INTRODUCTION

This report contains key statistics on the workload of Federal judges during the years ended June 30, 1977 through 1982. Information is compiled from reports submitted to the Administrative Office of the U.S. Courts by the clerks of the U.S. courts.

The data selected and the general format of this report are approved by the Subcommittee on Judicial Statistics. The data also provides the basis for the Biennial Judgeship Survey conducted by the Subcommittee of the Judicial Conference Committee on Court Administration.

Because cases in the courts of appeals are generally handled by panels of three judges, workload figures in these courts are shown per panel. District court workload statistics are divided by the number of authorized judgeship positions in each court to provide the workload per judgeship. The per panel and per judgeship figures virtually eliminate the influence of court size and allow comparison between courts of different sizes.

The national profile for the courts of appeals is the foldout on page 15. The national caseload totals and averages for the district courts are displayed on the last page of this report. Use caution when comparing these national averages to the averages for a particular court, since unique circumstances not reflected in the statistical profile could cause a court to vary substantially from the national average. Examples of some unique circumstances are long-term judgeship vacancies, an unusual case in progress requiring the full-time service of one judge, a relatively high number of senior judges augmenting regular judgeship strength, and administrative burdens of chief judges in the large metropolitan courts.

The two following pages provide detailed explanations on the data contained in the statistical profiles for the appeals and district courts. Pages 15 and 131 present a more complete explanation of specific judicial workload statistics. Refer to these pages before using the statistics in this report.

WHAT THE DISTRICT'S NUMERICAL STANDINGS MEAN

These show where an individual district court stands in relation to other district courts in the circuit and in the country. All "workload" statistics are ranked in descending order (highest value receives rank of 1) and all other statistics are ranked in ascending order (lowest value is ranked first). In some categories fewer than 95 courts are ranked because the information was not available for all districts.

¹ A case participation by an individual judge is defined as an appeal in which the judge hears oral argument or where the appeal is submitted on briefs. Thus, where a single appeal is heard before a panel of three judges, the number of participations would be three.

² Effective October 1, 1981, the Fifth Circuit was divided to include only districts in Louisiana, Mississippi, Texas, and the Canal Zone (which closed on March 31, 1982). The new Eleventh Circuit includes districts in Alabama, Florida, and Georgia.

ACTIONS PER PANEL

The workload statistics for the courts of appeals are presented as "actions per panel" as compared to the "actions per judgeship" profile used for the district courts. This type of profile provides a more accurate indication of the workload of an individual judge since appeals cases are generally handled by a panel of three judges rather than a single judge.

TERMINATIONS AFTER HEARING OR SUBMISSION

Cases reported terminated after oral hearing or submission on briefs meet the following criteria:

1. filing of the complete record,
2. filing of brief under Rule 28, Federal Rules of Appellate Procedure,
3. a reported date of either an oral hearing or submission, and
4. reported date of termination.

Any record which does not meet all four of these requirements is included in the group of cases terminated "without hearing or submission."

ESTABLISHMENT OF THE ELEVENTH CIRCUIT

With the passage of the Fifth Circuit Court of Appeals Reorganization Act of 1980 (Public Law 96-452, effective October 1, 1981), the Fifth Circuit was reorganized into two circuits - the new Fifth Circuit and the Eleventh Circuit. The Fifth Circuit is now composed of the districts in Louisiana, Mississippi, Texas, and the Canal Zone (this district court officially closed on March 31, 1982, pursuant to the Panama Canal Act of 1979, P.L. 96-70, signed September 27, 1979). The Eleventh Circuit is composed of the districts in the states of Alabama, Florida, and Georgia. On October 1, 1981, the Court of Appeals for the Eleventh Circuit, located in Atlanta, Georgia, officially began operations, handling a workload of administrative appeals and appeals of U.S. court decisions from the states within its jurisdictional boundaries.

In this report, statistics on the caseload of the U.S. courts of appeals reflect this reorganization as though it were in effect for the entire twelve month period ended June 30, 1982. Only civil and criminal appeals, however, are directly comparable to figures for earlier years. Because original proceedings and administrative agency appeals could not be readily differentiated according to origin prior to July 1, 1980, revision of the historical data on these matters has been approximated based on information provided by the circuits and other available material.
