JUNE, 1981

PREFACE

I am pleased to present the Pennsylvania Bureau of Correction's 1980 Annual Statistical Report for Pennsylvania County Prisons and Jails. This report provides pertinent information regarding the Commonwealth's county prison population and, therefore, represents an important document for county wardens, sheriffs, president judges, commissioners and various other officials.

The importance of maintaining a statistical program which documents the Commonwealth's prison population is especially evident in light of recent overcrowding conditions found within many of our county prisons. Of particular interest is that the year-end population increased 14.3%, from 6,608 in 1979 to 7,553 in 1980. As of April 30th this figure had increased to 8,467. It is my hope that decision-makers at the county level will recognize the need to expand housing and services as a result of the rising population.

Since 1980 was a decennial census year, several tables display 1970 statistics so a ten year comparison may be made.

Respectfully submitted,

Ronald J. Marks
Ronald J. Marks
Commissioner

		Footnotes	40

INTRODUCTION

The Commonwealth's county prison system is just as diverse as the political and cultural make-up of the counties themselves. However, one characteristic binds them together-the recent increase in the county prison population. This report will enable the reader to comprehend the increasing demands placed upon these county facilities, especially when they are reviewed with regard to age, of the facility housing capacity, etc.

History of the Report

Statewide collection of county correctional statistics has been in operation since February 27, 1847 when the program was made statutory by the Pennsylvania legislature. The program operated under the jurisdiction of the Department of State until 1872 when it was transferred to the Board of Public Charities (now known as the Department of Public Welfare). The program was again transferred in 1956 when it was placed under the Department of Justice's Bureau of Correction. The program remained there until 1968 when it was moved to the Pennsylvania Commission on Crime and Delinquency (then known as the Governor's Justice Commission, then under the Department of Justice). The county correctional statistics program made its last move in 1976 when it was transferred back to the supervision of the Bureau of Correction, where it has been since that time.

Purpose

The purpose of this annual statistical report is to provide summary data on county prison inmate populations, inmate population movements, as well as providing population trends for the county prisons and jails.

Explanatory Notes

Class of county - This term defines the legislative decennial classification as it relates to the size of the county population. The county class and corresponding population ranges are as follows:

1. First class (more than 1,800,000 inhabitants);
2. Second class (800,000 to 1,800,000);
3. Second class A (500,000 to 800,000);
4. Third class (250,000 to 500,000);
5. Fourth class (150,000 to 250,000);
6. Fifth class (95,000 to 150,000);
7. Sixth class (45,000 to 95,000);
8. Seventh class (20,000 to 45,000); and
9. Eighth class (less than 20,000 inhabitants).

Conditional releases - This term identifies those prison parolees who are released under the supervision of the Pennsylvania Board of Probation and Parole (PBPP) or who are paroled directly by the Court of Record (often referred to as "county parole"). Unless specified, these two groups will be combined in this report.

Unconditional releases - This term identifies those sentenced county prisoners who were given a final discharge and are no longer under any type of supervision after their release from county prison. Unconditional releases include the following: (1) expiration of maximum sentence, (2) by court order, (3) by minor judiciary order, (4) by maximum commutation (including good time), and (5) by payment of fines and costs.

County prisons and jails - Generally, first through fifth class counties have "prisons" and sixth through eighth class counties have "jails", though local terminology may vary (e.g., Allegheny County Jail). Generally, the county prisons are administered by a prison board and an appointed warden; county jails are usually administered by an elected sheriff. In recent years the county prisons and jails have primarily received only the short-term sentenced prisoners and pre-trial detentioners. In this report the term "prisons" shall refer to both prisons and jails.

Court sentencees - This term identifies those county prisoners committed by a Court of Record to serve sentences for felony and misdemeanor offenses. It has been the practice in recent years not to sentence convicted felons to county prisons; these prisoners are generally sentenced to a state regional correctional facility or a state correctional institution operated by the Bureau of Correction.

Detentioners received - This term identifies those individuals detained prior to trial as well as other prisoners not sentenced directly to the local prisons or jails where they are contained. Detentioners include those individuals who were: (1) held for trial, further hearing, or as a material witness, (2) held for various federal, state or other police authorities, (3) held for juvenile court, and (4) held for mental examination or observation.

Detentioners released - This term identifies those individuals released by the following methods: (1) bail, (2) prison sentence, (3) sentenced to the Bureau of Correction, (4) by holding authority (i.e., court, minor judiciary, coroner, etc.), (5) released by various federal, state or other police authorities, (7) juvenile court wards, and (8) mental patients either transferred or released.

Minor judiciary sentences - This term identifies those individuals who receive sentences by the minor judiciary (district magistrates, justices, etc.) for county prison commitment. (Note: The municipal court in Philadelphia County handles this type of case.)

