## INTRODUCTION

The purpose of this report is to provide managers, planners, evaluators, and other users a useful display of substance abuse arrest data for South Carolina. No attempt is made herein to present suggested approaches to analyzing the data nor are any conclusions concerning the meaning of the data provided.

This report is a continuation of the UCR Report Series published by this Division beginning in 1975. The initial study dealt with 1974 arrest data reported to the South Carolina Law Enforcement Division. This report presents arrest data for 1979 through 1982 from the same source, and offers a county by county comparison of selected arrests for these years. By comparing the 1979, 1980, 1981, and 1982 arrest data, a determination as to what trend is developing within certain substance abuse related arrest areas can be made.

Five sections of tables are contained in this report. The first section, State Substance Abuse Arrest Tables, presents arrest data by county, region, and state levels for each major substance abuse related arrest area. The second section, Arrest Rate Tables, provides tables of similar information contained in section one but displayed as arrest rates per 10,000 population. Arrest rates are important measures with which to compare the relative number of arrests among geographical areas. The third section, Possession, Sale and/or Manufacturing Arrest Tables, contains tables on drug arrests for possession separately from drug arrests for sale/manufacture for all counties. The fourth section, Aggregated Substance Abuse Arrest Tables, presents aggregated substance arrest data as well as comparisons of substance arrests to all other

arrests for 1979 through 1982. The last section provides bar graphs that display state totals for selected categories of substance related arrests.

Readers of this report should be cognizant of the fact that the enclosed data represents the number of reported\* arrests, not the number of occurrences of an offense or the number of convictions. In order to clarify the different arrest categories that are dealt with, the following definitions are offered in the same order that the tables are presented.

Opiates - Includes all arrests for violations of state and local laws relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs including opium and cocaine and their derivatives (morphine, heroin, codeine).

Marijuana - Relates to the unlawful possession, sale, use, growing manufacturing and making of marijuana.

Synthetics - Relates to the unlawful possession, sale, use, manufacturing and making of synthetic narcotics--manufactured narcotics which can cause true drug addiction (demerol, methadone, percodan).

Other Drugs - Relates to the unlawful possession, sale, use, manufacturing, and making of other dangerous non-narcotic drugs (barbiturates, amphetamine, hallucinogens, tranquilizers).

Liquor Laws - With the exception of drunkenness and driving under the influence, liquor law violations of state and local laws are placed in this class. They include the following:
