ACKNOWLEDGEMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

> The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for Transitional Aid Research Project (TARP) were originally collected by Peter H. Rossi, Richard A. Beck and Kenneth J. Lenihan. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

STUDY DESCRIPTION

TARP evolved out of an earlier LIFE (Living Insurance for Ex-prisoners) study conducted in Baltimore, Maryland from 1971 to 1974. Five hundred high-risk prisoners, defined as such by their probability of re-arrest, were randomly assigned at release from prison to experimental and control groups which varied by the amount of money received (contingent upon employment or unemployment) and job placement services provided. The results of this project were encouraging. Ex-prisoners receiving payments were less likely to be re-arrested for property theft related crimes than those who received only job placement or no services or payments of any kind, an effect which led to 8% fewer arrests for such causes or a relative 25% drop in the arrest rates over a year's period of time. TARP was designed to provide a replication of this LIFE experiment and to overcome several limitations of that project:

1. To provide a larger and more representative sample of prisoners,

2. To provide greater variation in treatment conditions,

3. To provide the experiment in the "real world", where the administration of payments and job placement services would be conducted by existing agencies,rather than by a special purpose project staff.

The TARP experiment began in June of 1975. The Department of Labor sent out inquiries to virtually all of the states ascertaining their interest in conducting a field experiment on their prison population. Georgia and Texas were awarded the contracts, based upon their capabilities to conduct the experiment, collect the required post-release research data, and provide a suitable prison population. In Texas, the overall responsibility was lodged in the Texas Department of Corrections (TDC), while in Georgia, the Georgia Department of Corrections and the Employment Security Agency divided the labor. To provide overall coordination for the project, the Department of Labor contacted the American Bar Association which then hired Dr. Kenneth Lenihan, coordinator of the LIFE experiment, to serve as principal investigator for TARP.

Sample size was set large enough to detect small differences. A sample of 400 men from each state, released

Transitional Aid Research Project (TARP), 1976-1977
PART 1: Texas Released Inmate Data
PART 2: Georgia Released Inmate Data

(ICPSR 7874)

The description of group selection on page III of the Tarp introduction should read:

Experimental Group Selection

Released prisoners were assigned to groups using a stratified random procedure until a group size quota was met. In Texas, the stratification was based on, first, urban/rural county of return, sex, and for the male prisoners, method of release, age and marital status. For females, further division was made on method of release and age (26 and under or 27 and older). In Georgia, due to more available data, another marital group for whom no marital status was available was identified, and urban residents were further divided by whether they had been working at the time of their last arrest.

Within each of the above classes, prisoners were distributed into one of six experimental groups. The target sample sizes and actual sample sizes by TARP group is given below:

	TARP GROUP	TARGET NUMBER PER STATE	GEORGIA ACTUAL	TEXAS ACTUAL
Group 1:	26 Weeks of Payments & 100% tax	175	176	175
Group 2:	13 Weeks of Payments & 100% tax	200	199	200
Group 3:	13 Weeks of Payments & 25% tax	200	199	200
Group 4:	Job Placement Only	200	201	200
Group 5:	Interviewed Controls	200	201	200
Group 6:	Non-Interview Controls	1000	1031	1000
	TOTALS	1975	2007	1975

All released prisoners who were eligible for TARP by the above criteria were included in the experiment until the target sample sizes were achieved. Assignment to groups was made according to a set of procedures that assured that there was no systematic bias in allocation to any of the groups and which also assured that the groups would be comparable in certain respects. This systematic assignment procedure amounted to a stratified randomization of eligible released prisoners. Although the stratified, systematic, randomized assignment procedure differed slightly in the two states, the procedure employed was first to classify each releasee into one of a number of categories formed out of the combination of sex, age, parole or discharge, and urban or rural residence.

Released prisoners were assigned to groups using a stratified random procedure until a group size quota was met. In Texas, the stratification was based on, first, urban/rural county of return, sex, and for the male prisoners, method of release, age and marital status. For females, further division was made on method of release and age (26 and under or 27 and older). In Georgia, due to more available data, another marital group for whom no marital status was available was identified, and urban residents were further divided by whether they had been working at the time of their last arrest.

DATA COLLECTION PROCEDURES

There were nine data files created in each state (now combined into one file for each state) to correspond to the nine different sources of information assembled for each TARP case. Below is a table showing the variable numbers in the ICPSR dataset corresponding to the original nine data files.

FILE NAME	VARIABLE NUMBER RANGE TEXAS	GEORGIA
PRISON HISTORY	V1-V152	V1-V140
PRE-RELEASE INTERVIEW	V153-V218	V141-V320
THREE MONTH INTERVIEW	V219-V443	V321-V637
SIX MONTH INTERVIEW	V444-V738	V638-V929
TWELVE MONTH INTERVIEW	V739-V1189	V930-V1361
PAYMENT SUMMARY DATA	V1190-V1228	V1362-V1502
WAGE DATA	V1229-V1241	V1503-V1525
ARREST DATA	V1242-V1414	V1550-V1747
PAROLE DATA	V1415-V1436	V1526-V1549
JOB MARKET DATA	V1437-V1542	V1748-V1841
WORKFILE DATA	V1543-V1582	V1842-V1881

In addition, TARP, participants were reporting in their interviews some arrests that could not be found on their state level arrest files. To make the arrest information as complete as possible, searches were made of local sources. In Georgia, where the problem was particularly severe, this meant enlisting the aid of local police departments and sending out TARP interviewers to check county records. In Texas, local police files and county level computer files were both used to supplement the state-level arrest information.

TARP PAYMENT DATA

Records of the number, amount and date of all TARP payments were obtained from the Texas and Georgia Employment Security offices.

SOCIAL SECURITY WAGES

Data on each TARP member's wages subject to Unemployment Insurance were collected through the state Employment Services. These files contain wage information by calendar year quarters on all wages in covered categories of employment. Starting with the calendar quarter in which the TARP member was released, his U.I. wage files were collected for 5 subsequent quarters. Since the one-year period of the TARP member's participation in the experiment does not match calendar quarters, new wage variables were constructed by allocating wages during the first and last calendar quarter to match the TARP member's year.

PAROLE RECORD

From the agency administering parole in each of the states, information was obtained on terms, conditions and length of parole given to each paroled TARP member. In addition, information was reported concerning any parole violations or revocations.

All released prisoners who were eligible for TARP by the above criteria were included in the experiment until the target sample sizes were achieved. Assignment to groups was made according to a set of procedures that assured that there was no systematic bias in allocation to any of the groups and which also assured that the groups would be comparable in certain respects. This systematic assignment procedure amounted to a stratified randomization of eligible released prisoners. Although the stratified, systematic, randomized assignment procedure differed slightly in the two states, the procedure employed was first to classify each releasee into one of a number of categories formed out of the combination of sex, age, parole or discharge, and urban or rural residence.

Released prisoners were assigned to groups using a stratified random procedure until a group size quota was met. In Texas, the stratification was based on, first, urban/rural county of return, sex, and for the male prisoners, method of release, age and marital status. For females, further division was made on method of release and age (26 and under or 27 and older). In Georgia, due to more available data, another marital group for whom no marital status was available was identified, and urban residents were further divided by whether they had been working at the time of their last arrest.

