PREFACE

The information in this publication was compiled by the Research and Reporting Unit, Division of Program Development and Evaluation. The report was prepared by Zona G. Jackson, Statistician. Typesetting and graphics were done by Sharon S. O'Keefe, Graphic Artist. Coordination and review were done by Helen S. Hinshaw, Reporting Supervisor. The data concerning court service units were supplied by the information system administered by the Evaluation and Monitoring Unit of the Division of Program Development and Evaluation.

The responses to a survey of the 1980 annual report entitled Adults and Children Under Community Supervision indicated the desirability of dividing the adult and juvenile data into two separate annuals. Thus, this fiscal year 1982 report entitled Children Under Community Supervision is the second of such annual reports. Individuals interested in adult data should request a copy of the fiscal year 1982 Adults Under Community Supervision. Copies of annual reports containing both juvenile and adult data are available for fiscal years 1978

All questions, remarks or requests concerning this publication should be addressed to:

EXPLANATION OF WORKLOAD STATISTICS

The data in this statistical report reflect the workload of the Juvenile Court Service Units. The workload of these Units not only includes the caseload of persons under supervision but also measures the other services delivered by the Units to their clients.

It is not appropriate to draw comparisons between the individual districts within the juvenile systems. The services provided by the Court Service Units are impacted by the needs of their locality. The workload cannot be considered comparable between the localities because of the divergent demands of the individual communities. The variation in workload is affected by the level and type of requests received from the court, the geography and size of the district, and by the levels of supervision required by the individual clients.

__ 1 __

- T

As of June 30, 1982 there were 36 Juvenile Court Service Units within 32 Juvenile and Domestic Relations Judicial Districts. Of the 36 Court Service Units, 28 are state operated and 8 are locally operated. The locally operated Court Service Units are:

Danville, Arlington, Alexandria, Fairfax County, Falls Church, Loudoun, Henrico, and Virginia Beach.

- a) In District 23 there are 2 state operated Court Service Units, Roanoke City and Roanoke County/Salem.
- b) In District 22 there are 2 Court Service Units; one is locally operated (Danville) and the other (Pittsylvania/Franklin) is state operated.
- c) In District 19 there are 2 locally operated Court Service Units, Fairfax County and Falls Church.
- d) In District 20 there are 2 Court Service Units; one is locally operated (Loudoun) and the other (Fauquier/Rappahannock) is state operated.

Prepared by: Division of Program Development and Evaluation, Research and Reporting Unit — Reporting Section.

Children and Families Under Supervision of Virginia Court Service Units Fiscal Year Ended June 30, 1982

This report represents the workload of the Juvenile and Domestic Relations District Court Service Units for fiscal year 1982. These Units provide diversionary and supervisory services for those juveniles and adults referred to the Juvenile and Domestic Relations District Courts of the Commonwealth of Virginia. These Courts are responsible for adjudicating the cases of juveniles charged with delinquency, children in need of services (juvenile status cases) and abused and neglected children. In addition, the Courts are responsible for offenses committed by adults against juveniles, and family matters (support enforcement, general family counseling and custody) except adoption and divorce. The Court Service Units offer comprehensive services for juveniles whose offense or referral for services was made prior to the legal age of 18. Services may also be provided to adults who are experiencing family difficulties which are suited to unofficial arbitration, to counseling, or to legal intervention. The map on page 2 shows the 32 Judicial Districts in which the 36 Juvenile Court Service Units are located. There are 28 state operated and 8 locally operated Juvenile Court Service Units.

SUMMARY AND PROBATION/SUPERVISION RATES

The total number of services completed by the Juvenile Court Service Units has steadily increased over the last four years (fiscal year 1979 to fiscal year 1982). The number of cases carried forward and the number of juveniles on "Official Probation" and "Unofficial Supervision" (Probation /Supervision) has steadily increased over the last three years (fiscal 1980 to fiscal 1982). Although the juvenile population* under 20 years of age has decreased by over 30,000 in the last three years, the juvenile probation; upervision rate per 100,000 population has increased from 427 in fiscal 1980, to 443 in fiscal 1981, to a high of 475 in fiscal 1982. For more detailed information, refer to page 5 for a tabular summary of the services completed, cases carried forward, and rates of juvenile probation/supervision for fiscal years 1979 to 1982.

