ACKNOWLEDGMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-University Consortium for Political and Social Research. The data for American Bar Foundation: State Criminal Court Cases, 1962, were originally collected by Lee Silverstein and Stuart S. Nagel. Neither the original collectors of the data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources, and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

STUDY DESCRIPTION

Lee Silverstein and Stuart S. Nagel;
AMERICAN BAR FOUNDATION: STATE CRIMINAL COURT CASES, 1962.
(ICPSR 7272)

During 1963-1964 data were collected on the 1962 criminal court cases for the 50 states and District of Columbia. A sample of cases from 194 counties was selected and weighted to yield a national cross-section of cases.

The data include demographic information on the defendant, state and county of trial, offense charged, sentence, type of counsel, amount of bail, length of time in jail and other variables relating to disposition of the case. There is one card of data for each of the 11,257 cases.
