PREFACE

The Alabama Criminal Justice Information Center has developed an incident-based crime reporting system which utilizes comparable data elements of the Uniform Crime Report (UCR) Summaries. These incident-based reports were designed to serve a twofold purpose: to provide data to ACJIC to generate UCR; and, to develop an internal record keeping system for the individual agency.

The Tuskegee Police Department is scheduled to begin submitting incident-based crime reports to ACJIC in July for UCR purposes. However, they began utilizing these forms in 1977 to organize the department's record keeping system.

Chief Herbert Sears of Tuskegee requested an analysis on these incident-based crime reports for the period January through April, 1979. A breakdown of types of crimes by location, day of the week, and time of day was requested.

This report is intended to provide pertinent information to Chief Sears about Tuskegee's criminal activity as well as illustrating the potential benefits available to other law enforcement agencies utilizing the incident-based crime reporting forms.

INTRODUCTION

Tuskegee is a city of approximately 12,470* persons. It is centrally located in Macon County and contains 46% of the county's population.

Tuskegee is divided into five (5) patrol districts and this report will use these five districts as a means of pinpointing criminal activity by type of offense, time of day, and day of week.

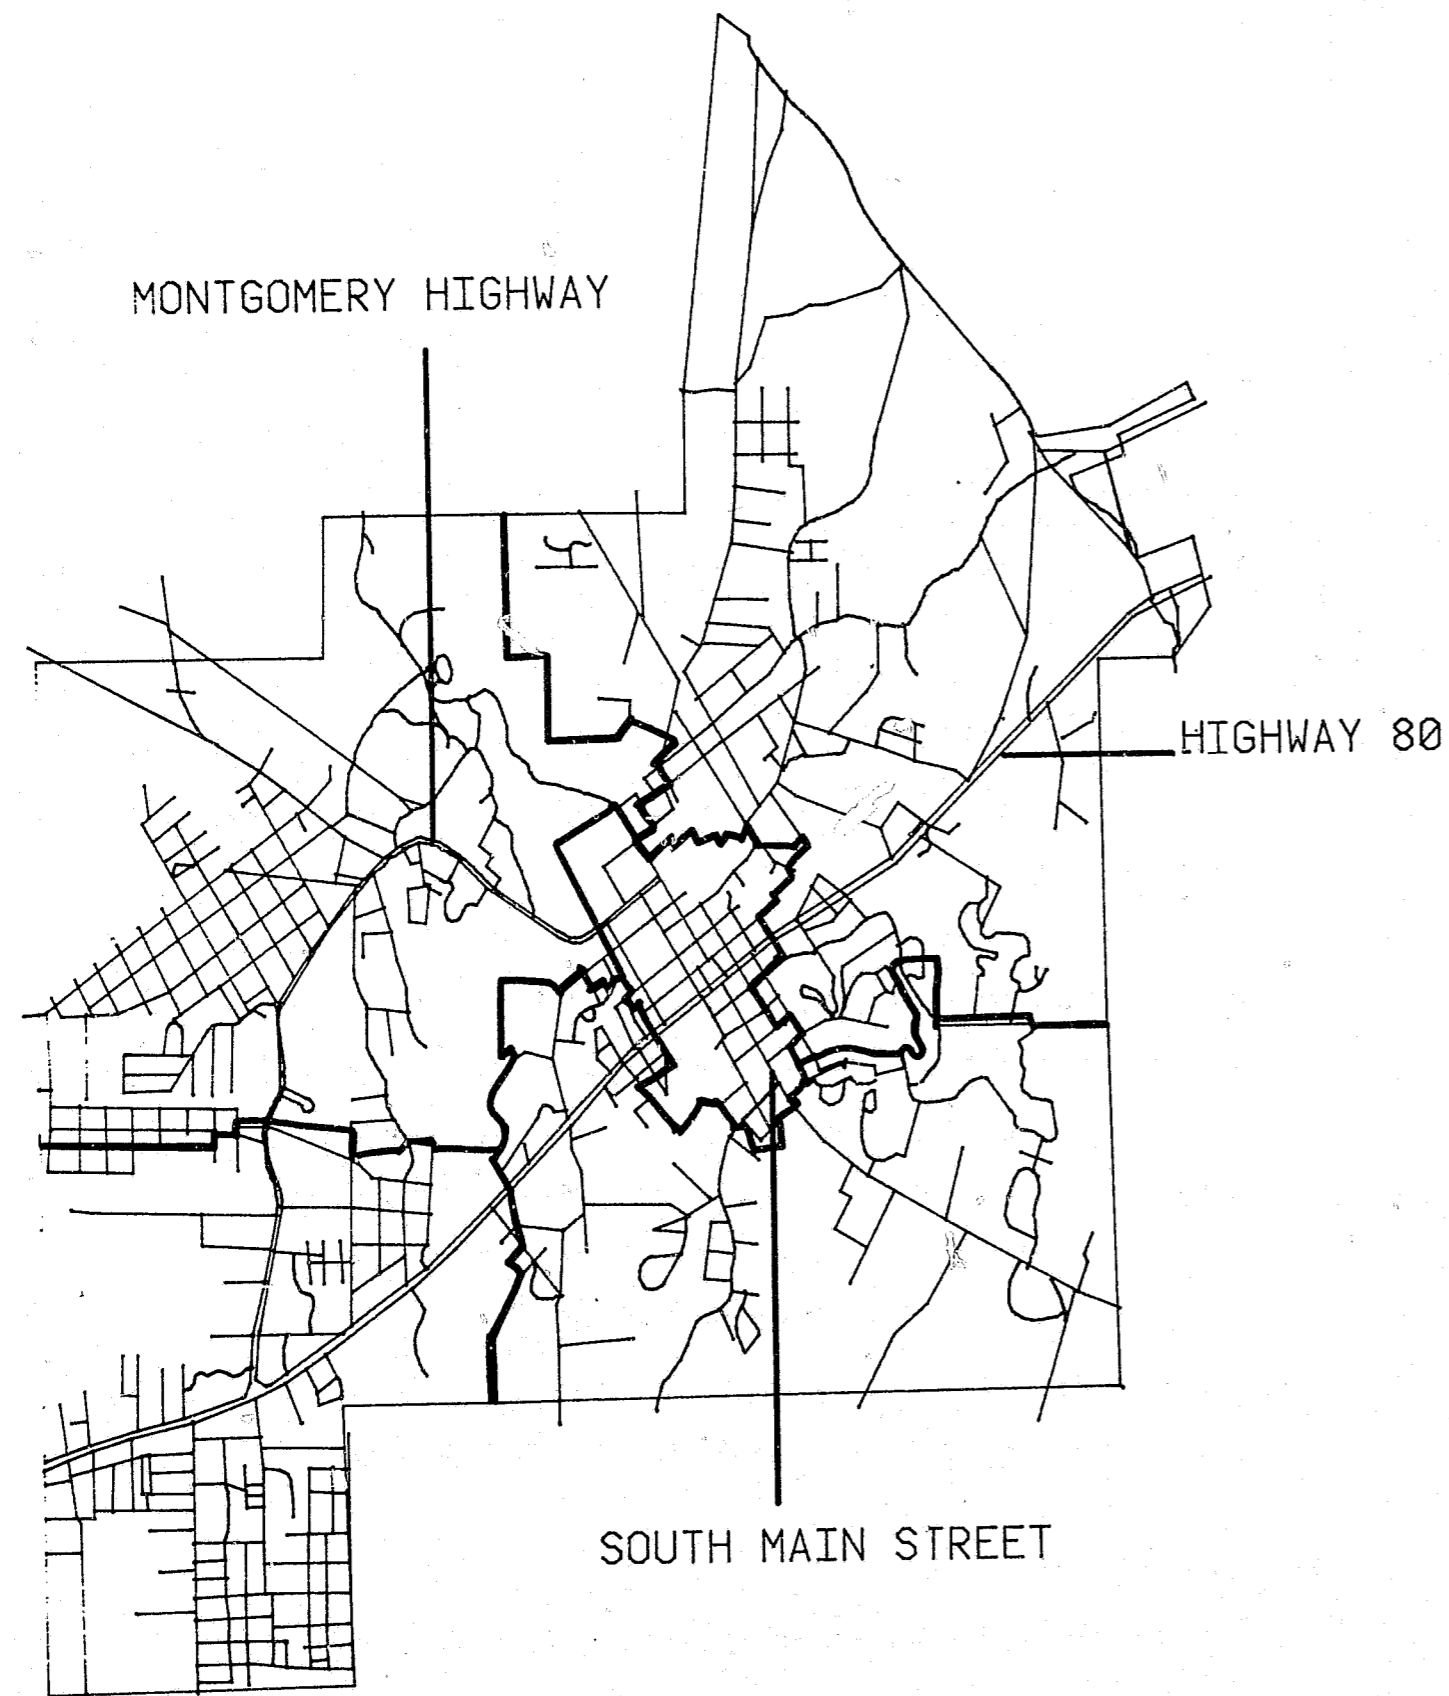

Procedures used in the development of this report include entering the crime data into the system and writing statistical software which correlates the crime variables with each other. These statistical breakdowns are the basis for this report.

This report will include a written narrative, tables and figures as a means of explaining data. All incidents reported to the Tuskegee Police Department are used in this report.

A map of the City of Tuskegee is included in this report. The boundaries of the patrol districts are outlined over the city map. Due to the size of the map, street names are not included but three main highways are labeled for reference points. Also included is a layout of the patrol districts for Tuskegee.

This report covers the period January through April, 1979.

* FBI population estimates as of January 23, 1979.
