

This guide lists all subjects covered in this report, but does not indicate all the detail shown in some tables, e.g. percent distributions, capital outlay, employment by full-time and full-time equivalent, etc. Expenditure data are for FY 1979 and employment and payroll data for October 1979. Numbers or letters in bold type refer to tables or figures showing only aggregate data for the designated type of government. All other numbers and letters relate to data for individual governments.

Selected findings

General

Total civil and criminal justice expenditure in fiscal year 1979 rose 8 percent to $26 billion, less than the 12 percent increase in FY 1978 (table A). For the month of October 1979, civil and criminal justice full-time equivalent employment rose 1.8 percent to 1,178,011 (table B), a decline from the 2.3 percent increase in FY 1978.

Local governments (counties and municipalities) accounted for 59 percent of all direct justice expenditure; State governments for 28 percent; and the Federal Government for 13 percent (figure 7). Nearly the same distribution applies to full-time equivalent justice employment (figure 8).

On a sector basis, about $14 billion or more than half of total justice expenditure (54 percent) was allocated for police protection; close to a fourth, $6.0 billion, was expended for corrections. Judicial activities absorbed $3.4 billion or 13 percent; $1.7 billion or 6 percent was spent for prosecution and legal services; $0.6 billion or 2.3 percent for public defense; and $0.4 billion or 1.7 percent for other criminal justice activities.

The distribution of justice expenditure and employment by level of government within each of the six justice activities or sectors varies substantially, as shown by text tables C and D. State governments predominated in the corrections sector, while all other justice activities except public defense were supported primarily by local governments. In most sectors, the proportion of people employed by Federal, State, and local governments approximated each sector's proportion of total criminal justice expenditure.

Rates of justice expenditure growth declined in all regions except the South (figure 3).

An increase of $355 million in corrections direct expenditure by State governments coupled with a $390 million increment in municipalities' expenditure for police protection constituted 39 percent of the $1.9 billion increase in justice expenditure of all governments (figure 5).

Federal Government

Total Federal justice expenditure rose $232 million or 6 percent to $4.1 billion in FY 1979, compared to a $233 million or 6.5 percent increase in FY 1978. The largest percent increases occurred in the judicial sector (15 percent) and in legal services (25 percent).

Slightly more than half of direct Federal justice expenditure (51 percent or $2.1 billion) was spent by Federal agencies in the police protection sector (figure 9), which also accounted for the largest dollar increase among the six Federal justice activities or sectors: $101 million. In addition, Federal police agencies accounted for 71 percent of the total Federal justice full-time equivalent employment of 103,000 (figure 10); down about one percent from last year's total of 104,000.

A decline of $30 million in Federal intergovernmental expenditure in the "other criminal justice" sector in 1979 was primarily the result of a decrease of $30 million in Law Enforcement Assistance Administration block grants to State and local governments, which comprise nearly all of Federal intergovernmental outlays for civil and criminal justice.

State governments

Civil and criminal justice expenditure of State governments, increasing $754 million or 12 percent to $8.5 billion, constituted 4 percent of the total 1979 general expenditure of $201 billion—the same proportion as in 1978.

As in past years, the corrections sector accounted for the largest portion of State justice expenditure, $3.8 billion or 45 percent (figure 11).

The balance of State justice expenditure was distributed as follows: police protection, 25 percent; judicial, 16 percent; legal services and prosecution, 5 percent; public defense, 2 percent; and "other criminal justice," 7 percent (figure 11).

State corrections total expenditure rose $483 million or 15 percent in 1979, a substantial rise from the 12 percent or $366 million increment from 1977 to 1978. State capital outlay expenditure in the corrections sector rose 11 percent to $358 million, which constitutes 62 percent of total corrections capital outlay for all governments—up from a 51 percent share in 1975. Although representing a substantial decline from the $414 million increase in 1978, a $168 million or 15 percent increase in State judicial expenditure to $1.3 billion in 1979 is partly attributable to expanded State government responsibilities for court systems as a consequence of legislated court unification programs.

Overall State full-time equivalent justice employment rose 6 percent to 329 thousand. However, considerable variation was shown in sector changes, with the judicial, public defense, and "other criminal justice" sectors increasing by 17, 16, and 14 percent respectively. These increases were partly offset by a decline in police protection employment at the State level. Legal services employment rose 10 percent, and the corrections sector added 9,600 employees for a 4 percent gain.

Counties

County governments spent a total of $6.2 billion for civil and criminal justice activities in 1979, up 8 percent or $461 million over FY 1978. One-third of county justice expenditure was for police protection; 28 percent for corrections; 24 percent for judicial; 9 percent for legal services and prosecution; 3 percent for public defense; and 3 percent for "other criminal justice" (figure 15).

County full-time equivalent employment was 300,378, an increase of 4.4 thousand or 1.5 percent—one-half the 3 percent county increase in 1978 and one-fourth the increase in 1977.

The 349 counties with a 1978 population of 100,000 or more, containing 59 percent of total United States population (table 14), accounted for 72 percent ($4.8 billion) of total county justice expenditure, 71 percent of all county full-time equivalent justice employment and 78 percent of the total county justice payroll (tables 12-16).

Municipalities

Municipal governments (cities, towns, and townships) outspent county governments on justice activities by $3.2 billion, but the difference is solely attributable to the police protection sector, where municipal governments outspent counties by about 4 to 1 margin (figure 17). Municipal governments were outspent by county governments in the other justice sectors.

Municipal justice total expenditure increased by $480 million or 5.4 percent to $9.4 billion in 1979, about half the amount of increase in 1978.

Municipal full-time equivalent justice employment in 1979 declined 1.6 thousand (0.4 percent) to 445,600; with most of decline occurring in police protection (figure 18). However, municipalities total monthly payroll rose 10 percent to $652 million.

The 415 city governments with a population of 50,000 or more in 1978 contain 46 percent of the total municipal population but account for 67 percent of all municipal justice expenditure and 61 percent of all municipal full-time equivalent justice employment (tables 17-21).

Introduction

This publication is the thirteenth in a series of annual reports that present public expenditure and employment data on civil and criminal justice activities in the United States. In this report, expenditure data cover the fiscal year (FY) 1979, and employment data are for the month of October 1979. Refer to the Methodology section of the text for a discussion of the variation in some fiscal year ending dates.

As in previous years, specific data are supplied for the Federal Government, each of the 50 State governments, and the aggregate local level of government within each State. Data are published separately for the aggregate county governments and the aggregate municipal governments (cities, towns, and townships) within each State, for each of the 349 counties with a 1978 population of 100,000 or more, and for the 415 municipalities with a 1978 population of 50,000 or more.[1] Data for the 17 standard metropolitan statistical areas (SMSA's) with a population of 2,000,000 or more, which were presented in previous annual reports, are not available for the 1979 publication.

The annual survey of Criminal Justice Expenditure and Employment, which provided the data for this report, was suspended beginning in FY 1980. The series will be resumed however, with publication in 1982 of comparable but less detailed data for FY 1980 and 1981 from an alternative source.

[1] Once a county or city is selected for individual presentation on the basis of its population, the unit continues to be shown individually even though its population may later drop below the established criterion. This is to retain comparability in the presentation of individual unit data from year to year.

Table A. Total justice direct expenditure and percent change by level of government, fiscal years 1971 to 1979

Year	Total	Federal	State	Local
	Amount (millions of dollars)			
1971	10,517	1,215	2,681	6,621
1972	11,732	1,502	2,948	7,281
1973	13,007	1,651	3,304	8,052
1974	14,851	1,859	3,900	9,092
1975	17,249	2,188	4,612	10,449
1976	19,681	2,450	5,204	12,027
1977	21,574	2,779	5,812	12,983
1978	24,132	3,122	6,688	14,322
1979	26,028	3,379	7,393	15,257
	Percent increase or decrease (–)			
1971 to 1972	11.6	23.6	10.0	10.0
1972 to 1973	10.9	9.9	12.1	10.6
1973 to 1974	14.2	12.6	18.0	12.9
1974 to 1975	16.1	17.7	18.3	14.9
1975 to 1976	14.1	12.0	12.8	15.1
1976 to 1977	9.6	13.4	11.7	7.9
1977 to 1978	11.9	12.3	15.1	10.3
1978 to 1979	7.9	8.2	10.5	6.5
1971 to 1979	147.5	178.1	175.8	130.4

Note: Because of rounding, detail does not always add to total.

Historical overview

Although this annual series of reports began in fiscal year 1967, caution should be exercised in comparing data in the FY 1971 and later volumes with data in earlier volumes. Beginning with FY 1971, the survey was greatly expanded. The survey panel of governmental units was increased by a third, and the number of units for which data are compiled in the field by specially trained agents was more than doubled. Data collection further benefited from a growing familiarity with the justice systems of the various States and of the individual units within the States. Data from the FY 1971 through FY 1979 annual volumes are essentially comparable. Data from FY 1971 through FY 1978 were collected in each year from the same panel of governments and were edited and processed in a uniform fashion. For the FY 1979 survey, the sample panel of governments was redrawn and expanded. Refer to the Survey Methodology section of the text for more detail.

Table A shows the steady rise in expenditure for justice activities at all levels of government over the 9 years. Full-time equivalent justice employment also rose steadily at all levels of government (see table B). A report entitled *Trends in Expenditure and Employment Data for the Criminal Justice System, 1971-1977,* which summarizes data from the annual publications, is available. The next trends report, covering fiscal years 1971 through 1979, is being prepared for release in 1982.

Table B. Total full-time equivalent justice employees and percent change, by level of government, October 1971 to October 1979

Payroll period	Total	Federal	State	Local
	Number of employees			
October 1971	861,776	77,523	205,859	578,394
October 1972	898,305	85,222	216,603	596,480
October 1973	945,309	87,139	232,299	625,871
October 1974	1,011,205	93,755	252,588	664,862
October 1975	1,050,503	96,136	263,208	691,159
October 1976	1,079,892	99,553	272,488	707,851
October 1977	1,131,780	100,088	298,571	733,121
October 1978	1,157,436	103,678	310,554	743,204
October 1979	1,178,011	102,914	329,095	746,002
	Percent increase or decrease (—)			
October 1971 to October 1972	4.2	9.9	5.2	3.1
October 1972 to October 1973	5.2	2.2	7.2	4.9

October 1978 to October 1979	1.8	—0.7	6.0	0.4
October 1971 to October 1979	36.7	32.8	59.9	29.0

Organization of this report

In this introductory text, Federal, State, and local government justice expenditure and employment data are discussed and compared with 1978 data. Accompanying tables are followed by a description of survey methodology, data sources and limitations, and a graphic summary.

Following the introductory text are the main tables, which are organized into three major parts. Section I presents "variable pass-through" data (table 1), with an accompanying explanation of this unique concept. Section II presents summary data for the justice system at the Federal, State, and local government levels and data for individual governments showing the interrelationship of the various sectors of the justice system (tables 2-21). Sections III-VIII cover each of the six "sectors" of the justice system individually, providing where possible a further breakdown of data on particular justice activities (tables 22-60). Two tables in Section VII display data on total and direct expenditure for the three corrections subfunctions (i.e., institutions, probation/parole, and miscellaneous) by State and type of government. Charts showing percent distribution of justice expenditure by State and type of government appear at the beginning of Sections II-VIII (see figures 19-25).

Data presented in five tables in appendix 1 in previous annual reports are not available for the 1979 publication, as budget cuts prevented tabulation of the data. Tables A and B of appendix 1 exhibited expenditure and employment data for special police force activities in selected school districts and special districts not included in the summary totals for general local governments. Tables C and D of appendix 1 showed expenditure and employment data for campus police forces of State and local governments—data which are included in the summary table totals. Expenditure and employment data for the Commonwealth of Puerto Rico was presented in table E in the 1978 publication. Refer to the Survey Methodology section of the text for a discussion of the differences in general local governments and independent school districts and special districts in the presentation of data in this report.