DATA COLLECTION PROCEDURES

There were nine data files created in each state (now combined into one file for each state) to correspond to the nine different sources of information assembled for each TARP case. Below is a table showing the variable numbers in the ICPSR dataset corresponding to the original nine data files.

FILE NAME	VARIABLE NUMBER RANGE TEXAS	GEORGIA

TWELVE MONTH INTERVIEW	V739-V1189	V930-V1361
PAYMENT SUMMARY DATA	V1190-V1228	V1362-V1502
WAGE DATA	V1229-V1241	V1503-V1525
ARREST DATA	V1242-V1414	V1550-V1747
PAROLE DATA	V1415-V1436	V1526-V1549
JOB MARKET DATA	V1437-V1542	V1748-V1841
WORKFILE DATA	V1543-V1582	V1842-V1881

FILE STRUCTURE

The TRANSITIONAL AID RESEARCH PROJECT (TARP) data are available from the ICPSR in two formats: a card image file and an OSIRIS dataset. The card image file contains several decks per case in a format based on 80 column punched cards. The data are sorted by case with all decks for a case together in ascending order.

The OSIRIS dictionary gives the format and other information for each variable in the OSIRIS data file. The dictionary or dictionary-codebook file is used in conjunction with the OSIRIS software package. The OSIRIS data file is constructed with a single logical record for each case. There are 15820 variables on 1,975 cases for Part 1 (Texas Released Inmate Data) and 1,881 variables on 2007 cases for Part 2 (Georgia Released Inmate Data).

The OSIRIS data file can be accessed directly through software packages or programs which do not use the OSIRIS dictionary by specifying the tape locations of the desired variables. These tape locations are given in the OSIRIS dictionary-codebook.

ICPSR PROCESSING INFORMATION

The study was processed according to the standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were recoded to OSIRIS missing data values. No consistency checks were performed. Statements bracketed in "<" and ">" signs in the body of the codebook were added by the processors for explanatory purposes.

In addition, TARP, participants were reporting in their interviews some arrests that could not be found on their state level arrest files. To make the arrest information as complete as possible, searches were made of local sources. In Georgia, where the problem was particularly severe, this meant enlisting the aid of local police departments and sending out TARP interviewers to check county records. In Texas, local police files and county level computer files were both used to supplement the state-level arrest information.

TARP PAYMENT DATA

Records of the number, amount and date of all TARP payments were obtained from the Texas and Georgia Employment Security offices.

SOCIAL SECURITY WAGES

Data on each TARP member's wages subject to Unemployment Insurance were collected through the state Employment Services. These files contain wage information by calendar year quarters on all wages in covered categories of employment. Starting with the calendar quarter in which the TARP member was released, his U.I. wage files were collected for 5 subsequent quarters. Since the one-year period of the TARP member's participation in the experiment does not match calendar quarters, new wage variables were constructed by allocating wages during the first and last calendar quarter to match the TARP member's year.

PAROLE RECORD

From the agency administering parole in each of the states, information was obtained on terms, conditions and length of parole given to each paroled TARP member. In addition, information was reported concerning any parole violations or revocations.

CODEBOOK INFORMATION

The example below is a reproduction of information appearing in the machine-readable codebook for a typical variable. The numbers in brackets do not appear but are references to the descriptions which follow this example.

```
.....................................................

[1] VAR 0043     [2] TYPE OF MILITARY DISCHAR   [3] MD=9 OR
                                                   GE 99
    REF 0043      [4] LOC 109  WIDTH 2  [5] DK -  COL --
                                            [6] ------

[7] Type of Military Discharge
   ----------------------------------------

     [8] ----------------------------------------

     [9] ----------------------------------------

         [10]  [11]

         02.  Bad conduct
         03.  Dishonorable
         05.  General

         09.  No military service
         99.  No information

.....................................................
```

[1] Indicates the variable and reference numbers. A variable and reference number are assigned to each item in the study. In this codebook which documents the archived dataset these numbers are identical. Should the data be disseminated in a different structure, new variable numbers may be assigned or created. The reference number would remain unchanged and correspond to those in this codebook.

[2] Indicates the abbreviated (24 character maximum) variable label used within OSIRIS to identify each variable. An expanded version can be found in the Variable Description List.

[3] Indicates the designation of missing data. In this example, code values equal to 9 or greater than 99 are missing data (MD=9 OR GE 99). Alternative statements for other variables are

"MD=0, "MD GE 9", or "NO MISSING DATA CODES". Some analysis software packages (including the ICPSR-supported package) require that certain types of data which the user desires to be excluded from analysis be designated as "missing data" e.g., inappropriate, unascertained, unascertainable, or ambiguous data categories. Although this value is defined as within the missing data category, this does not mean that users should not or cannot use this code value in a substantive role if they so desire.

[4] Indicates the sequential location and width of this variable within the record when the data are stored on magnetic tape. In this example the variable named "TYPE OF MILITARY DISCHAR" is two columns wide and located in the 109th column within the record.

[5] Indicates the location by deck and column(s) of this variable when the data are stored on cards or in card image format.

[6] Indicates the number of decimal places for the variable, if any.

[7] Indicates the full text of the variable description supplied by the original collector of the data. The numbers and letters that may appear at the beginning are question numbers from the survey forms.

[8] Indicates an additional comment or explanation appended to the variable description.

[9] A variable which has a footnote associated with it is denoted by the message, "SEE NOTE(S) X" where X is the number of the footnote referenced.

[10] Indicates the code values occurring in the data for this variable.

[11] Indicates the textual definitions of the codes. .

855. R Arrested In Past Year
856. How Many Times R Arrested
857. R Arrested During Last 6 Months

FIRST ARREST DURING LAST SIX MONTHS

858. When R Arrested
859. Where R Arrested
860. Arrest Charge
861. How Long R In Detention
862. Outcome
863. Fined How Much Money
864. Length Of Probation
865. Length Of Sentence
866. Suspended Sentence
867. When R Was Convicted

SECOND ARREST DURING LAST SIX MONTHS

868. When R Arrested
869. Where R Arrested
870. Arrest Charge
871. How Long R In Detention
872. Outcome

873. Fined How Much Money
874. Length of Probation
875. Length of Sentence
876. Suspended Sentence
877. When R Was Convicted

THIRD ARREST DURING LAST SIX MONTHS

878. When R Arrested
879. Where R Arrested
880. Arrest Charge
881. How Long In R In Detention
882. Outcome
883. How Much Money R Fined
884. Length of Probation
885. Length of Sentence
886. Suspended Sentence
887. When R Was Convicted
888. Total Number Of Days In Jail Last 6 Months
889. Total Number of Arrests Not In Last 6 Months

FIRST ARREST NOT CODED ON THREE OR SIX MONTH INTERVIEW

890. When R Arrested
891. Where R Arrested
892. Arrest Charge
893. How Long In Detention
894. Outcome
895. How Much Money R Fined
896. Length of Probation
897. Length of Sentence
898. Suspended Sentence
899. When Was R Convicted