Crime Index Offense (formerly Part I Offenses) - This crime category is contained within the Uniform Crime Reporting Program of the FBI, these crimes are used to measure the distribution and trends in criminal activity. Specifically, the crimes consist of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft and auto theft.

Part II offenses - These crimes are all other crimes not listed under Part I offenses, and are too numerous to list.

Rate per 100,000 civilian population - This ratio represents the relativity of increasing or decreasing prison populations with respect to the civilian population of the county.

Yearly average daily population - This term represents the cumulative daily inmate population count as of midnight, divided by the number of days in the calendar year.

Standard Metropolitan Statistical Area (SMSA) - A county or group of contiguous counties which contains at least one city of 50,000 inhabitants or more, or "turn cities" with a combined population of at least 50,000. In addition to the county or counties containing such a city or cities, contiguous counties are included in an SMSA if, according to certain criteria, they are essentially metropolitan in character and are socially and economically integrated with the central city.

Source of Information

Information found in this report is based entirely upon the monthly population statistical reports submitted by the county prisons to the Bureau's Records and Statistics Section, organized under the Finance, Planning and Research Division. The data is then keypunched and programmed by the division's Data Processing Section.

Comment

Due to various edit routines written into the county prison statistics computer program, totals shown in tables 8 through 15, 24, 26 through 29, and 32 may not equal to corresponding totals in tables produced from routine monthly and quarterly reports which are summarized manually into annual totals. Punched data cards submitted by the Philadelphia County Prison System will not correspond to manual totals compiled from their routine monthly and quarterly reports. During EDP processing, invalid data is not acceptable and must be corrected. If these data are not corrected, they are not included in the data produced by EDP processing.

SELECTIVE NARRATIVE SUMMARY

Population Trends

For the third consecutive year both the yearly average daily population and the December 31st county prison population displayed an increase. The yearly average daily population increased by 11.6 percent, from 6,714 during 1979 to 7,493 in 1980. The county prison population for December 31, 1980 was 7,553, a 14.3 percent increase from last year's total of 6,608.

Characteristics of County Prison Population Confined on December 31, 1980

Whites accounted for 52.8 percent (N=3,989) of the prisoners confined on December 31, 1980. Only four county prison systems (Allegheny, Dauphin, Delaware and Philadelphia) confined a majority of non-white prisoners on that date, with Philadelphia County Prisons leading the list as 81.8 percent (N=2,079) of their prison population being non-white.

Female prisoners accounted for 3.7 percent (N=281) of the Commonwealth's county prison population on this date. Although the number of females confined on December 31st increased 14.3 percent, the ratio of male to female prisoners remained the same from that of last year.

Admissions

Each major type of admission increased in 1980. Court commitments increased by 1 percent (N=86) to 6,255; minor judiciary commitments increased by 4 percent (N=185) to 4,642, and the number of adult detentioners increased by 9 percent (N=4,971) to 60,816.

Age Distribution of Sentenced Prisoners

Over 51 percent (N=5,520) of the 10,706 prisoners sentenced to county prisons during 1980 were 24 years of age or younger. The average age was 28 years.

The Largest County Prisons During 1980

Fourteen counties had a yearly average daily population exceeding 100 inmates, which in turn accounted for 75.7 percent (N=5,674) of the Commonwealth's total yearly average daily population. Philadelphia County's Holmesburg Prison had the highest yearly average daily population with 889 prisoners.

Average Time Served for Sentenced Prisoners Released

The average time served for those sentenced prisoners who were released during 1980 was 99 days. For those 5,501 prisoners who received unconditional releases, the average days served was 41; for those 4,729 prisoners receiving conditional releases the average days served amounted to 168.

Ratio of Prisoners Per 100,000 Civilian Population

Philadelphia County had the highest ratio of prisoners confined per 100,000 civilian population (150/100,000) with Montour County trailing closely behind with a ratio of 120/100,000. Lebanon County was third with a ratio of 111/100,000 and Dauphin County fourth with a 110/100,000 ratio.

The increase for Montour, Lebanon and Dauphin counties was particularly significant during the ten year period from 1970 to 1980.

FOOTNOTES

- Not calculated for base populations under 25.
- Less than one average prisoner.
- Snyder County Jail was closed on May 31, 1979 due to repairs.
(The average for the actual operating days was five prisoners per day.)
- Closed.
- These data are not included in this table due to reporting problems with Snyder County Jail during 1980.
- Forest County Jail is functioning only as a 48 hour holding facility; therefore, they cannot receive sentenced prisoners, and are transferred instead to Warren County.
- Work release facilities at other locations: Chester-24; Lycoming-28.
 - Held for trial, further hearing, or as a material witness.
 - Held for various federal, state, or local police authorities.