Immediately preceding this introduction, a table-finding guide has been provided for quick reference to the subjects covered. The guide cross-references all subjects contained in this report pertaining to civil and criminal justice activities by all governments combined and each level of government—Federal, State, and local. Local governments are further broken down into counties and municipalities.

Definitions for concepts, categories, and terms used in this report are contained in appendix 1. Appendix 2 exhibits the mail questionnaires used in the 1979 survey, followed by a registration form for the National Criminal Justice Reference Service.

Important definitions

Although detailed definitions for the terms, concepts, and categories used in the survey and in this report are presented in appendix 1, two concepts that recur frequently, are worth noting. *Total expenditure* is comprised of direct and intergovernmental expenditure of a government or level of government for civil and criminal justice activities. In most expenditure tables, certain totals must be adjusted to exclude duplicative intergovernmental expenditure amounts. For example, money paid by a State government to a county government within that State is reported by the State government as an intergovernmental expenditure and by the county government as a direct expenditure when the money is spent. Therefore, in order to arrive at a combined State-local government total that does not duplicate these amounts, intergovernmental expenditure amounts are deducted from the State-local total, since those amounts are also reflected in the direct expenditures of the recipient governments. The same is true of intergovernmental payments between counties and municipalities within the same State.

The other concept that should be noted is full-time equivalent employment; this is a statistical measure that represents the total number of employees (full- and part-time), discounted by applying average full-time earning rates. It is calculated by dividing the total payroll (full-time plus part-time) by the full-time payroll and multiplying the resultant quotient by the number of full-time employees.

It is also important to note that in this report the judicial, legal services and prosecution, and public defense categories include expenditure and employment data for both criminal and civil justice activities because available source documents for many governments do not segregate these activities for courts or agencies that handle both. Nor are the state and local governmental officials who provide the survey data able to make this break reliably and consistently. Therefore, in the absence of a consistent and reliable basis for proration, both criminal and civil activities are included for these categories to preserve uniformity in the collection and presentation of data.

General, fiscal year 1979

Total expenditure for civil and criminal justice purposes in FY 1979 by all levels of government was $26 billion. This is an increase of $1.9 billion or 8 percent over FY 1978 but less than the 12 percent gain recorded from 1977 to 1978 (table A). In comparison, total general expenditure for all governmental functions by general purpose governments increased by 12 percent over FY 1978.

Over half, $13.9 billion, was expended for police protection, and close to one-fourth, $6.0 billion, was expended for corrections. The balance was distributed as follows: $3.4 billion or 13 percent for judicial activities, $1.7 billion or 6 percent for prosecution and legal services, $0.6 billion or 2 percent for public defense, and $0.4 billion or 2 percent for other criminal justice activities. All justice functions showed increases in 1979 over 1978. Public defense expenditure, rising 14 percent, led all sectors for the third straight year. Legal services and prosecution had the next highest increase, 13 percent, followed by judicial (up 10.2 percent), corrections (up 9.4 percent), police protection (up 6.1 percent), and "other criminal justice" (up 1.0 percent). The small rise recorded in "other criminal justice" was caused primarily by a large increase in State governments' intergovernmental expenditure, which more than offset a $31 million decline in Federal intergovernmental spending by the Law Enforcement Assistance Administration (LEAA).

In October 1979, there were 1,178,011 justice employees at all levels of government on a full-time equivalent basis. This was 21 thousand more than in October 1978—an increase of 1.8 percent, but down from the 2.3 percent increase in 1978. As seen in table B, declines in the rate of employment growth occurred at Federal and local levels of government, while justice employment growth accelerated at the State government level.

On a per capita basis, using 1978 Bureau of the Census State population estimates,[2] direct expenditure of all State and local governments for civil and criminal justice activities was $104 in 1979, a 7 percent increase over the $97 recorded in 1979. Local governments spent $70 per capita, or 67 percent of the total State and local government per capita expenditure (figure 2). The District of Columbia per capita expenditure of $322 was the highest amount recorded in 1979. Among the State areas, Alaska at $269 led the Nation, followed by Nevada ($172), New York ($174), California ($138), and Arizona ($138).

In 11 States (Alaska, Delaware, Kentucky, Maine, New Mexico, North Carolina, Oklahoma, Rhode Island, South Dakota, Vermont, and West Virginia) per capita justice expenditure of the State government equaled or exceeded that of its local government units. This represents an increase of 1 State over 1978 and 4 States over 1977.

In making year-to-year comparisons of per capita changes at State and at local levels within each State, the following factors should be taken into account: 1) declines in State population which could result in a significant per capita increase with little or no increase in justice expenditure, 2) large population increases in some States which negate the full effect of a large increase in expenditure, 3) transfer of some justice functions from local to State level and vice versa, resulting in a large expenditure increase or decrease for a particular level of government within a State area, and 4) a one-time temporary increase that can be attributed to an extraordinary increase in one justice function (e.g., caused by construction costs for a new justice facility).

The total expenditure increase of State and local governments from FY 1978 to FY 1979 varied sharply by region, as shown in figure 3 in the graphic summary. The South led all regions with an increase of $575 million or 10.4 percent, followed by the Northeast, up $399 million or 6.8 percent, the West region, up $337 million or 7.1 percent, and the North Central region, up $329 million or 6.7 percent. All regions except the South experienced declines in justice expenditure rate increases. The drop was most pronounced in the Northeast, with the rise in justice expenditure decreasing from $849 million in 1978 to $399 million in 1979—primarily due to a decline in justice expenditure growth in New York.

Year-to-year changes in expenditure of State and local governments by individual State areas are shown in figure 4. Following New York's $169 million increase, California's justice expenditure rose $152 million and Illinois' by $89 million. After these States, the biggest dollar gains at State and local government levels were made by Florida ($116 million), Texas ($84 million), New Jersey ($73 million), and Pennsylvania ($62 million). In terms of percent increase, Kentucky led all States with a 17.3 percent ($41 million) increase, followed by New Mexico (17.1 percent or 18 million), North Carolina (17.0 percent or $67 million), Arizona (17.0 percent or $41 million), and South Carolina (16.3 percent or $30 million).

Twenty-three States containing 29 percent of U.S. population showed gains in rates of justice spending increase over 1978. In contrast, twenty-seven States and the District of Columbia; comprising 71 percent of the population registered declines in rates of justice expenditure growth.

[2] Since the time the per capita data presented here were computed, the Census Bureau issued revised intercensal population estimates that take into account the results of the 1980 Decennial Census. Per capita figures using the revised data are presented in other BJS reports and differ slightly from those presented here. The figures presented here are comparable, however, to those in earlier reports in this series and should be used in making comparisons over time.

Justice expenditure of State and local governments in the ten most populous States which comprise 54 percent of U.S. population, rose 6.3 percent or $824.8 million from 1978 to 1979, accounting for slightly over one-half of the total State-local increase of $1.64 billion. In contrast, from 1977 to 1978, justice expenditure in the ten most populous States rose 12.6 percent and accounted for 66 percent of the total State-local justice expenditure rise of $2.2 billion.

Local governments continued to spend more than the Federal and State governments combined. Figure 7 in the graphic summary shows that local governments accounted for 59 percent of all direct justice expenditure; State governments contributed 28 percent; and the Federal Government 13 percent. However, when each activity is examined separately, the proportion accounted for by the different levels of government varies throughout the justice system.

As seen in table C, four of the activities—police protection, judicial, legal services and prosecution, and "other criminal justice" were supported mainly by local governments. State governments contributed the largest amount for corrections and the Federal Government contributed the largest share of expenditure to public defense.

Figure 5 shows the change in direct expenditure by type of government and by function from FY 1978 to FY 1979. The two largest direct expenditure increases in dollar amounts occurred in police protection of municipalities (up $390 million) and in corrections expenditure of State governments (up $355 million). These two increases alone accounted for 39 percent of the total increase in direct expenditure for all governments between FY 1978 and FY 1979. The legal services sector of the Federal Government registered the largest year-to-year percent increase (24 percent), followed by the State governments' public defense sector (up 21 percent) and the States' judicial sector (up 18 percent).

Table C. Percent distribution of total direct expenditure for the justice system by activity and level of government, fiscal year 1979

Level of government	Total	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice
Total	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Federal	13.0	14.7	10.9	16.1	40.2	5.9	21.8
State	28.4	14.3	35.5	26.1	19.8	58.5	28.1
Local	58.6	71.0	53.6	57.8	40.0	35.7	50.1

Relationships similar to those found for expenditure among the various levels of government also apply to employment. Figure 8 shows that almost two-thirds of the total full-time equivalent justice employment of all governments was at the local level. As seen in table D, the proportion of people employed by the three levels of government in each sector generally approximated the proportion of expenditures made in the sector. Exceptions to this pattern are seen in the public defense and "other criminal justice" sectors. The Federal Government account for 40 percent of the total expenditure for public defense but only 3 percent of the employees. This is because the Federal Government makes more extensive use of court-appointed counsel systems, whereby fees are paid to private counsel to defend indigent clients accused of crimes, than do State and local governments, which more frequently have their own attorneys to provide public defense services. It should also be noted that 90 percent of Federal public defense expenditure was in the form of payments to the Legal Services Corporation for counseling indigent persons in purely civil matters. Because the corporation is not an agency of the Federal Government, its employees are not included in the count of Federal employment. Other Federal public defense programs service clients in criminal matters. Local governments accounted for 50 percent of "other criminal justice" direct expenditure but only 38 percent of the employees, while State governments contributed 28 percent of the direct expenditure and 46 percent of the employees. This is due in part to the effect of large capital expenditures in this category at the local government level for construction of multipurpose justice buildings. Moreover, the "other criminal justice" category has smaller expenditure and employment totals and small changes have a greater proportionate impact.

Table D. Percent distribution of full-time equivalent employment in the justice system by activity and level of government, October 1979

Level of government	Total	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice
Total	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Federal	8.7	11.2	5.2	10.7	2.8	4.4	16.3
State	27.9	14.0	31.1	27.3	41.5	58.1	46.2
Local	63.3	74.8	63.7	62.0	55.7	37.5	37.5

Federal Government (tables 4 and 5)

The Federal Government expended a total of $4.1 billion on civil and criminal justice activities in fiscal year 1979. This represents about 1 percent of the total 1979 Federal general expenditure of $390 billion. The $4.1 billion spending level amounts to a $210 million, or 6.0 percent increase over FY 1978. The increase in Federal justice *direct* expenditure (which includes current operating expenses and capital outlay but excludes Federal grants to State and local governments) was even greater at 8.2 percent.

The Federal police protection sector accounted for the largest proportion of the total dollar increase: $100 million for an increase of 5.1 percent, down from the $187 million or 11 percent increase from 1977 to 1978. The legal services sector accounted for the largest percentage increase, 25 percent or $56 million.

The next largest increase occurred in Federal judicial expenditures, which rose 15 percent or $48 million. Increases also occurred in corrections and public defense, up 5 and 15 percent, respectively. For the third straight year, total "other criminal justice" expenditure experienced a decline, dropping $21 million or 3 percent. This is primarily the result of a decrease in intergovernmental expenditure. Law Enforcement Assistance Administration grants (comprising nearly all of Federal intergovernmental outlays for criminal and civil justice), decreased from $660 million in FY 1978 to $629 million in FY 1979. A $60 million drop (from $585 million to $525 million) in LEAA block grants distributed to State governments was only slightly offset by a $29 million increase from $75 million to $104 million in discretionary grants made directly to local governments.