SECOND ARREST NOT CODED ON THREE OR SIX MONTH INTERVIEW

900. When R Arrested
901. Where R Arrested
902. Arrest Charge
903. How Long In Detention
904. Outcome
905. How Much Money R Fined
906. Length of Probation
907. Length of Sentence
908. Suspended Sentence
909. When Was R Convicted
910. Number Arrests Not Coded On 3 Or 6 Month Interview

FIRST ARREST CODED ON THREE OR SIX MONTH INTERVIEW

911. When R Arrested
912. Where R Arrested
913. Arrest Charge
914. Length of Detention
915. Outcome
916. How Much Money R Fined
917. Length of Probation
918. Length of Sentence
919. Suspended Sentence
920. When R Was Convicted

SECOND ARREST CODED ON THREE OR SIX MONTH INTERVIEW

921. When R Arrested
922. Where R Arrested
923. Arrest Charge
924. How Long R In Detention
925. Outcome
926. How Much Money R Fined
927. Length Of Probation
928. Length Of Sentence
929. Suspended Sentence
930. When Was R Convicted

THIRD ARREST CODED ON THREE OR SIX MONTH INTERVIEW

931. When R Arrested
932. Where R Arrested
933. Arrest Charge
934. How Long R In Detention
935. Outcome
936. How Much Money R Fined
937. Lenght Of Probation
938. Length Of Sentence
939. Suspended Sentence
940. When Was R Convicted
941. Total Number Of Days R In Jail During 12 Months Out

EXPERIENCES DURING THE PAST MONTH

942. R Had A Hard Time Finding A Job
943. R Had A Hard Time Financiallly

961. R Spent Time Wandering Around Town
962. R Spent Time With Prison Friends
963. R Felt Good About Future

BACKGROUND INFORMATION

964. How Long R Lived In: Years
965. How Long R Lived In: Months
966. County Of Residence
967. Urban/Rural Classification of County
968. Where Was R Born
969. How Old When Came To
970. Where R's Mother Was Born
971. Where R's Father Was Born
972. Who R Lived With At 5 Years
973. Who R Lived With At 10 Years
974. Who R Lived With At 15 Years
975. Persons Who Raised R On Welfare
976. How Long On Welfare

RESIDENTIAL INFORMATION

977. R Live In House Or Apartment
978. R Moved Since Last Interview
979. How Many Different Places R Has Lived In
980. County Of Residence At 6 Months
981. R Lived Outside Of City
982. R Rent/Make House Payment
983. House Payment/Rent Per Month
984. Utility Bill Per Month
985. R Living In Public Housing

PERSONS RESPONDENT IS LIVING WITH

986. Mother
987. Father
988. Wife/Husband
989. Girl/Boy Friend

990. Son/Daughter (adult)
991. Son/Daughter (minor)
992. Sibling
993. Grandparent
994. Aunt/Uncle
995. Stepfather
996. Stepmother
997. In-Laws
998. Second-Degree Relation
999. Male/Female Friend
1000. Halfway House
1001. Other Children
1002. Alone
1003. Other

HOUSEHOLD INFORMATION

1004. How Many Adults Live There
1005. How Many Children Live There
1006. Head Of Household
1007. How Household Head Supports Household
1008. How Much Household Head Earns Per Week
1009. R Contributes Money To Household
1010. How Much For Rent
1011. How Long R Paying Rent
1012. How Much For Board
1013. How Long R Paying Board
1014. How Much Lump Contribution
1015. How Long R Made Lump Contribution
1016. How Many Dependents R Has
1017. R Ever Been Married
1018. Current Marital Status

PAROLE INFORMATION

1019. R Released/Discharged
1020. R Still On Parole
1021. When Did Parole End
1022. Number Of Months R On Parole
1023. How Often R Contacted Parole Officer At First
1024. How R Sees Parole Officer
1025. How Often R Contacts Parole Officer
1026. R Contacts Parole Officer In Person/Phone
1027. R Committed Parole Violation
1028. Parole Violation: 1st Mention
1029. Parole Violation: 2nd Mention
1030. Parole Violation: 3rd Mention
1031. R Received Warning That Parole Might Be Revoked
1032. What Warning Was For: 1st Mention
1033. What Warning Was For: 2nd Mention
1034. Parole Officer Gives R Job Leads

1035. What Happened To Leads
1036. Parole Officer Usually Has Leads
1037. Type Of Job: 1st Mention
1038. Tupe Of Job: 2nd Mention
1039. Type Of Job: 3nd Mention

TARP PAYMENT QUESTIONS

1040. R In Money Group
1041. How Much R Would Receive If Not Working
1042. Number Of Weeks Receiving Money
1043. If Earning $40, How Much R Would Receive
1044. If Earning $63, How Much R Would Receive
1045. If Earning $100, How Much R Would Receive
1046. If Sick, How Much R Would Receive
1047. If In School, How Much R Would Receive
1048. If Arrested, Could R Still Be In Program
1049. How Long R Could Be In Program

TARP PAYMENT INFORMATION

1050. Wife/Mother/Girlfriend Aware Of R's Checks
1051. Relevant Female
1052. Why R Did Not Tell Her
1053. R Receive All Money He Was Eligible For
1054. How Much Money Was Eligible For
1055. How Much Money R Received
1056. How Much Money R Did Not Receive

REASONS RESPONDENT DID NOT RECEIVE ALL OF THE TARP MONEY HE WAS ELIGIBLE TO RECEIVE

1057. Working - Making Too Much Money
1058. Working - Couldn't Make It Into TEC
1059. Working - Payment Too Small
1060. Working - Never Used Up Total
1061. Going To School
1062. Sick Or Incapacitated
1063. In Jail Or Prison
1064. Did Not Deserve Money
1065. Did Not Need Money
1066. Thought He Had All The Money
1067. Gave No Reason
1068. Other Reason

JOB PLACEMENT INFORMATION

1069. R In Job Placement Group
1070. R Went To TEC And Talked To Them
1071. Why R Did Not Go To TEC

1072. How Many Times R Went TEC
1073. How Many Jobs Referrals From TDC
1074. R Ever Hired
1075. How Many Jobs R Got Through TEC

FIRST JOB RESPONDENT RECEIVED THROUGH TEC PLACEMENT

1076. Type Of Job
1077. How Much Money R Made Per Week
1078. When R Was Hired
1079. How Long R Stayed
1080. Why R Left Job

SECOND JOB RESPONDENT RECEIVED THROUGH TEC PLACEMENT

1081. Type Of Job:
1082. How Much Money R Made Per Week:
1083. When R Was Hired:
1084. How Long R Stayed:
1085. Why Did R Left Job:

THIRD JOB RESPONDENT RECEIVED THROUGH TEC PLACEMENT

1086. Type Of Job
1087. How Much Money R Made Per Week
1088. When R Was Hired
1089. How Long R Stayed
1090. Why R Left Job

INFORMATION ON ASSISTANCE FROM TEC

1091. TEC Helped R Buy Any Work Items
1092. R Got Job As A Result Of TDC's Help
1093. What TEC Helped Buy

VAR 0042 EDUCATION ACHIEVE SCORE MD=0
REF 0042 LOC 107 WIDTH 3 DK 2 COL 42-44

Educational Achievement Score - The scores obtained on this test are converted to grade levels which are calculated to indicate the equivalent secondary school level at which the inmate is functioning academically.