Specifically, there was an increase in the workload of the Juvenile Court Service Units from 150,907 to 161,990, of 7.3% or 11,083 services completed from fiscal 1981 to fiscal 1982. Most of the increase in workload was due to an increase in the number of intake cases completed in fiscal 1982. At the close of fiscal year 1981 there were 11,343 files which remained open and were carried forward to fiscal 1982. At the end of fiscal year 1982 there were 11,793 files (an increase of 4.0%) which were carried forward to fiscal 1983. Most of the increase in cases carried forward was due to the increase in the number of juveniles under probation/supervision.

INTAKI

During fiscal year 1982 there were 115,788 intake cases referred to court service units. This is a 6.5% increase over the 108,747 intake cases completed in fiscal 1981. In fiscal 1982 intake cases accounted for 71.5% of the 161,990 total services completed.

TRANSFER REPORTS

Transfer reports are ordered on individuals 15 years of age or older who have been charged with certain felonies. The reports are used to determine if an individual should be transferred to circuit court for trial as an adult. There were 1,407 transfer reports completed in fiscal 1982, or 387 (21.6%) fewer than the 1,794 transfer reports completed in fiscal 1981. The transfer reports completed in fiscal 1982 represent 5.7% of the 24,837 total reports (social history, transfer, addendum, and foster care) completed by the court service units.

SOCIAL HISTORY REPORTS

When requested by the judge prior to court disposition, a comprehensive study of the child's social history and environment is made. The court service unit, according to standards adopted by the State Board of Corrections, must complete a social history report on any child placed under

supervision. As a result, the number of social history reports represents all children receiving supervision for a period of over three months. Social history reports accounted for 44.9% of all reports completed by court service units in fiscal 1982. There were 12,388 social history reports completed in this fiscal year — only 10 fewer than the 12,399 social history reports completed in fiscal 1981.

ADDENDUM REPORTS

Addendum reports are short reports sent to the court concerning social history updates, or any other short report or progress report made for the court's use. In fiscal 1982 there were 9,783 addendum reports submitted to the courts. This is a 55.3% increase over the 6,783 addendum reports completed last year. The addendum figure represents 39.4% of all reports completed by the court service units during the fiscal year.

FOSTER CARE REPORTS

Section 16.1–282 of the Code of Virginia requires a yearly court review of each child who is in foster care placement. When, upon order of the judge, the court service units assist in this review, they report and receive credit for this service. There were 1,259 foster care reports submitted to the courts in fiscal 1982, or 102 (7.5%) fewer than in fiscal 1981.

PROBATION/SUPERVISION CASES

Juvenile probation/supervision comprised 14,560 czes or 87.0% of all probation/supervision cases completed in fiscal 1982. Adult probation/supervision accounted for the remaining 2,172 cases completed or 13.0% % of all probation/supervision cases completed. The combined totals or juvenile and adult probation/supervision cases completed comprised 16,732 or 10.3% of the total workload of 161,990 cases, intakes and reports completed in fiscal year 1982. This is a 9.0% increase over the 15,348 juvenile and adult probation/supervision cases completed in fiscal 1981.

On June 30, 1982 there were 7,849 or 475 (6.5%) more juveniles on probation/supervision than juveniles remaining under probation/supervision on June 30, 1981. At the end of fiscal 1982 there were 449 adult probation/supervision cases or 1.8% more than at the end of fiscal 1981.

AFTERCARE SUPERVISION IN DIRECT CARE

The court service units provide services through visitation and contact with children in direct care. In fiscal 1982 there were 456 children in direct care released from aftercare supervision. The court service units carried over into fiscal 1983, 956 aftercare in direct care cases.

FAMILY COUNSELING

All families of children in the direct care of the Departof Corrections are contacted and provided services if needed while their children are under State care. Family counseling is also provided for families of children on aftercare supervision and is available for families of children on probation or involved in other juvenile and domestic relations cases. During fiscal 1982 there were 3,346 families released from family counseling services. There were 1,804 families carried over into fiscal 1983 for counseling services.

AFTERCARE SUPERVISION IN COMMUNITY

The court service units discharged 831 juveniles from aftercare supervision in the community in fiscal 1982. The court service units carried into fiscal 1983, 735 cases on aftercare supervision in the community. The children discharged from aftercare in the community comprised only 0.5% of the total 161,990 supervision cases, intakes, and reports completed in fiscal year 1982.