Figure 9 shows that, as in previous years, the largest share of Federal justice money was expended for police protection activities, including those agencies that enforce Federal law and those that provide security and police services to Federal property and buildings. Of the $4.1 billion in total Federal criminal justice expenditure, 51 percent ($2.1 billion) was for activities in the police protection sector, including those of the Federal Bureau of Investigation ($534 million), the Bureau of Customs ($415 million), the Drug Enforcement Administration ($174 million), and the Postal Inspection Service ($137 million). About 18 percent of all Federal justice expenditure was reported for activities classified in the "other criminal justice" sector. The other four sectors accounted for the remaining 31 percent of Federal justice expenditure.

Table E. Percent distribution of federal justice full-time equivalent employment and payroll, by activity, October 1979

(Dollar amounts in thousands)

Activity	Full-time equivalent employees	October 1979 payroll	Percent distribution: Full-time equivalent employment	Percent distribution: October 1979 payroll
Total	102,914	$203,418	100.0	[1] 100.0
Police protection	73,133	135,992	71.1	66.9
Judicial	8,084	19,470	7.9	9.6
Legal services	7,822	15,996	7.6	7.9
Public defense	251	587	0.2	0.3
Corrections	12,145	28,386	11.8	14.0
Other criminal justice	1,479	2,987	1.4	1.5

[1] Because of rounding, detail does not add to total.

Full-time equivalent Federal justice employment declined 0.7 percent from October 1978 to October 1979. There were nearly 103 thousand full-time equivalent employees in October 1979, including 73 thousand (71 percent) in the police protection sector; 12 thousand (12 percent) in the corrections sector; 7.8 thousand (8 percent) in the legal services and prosecution sector; and 8 thousand (8 percent) in the judicial sector (see figure 10). Public defense and "other criminal justice" together accounted for less than 2 thousand full-time equivalent employees (2 percent) although these two sectors accounted for 24 percent of the total Federal justice expenditure. As previously mentioned, the greatest portion of public defense expenditure was for court-appointed counsel, who are not public employees, and the greatest portion of Federal "other criminal justice" expenditure was in the form of intergovernmental grants.

Federal justice employees drew an October 1979 payroll of $203 million; each sector's percentage of the total payroll was generally proportionate to the percentage of full-time equivalent employment (see table E). There is some disparity in a few sectors because of a concentration of higher paid employees. For example, the judicial sector had 8 percent of the employees but received 9.6 percent of the payroll; and corrections had 11.8 percent of the employees but had 14 percent of the payroll. On the other hand, Federal police personnel are receiving comparatively less pay than other Federal justice employees because they comprise 71 percent of Federal justice employment but received only 67 percent of the total Federal justice payroll.

State governments (tables 6-11)

The total general expenditure of State governments in FY 1978 was $201 billion, of which $8.5 billion or 4 percent was expended on civil and criminal justice activities, about the same proportion as in past years. This represents an increase of $754 million or 12 percent in State justice expenditure from the previous fiscal year, slightly less than the 13 percent increase from 1977 to 1978.

The increase in total justice expenditure by State governments was reflected in all justice sectors. The judicial sector, rising $168 million from 1978 to 1979 for a 15 percent increase, reflected additional increases in State judicial expenditures and expanded State government responsibility for the court systems in several States, including Alabama, Kentucky, Massachusetts, Michigan, New York, and Virginia.

Following two years of decreases, State total "other criminal justice" expenditure rose from $527 million in 1978 to $588 million in 1979—a 12 percent increase. The increase is primarily attributable to a sharp rise in State intergovernmental payments to local governments in two States: Massachusetts and Virginia. In Massachusetts, an increase of $91 million in State assistance to localities covered the costs of a State takeover of local courts, including prosecuting attorneys' offices and probation functions. In Virginia, State aid to county sheriffs for courts and corrections expenses rose $28 million. In other large States such as California, Illinois, Michigan, New Jersey, New York, Ohio, Pennsylvania, and Texas, direct expenditure as well as intergovernmental payments to local governments in the "other criminal justice" category continued to decline. In addition, Federal Law Enforcement Assistance Administration block grants, which States redistribute to local governments, further declined from $585 million in 1978 to $525 million in 1979.

Total police protection and corrections expenditure of State governments both showed increased rates of growth from the previous year. Police protection expenditure increased 7 percent compared with 3 percent in 1978; and corrections expenditure rose 15 percent, up from the 12 percent increase in the prior year. Public defense total expenditure rose 17 percent—4 percentage points lower than the increase of a year ago.

Table F. Percent distribution of State justice full-time equivalent employment and payroll, by activity, October 1979

(Dollar amounts in thousands)

Activity	Full-time equivalent employees	October 1979 payroll	Percent distribution: Full-time equivalent employment	Percent distribution: October 1979 payroll
Total	329,095	$468,979	100.0	[1] 100.0
Police protection	91,595	130,915	27.8	27.9
Judicial	48,669	87,129	14.8	18.6
Legal services	19,961	32,499	6.1	6.9
Public defense	3,659	5,855	1.1	1.2
Corrections	161,019	206,983	48.9	44.1
Other criminal justice	4,192	5,599	1.3	1.2

[1] Because of rounding, detail does not add to total.

As in the past years, the corrections sector accounted for the largest portion of State justice expenditure ($3.8 billion or 45 percent). These expenditures included the operation of State prison systems and, in many States, the operation of the probation and parole systems as well. The balance of State justice expenditure was distributed as follows: Police protection, $2.2 billion, or 25 percent; judicial $1.3 billion or 16 percent; legal services and prosecution, $458 million, or 5 percent; public defense, $128 million, or 2 percent; and "other criminal justice," $588 million or 7 percent (see figure 11).

Full-time equivalent employment of State civil and criminal justice agencies increased by 6 percent to 329 thousand in 1978-79, up from the 4 percent increase from 1977 to 1978. This was 11 percent of the 3.1 million State total full-time equivalent employment. The judicial and public defense sectors registered increases in full-time equivalent employment of 17 and 16 percent respectively. Legal services and "other criminal justice" also showed strong gains. However, the "other criminal justice" increase of 14 percent follows a 2 percent decline in 1978 whereas the legal services rise of 10 percent contrasts with a 21 percent increase in 1978. State corrections added 9,600 employees (an increase of 4 percent). Police protection full-time equivalent employment declined slightly to 91.6 thousand—the second consecutive year in which a small decrease has occurred. The percentage of full-time equivalent employment in each sector was generally proportionate to the percentage of total expenditure in each sector with the exception of "other criminal justice" (see figures 11 and 12).

The 329 thousand full-time equivalent employees received $469 million in salaries, wages, or other compensation in the month of October 1979. This was an increase of 15 percent between October 1978 and October 1979.

The October 1979 payroll of $469 million was divided among the six justice sectors roughly in proportion to the full-time equivalent employment in the sector (see table F). For those sectors characterized by higher-paid employees, namely judicial, legal services, and public defense (see figure 6), the sector's share of payroll of course exceeded the share of employment.

Local governments: Counties and municipalities (tables 6-10 and 12-21)

Total expenditure for justice by local governments in fiscal year 1979 was $15.4 billion, a $945 million or 7 percent increase from FY 1978—in comparison to an 11 percent increase from 1977 to 1978. As in past years, close to two-thirds of this expenditure occurred in the police protection sector ($9.9 billion or 64 percent). The judicial sector and the corrections sector accounted for 12 and 14 percent of expenditure respectively, while the other three sectors accounted for smaller percents (see figure 13).

Local full-time equivalent employment was also distributed among the six sectors roughly in the same proportions as total expenditure (see figures 13 and 14). Two slight exceptions to this generalization are the public defense sector, where payments are frequently made to private court-appointed counsel who are not directly employees of the government, and the "other criminal justice" sector, where expenditures are frequently grant funds of private agencies associated with justice activities or are used for construction of multi-purpose justice facilities. In both instances, large expenditures may be made without the governments involved directly employing the workers.

Analyzing local justice expenditure in total, however, tends to obscure important differences between the county level of government and the municipal level. Municipal governments (cities, towns, and townships) outspent county governments for justice activities by about $3.2 billion overall, but the difference can be attributed almost exclusively to the police sector, where the municipal governments outspent the county governments by about 4 to 1. Over one third (36 percent) of county justice expenditure was for activities in the judicial, legal services/prosecution, and public defense areas; another third (33 percent) was for police protection; corrections (28 percent) and other criminal justice (3 percent) round out the county justice total. Municipal governments spent $79 billion (or 85 percent of all their justice expenditure) on police protection, more than county governments spent on all six sectors altogether.

Table G. Percent distribution of county justice full-time equivalent employment and payroll, by activity, October 1979

(Dollar amounts in thousands)

Activity	Full-time equivalent employees	October 1979 payroll	Percent distribution: Full-time equivalent employment	Percent distribution: October 1979 payroll
Total	300,378	$373,026	100.0	100.0
Police protection	103,255	137,404	34.4	36.8
Judicial	77,545	84,475	25.8	22.6
Legal services	30,618	43,263	10.2	11.6
Public defense	4,493	7,741	1.5	2.1
Corrections	82,120	97,648	27.3	26.2
Other criminal justice	2,347	2,495	0.8	0.7

Table H. Percent distribution of municipal justice full-time equivalent employment and payroll; by activity, October 1979

(Dollar amounts in thousands)

Activity	Full-time equivalent employees	October 1979 payroll	Percent distribution: Full-time equivalent employment	Percent distribution: October 1979 payroll
Total	445,624	$651,590	100.0	100.0
Police protection	385,598	571,441	86.5	87.7
Judicial	22,063	23,398	5.0	3.6
Legal services	14,768	22,876	3.3	3.5
Public defense	414	575	0.1	0.1
Corrections	21,729	32,040	4.9	4.9
Other criminal justice	1,052	1,260	0.2	0.2

However, county governments spent substantially more than municipal governments in the other five sectors. No one sector dominates county justice expenditure as police protection does municipal expenditure (see figures 15 and 17).

County justice total expenditure for all activities increased by 8 percent to $6.2 billion, down from the 11 percent increase from 1977 to 1978. The greatest individual sector percent increase occurred in legal services, 12 percent. This was followed by police protection, 11 percent, public defense, 9 percent, corrections, 8 percent, and judicial, 3 percent. "Other criminal justice" had an actual decrease of 7 percent. The 1979 growth rates in all of the other five sectors represent declines from 1978.

Total justice expenditure for municipalities increased by almost $480 million or 5.4 percent to $9.4 billion in 1979. This was about half the $889 million or 11 percent increase in 1978. The total municipal police protection expenditure of $7.9 billion, accounting for 85 percent of total municipal justice spending, consumed $404 million of the $480 million increase. Municipal legal services and public defense spending, although rising at 10 and 16 percent rates respectively in 1979, still constitute only a combined total of 4.5 percent of municipal justice spending. Municipal judicial expenditure rose only 0.2 percent in 1979, and "other criminal justice" decreased 10 percent, or $7 million.

At both the county and municipal levels, employment and payrolls were distributed throughout the various sectors in roughly the same percentages as expenditure (see tables G and H).

There were 300 thousand full-time equivalent county justice employees in October 1979 drawing a monthly payroll of $373 million. This was an increase of 4.4 thousand or 1.5 percent in the number of county justice employees over October 1978, about one-half the increase from 1977 to 1978 and one-fourth the increase in 1977. The police protection sector showed the greatest increase in full-time equivalent employment, over 3 thousand or 3 percent. Judicial, public defense, and "other criminal justice" sectors showed declines in full-time equivalent employment. As at the State level, in those sectors with a concentration of higher-paid employees such as legal services and public defense (see figure 6), the percentage of total payroll exceeded the percentage of total employees (table G). Average monthly pay for county justice employees for all functions rose 7 percent from 1978 to 1979—up sharply from the 2 percent increase from 1977 to 1978. County average monthly pay exceeded prior year increases in every sector except "other criminal justice," which declined slightly below the 1978 level. However, county average monthly justice pay remained the lowest in every sector among all governments, except the public defense sector.