001=one month equivalent education (illiterate). The remainder of the codes can be split into two parts. The first two digits indicate number of years and the third digit indicates number of months. For example, 003 means the inmate has developed, learns, or understands the academic knowledge equal to the normal individual who is in the third month of the first year of formal schooling and 094 is equivalent to the normal individual who is in the ninth year and fourth month of formal schooling.

Actual number is coded.

religious preferences are claimed by newly arriving inmates -- preferences which are in no way verified.

1. Catholic
2. Hebrew or Jewish
3. Muslim
4. No affiliation
5. Other
6. Protestant

9. DK/NA

VAR 0114 MARITAL STATUS MD=0 OR GE 9
REF 0114 LOC 284 WIDTH 1 DK 5 COL 16

Marital Status - Refers to self report of marital status at time of incarceration at TDC.

1. Single
2. Married
3. Common law
4. Widow
5. Divorced
6. Separated

0. Data not available (MV)
9. Data not available (MV)

NOTE: FOR REF 115 - 117 PERTAINING TO PRIOR CONFINEMENTS, THERE IS NO WAY OF DISTINGUISHING BETWEEN A VALID ZERO CODE (NO PRIOR CONFINEMENTS) AND MISSING INFORMATION. THIS INFORMATION WAS THE RESULT OF SELF-REPORT OF THE INMATE AT THE DIAGNOSTIC TESTING UNIT UPON ENTERING THE SYSTEM. DATA BLOCKS WERE INITIALLY SET TO ZERO, SO IF NO NEW DATA WERE ENTERED, THE CHARACTER BLOCKS REMAINED AT ZERO. DUE TO THE HIGH NUMBER OF ZEROS IN THE CHARACTER BLOCKS AND THE

(CONTINUED)

QUESTIONABLE NATURE OF THEIR MEANING, THE INFORMATION ON PRIOR CONFINEMENTS IS OF LITTLE RELIABILITY.

VAR 0115 PRIOR CONFINE: PROBATED MD=0
REF 0115 LOC 285 WIDTH 2 DK 5 COL 17-18

Prior Confinements - Probated
Reflects the number of probated sentences the inmate has received. Due to updating, the reliability of this information is questionable.

Actual number is coded.

01. 1 probated sentence
.
.
80. 80 probated sentences <Possible bad code>

00. None or missing information

VAR 0116 PRIOR CONFINE: OTHR PRIS MD=0
REF 0116 LOC 287 WIDTH 1 DK 5 COL 19

Prior Confinements - Other
Refers to all other state and federal prisons.

Actual number is coded.

1. 1 other prior confinement
.
.
5. 5 other prior confinements

0. None or missing information

VAR 0117 PRIOR CONFINE: AT TDC MD=0
REF 0117 LOC 288 WIDTH 2 DK 5 COL 20-21

Prior Confinements at TDC

Actual number is coded.

VAR 0340 3-ARRESTED FOR WHAT: 1 MD=0 OR GE 99
REF 0340 LOC 780 WIDTH 2 DK 12 COL 45-46

What <were you arrested for>? (first mention)

Uncertainties regarding offense classification were referred to "A Summary of the New Texas Penal Code (1974)" to determine the category best describing the offense.

If any of the arrests resulted in multiple charges on the same date, all charges were coded unless the number of charges for the entire three-month period exceeded three. If all the arrests during this period resulted in more than three charges, the most serious offense for each arrest was coded. For this study, theft and theft-related charges superseded other charges when not all offenses could be coded.

REF 0555 LOC 1207 WIDTH 2 DK 18 COL 67-68

Q.29c For what? (first mention)

Uncertainties about an offense classification were referred to "A Summary of the New Texas Penal Code (1974)" to determine the category best describing the offense.

If any of the arrests resulted in multiple charges on the same date, all charges were coded unless the number of charges for the entire three-month period exceeded three. If all the arrests during this period resulted in more than three charges, the most serious offense for each arrest was coded. (For this study, theft and theft-related charges superseded other charges when not all offenses could be coded.)

01. Robbery
02. Extortion
03. Burglary (daytime housebreaking, storehouse breaking, breaking and entering)
04. Larceny (swindling, shoplifting, hot checks, embezzlement, extortion, forgery, receiving stolen property)
05. Conspiracy
06. Homicide
07. Attempted suicide

VAR 0933 12WHAT ARREST CHARGE: 8 MD=0 OR GE 99
REF 0933 LOC 1972 WIDTH 2 DK 30 COL 23-24

Q.19e What was the arrest charge? (third mention of arrest coded on three or six month interview)

(CONTINUED)

Uncertainties about an offense classification were referred to "A Summary of the New Texas Penal Code (1974)" to determine the category best describing the offense.

If any of the arrests resulted in multiple charges on the same date, all charges were coded unless the number of charges for the entire six-month period exceeded three. If all the arrests during this period resulted in more than three charges, the most serious offense for each arrest was coded. (For this study, theft and theft-related charges superseded other charges when not all offenses could be coded.)

01. Robbery
02. Extortion
03. Burglary
04. Larceny
05. Conspiracy
06. Homicide
07. Attempted suicide
08. Kidnapping

VAR 1415 DATE SHOWED PAROLE STAT MD=0 OR GE 888888
REF 1415 LOC 2909 WIDTH 6 DK 44 COL 24-29

Date the Subject Last Showed Parole Status (MMDDYY)

Note to Coders: When the Parole Data Sheet depicts a parolee who has been discharged after serving time required on parole, determine first, whether the discharge date is prior to or beyond the one-year cut-off date.
1) Code the actual date when the date shown is on or before the one-year cut-off date. When the member's parole status date is beyond the one-year cut-off date, or the entry depicts the word "Active", and no parole violations appear, code zeroes in all six columns.
2) When the parole status date is beyond the one-year cut-off date and violations appear, set the data sheet aside for later clarification using prison records.

Actual number is coded.

Errata

Transitional Aid Research Project (TARP), 1976-1977
PART 1: Texas Released Inmate Data

(ICPSR 7874)

Page 703, two of the reference numbers sited in the note on variables 1490-1542 are incorrect.

References to "REF 446" should read "REF 457," (County of Residence at the 3-Month Interview).

References to "REF 972" should read "REF 980," (County of Residence at the 6-Month Interview).

(CONTINUED)

.....

NOTE: THE FOLLOWING <REF 1490 - 1542> VARIABLES CONTAIN JOB-MARKET ESTIMATES FOR THE COUNTY THE MEMBER WAS ACTUALLY LIVING IN 6 MONTHS AFTER RELEASE FROM PRISON. INFORMATION ON WHERE HE WAS LIVING AT THAT TIME COMES PRIMARILY FROM REF 972 IN THE 12-MONTH INTERVIEW WHICH WAS CODED FROM A COMBINATION OF SELF-REPORT AND CANCELLED CHECKS. WHERE DATA WAS MISSING FOR THIS VARIABLE, DATA FROM THE 6-MONTH INTERVIEW REF 446 WAS SUBSTITUTED.