Municipal full-time equivalent employment declined 1.6 thousand (0.4 percent) to 445.6 thousand from October 1978 to October 1979. Most of the decline in municipal justice employment is attributable to a drop of 4.2 thousand in police employment, which was only partly offset by gains in judicial, legal services, public defense and corrections. "Other criminal justice" employment, dropping to 1,052, accounted for the remainder of the decrease. Municipalities' total monthly justice payroll rose 10 percent or 59 million to $652 million in October 1979. Municipal average monthly pay not only exceeded county pay in all categories except the judicial and public defense sectors; but also was higher than average State pay in the police protection and corrections sectors (figure 6).

Separate data are presented in tables 12-16 for the 349 county governments with a 1978 population of 100,000 or more. Over one-half (59 percent) of the total United States population lives in the 349 largest counties, and these counties accounted for 77 percent ($4.8 billion) of the total expenditure for justice activities at the county level. These same counties accounted for 71 percent of all county-level full-time equivalent justice employment (213) thousand) and paid 78 percent of the total county justice payroll for October 1979. These figures, of course, reflect the greater need for justice services and the higher salaries in densely populated areas.

Separate data are presented in tables 17-21 for the 415 city governments with a population of 50,000 or more in 1978. Total justice expenditure by the 415 large city governments amounted to $6.3 billion, and full-time equivalent justice employment was 271 thousand. In 1979, these 415 cities contained 46 percent of the total United States metropolitan area population, and accounted for 67 percent of the municipal justice expenditure. These same 415 cities employed 61 percent of all municipal full-time equivalent employees working in the justice system and paid them 67 percent of the total municipal justice payroll. As with the large counties, the proportion of payroll exceeded the proportion of employees, reflecting the generally higher salaries in the large metropolitan areas.

The distribution of expenditure and employment throughout the various justice sectors in the 349 counties and the 415 cities reflect the distribution for counties and cities generally.

It should be noted that in the individual city tables, certain cities displayed are either independent, being wholly outside any county area, or operate wholly or in part as a consolidated city-county. In general, these cities are more similar to large counties than to other large cities in the scope of their justice responsibilities; that is, in addition to police protection, which is the primary justice function in most cities, these cities also operate extensive judicial and corrections systems and may have significant public defense expenditures. The independent cities are: Washington, DC; Baltimore, Md.; St. Louis, Mo.; Carson City, Nev.; and the following cities in Virginia: Alexandria, Chesapeake, Hampton, Lynchburg, Newport News, Norfolk, Portsmouth, Richmond, Roanoke, Virginia Beach, and 31 others, 20 of which are included in the survey sample and are reflected in table I. Data are not available for eight cities not included in the survey sample, and five cities did not respond. The consolidated city-county governments are: Anchorage, Alaska; San Francisco, Calif.; Denver, Colo.; Jacksonville, Fla.; Columbus, Ga.; Honolulu, Hawaii; Indianapolis, Ind.; Lexington, Ky.; Baton Rouge, La.; New Orleans, La.; Boston, Mass.; New York City, N.Y.; Philadelphia, Pa.; Nahsville-Davidson, Tenn.; and three others that are not displayed in the individual city tables because they had populations of less than 50,000. They are Juneau, Alaska; Sitka, Alaska; and Nantucket, Mass. All 17 however, are displayed in table I to show their effect on total municipal direct expenditure and employment for all criminal justice functions.

Because New York City's justice direct expenditure accounted for 50 percent of the combined total of independent cities and consolidated city-counties, these units' share of total municipal direct expenditure is less dramatic when New York City is removed, dropping from 29 percent to 15 percent. Similarly, New York City accounts for 43 percent of the total justice employment for this group and, when it is removed, the share of total municipal employment is reduced from 24 percent to 14 percent.

Table I. Justice system direct expenditure and employment of independent cities and consolidated city-county governments, fiscal year 1979

(Dollar amounts in thousands)

State and type of government	Estimated population July 1, 1978	Total justice system: Direct expenditures	Total justice system: Total employees
United States:

X Not applicable.
[1] Expenditure and employment data for independent cities and consolidated city-county governments are included.
[2] There are 41 independent cities in Virginia; however, 8 of these cities are not included in the survey sample; and five did not respond.

Survey methodology: Sources and limitations of the data

General

Survey coverage and collection methods are described in detail below, and the definitions applied in the collection of data are presented in appendix 1. As in the previous editions of this series, several tables show comparisons of justice expenditure and full-time equivalent employment with the total general expenditure and full-time equivalent employment for all functions of the particular government or level of government. These data are for units of general-purpose governments only (i.e., county, municipal, and township governments) and do not include independent school districts or special district governments.

Survey coverage

The survey through which basic figures for this report were collected covered the Federal Government, all State governments, and a representative sample of local governments within each State. Data were collected for all county governments (regardless of size), for all municipalities (and townships in the New England and Middle Atlantic States) having a 1970 population of 10,000 or more, and for a sample of the remaining municipalities and townships with less than 10,000 population, selected according to the relative size of their annual police protection expenditures as reported in the 1977 Census of Governments. The survey panel therefore included the Federal Government, the 50 State governments, and 11,878 local governments (3,042 county governments, 6,762 municipalities, and 2,074 townships).

The survey period

Federal Government data are shown for FY 1979, which began on October 1, 1978 and ended September 30, 1979. The State expenditure data presented in this report cover the fiscal year ending June 30, 1979 for all States except four whose fiscal years ended as follows: New York, March 31, 1979; Texas, August 31, 1979; and Alabama and Michigan, September 30, 1979. However, there are some State agencies that operate on a different fiscal year basis from the rest of the State government. In such instances, figures shown are for the agency's fiscal year that ended within the State's regular fiscal year.

For local governments, the 1979 fiscal years reported are those that closed between July 1, 1978 and June 30, 1979. Most municipalities and counties ended their fiscal years on December 31, 1978 or June 30, 1979. The fiscal year reported for Washington, D.C. ended on September 30, 1979.

Employment data shown for Federal, State, and local governments are for October 1979.

Data collection

The survey was accomplished using two methods of data collection: Field compilation and mail canvass. Trained field representatives compiled expenditure and employment data from the governments' own records for the 50 States, the 349 largest counties and the 415 largest cities. The compilation work was done between October 1979 and April 1980 in accordance with the definitions presented in appendix 1. All other units in the sample were canvassed by mail for expenditure and employment data, over a 5-month period beginning in January 1980 and ending in May 1980. Response for field-compiled units was 100 percent. The response from mail canvass units was 90 percent. The mail canvass questionnaires are exhibited in appendix 2.

The field survey efforts and mail canvass were supplemented by reference to a variety of published government documents such as budgets, financial statements, and audit reports. In some cases, such sources were the basis for breakdowns of totals into more detailed employment and expenditure figures.

The expenditure and employment data for the Federal Government were collected through a special mail survey, with telephone followup of Federal justice agencies, in accordance with definitions used for State and local governments (see appendix 1).

Data limitations

The sample selected to develop local government figures is one of all possible samples of the same size that could have been chosen using the same sampling design. Estimates derived from these different samples would differ from each other and also from a complete census using the same data collection procedures. This variation among all possible estimates is sampling error. Because all State and county governments were included in the survey, State and county figures are not subject to sampling error.

The local government sample for the 1979 survey was designed to produce an estimate for each State of the portion of total justice expenditure made by local governments with a relative sampling error of less than one-half of 1 percent. For the fiscal year 1978 data, the errors were less than one-half of 1 percent in all but 13 States; however, in all States, the errors were less than three-quarters of 1 percent, at the 95 percent confidence level.

The relative sampling error of the State-by-State estimates of local government justice expenditure for fiscal year 1978 data was calculated at the two-thirds confidence level and found to be within 3 percent of the estimated totals for all States and less than 2 percent for 32 States. The results of the computations of standard errors for local government totals on a relative standard error basis are summarized in table J.

Because State government figures are not subject to sampling variation, the State-local aggregates shown for individual States are more reliable than the local government estimates they include.

The data are also subject to the inaccuracies in classification, response, and processing that would occur if a complete census had been conducted under the same conditions as the sample survey. Every effort was made to keep such errors to a minimum through care in examining, editing, and tabulating the data submitted by government officials. Followup procedures were used extensively to clarify inadequate and inconsistent survey returns.

Table J. Relative standard errors of local government totals of justice expenditure, 1978

0.5 or less	0.5 – 1.0	1.0 – 2.0		2.0 – 3.0	
California	Alaska	Colorado	Maryland	Alabama	North Dakota
Hawaii	Arizona	Delaware	Massachusetts	Arkansas	Oklahoma
Michigan	Connecticut	Florida	Montana	Idaho	Pennsylvania
Nevada	Indiana	Georgia	Nebraska	Iowa	South Carolina
New Mexico	Rhode Island	Illinois	North Carolina	Minnesota	Tennessee
New York	Vermont	Kansas	Ohio	Mississippi	Utah
Texas		Kentucky	Oregon	Missouri	West Virginia
		Louisiana	South Dakota	New Hampshire	Wisconsin
		Maine	Virginia	New Jersey	Wyoming
			Washington		

Readers should be generally cautious in comparing governments, because differences in functional responsibilities from State-to-State and government-to-government can also affect the comparability of expenditure and employment data. For example, some State governments directly administer certain activities that elsewhere are undertaken by local governments, with or without fiscal aid, and the same variation in the division of responsibilities exists for counties and cities.

The available source documents did not consistently provide full itemization of expenditure or employment for the sector subcategories presented in this report. As a result, sector breakdowns may be incomplete for particular governmental units.

Because of rounding, the detail data in some tables may not add precisely to the totals shown.

Changes in survey methodology

As discussed earlier, this series of annual reports dates back to FY 1967. The survey originated in the Bureau of the Census as a special in-house study in which police protection, judicial and corrections data were extracted for selected large governments from data compiled in the Bureau's regular annual finance and employment sample surveys. In the FY 1969 survey, prosecution and public defense were added to the original three criminal justice categories, coverage was extended to the entire regular annual survey sample of counties and municipalities, and a mail canvass questionnaire designed specifically to elicit criminal justice data was used for all but the largest governments, which were canvassed by field agents. These changes must be taken into account in making year-to-year comparisons from FY 1967 through FY 1970.

Availability of data

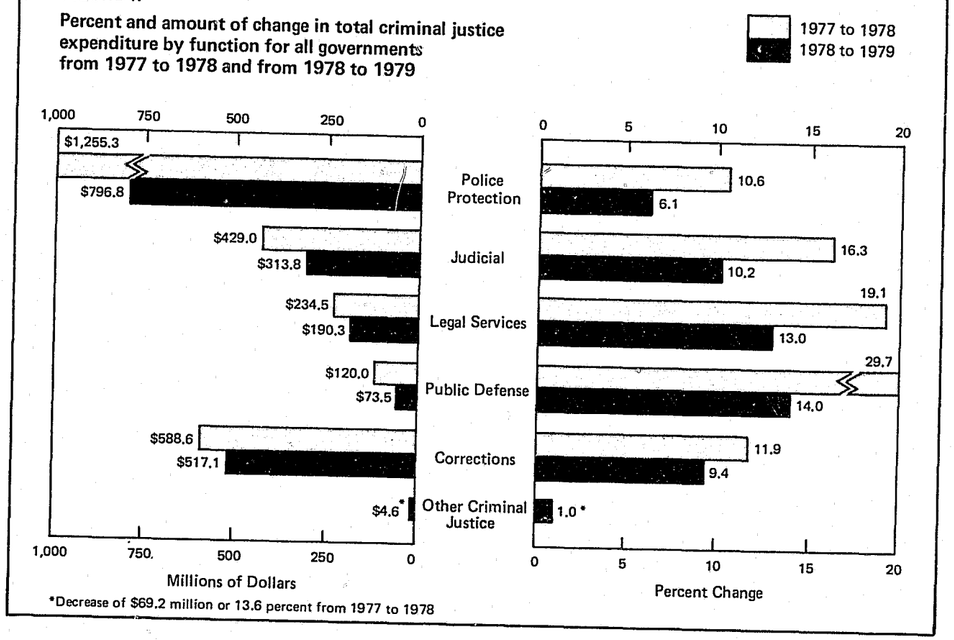

Copies of the annual and trends reports are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; U.S. Department of Commerce District Offices; and the National Criminal Justice Reference Service, Box 6000, Rockville, Md. 20850.