FOR THESE VARIABLES THERE ARE 85 MISSING CASES DUE EITHER TO MISSING VALUES IN BOTH REF 446 AND 972 OR LACK OF DATA ON THE JOB CHARACTERISTICS OF THE RELEVANT COUNTY. THESE ARE CODED -1 FOR REF 1491 - 1540 AND DECLARED MISSING VALUES.

*** TEXAS WORKFILE CODEBOOK ***

NOTE: REF 1543 - 1582 ARE SUMMARY VARIABLES WHICH WERE CALCULATED FROM THE TEXAS TARP INTERVIEWS, PRISON HISTORY, ARREST FILES, WAGE FILES, AND TARP PAYMENT FILES. SUMMARY VARIABLES 1543 - 1552 HAVE BEEN CALCULATED FOR ALL TARP PARTICIPANTS. REF 1553 - 1582 ARE CALCULATED FOR THOSE IN GROUPS 1-5 AND ARE CODED -1 FOR GROUP 6.

VAR 1543 TOT WAGES FIRST 3 MONTHS MD=GE 999900
REF 1543 LOC 3471 WIDTH 6 DK 52 COL 63-68
IMP DEC= 2

Total Wages Earned During First Three Months - calculated from wage file
The calculation of these summary wage variables provides a more accurate indication of the wages earned during the actual year of the TARP experiment, rather than the official quarterly reporting periods of the WAGE file.

Actual number is coded.

000000. $0
.
.
672400. $6,724

999900. Missing information

VAR 1544 TOT WAGES 2ND 3 MONTHS MD=GE 999900
REF 1544 LOC 3477 WIDTH 6 DK 52 COL 69-74
IMP DEC= 2

Total Wages Earned During Second Three Months - calculated from wage file
The calculation of these summary wage variables provides a more accurate indication of the wages earned during the actual year of the TARP experiment, rather than the official quarterly reporting periods of the WAGE file.

(CONTINUED)

Actual number is coded.

000000. $0
.
.
636900. $6,369

999900. Missing information

VAR 1545 TOT WAGES 3RD 3 MONTHS MD=GE 999900
REF 1545 LOC 3483 WIDTH 6 DK 52 COL 75-80
IMP DEC= 2

Total Wages Earned During Last Six Months - calculated from wage file
The calculation of these summary wage variables provides a more accurate indication of the wages earned during the actual year of the TARP experiment, rather than the official quarterly reporting periods of the WAGE file.

Actual number is coded.

000000. $0
.
.
981400. $9,814

999900. Missing information

DECK IDENTIFICATION NUMBER IS '53' DK 53 COL 1- 2

VAR 0001 ICPSR NUMBER NO MISSING DATA CODES
REF 0001 LOC 1 WIDTH 4 DK 53 COL 3- 6

ICPSR Data Collection Number

7874. The ICPSR has attached this number as a data collection identification number.

VAR 0003 ICPSR PART NUMBER NO MISSING DATA CODES
REF 0003 LOC 6 WIDTH 1 DK 53 COL 7

ICPSR Part Number

1. The entire data collection is contained in two files.

VAR 0002 ICPSR EDITION NUMBER NO MISSING DATA CODES
REF 0002 LOC 5 WIDTH 1 DK 53 COL 8

ICPSR Edition Number

1. This is the first ICPSR edition of the data collection. This edition is a Spring, 1982 release.

VAR 0004 SEQUENTIAL ID NUMBER NO MISSING DATA CODES
REF 0004 LOC 7 WIDTH 4 DK 53 COL 9-12

ICPSR Sequential Case Identification Number

The ICPSR has attached a sequential case identification number to every record. This number uniquely identifies each record in this data collection.

VAR 1546 TOT WAGES DURING YEAR MD=GE 999900
REF 1546 LOC 3489 WIDTH 6 DK 53 COL 13-18
IMP DEC= 2

Total Wages Earned During the Year - calculated from wage file
The calculation of these summary wage variables provides a more accurate indication of the wages earned during the actual year of the TARP experiment, rather than the official quarterly reporting periods of the WAGE file.

(CONTINUED)

Actual number is coded.

000000. $0
.
.
996300. $9,963

999900. Missing information

VAR 1547 CRIME AGAINST PERSON MD=GE 9
REF 1547 LOC 3495 WIDTH 1 DK 53 COL 19

Dummy 1 = Current Offense Is for a Crime Against Person - calculated from Prison History.
"Current" refers to the convicted offense of imprisonment prior to release into the TARP experiment.

0. No
1. Yes

9. Missing information

VAR 1548 CRIME AGAINST PROPERTY MD=GE 9
REF 1548 LOC 3496 WIDTH 1 DK 53 COL 20

Dummy 1 = Current Offense Is for a Crime Against Property - calculated from Prison History.
"Current" refers to the convicted offense of imprisonment prior to release into the TARP experiment.

0. No
1. Yes

9. Missing information

VAR 1549 OTHER CRIME MD=GE 9
REF 1549 LOC 3497 WIDTH 1 DK 53 COL 21

Dummy 1 = Current Offense Is for Other Crime - calculated from Prison History.
"Current" refers to the convicted offense of imprisonment prior to release into the TARP experiment.

0. No
1. Yes

9. Missing information

.....

VAR 1550 PREV CONVICT CRIME PERSO NO MISSING DATA CODES
REF 1550 LOC 3498 WIDTH 2 DK 53 COL 22-23

Number of Previous Convictions For Crimes Against Person - calculated from prison history.

Actual number is coded.

0. 0 convictions
.
.
4. 4 convictions

.....

VAR 1551 PREV CONVICT CRIME PROP NO MISSING DATA CODES
REF 1551 LOC 3500 WIDTH 2 DK 53 COL 24-25

Number of Previous Convictions For Crimes Against Property - calculated from prison history.

Actual number is coded.

0. 0 convictions
.
.
11. 11 convictions

VAR 1552 PREV CONVICT OTHER CRIME NO MISSING DATA CODES
REF 1552 LOC 3502 WIDTH 2 DK 53 COL 26-27

Number of Previous Convictions For Other Crimes - calculated from prison history.

Actual number is coded.

0. 0 convictions
.
.
5. 5 convictions

.....

NOTE: REF 1553 - 1582 ARE CALCULATED FOR GROUPS 1-5 ONLY AND ARE CODED -1 FOR GROUP 6 CONTROLS. THESE VARIABLES ARE SUMMARY MEASURES FOR FOUR PERIODS OF THE TARP EXPERIMENTAL YEAR PERIOD: FIRST SIX WEEKS OF THE YEAR, WEEKS 7-13, WEEKS 14-26 (PERIOD OF THE SIX-MONTH INTERVIEW), AND WEEKS 27-52 (PERIOD OF THE TWELVE-MONTH INTERVIEW).

.....

VAR 1553 PROPERTY ARREST: 1-6 WKS MD=LE -1

*** NOTE 6 ***
PRISON GOOD-TIME CATEGORIES

Under the Texas commutation law there are three classes of commutation time or "good time". These good time or time-earning categories are referred to as Class I, Class II and Class III.