In addition to the publications, data are also available on magnetic tape and computer printout. For details, contact the Bureau of Justice Statistics, Department of Justice, Washington, D.C. 20531.

GRAPHIC SUMMARY

Section I. Variable Pass-Through Data

The data in this table were originally developed to comply with the Omnibus Crime Control and Safe Streets Act of 1968, which required that the block grants made by the Law Enforcement Assistance Administration to each State be allocated between the State and local governments according to the ratio of State-to-local law enforcement expenditure from their *own revenue sources.* Although the block grant program was suspended, table 1 of this report continues to present the variable pass-through data to allow for historical analysis with earlier data published in previous reports.

The concept of "expenditure from own sources" specified in the law and used in the data collection means that the expenditure figures from which the State-to-local ratio was developed do not include amounts expended from revenue received from other governments. For example, State or local government expenditure from sales or property tax revenue are included but not amounts expended from intergovernmental revenue, such as Federal grant monies. (It should be noted that this is the only table in this publication based on this concept. All other expenditure tables reflect expenditure from all sources.)

Specifically for local government, any expenditure from revenue received from another local government, or received directly from the Federal Government or from the State government must be excluded. Likewise for State governments, expenditure from revenue received from local governments or from the Federal government must be excluded.

The following items were deducted from total criminal justice expenditure of local governments to arrive at local government expenditure from own revenue sources: Revenue received *directly* from the Federal Government for criminal justice purposes, State *payments* to local governments for criminal justice purposes, and *payments* from local government(s) to other local government(s) for criminal justice purposes. The same procedure was followed to arrive at State government expenditure from own revenue sources. Criminal justice revenue received *directly* from the Federal Government and local criminal justice *payments* to the State government were deducted from the total State expenditure for criminal justice. This procedure assumes that all intergovernmental payments received by a government will be expended during the same fiscal year they were received. While this may not be the case in a particular year, any discrepancy will cancel out over time.

Table 1. **Percent distribution of total criminal justice expenditure from own sources of State and local governments, by State, fiscal year 1979**

(Dollar amounts in thousands)

X Not applicable.
[1]Local governments data are estimates subject to sampling variations; see text for data limitations.
[2]Federal Government data are for the fiscal period beginning October 1, 1978 and ending September 30, 1979.
[3]The total line for each sector, and for the total Criminal Justice System, excludes duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount. The intergovernmental expenditure lines are not totaled for the same reason.

- Represents zero or rounds to zero.
X Not applicable.
Z Less than half the unit of measurement shown.
[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.
[2]Estimated population of States as of July 1, 1978 is derived from Bureau of the Census, Current Population Reports, Series P-25, No. 876, February 1980.
[3]The relation of criminal justice total expenditure to total general expenditure is based on data for general purpose governments only and does not include data for State-operated liquor stores, independent school districts, or special districts.
[4]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again where the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.
X Not available.
Z Less than half the unit of measurement shown.
[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.
[2]Estimated population of States as of July 1, 1978 is derived from Bureau of the Census, Current Population Reports, Series P-25, No. 876, February 1980.
[3]The relation of criminal justice total expenditure to local general expenditure is based on data for general purpose governments only and does not include data for State-operated liquor stores, independent school districts, or special districts.

- Represents zero or rounds to zero.
X Not applicable.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure

– Represents zero or rounds to zero.
Z Less than half the unit of measurement shown.
[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; see text for data limitations.
[2]The relation of criminal justice full-time equivalent employees to total full-time equivalent employees is based on data for general purpose governments only and does not include data for State-operated liquor stores, locally operated utility systems, or for independent school districts and special districts.

equivalent employees by State and type of government, October 1979—Continued

- Represents zero or rounds to zero.
Z Less than half the unit of measurement shown.
[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.
[2]The relation of criminal justice October payroll to total October payroll is based on data for general governments only and does not include data for State-operated liquor stores, locally operated utility systems, or for independent school districts and special districts.

- Represents zero or rounds to zero.
X Not applicable.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]Because of rounding, the detail figures may not add precisely to totals.

– Represents zero or rounds to zero.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]Because of rounding, the detail figures may not add precisely to totals.

- Represents zero or rounds to zero.
X Not applicable.
[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.
[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.
X Not applicable.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.
X Not applicable.

[1] Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2] For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

X Not applicable.

[1] Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2] For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

[3]Because of rounding, the detail may not add precisely to totals.

- Represents zero or rounds to zero.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

[3]Because of rounding, the detail may not add precisely to totals.

- Represents zero or rounds to zero.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]Because of rounding, detail may not add precisely to totals.

X Not applicable.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

Appendix 1

Definitions of terms

Following is a glossary of terms, concepts, and categories used in this report and comments concerning their limitations.

The definitions are those applied in the field compilation of data for the 50 States, 350 largest counties, and 415 largest cities. These definitions were necessarily summarized for inclusion in the survey questionnaires (see appendix 2) sent to governments in the mail portion of the survey.

Government expenditure

Expenditure is all amounts of money paid out (net of any correcting transactions) other than for retirement of debt (including interest), investment in securities, extensions of loans, or agency transactions. It includes only external cash payments and excludes any intragovernmental transfers and noncash transactions, such as the provision of meals or housing of employees. It also includes any payments financed from borrowing, fund balances, intergovernmental revenue, and other current revenue. In several instances, two or more governments share the expense of maintaining a court or a justice agency. In these cases, the allocable direct expenditure amount is reported for each government in the appropriate category. When a government pays pensions directly to retired employees from appropriated funds, such payments are included as expenditure of the government concerned. However, State and local government contributions to retirement systems and various other employee benefits are not included in expenditure data, since the majority of governments make lump-sum contributions to plans covering all government employees and cannot report for justice employees separately. Neither in government's basic accounting records (from which criminal justice expenditure figures are drawn) nor in the records of their general-coverage employee benefit systems is there usually any breakdown of amounts contributed in terms of the various agencies or functions involved. Nor has an adequate procedure for calculating the proportion of such contributions allocable to justice employees been developed because of the wide variation in the coverage of various plans, employee status requirements, benefit rates, etc.

For those governments whose records reflect contributions of justice employees separately, separate data were obtained. However, these data are subject to the same variation referred to above, and neither the amount nor the quality of the data reported would permit any attempt to estimate total contributions for all similar governments in a given State. Given the problems involved, no estimation procedure seems feasible. Such data as were reported separately were therefore excluded from total criminal justice expenditures to provide a consistent data base for administering the "variable pass-through" requirement.

Expenditure is divided into two major categories by character:

1. Direct expenditure is all expenditure except that classed as intergovernmental and is further divided into two principal object categories:

a. **Direct current**, which includes salaries, wages, fees, and commissions, purchase of supplies, materials, and contractual services.

b. **Capital outlay**, which includes expenditure for the three subcategories below:

Construction: Production of fixed works and structures, and additions, , replacements and major alterations thereto undertaken either on a contract basis by private contractors or through force account construction by the employees of the government. Included are the planning and designing of specific projects, the grading, landscaping, and other site improvement, and provision of equipment and facilities that are integral parts of the structure.

Equipment: Purchase and installation of apparatus, furnishings, office equipment, motor vehicles and the like having an expected life of more than 5 years. This includes both additional equipment and replacements. Rentals for equipment, including rental payments that may be credited on the purchase price if purchase options are exercised, are classified as direct current expenditure. Equipment and facilities that are integral parts of constructed or purchased structures are classified respectively under construction or purchase of land and existing structures.

Purchase of land and existing structures: Purchase of these assets as such, purchase of rights-of-way, and title search and similar activities associated with purchase transactions.

The other object categories—interest on general debt, assistance and subsidies, and insurance benefits—are not applied to specific functions because they are not ordinarily available on a functional basis from government financial reports. In the few instances where bonded or mortgaged general indebtedness is identified for specific purposes, the interest payments are aggregated with other interest expenditures which make it virtually impossible to arrive at reliable and consistent breakouts of such data over a long period of time.

2. Intergovernmental expenditure is payments from one general purpose government to another, including grants-in-aid, shared revenues, payments in lieu of taxes, and amounts for services performed by one government for another on a reimbursable or cost-sharing basis (for example, payments by one government to another for boarding prisoners).

Total expenditure is direct and intergovernmental expenditure of a government or level of government for justice activities.

Total general expenditure is all expenditure of a government or level of government **for all government functions**, including justice activities, but excluding utility system expenditure, liquor store expenditure, and insurance trust expenditure. Total general expenditure shown for the local level of government includes expenditure only of general purpose governments, and excludes expenditure of special districts and school districts.

Government employment

Employees includes all persons paid for personal services performed, including all paid officials and persons in paid leave status, and excludes unpaid officials, persons on unpaid leave, pensioners and contractors. Under this definition are two classes:

1. **Full-time employees**, who are all persons employed during the pay period including October 15, 1979, on a full-time basis, including all full-time temporary or seasonal workers employed during this pay period, as well as persons having permanent status.

2. **Part-time employees**, who are persons employed during the pay period including October 15, 1979, on a basis other than full-time, and persons paid by more than one government.

Derived from these two classes is:

Full-time equivalent employees, which means the total number of employees, discounted by applying average full-time earning rates. This is calculated by dividing the total payroll (full-time plus part-time) by the **full-time payroll** and multiplying the results by the number of full-time employees, where both full-time and part-time employees and payroll are reported. Where only part-time employees and payroll are reported, full-time equivalent employees are calculated by dividing the total part-time payroll by the average full-time salary for the particular justice sector and type of government. **Average full-time salary** is calculated by dividing the full-time payroll by the number of full-time employees for the particular justice sector and type of government.

Payroll is the gross payroll before deductions and includes salaries, wages, fees and commissions paid to employees as defined above for the month of October 1979.

Governmental functions

Police protection is the function of enforcing the law, preserving order, and apprehending those who violate the law, whether these activities are performed by a police department, a sheriff's department, or a special police force maintained by an agency whose prime responsibility is outside the justice system, but which has a police force to perform these activities in its specialized area (geographic or functional).

Included in this activity are regular police services, the maintenance of buildings used for police purposes, and such specialized police forces (including public and private contract forces) as airport police, free and toll highway police, free and toll bridge and tunnel police, housing police, maritime police, park police, transit and other utility system police, college and university campus police, and alcholic beverage control agents. Coroners and medical examiners are also included. Excluded are vehicular inspection and licensing, traffic safety and engineering, fish and game wardens, fire marshals, and the like.

The special police forces included in the data are only those which are part of general purpose governments. Security forces, building guards, school crossing guards, and meter maids without general arrest power were excluded. Those special police forces that are part of independent school districts or special districts are not included in the data, inasmuch as these districts are not general purpose governments.

In most States, sheriffs' departments are multifunctional agencies providing police protection, judicial, and/or correctional services. In order to allocate expenditure and employment data to the proper activity, the data for sheriffs' departments are prorated using factors developed from a special survey of sheriffs' departments conducted in 1973, or more current estimates of manpower distribution if available.

Short-term custody and detention are considered part of the police protection function. Data for institutions with authority to hold prisoners 48 hours or more are included in the "corrections" sector. Data for lockups or "tanks" holding prisoners less than 48 hours are included in the "police protection" sector.

Judicial activities encompass all civil and criminal courts and activities associated with courts such as law libraries, grand juries, petit juries, and the like. Since the names of courts with similar functions and legal jurisdiction vary from State to State and even within States, data have been categorized by types of court rather than by court name.

1. **Appellate courts** include courts of last resort and intermediate appellate courts. These are courts having jurisdiction of appeal and review, with original jurisdiction conferred only in special cases.

2. **Courts of general jurisdiction** are trial courts having unlimited original jurisdiction in civil and/or criminal cases, the names of which vary considerably. In many States, statutes either require or permit local governments to supplement the salary of State-paid judges of general jurisdiction courts. These judges were counted as part-time employees at both the State and local levels when actually receiving a check from both governments.

3. **Courts of limited jurisdiction** are courts whose legal jurisdiction covers only a particular class of cases or cases where the amount in controversy is below a prescribed sum or is subject to specific exceptions. Included under this category are probate courts, juvenile courts and other courts of limited jurisdiction.

4. **Miscellaneous judicial** includes data on judicial activities that could not be reported under any of the above court categories, such as judicial councils and conferences, court administration offices (where identifiable), law libraries, jury commissions, and grand juries.

Legal services and prosecution includes the civil and criminal justice activities of the attorneys general, district attorneys, State's attorneys, and their variously names equivalents; corporation counsels, solicitors, and legal departments with various names. It includes providing legal advice to the chief executives and subordinate departmental officers, representation of the government in lawsuits, and the prosecution of accused violators of criminal law. These activities are included whether performed by one office or several, because in some jurisdictions a single officer provides all legal services, whereas in others a prosecutor's office handles only criminal matters, and a separate attorney's office performs all civil legal services. The operations of various investigative agencies having full arrest powers and attached to offices of attorneys general, district attorneys, or their variously named equivalents are also included.

Public defense includes legal counsel and representation in either criminal or civil proceedings as provided by public defenders, and other government programs that pay the fees of court-appointed counsel. These include court-paid fees to individually retained counsel, fees paid by the court to court-appointed counsel, government contributions to private legal aid societies and bar association-sponsored programs, and the activities of an established public defender office or program. Employment data are included only for public defenders' offices, because fee-paid counselors are not considered government employees, nor are counselors working for bar associations or legal aid societies.

Corrections is that function of government involving the confinement and rehabilitation of adults and juveniles convicted of offenses against the law and the confinement of persons suspected of a crime and awaiting adjudication. Data for institutions with authority to hold prisoners 48 hours or more are included in this sector. Data for lockups or "tanks" holding prisoners less than 48 hours are included in "Police Protection." Correction includes the operation of prisons, reformatories, jails, houses of correction, and other institutions. It also includes institutions, facilities and programs exclusively for the confinement of the criminally insane or for the examination, evaluation, classification, and assignment of inmates and institutions and programs for the confinement, treatment, and rehabilitation of drug addicts and alcoholics if the institution or program is administered by a correction agency of the criminal justice system. Pardon boards and parole and probation agencies, including resettlement or halfway houses for those not in need of institutionalization, are included in the correction sector as a separate subcategory.

1. **Correctional institutions** are prisons, reformatories, jails, houses of correction, penitentiaries, correctional farms, workhouses, reception centers, diagnostic centers, industrial schools, training schools, detention centers, and a variety of other types of institutions for the confinement and correction of convicted adults or juveniles adjudicated delinquent or in need of supervision, and for the detention of those adults and juveniles accused of a crime and awaiting trial or hearing. When an institution maintains a prison industry or agricultural program, data on the cost of production or the value of prison labor used by agencies of the same government, if identifiable, are excluded (and classed as expenditure for the function using the product or services). Expenditure for the manufacture, production, sale, and distribution of goods produced for sale or use outside the government are included under this heading.

a. **Institutions for men** includes identifiable expenditure and employment data for institutions exclusively for adult male offenders.

b. **Institutions for women** includes identifiable expenditure and employment data for institutions exclusively for adult female offenders. Where there is no separate women's prison, women offenders are either maintained in a prison complex that also houses other offenders or are boarded in private facilities or institutions in another State. No attempt was made to prorate data on institutions housing more than one type of inmate, but where females are boarded in private institutions or in another State, available expenditure data were tabulated. Employment data were not tabulated because the personnel were employees of another government.

c. **Institutions for juveniles** are those institutions identified by the 1975 Juvenile Detention and Correction Facility Census as housing primarily juveniles and in some States, "youthful offenders." These institutions include those under the control of a juvenile court, a probation department, or a youth authority or other similarly designated administrative body, as well as independently administered institutions. Also included are government payments to private agencies for the detention or treatment of delinquent juveniles.

There is considerable variation from State to State in the legal definition of a juvenile, particularly in regard to the age at which a person is no longer considered a juvenile. Institutions for juveniles have been classified individually in accordance with the laws and age designations of their respective States.

d. **Other and combined institutions** are those institutions holding a combination of inmates. Where expenditure or employment data for physically separate institutions for juveniles, adult females, and adult males were not separable by institution or type of institution, the entire amounts were included under this category.

2. **Correctional administration** consists of data for the overall administration of the correctional system, including data on the central administrative office (for example, the department of corrections or a youth authority). Data on the administration of individual correctional institutions or probation/parole/pardon agencies are included in the appropriate subcategory if it was possible to deduct them.

3. Probation, parole, and pardon includes data on probation agencies, boards of parole, boards of pardon, and their variously named equivalents. Although probation agencies frequently function under the administration of the general jurisdiction court, the data are presented separately under corrections after having been deducted from the judicial data, because of the correctional nature of the probation function. If the probation, parole, and pardon activities, or any of them individually, were part of the correctional administrative office, data were deducted where possible and shown separately here, and the balance was shown under the correctional administration category. The overlapping character of probation, parole, and pardon activities prevented any further breakdown of these data.

4. Miscellaneous correction includes expenditure and employment data that could not be classified under one of the other subcategories.

Other criminal justice activities, shown in some tables, includes expenditure or employment data that are not elsewhere classified, that cut across more than one category, or that are not allocable to separate categories; e.g., expenditure on a general curriculum in educational institutions, the operation of State criminal justice agencies, crime commissions, etc. Such data are included in the totals, where they are not shown separately.

Appendix 2

Survey forms

Form CJ-6 Survey of Expenditure and Employment for Civil and Criminal Justice Activities of Local Governments

This form was mailed to the chief financial officer of the counties and municipalities surveyed.

Form CJ-6D Survey of Expenditure and Employment for Civil and Criminal Justice Activities of Local Governments (Fee-Supported Offices)

This form was mailed to the fee-supported offices of Sheriff and/or Clerk of Court in the States of Kentucky and Louisiana. Data for these fee-supported offices were incorporated in the appropriate criminal justice function data for the county where located.

Form CJ-23 Survey of Expenditure and Employment for Selected Special Police Forces

This form was mailed to special police forces serving colleges and universities, special districts, and independent school districts. Data for college and university forces were incorporated in the police protection data for the parent government. Data for special police forces serving independent school districts or special districts were not included in the regular police protection data, inasmuch as these districts are not general purpose governments.

Form CJ-25 Survey of Expenditure and Employment for Civil and Criminal Justice Activities of the Federal Government

This form was mailed to the chief financial or administrative officer of individual Federal agencies, bureaus, and offices identified as part of the criminal justice system. A list of the units canvassed in the survey for this year is presented in tables 4 and 5.

Form Approved: O.M.B. No. 43-R0586

IMPORTANT – PLEASE READ

Please read the definitions on page 3 and the enclosed supplemental instructions before completing the questionnaire.

If you would like to receive a free copy of the current report, **Expenditure and Employment Data for the Criminal Justice System 1979**, or wish to order other LEAA reports, complete and return the enclosed mailer.

FORM CJ-6
(11-13-80)

U.S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

SURVEY OF EXPENDITURE AND EMPLOYMENT FOR CIVIL AND CRIMINAL JUSTICE ACTIVITIES OF LOCAL GOVERNMENTS

In correspondence pertaining to this report, please refer to the identification number above your address

RETURN TO
Bureau of the Census
1201 East Tenth Street
Jeffersonville, Indiana 47132

(Please correct any error in name and address including ZIP code)

FROM THE DIRECTOR
BUREAU OF THE CENSUS

On behalf of the Bureau of Justice Statistics, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for six criminal justice functions: police protection, judicial, legal services and prosecution, public defense, corrections, and other criminal justice. Your cooperation in completing this year's questionnaire will be appreciated.

The data collected in this survey are used by the Department of Justice in implementing and administering the formula grant programs of the omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System.**

If there are any items on this questionnaire for which the answer cannot be obtained from available records, reasonable estimates are requested. Please indicate such estimates with an asterisk (*). The duplicate copy of this questionnaire is for your files. The addressed copy should be returned, preferably within 3 weeks, in the enclosed preaddressed envelope. If you have any problems in completing this questionnaire, please call collect for assistance on (301) 763–7825 or (301) 763–2843.

This report is authorized by the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 USC 3701). While you are not legally required to respond, your participation is needed to make the results of this survey comprehensive, accurate, and timely.

Sincerely,

Vincent P. Barabba

VINCENT P. BARABBA

CIVIL AND CRIMINAL JUSTICE ACTIVITIES

(Please review activities below and refer to supplemental instructions prior to completing this questionnaire)

Part I – EMPLOYMENT AND PAYROLL

Enter employment and payroll data for your government's one pay period which included October 15, 1980.

Do NOT report ANNUAL payroll data.

Count each employee only once – in the activity where that person works the largest part of the time.

PAY PERIOD INTERVAL

Mark (X) appropriate box to indicate the pay period interval for which all or most of the employees are paid. Report for both full-and part-time employees.

FULL-TIME EMPLOYEES	PART-TIME EMPLOYEES
1 ☐ Monthly	1 ☐ Monthly
2 ☐ Twice a month	2 ☐ Twice a month
3 ☐ Every 2 weeks	3 ☐ Every 2 weeks
4 ☐ Weekly	4 ☐ Weekly
5 ☐ Other – *Specify*	5 ☐ Other – *Specify*

Part II – EXPENDITURE

Mark (X) appropriate box to indicate your government's fiscal year (12-month accounting period) and report data for this period only, even through a more recent one may be available.