Class I provides that each inmate in this time-earning class will receive a total of 20 extra days time for each month served on his sentence, as long as that inmate maintains a clear conduct and work record. Whenever any inmate is received in the Texas Department of Corrections, he is immediately placed in Class I.

Class II provides that any inmate in this class or category will receive a total of 10 extra days time for each month served. This class is set aside for those inmates who have been found in violation of one or more of the rules and regulations of the TDC. The State Disciplinary Committee is the governing authority for placing an inmate in this classification.

Class III provides that each inmate in this category will receive no extra days for each month served. Class III is for those inmates who violate one or more of the rules and regulations of the TDC. The State Disciplinary Committee is the governing authority for restoring an inmate to a time-earning class. The Committee will act only with the recommendation of the unit warden.

Other Considerations -- It is readily understandable that an inmate who desires to serve his sentence in a reduced length of time will strive to remain in Class I. Further, it should be noted that any inmate in Class II or III will not be considered for any special assignment in the TDC such as State Approved Trusty. In other words, when an inmate is received in the TDC he is placed in a special time-earning category from which he can work his way up or allow himself to be demoted to a lower class.

Trusty Class -- Under the same law which provides for commutation or "good time" for the inmates, there are set forth other special time-earning classifications. These are known as State Approved Trusty (SAT) classifications.

In the TDC, there are four categories of State Approved Trusty. These four category are known as State Approved Trusty-Class I, Class II, Class III and State Approved Trusty-Class III Construction. All four classes of State Approved Trusty earn 30 days overtime for each month served.

Source: Texas Department of Corrections

*** NOTE 7 ***
MEDICAL CLASSIFICATION OF INMATES

Class I UNRESTRICTED WORK This group generally is composed of men under 40 years of age who have no disease or physical defect which prevents their assignment of any work.

Class II RESTRICTED WORK This group generally includes men between 40 and 50 years old, youth (17 years of age or less), small men (120 pounds or less), and inmates who are obese. Men who have mild structural defects which cause slight impairment, men with old fractures or other injuries which have healed, and men with mild degrees of myopia (near-sightedness) are placed in this group if the condition will not be aggravated by work. Also, poorly developed men are sometimes placed in this classification.

Class III LIGHT WORK WITH MEN OF LIKE CLASS This group generally includes men in their early fifties who are in good condition and have no significant physical abnormalities. Younger men who have some physical defects which limit appreciably their ability to do farm work, the condition not being aggravated by that work, are in this group. Men with a high degree of myopia, correctable with glasses; men with a history of epilepsy, but whose seizures are infrequent and whose epilepsy is being well controlled with anticonvulsant drugs; men with a history of tuberculosis which has been inactive for at least 5 years; men with history of and infrequent attacks of asthma; and men with mild arthiritic problems.

Class IV LIGHT WORK - NO LINE ASSIGNMENT This group generally includes men past 60 years of age and younger men who have physical abnormalities which, in the opinion of the examining physician, make them unfit for field work. This would include men who have lost an arm, a leg, or three or more fingers; men who are suffering from deafness or severe impairment of vision; men with atrophy or one or more of the extremities; men with severe hypertension, heart disorders, severe epilepsy, and/or any other disease which makes them them unsuitable for farm labor.

Class V HUNSVILLE UNIT This group generally includes all seriously ill men. Those who regularly require medical attention which cannot be provided on other units.

JOB MANAGEMENT CODES

Dictionary of Occupational Title Codes

All of the occupation codes for the Texas TARP files use a six-digit code described as a DOT (Dictionary of Occupational Titles) code as defined by the U.S. Department of Labor, Employment, and Training Administration.

*** NOTE 11 ***
CONDITIONS OF PAROLE

<SEVERAL WORDS WERE NOT READABLE IN THE ORIGINAL TEXT. SPACES WERE LEFT WHERE THESE WORDS WOULD HAVE GONE.>

This Certificate of Parole does not become effective and in force until the following conditions are by the inmate, and it is understood that violation of, or refusal to comply with any of the conditions shall be sufficient cause for revocation of this parole.

In consideration of the parole granted to me by the Board of Pardons and Paroles I do hereby accept such parole. I recognize that my parole release is conditional and agree to abide by the following terms and conditions.

01. I will go directly to the destination approved by the Board of Pardon and Paroles and, upon arrival, report immediately to the Parole Officer or Person whose name and address appears in my parole certificate.

02. I will report to my place of employment, conduct myself honorably; work diligently in a lawful occupation; support my dependants, if any, to the best of my ability; and live within my lawful income.

03. I will secure the permission of my Parole Officer before changing my residence or my place of employment.

04. I will secure the permission of my Parole Officer before I leave my county or the state to which I am paroled, and allow any representative of the Board of Pardons and Paroles to visit in my residence and place of employment at any time.

05. I will secure the permission of my Parole Officer before entering marriage.

06. I will secure the permission of my Parole Officer before purchasing or operating an automobile.

07. I will submit a full and truthful report to my Parole Officer on the forms provided for that purpose before the fifth day of each month or as instructed by my Parole Officer.

(CONTINUED)

08. I will not have in my possession nor use alcoholic or intoxicating beverages or narcotics of any kind and will not go into, remain about, or frequent places where they are dispensed. I will freely cooperate and voluntarily submit to medical and chemical tests and examinations for the purpose of determining whether or not I am using or am under the influence of alcohol or narcotics when ordered to do so by my Parole Officer or the Board of Pardons and Paroles.

09. I will not be in communication with nor associate with persons having a criminal background or questionable reputation.

10. I will obey all municipal, county, state, or federal laws.

11. I will not own nor have in my possession or under my control any weapons or firearms for any purpose without first getting the written consent of my Parole Officer, and then only after compliance with all local, state and federal laws.

12. In the event I am granted the privilege of residing in and being under the supervision of any other state or under the Interstate Compact for the Supervision of Parolees and Article 42 11 C.C.P. of Texas, and in consideration of being granted parole by the State of Texas, Board of Pardons and Paroles, or for any other reason I may be outside of the State of Texas. I hereby agree and I hereby do waive extradition to the State of Texas from any jurisdiction in or outside the United States where I may be found. I do hereby further agree that I will not in any manner contest any effort by the State of Texas, or any state or jurisdiction me to the State of Texas.

13. I will promptly and truthfully answer all inquiries directed to me and furnish all information requested of me by the Board of Pardons and Paroles or by my Parole Officer.

14. If at any time it becomes necessary to communicate with my Parole Officer for any purpose and he is not available, I will my communication to the Board of Paroles and Pardons, John H. Reagan Bldg., Room 50 Austin, Texas 78701.

(CONTINUED)

I HEREBY CERTIFY that I fully understand and accept each of the above conditions under which I am being released and agree that I am bound to faithfully observe each of the same. I fully understand and agree that a violation of or refusal to comply sufficient cause for revocation of this parole or an arrest upon a warrent issued by the _____.

ACKNOWLEDGEMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

> The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for Transitional Aid Research Project (TARP) were originally collected by Peter H. Rossi, Richard A. Beck and Kenneth J. Lenihan. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

STUDY DESCRIPTION

TARP evolved out of an earlier LIFE (Living Insurance for Ex-prisoners) study conducted in Baltimore, Maryland from 1971 to 1974. Five hundred high-risk prisoners, defined as such by their probability of re-arrest, were randomly assigned at release from prison to experimental and control groups which varied by the amount of money received (contingent upon employment or unemployment) and job placement services provided. The results of this project were encouraging. Ex-prisoners receiving payments were less likely to be re-arrested for property theft related crimes than those who received only job placement or no services or payments of any kind, an effect which led to 8% fewer arrests for such causes or a relative 25% drop in the arrest rates over a year's period of time. TARP was designed to provide a replication of this LIFE experiment and to overcome several limitations of that project:

1. To provide a larger and more representative sample of prisoners,

2. To provide greater variation in treatment conditions,

3. To provide the experiment in the "real world", where the administration of payments and job placement services would be conducted by existing agencies,rather than by a special purpose project staff.

The TARP experiment began in June of 1975. The Department of Labor sent out inquiries to virtually all of the states ascertaining their interest in conducting a field experiment on their prison population. Georgia and Texas were awarded the contracts, based upon their capabilities to conduct the experiment, collect the required post-release research data, and provide a suitable prison population. In Texas, the overall responsibility was lodged in the Texas Department of Corrections (TDC), while in Georgia, the Georgia Department of Corrections and the Employment Security Agency divided the labor. To provide overall coordination for the project, the Department of Labor contacted the American Bar Association which then hired Dr. Kenneth Lenihan, coordinator of the LIFE experiment, to serve as principal investigator for TARP.

Sample size was set large enough to detect small differences. A sample of 400 men from each state, released

from prison during July 1, 1973 to June 30, 1974, were tracked through the state's criminal justice computerized systems to determine their rates of re-arrest. In Texas this figure was 29.3% for property crime and 11.2% for other crime, totaling 32.5%. In Georgia, the re-arrest rate for property crime was 24% and 12% for other crimes, totaling 36%. These figures were then used to set the sample sizes for the experiment.

The Department of Corrections in each of the states knows in advance when a prisoner is due to be discharged from prison. Lists of such prisoners were drawn up and made available to the TARP research teams who screened them first to identify those who would be eligible for inclusion in the experiment. All releases were eligible except those who:

1. were returning to live in an unsampled rural county
2. were returning to live outside the state
3. had existing warrants or detainers against them

The first condition was deemed important due to an administrative need to restrict the scope of geographic coverage, since both Georgia and Texas are large states. In Texas, 75% of the ex-prisoners were expected to return to 17 of the 254 total counties. An additional 20% of the releases were expected to return to the other counties, of which 14 were included in the study through a random selection of two county clusters, comprised of contiguous counties expected to receive approximately 50 or more releases each. This resulted in a 13% sample of the remaining counties in Texas (these counties are referred to as the "31-county area" in the codebooks). Five percent of the ex-prisoners in Texas were expected to leave the state and were not eligible for TARP.

In Georgia, 129 out of 159 counties were serviced by employment offices and these were expected to receive 91% of the released prisoners. In a procedure similar to that used in Texas, county "clusters" were formed, each expecting a return of approximately 12 prisoners. Two such clusters were randomly selected, providing a 19% sample of the remaining 9% of the released prisoners who returned to other counties.

All released prisoners who were eligible for TARP by the above criteria were included in the experiment until the target sample sizes were achieved. Assignment to groups was made according to a set of procedures that assured that there was no systematic bias in allocation to any of the groups and which also assured that the groups would be comparable in certain respects. This systematic assignment procedure amounted to a stratified randomization of eligible released prisoners. Although the stratified, systematic, randomized assignment procedure differed slightly in the two states, the procedure employed was first to classify each releasee into one of a number of categories formed out of the combination of sex, age, parole or discharge, and urban or rural residence.

Released prisoners were assigned to groups using a stratified random procedure until a group size quota was met. In Texas, the stratification was based on, first, urban/rural county of return, sex, and for the male prisoners, method of release, age and marital status. For females, further division was made on method of release and age (26 and under or 27 and older). In Georgia, due to more available data, another marital group for whom no marital status was available was identified, and urban residents were further divided by whether they had been working at the time of their last arrest.

DATA COLLECTION PROCEDURES

There were nine data files created in each state (now combined into one file for each state) to correspond to the nine different sources of information assembled for each TARP case. Below is a table showing the variable numbers in the ICPSR dataset corresponding to the original nine data files.

FILE NAME	VARIABLE NUMBER RANGE TEXAS	GEORGIA
PRISON HISTORY	V1-V152	V1-V140
PRE-RELEASE INTERVIEW	V153-V218	V141-V320
THREE MONTH INTERVIEW	V219-V443	V321-V637
SIX MONTH INTERVIEW	V444-V738	V638-V928
TWELVE MONTH INTERVIEW	V739-V1189	V929-V1361
PAYMENT SUMMARY DATA	V1190-V1228	V1362-V1502
WAGE DATA	V1229-V1241	V1503-V1525
PAROLE DATA	V1415-V1436	V1526-V1549
ARREST DATA	V1242-V1414	V1550-V1747
JOB MARKET DATA	V1437-V1542	V1748-V1841
WORKFILE DATA	V1543-V1582	V1842-V1881

PRISON HISTORY

The prison history files are copies of tapes kept of administrative records created and maintained by the institution of incarceration. These files contain background data on the inmate, a record of prior criminal activity and institutionalization, and complete information on the TARP member's present conviction and sentencing. In addition, these files contain test scores and medical classifications based on testing done at a diagnostic center, through which each inmate is processed prior to his prison sentence. Missing data on the prison history files are a result of the data never having been recorded at the state-level institution.

INTERVIEW DATA

Four interviews were conducted with TARP members in groups 1 to 5 during the one-year period after their release from prison. Prisoners assigned to Group 6 were never interviewed. The four interview files consist of:

1. Pre-release interview
2. Three month interview
3. Six month interview
4. Twelve month interview

STATE ARREST DATA

The State Arrest file contains data on criminal record retries for each TARP participant made to the state criminal justice system during the entire post-release year. Because arrests are generated locally, the completeness and accuracy of the central state files was dependent to a large extent on how faithfully local jurisdictions reported arrests and dispositions to the central state files. Given the experience of the Principal Investigator with the Maryland state criminal justice system, a check was made of the completeness of the records in the two states by checking local records against the computerized state files. As in Maryland, this check indicated that the state files were under-inclusive.

In addition, TARP, participants were reporting in their interviews some arrests that could not be found on their state level arrest files. To make the arrest information as complete as possible, searches were made of local sources. In Georgia, where the problem was particularly severe, this meant enlisting the aid of local police departments and sending out TARP interviewers to check county records. In Texas, local police files and county level computer files were both used to supplement the state-level arrest information.

TARP PAYMENT DATA

Records of the number, amount and date of all TARP payments were obtained from the Texas and Georgia Employment Security offices.