☐ July 1979–June 1980
☐ June 1979–May 1980
☐ May 1979–April 1980
☐ April 1979–March 1980
☐ March 1979–Feb. 1980
☐ Feb. 1979–Jan. 1980
☐ Jan. 1979–Dec. 1979
☐ Dec. 1978–Nov. 1979
☐ Nov. 1978–Oct. 1979
☐ Oct. 1978–Sept. 1979
☐ Sept. 1978–Aug. 1979
☐ Aug. 1978–July 1979

	Number of employees (1)	Gross payroll amount (for the one pay period which included October 15, 1980) *(Omit cents)* (2)	Number of employees (3)	Gross payroll amount (for the one pay period which included October 15, 1980) *(Omit cents)* (4)	CURRENT OPERATION: Annual salaries and all current operating expenses. Exclude employer contributions for employee benefits and enter in column (11) (5)	CAPITAL OUTLAY: Annual expenditures for equipment, construction, and land — Equipment (6)	Construction (7)	Land (8)	INTERGOVERNMENTAL EXPENDITURE: Annual payments to cities, counties, and towns (9)	Annual payments to the State government (10)	GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS: FICA, PERS, insurance, workmen's comp., etc. Exclude employee contributions. (11)
1. POLICE PROTECTION – All police activities, including special police force units. Include also coroners and medical examiners. Exclude jails holding adults or juveniles beyond arraignment (usually more than 48 hours) and report under "Corrections." Exclude also school crossing guards. **a. Total personnel (lines b plus c)**		$		$	$	$	$	$	$	$	$
b. Sworn police personnel only (i.e., having general power to arrest)		$		$							
c. Non-sworn police personnel only (i.e., support personnel who do not have general arrest power)		$		$							
2. JUDICIAL – All civil and criminal courts and court-related activities. Include: Judges and staff (law clerks, court reporters, etc.) Clerk of Court and staff Other current operating expenditure (e.g., jury fees, law library, etc.) Exclude probation and parole and report under "Corrections."		$		$							
3. LEGAL SERVICES AND PROSECUTION Prosecuting attorneys' offices, legal departments, and all attorneys providing legal services for your government. Include: Prosecutor and staff Legal Advisor and staff Attorneys on retainer or fees All other legal expenses Include annual retainers and/or fees paid to private attorneys/law firms in column (5) only. Do not include as employees.		$		$							
4. PUBLIC DEFENSE – Public defenders' offices. Include fees paid to court-appointed counsel and contributions to private legal aid societies in column (5) only. Do not include court-appointed private attorneys as employees.		$		$							
5. CORRECTIONS **a. Total (lines b,c, and d)**		$		$							
b. Jails, prisons, reformatories, detention homes, halfway houses, and the like, holding adults or juveniles beyond arraignment (usually for more than 48 hours). Exclude institutions **solely** for dependent or neglected children.		$		$							
c. Probation and parole agencies and programs. Include probation and parole programs administered by the courts.		$		$							

d. Other corrections including nonresidential treatment programs for adults and juveniles. Include alcohol and narcotic addiction programs only if administered by the correctional authority.		$		$							
6. OTHER CRIMINAL JUSTICE – Other criminal justice activities (e.g., crime councils, criminal justice planning agencies) not reported above. *Please list each activity separately in the spaces provided below.*		$		$							

Part III – INTERGOVERNMENTAL REVENUE – *Enter all revenue received from other governments for civil and criminal justice activities during the fiscal year marked above.*

Item A – Direct revenue received from the Federal Government for the above activities

Enter only revenue received directly from the Federal Government. Do not enter amounts from the Federal Government received through the State or any of its departments or agencies.

1. General revenue used for criminal justice purposes	
a. General revenue sharing/Anti-recession aid (only that portion used for justice purposes)	$
b. CETA funds used for criminal justice purposes	$
c. TOTAL (add lines a and b)	$
2. Amounts received specifically for criminal justice purposes (i.e., "dedicated" revenues)	
a. LEAA discretionary grants	$
b. Reimbursements received from the Federal Government for criminal justice services rendered by your government, e.g., boarding of Federal prisoners	$
c. Other "dedicated" revenues used for criminal justice purposes (e.g., Alcohol Safety Act Program (ASAP) – *Specify*)	$
d. TOTAL (add lines a, b, and c)	$

Item B – Revenue received from the State government for the above activities

Enter amounts from the Federal Government received through the State or any of its departments or agencies and amounts received from State-funded programs; also include reimbursements by the State for justice services or activities provided by your government to the State by law or under contract.

1. LEAA block action and planning grants passed through the State government	$
2. Other Federal criminal justice revenue passed through the State government	$
3. State-funded criminal justice program grants	$
4. Reimbursements received from the State government for criminal justice services rendered by your government	$
5. Other justice grants – *Specify*	$
	$
	$
6. TOTAL →	$

Item C – Revenue received from other local governments for the above activities

Enter amounts from the Federal or State governments received through other local governments; and amounts received from other local governments as reimbursement for criminal justice services or activities provided by your government to other local governments by law or under contract. Do not report CETA funds here but only under item A,1b.

EXAMPLE: Payments received from another county, city, or town for police services rendered (such as patrol).

1. Reimbursements received from other local governments for justice services rendered by your government	$
2. Other – *Specify*	$
	$
	$
3. TOTAL →	$

OTHER CRIMINAL JUSTICE ACTIVITIES – *List activities included on line 6 above.*

DEFINITIONS FOR COMPLETING PARTS I AND II, COLUMNS (1) THROUGH (11)

▶ Part I – EMPLOYMENT AND PAYROLL

EMPLOYEES – All persons paid by your government for services performed, including all paid officials, salaried workers, other persons in paid leave status and persons employed by your government under emergency or supplemental programs, e.g., Comprehensive Employment and Training Act (CETA), anti-recession aid, etc. **Exclude** unpaid officials, persons on unpaid leave, pensioners, contractors and their employees, and persons paid entirely by another government for services performed for your government.

Full-time employees, column (1) – Persons employed on a full-time basis during the one pay period which included October 15, 1980. **Include** all full-time temporary or seasonal workers employed during this pay period.

Part-time employees, column (3) – Persons employed on a part-time basis during the one pay period which included October 15, 1980. Include here all persons working for your government who received part of their pay from another government (e.g., with supplemental check).

PAYROLL, columns (2) and (4) – Gross payroll before deductions, including salaries, wages, fees, or commissions earned during the one pay period which included October 15, 1980, by employees as defined above. If some employees are paid on a basis different from the predominant pay period, please include amounts for them on an adjusted basis.

▶ Part II – EXPENDITURE

CURRENT OPERATIONS, column (5) – Annual expenditure for salaries and wages of your government's officers and employees, including overtime, termination, and retroactive pay; and for the purchase of supplies, materials, and contractual services from individuals and firms in the private sector, e.g., attorney retainers or fees to court-appointed counsel, and any other current operating expenditure.

Exclude capital outlay and report in columns (6), (7), and (8) – Also exclude expenditures for debt retirement, securities investment, loan extensions, and within-government transactions. Exclude employer contributions for employee benefits and report in column (9).

CAPITAL OUTLAY, columns (6), (7), and (8) – Direct expenditure for contract or force account construction of buildings and other fixed improvements, and for the purchase of equipment, land, and existing structures.

INTERGOVERNMENTAL EXPENDITURE – All money paid to other governments as fiscal aid or payment for services rendered, or for contracts or compacts with another government (e.g., purchase of police services or care and boarding of prisoners in another government's jail). **Exclude** money paid to another government for the purchase of commodities, property or utility services, any taxes imposed and paid as such, and contributions for social insurance.

Payments to cities, counties, and towns, column (9) – **Exclude** payments to special purpose governments such as special districts or independent school districts.

Payments to the State government, column (10) – Payments of your government to the State government or any of its departments or agencies.

GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS, column (11) – Any employer contributions, readily separable by activity, to the Federal Social Security program, State and local retirement systems, commercial or mutual life insurance plans, workmen's compensation funds; and premiums paid by your government for health, hospital, disability, and other insurance programs. **Exclude** payments made directly to individuals and contributions made by employees to any of the above programs.

SURVEY OF EXPENDITURE AND EMPLOYMENT FOR CIVIL AND CRIMINAL JUSTICE ACTIVITIES OF LOCAL GOVERNMENTS
(FEE-SUPPORTED OFFICES)

IMPORTANT – PLEASE READ

Please read the definitions on page 2 and the enclosed supplemental instructions before completing the questionnaire.

If you would like to receive a free copy of the current report, **Expenditure and Employment Data for the Criminal Justice System 1977**, or if you wish to order other LEAA reports, complete and return the enclosed mailer, which requires no postage.

In correspondence pertaining to this report, please refer to the identification number above your address

RETURN TO: Bureau of the Census
1201 East Tenth Street
Jeffersonville, Indiana 47132

(Please correct any error in name and address including ZIP code)

FROM THE DIRECTOR
BUREAU OF THE CENSUS

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for various criminal justice activities. Since the fee-supported offices of Sheriff and Clerk of Court are included as part of the civil and criminal justice system, we will appreciate your cooperation in again providing information for three of these activities as they apply to your office: police protection, judicial, and corrections.

The data collected in this survey are used by the Law Enforcement Assistance Administration in implementing and administering the formula grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System.**

If your office has converted from a fee-supported to a county or State-supported office, please follow the instructions at the top of page 2 of this questionnaire.

If there are any items on this questionnaire for which the answer cannot be obtained from available records, reasonable estimates are requested. Please indicate such estimates with an asterisk (*). The duplicate copy of this questionnaire is for your files. The addressed copy should be returned, preferably within 3 weeks, in the enclosed preaddressed envelope. If you have any problems in completing this questionnaire, please call collect for assistance on (301) 763–7825 or (301) 763–2843.

This report is authorized by the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 USC 3701). While you are not legally required to respond, your participation is needed to make the results of this survey comprehensive, accurate, and timely.

Sincerely,

Vincent P. Barabba

DEFINITIONS FOR COMPLETING PARTS I and II, COLUMNS (1) THROUGH (9)

▶Part I – EMPLOYMENT AND PAYROLL

- **EMPLOYEES**—All persons paid by your government for personal services performed, including all paid officials, salaried workers, other persons in paid leave status and persons employed by your government under emergency or supplemental programs, e.g., Comprehensive Expenditure and Training Act (CETA), anti-recession aid, etc. **Exclude** unpaid officials, persons on unpaid leave, pensioners, contractors and their employees, and persons paid entirely by another government for services performed for your government.

  Full-time employees, column (1) – Persons employed on a full-time basis during the one pay period which included October 15, 1979. Include all full-time temporary or seasonal workers employed during this pay period.

  Part-time employees, column (3) – Persons employed on a part-time basis during the one pay period which included October 15, 1979. Include here all persons working for your government who received part of their pay from another government (e.g., with supplemental check).

- **PAYROLL, columns (2) and (4)** – Gross payroll before deductions, including salaries, wages, fees, or commissions earned during the one pay period which included October 15, 1979, by employees as defined above. If some employees are paid on a basis different from the predominant pay period, please include amounts for them on an adjusted basis.

▶Part II – EXPENDITURE

- **CURRENT OPERATIONS, column (5)** – Annual expenditure for salaries and wages of your government's officers and employees, including overtime, termination, and retroactive pay; and for the purchase of supplies, materials, and contractual services from individuals and firms in the private sector, e.g., attorney retainers or fees to court-appointed counsel and any other current operating expenditure.

▶Part II – EXPENDITURE – Continued

EXCLUDE capital outlay and report in column (6). Also exclude expenditures for debt retirement, securities investment, loan extensions, and within-government transactions. **Exclude** employer contributions for employee benefits and report in column (9).

- **CAPITAL OUTLAY, column (6)** – Direct expenditure for contract or force account construction of buildings and other fixed improvements, and for the purchase of equipment, land, and existing structures.

- **INTERGOVERNMENTAL EXPENDITURE** – All money paid to other governments as fiscal aid or payment for services rendered, or for contracts or compacts with another government (e.g., purchase of police services or care and boarding of prisoners, in another government's jail). **Exclude** money paid to another government for the purchase of commodities, property or utility services, any taxes imposed and paid as such, and contributions for social insurance.

  Payments to counties, cities, and towns, column (7) – Payments of your government to other counties, cities, or towns. **Exclude** payments to special purpose governments such as special districts or independent school districts.

  Payments to the State government, column (8) – Payments of your government to the State government or any of its departments or agencies.

- **GOVERNMENT CONDITIONS FOR EMPLOYEE BENEFITS, COLUMN (9)** – Any employer contributions, **readily separable by activity**, to the Federal Social Security program, State and local retirement systems, commercial or mutual life insurance plans, workmen's compensation funds; and premiums paid by your government for health, hospital, disability, and other insurance programs. **Exclude** payments made directly to individuals and contributions made by **employees** to any of the above programs.

Important Before completing parts I through III below, please complete the following question. Regardless of your answer to this question please complete the rest of the questionnaire.

Is your office a fee-supported office now? That is, is it financed and staffed in whole or in part by fees collected and retained?
☐ Yes – *Answer a*
☐ No – *Answer b*
☐ Never was a fee office

a. Will your office convert from a fee-supported to a county or State-supported office on or before June 30, 1980? ☐ Yes → *Enter date* ☐ No

b. When did your office convert from a fee-supported to a county or State-supported office? *Enter date*

CIVIL AND CRIMINAL JUSTICE ACTIVITIES

(Please review activities below and refer to supplemental instructions prior to completing this questionnaire)

Part I – EMPLOYMENT AND PAYROLL

Enter employment and payroll data for your government's one pay period which included October 15, 1979.

Do NOT report ANNUAL payroll data.

Count each employee only once – in the activity where that person works the largest part of the time.

PAY PERIOD INTERVAL

Mark one box to indicate the pay period interval for which all or most of the employees are paid. Report for both full- and part-time employees

FULL-TIME EMPLOYEES	PART-TIME EMPLOYEES
1 ☐ Monthly	1 ☐ Monthly
2 ☐ Twice a month	2 ☐ Twice a month
3 ☐ Every 2 weeks	3 ☐ Every 2 weeks
4 ☐ Weekly	4 ☐ Weekly
5 ☐ Other – *Specify*	5 ☐ Other – *Specify*

Part II – EXPENDITURE

Mark (X) appropriate box to indicate your government's fiscal year (12-month accounting period) and report data for this period only, even though a more recent one may be available.

☐ July 1978–June 1979 ☐ Jan. 1978–Dec. 1978
☐ June 1978–May 1979 ☐ Dec. 1977–Nov. 1978

☐ April 1978–March 1979 ☐ Oct. 1977–Sept. 1978
☐ March 1978–Feb. 1979 ☐ Sept. 1977–Aug. 1978
☐ Feb. 1978–Jan. 1979 ☐ Aug. 1977–July 1978

	Part I – EMPLOYMENT AND PAYROLL				Part II – EXPENDITURE				
	Full-time employees		Part-time employees		CURRENT OPERATION	CAPITAL OUTLAY	INTERGOVERNMENTAL EXPENDITURE		GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS
	Number of full-time employees (1)	Gross payroll amount (for the one pay period which included October 15, 1979) *(Omit cents)* (2)	Number of part-time employees (3)	Gross payroll amount (for the one pay period which included October 15, 1979) *(Omit cents)* (4)	Annual salaries and all current operating expenses. Exclude employer contributions for employee benefits and enter in column (9). (5)	Annual expenditures for construction, equipment, and land (6)	Annual payments to cities, counties, and towns (7)	Annual payments to the State government (8)	FICA, PERS, insurance, workmen's comp., etc. Exclude employee contributions. (9)
1. **POLICE PROTECTION** – All police activities, including special police force units. Include also coroners and medical examiners. Exclude jails holding adults or juveniles beyond arraignment (usually more than 48 hours) and report under "Corrections." Exclude also school crossing guards. a. Total personnel (lines b plus c)		$		$	$	$	$	$	$
b. Sworn police personnel only (i.e., having general power to arrest)		$		$					
c. Non-sworn police personnel only (i.e., support personnel who do not have general arrest power)		$		$					

2. JUDICIAL — All civil and criminal courts and court-related activities. Include: Judges and staff (law clerks, court reporters, etc.) Clerk of Court and staff Other current operating expenditure (e.g., jury fees, law library, etc.) Exclude probation and parole and report under "Corrections."		$		$						
3. CORRECTIONS a. Total (lines b, c, and d)		$		$						
b. Jails, prisons, reformatories, detention homes, halfway houses, and the like, holding adults or juveniles beyond arraignment (usually for more than 48 hours). Exclude institutions solely for dependent or neglected children.		$		$						
c. Probation and parole agencies and programs. Include probation and parole programs administered by the courts.		$		$						
d. Other corrections including nonresidential treatment programs for adults and juveniles. Include alcohol and narcotic addiction programs only if administered by the correctional authority.		$		$						

Part III — INTERGOVERNMENTAL REVENUE — *Enter all revenue received from other governments for criminal justice activities during the fiscal year marked above.*

Item A — Direct revenue received from the Federal Government for the above activities

Enter only revenue received directly from the Federal Government. For example: that portion of General Revenue sharing used for criminal justice purposes, not the entire entitlement(s). Also include payments for CETA, boarding and feeding of Federal prisoners, Alcohol Safety Action Programs, etc. Do not enter amounts from the Federal Government received through the State or any of its departments or agencies.

1. General revenue used for criminal justice purposes	
a. General revenue sharing 'Anti-recession aid (only that portion used for criminal justice purposes)	$
b. CETA funds used for criminal justice purposes	$
c. TOTAL (add lines a and b) →	$
2. Amounts received specifically for criminal justice purposes (i.e., "dedicated" revenues)	
a. LEAA discretionary grants	$
b. Reimbursements received from the Federal Government for criminal justice services rendered by your government, e.g., boarding of Federal prisoners	$
c. Other "dedicated" revenues used for criminal justice purposes (e.g., Alcohol Safety Act Program (ASAP) — *Specify*)	$
d. TOTAL (add lines a, b, and c) →	$

Item B — Revenue received from the State government for the above activities

Enter amounts from the Federal Government received through the State or any of its departments or agencies and amounts received from State-funded programs; also include reimbursements by the State for criminal justice services or activities provided by your government to the State by law or under contract.

1. LEAA block action and planning grants passed through the State government	$
2. Other Federal criminal justice revenue passed through the State government	$
3. State-funded criminal justice program grants	$
4. Reimbursements received from the State government for criminal justice services rendered by your government	$
5. Other criminal justice grants — *Specify*	$
	$
6. TOTAL →	$

Item C — Revenue received from other local governments for the above activities

Enter amounts from the Federal or State governments received through other local governments; and amounts received from other local governments as reimbursement for criminal justice services or activities provided by your government to other local governments by law or under contract. Do not report CETA funds here but only under item A, 1b.

EXAMPLE: Payments received from another county, city, or town for police services rendered (such as patrol).

1. Reimbursements received from other local governments for criminal justice services rendered by your government	$
2. Other — *Specify*	$
	$

BUREAU OF THE CENSUS

SURVEY OF EXPENDITURE AND EMPLOYMENT FOR SELECTED SPECIAL POLICE FORCES

In correspondence pertaining to this report, please refer to the identification number above your address

(Please correct any error in name and address including ZIP code)

FROM THE DIRECTOR
BUREAU OF THE CENSUS

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects expenditure and employment data for selected special police forces serving colleges, universities, independent school districts, and special districts. Your cooperation in completing this year's questionnaire will be appreciated.

The data collected in this survey are used by the Law Enforcement Assistance Administration in implementing and administering the formula grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System.**

If there are any items on this questionnaire for which the answer cannot be obtained from available records, reasonable estimates are requested. Please indicate such estimates with an asterisk (*). The duplicate copy of this questionnaire is for your files. The addressed copy should be returned preferably within 3 weeks, in the enclosed preaddressed envelope. If you have any problems in completing this questionnaire, please call collect for assistance on (301) 763—7825 or (301) 763—2843.

This report is authorized by the Omnibus Crime Control and Safe Streets Act of 1968 as amended (42 USC 3701). While you are not required to respond, your participation is needed to make the results of this survey comprehensive, accurate, and timely.

Sincerely,

Vincent P. Barabba

VINCENT P. BARABBA

Enclosures

Part I – SPECIAL POLICE FORCE

Does your unit (as described in the address box on the front of the questionnaire) employ directly and/or by contract a special police force? A special police force is defined as a group of law enforcement officers with general arrest powers, regardless of geographical jurisdiction, other than regular police agencies. Such forces usually service a special area or jurisdiction; e.g., campus police, park police, transit police, harbor police, airport police. Although a special police force may cooperate with the regular local police force, it is administratively independent.

☐ Yes – *Please complete the questions below*

If applicable, enter here the name of the firm or police agency with whom you contract for police services .....

☐ No → *Please disregard the remainder of this questionnaire and return in preaddressed envelope*

Important

- *If you contract exclusively for police services and have no officers employed directly by your unit, fill out only parts III and IV below.*
- *If you employ sworn police officers directly, fill out parts II, III, and IV below.*
- *If you contract for police services from sworn police officers and also employ sworn police officers directly, fill out parts II, III, and IV. However, do not report payroll for employees under an outside contract; instead, report only the annual expenditure for contractual services under either current operations (if the contract is with a private agency) or under intergovernmental expenditure (if payment for police services is made to another government).*

DEFINITIONS FOR COMPLETING PARTS II AND III, COLUMN (1) THROUGH (9)

▶ Part II – EMPLOYMENT AND PAYROLL

- **EMPLOYEES** – All persons in your special police force unit (officers and other employees) paid for personal services performed, including all paid officials, salaried workers, and other persons in paid leave status. **Exclude** unpaid officials, persons on unpaid leave, pensioners, contractors and their employees; and persons paid entirely by another government for services performed for your unit.

  Full-time employees, column (1) – Persons employed on a full-time basis during the one pay period which included October 15, 1979. Include all full-time temporary or seasonal workers employed during this pay period.

  Part-time employees, column (3) – Persons employed on a part-time basis during the one pay period which included October 15, 1979.

- **PAYROLL, columns (2) and (4)** – Gross payroll before deductions including salaries, wages, fees, or commissions earned during the one pay period which included October 15, 1979, by employees as defined above. If some employees are paid on a basis different from the predominant pay period, please include amounts for them on an adjusted basis.

▶ Part III – EXPENDITURE

- **CURRENT OPERATIONS, column (5)** – Annual expenditures for salaries and wages of your unit's officers and employees including overtime, termination, and retroactive pay; and for the purchase of supplies, materials, and contractual services from individuals and firms in the private sector. **Exclude** all capital outlay and report in column (6). Also exclude expenditures for debt retirement, securities investment, loan extensions, and within-government transactions. **Exclude** employer contributions for employee benefits and report in column (9).

▶ Part III – EXPENDITURE – Continued

- **CAPITAL OUTLAY, column (6)** – Direct expenditure for contract or force account construction of buildings and other fixed improvements, and for the purchase of equipment, land, and existing structures.

- **INTERGOVERNMENTAL EXPENDITURE** – All money paid to other governments as fiscal aid, or payment for services rendered, or for contracts or compacts with another government (e.g., purchase of police services). **Exclude** money paid to another government for the purchase of commodities, property or utility services, any taxes imposed and paid as such, and contributions for social insurance.

  Payments to counties, cities, and towns, column (7) – Payments to a county, city, town, or any of their departments or agencies.

  Payments to State government, column (8) – Payments to the State government or any of its departments or agencies.

- **CONTRIBUTIONS FOR EMPLOYEE BENEFITS, column (9)** – Any employer contributions, readily separable for your unit, to the Federal Social Security program, State and local retirement systems, commercial or mutual life insurance plans, workmen's compensation funds; and premiums paid for health, hospital, disability, and other insurance programs. **Exclude** payments made directly to individuals and contributions made by employees to any of the above programs.

FROM THE DIRECTOR
BUREAU OF THE CENSUS

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for civil and criminal justice activities from agencies of the Federal Government and from State and local governments. Your cooperation in completing this year's questionnaire on the reverse side of this form will be appreciated. The information you enter should be only for the bureau, agency, or office in the address block above.

The data collected in this voluntary survey are used by the Law Enforcement Assistance Administration in implementing and administering the provisions of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. Federal data are used particularly for intergovernmental comparisons and to meet the needs of criminal justice planners at all levels of government. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System.**

It would be most helpful if we could receive your reply within 3 weeks. A preaddressed envelope is enclosed for your convenience. If you have any problems in filling out the questionnaire on the reverse side of this form please call for assistance on 763–7825 or 763–2843.

Sincerely,

VINCENT P. BARABBA