SOCIAL SECURITY WAGES

Data on each TARP member's wages subject to Unemployment Insurance were collected through the state Employment Services. These files contain wage information by calendar year quarters on all wages in covered categories of employment. Starting with the calendar quarter in which the TARP member was released, his U.I. wage files were collected for 5 subsequent quarters. Since the one-year period of the TARP member's participation in the experiment does not match calendar quarters, new wage variables were constructed by allocating wages during the first and last calendar quarter to match the TARP member's year.

PAROLE RECORD

From the agency administering parole in each of the states, information was obtained on terms, conditions and length of parole given to each paroled TARP member. In addition, information was reported concerning any parole violations or revocations.

FILE STRUCTURE

The TRANSITIONAL AID RESEARCH PROJECT (TARP) data are available from the ICPSR in two formats: a card image file and an OSIRIS dataset. The card image file contains several decks per case in a format based on 80 column punched cards. The data are sorted by case with all decks for a case together in ascending order.

The OSIRIS dictionary gives the format and other information for each variable in the OSIRIS data file. The dictionary or dictionary-codebook file is used in conjunction with the OSIRIS software package. The OSIRIS data file is constructed with a single logical record for each case. There are 1,582 variables on 1,975 cases for Part 1 (Texas Released Inmate Data) and 1,891 variables on 2007 cases for Part 2 (Georgia Released Inmate Data).

The OSIRIS data file can be accessed directly through software packages or programs which do not use the OSIRIS dictionary by specifying the tape locations of the desired variables. These tape locations are given in the OSIRIS dictionary-codebook.

ICPSR PROCESSING INFORMATION

The study was processed according to the standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were recoded to OSIRIS missing data values. No consistency checks were performed. Statements bracketed in "<" and ">" signs in the body of the codebook were added by the processors for explanatory purposes.

CODEBOOK INFORMATION

The example below is a reproduction of information appearing in the machine-readable codebook for a typical variable. The numbers in brackets do not appear but are references to the descriptions which follow this example.

```
.....................................................

[1] VAR 0043      [2] TYPE OF MILITARY DISCHAR    [3] MD=9 OR
                                                      GE 99
    REF 0043      [4] LOC 109  WIDTH 2  [5] DK -   COL --
                                            [6] ------

[7] Type of Military Discharge
   ----------------------------------------

     [8] ----------------------------------------

     [9] ----------------------------------------

         [10]  [11]

         02.  Bad conduct
         03.  Dishonorable
         05.  General

         09.  No military service
         99.  No information

.....................................................
```

[1] Indicates the variable and reference numbers. A variable and reference number are assigned to each item in the study. In this codebook which documents the archived dataset these numbers are identical. Should the data be disseminated in a different structure, new variable numbers may be assigned or created. The reference number would remain unchanged and correspond to those in this codebook.

[2] Indicates the abbreviated (24 character maximum) variable label used within OSIRIS to identify each variable. An expanded version can be found in the Variable Description List.

[3] Indicates the designation of missing data. In this example, code values equal to 9 or greater than 99 are missing data (MD=9 OR GE 99). Alternative statements for other variables are

"MD=0, "MD GE 88", or "NO MISSING DATA CODES". Some analysis software packages (including the ICPSR-supported package) require that certain types of data which the user desires to be excluded from analysis be designated as "missing data" e.g., inappropriate, unascertained, unascertainable, or ambiguous data categories. Although this value is defined as within the missing data category, this does not mean that users should not or cannot use this code value in a substantive role if they so desire.

[4] Indicates the sequential location and width of this variable within the record when the data are stored on magnetic tape. In this example the variable named "TYPE OF MILITARY DISCHAR" is two columns wide and located in the 109th column within the record.

[5] Indicates the location by deck and column(s) of this variable when the data are stored on cards or in card image format.

[6] Indicates the number of decimal places for the variable, if any.

[7] Indicates the full text of the variable description supplied by the original collector of the data. The numbers and letters that may appear at the beginning are question numbers from the survey forms.

[8] Indicates an additional comment or explanation appended to the variable description.

[9] A variable which has a footnote associated with it is denoted by the message, "SEE NOTE(S) X" where X is the number of the footnote referenced.

[10] Indicates the code values occurring in the data for this variable.

[11] Indicates the textual definitions of the codes.

NOTE: THE FOLLOWING DATA ON CHARGES, ARRESTS, AND CONVICTIONS ARE TAKEN FROM Q.43 IN THE INTERVIEW SCHEDULE, "HOW MANY TIMES HAVE YOU BEEN ARRESTED FOR ANY OF THE FOLLOWING CHARGES"? (INCLUDING THE TIMES YOU WERE ARRESTED AND NOT CONVICTED)". THIS INFORMATION WAS LATER CODED TO CORRESPOND TO THE GEORGIA CRIMINAL CODE NUMBERS (SEE NOTE 4). REF 285 THEREFORE REPRESENTS THE FIRST CRIME THE INTERVIEWEE STATED, AND REF 286 AND 287 THE ARREST AND CONVICTION DATA PERTINENT TO THAT CRIMINAL CHARGE. IF THE INMATE WAS EVER CHARGED WITH A SECOND CRIME, THE DATA ARE CONTAINED IN REF 288 - 290. A ZERO HERE MEANS NOT APPLICABLE (NO OTHER CHARGE). THERE WAS SPACE ALLOTTED TO CODE UP TO TWELVE CHARGES. THE RESPONSE CODE OF NINE (9) FOR NUMBER OF ARRESTS AND CONVICTIONS IS TO BE INTERPRETED AS "NINE OR MORE".

NOTE: THE FOLLOWING SECTION OF VARIABLES, REF 722 - 786, REPRESENT THE EMPLOYMENT DATA FOR THE TARP MEMBERS. REF 722 - 725 (Q.22) APPLY ONLY TO THOSE MEMBERS WHO STATED AT THE TIME OF THE THREE-MONTH INTERVIEW, THAT THEY HELD A JOB. REF 726 APPLIES TO MEMBERS WHO DID NOT HAVE A JOB AT THE TIME OF THE THREE-MONTH INTERVIEW. IF A MEMBER HAD AT LEAST ONE JOB, THIS INFORMATION WAS CODED IN REF 727 - 786(Q.24).

IDEALLY, THE INTERVIEW SHOULD REFLECT ONLY DATA ON THE SECOND THREE MONTHS SINCE RELEASE FROM PRISON FOR THE TARP PROJECT. HOWEVER, SINCE NOT ALL TARP MEMBERS WERE LOCATED

(CONTINUED)

AND INTERVIEWED AT THE TIME FOR WHICH THE INTERVIEW WAS SCHEDULED, (WHICH IN THIS CASE INCLUDES SOME CASES WHICH WERE NOT LOCATED FOR THE THREE-MONTH INTERVIEW), SUGGEST USE OF THE DATE EACH JOB WAS OBTAINED IF A RIGID SEPARATION OF TIME PERIODS IS REQUIRED.

DATA ON MEMBERS WHO HAD NOT WORKED AT A JOB SINCE THE THREE-MONTH INTERVIEW, BUT MAY HAVE MADE SEVERAL JOB SEEKING EFFORTS ARE LOCATED IN REF 786 - 800.
