ing reliable report will

This report provides an overview of Juvenile Court operations in Pennsylvania. This statistical data represents dispositional information submitted by the Commonwealth's Juvenile Courts to the Juvenile Court Judges' Commission for the calendar year ending 1984. Please note that the report is limited to dispositional data on delinquency cases and does not include dependency cases.

Due to a major redesign effort by our statistical unit, the report format was changed considerably in 1982. We are confident that the new information presented in this year's report will help each court in their planning, research, and evaluative processes. Specifically, the detailed tables on selected offenses by county should provide insight to court management in their planning functions. More detailed information that is beyond the scope of this report is available in our statistical data files. Our statistical office is available to discuss any additional data needed.

This year the report has been expanded to include comparative data regarding dispositions and placements collected from 1982 thru 1984. Also, for the first time, offense and specific placement information has been reported from Philadelphia County. These two additions will provide a more comprehensive overview of dispositions in the Commonwealth.

This report would not have been possible without the efforts and support of Pennsylvania Juvenile Court Judges and their probation staffs. Special thanks is due the Pennsylvania Council of Chief Juvenile Probation Officers for their continuing support and assistance in developing the new data system that is the basis for this report. It is on behalf of all of the dedicated people comprising Pennsylvania's Juvenile Justice system that the Commission presents this report.

Respectfully submitted,

W. Richard Eshelman
Chairman

PREFACE

To avoid confusion regarding the unit of count used in tabulating Juvenile Court Statistics and to improve the understanding of how data can be interpreted kindly note:

1. The primary unit of count is the DISPOSITION. A disposition is defined as a referral disposed by the probation department and/or the court. Within a single referral, a youth may be charged with a number of offenses, and one youth may be involved in a number of dispositions within a calendar year. In addition, a youth may be referred on more than one occasion and receive only one disposition. Therefore, one is cautioned NOT to attempt to interpret the data as: (a) the number of youth who are processed by the court, or (b) the number of offenses charged to juveniles. The use of disposition as the unit of count was selected because it provides the best statistic for indicating how frequently the juvenile court is utilized in dealing with law violating;
2. There are times when you will see the word "CASE" used to describe the data. In JCJC reports the word case is used interchangeably with the word "disposition;"
3. Therefore, the UNIT OF COUNT refers to a case disposed by a juvenile court and/or probation department. The term "DISPOSED" means that some definite action/decision has been implemented or that some treatment plan has been decided upon or begun;
4. The data presented in JCJC reports does not constitute a complete and comprehensive measure of the extent of delinquent behavior. Some youth are never apprehended and of those that are apprehended the police, school authorities, or other social agencies divert some cases for intervention outside the juvenile court system. In addition, the statistical system is not geared to collect all charges. The system is constructed to collect up to a total of the four (4) most serious charges per disposition;
5. Some agencies and individuals attempt to utilize the JCJC reports to assess the workload of the juvenile courts and/or probation departments. The data collected by JCJC does NOT reflect the work load of said entities. At best the figures reported by JCJC would reflect only a partial indication of workload and/or activity.

Please note that the data from Philadelphia County was collected manually. This effort, funded by the Pennsylvania Commission on Crime and Delinquency, had the following impacts upon the information contained in this report:

1. It will be possible to compare Philadelphia with other counties in the state especially in regard to offense and placement information. In the past this type of comparison was not possible;
2. The reader should be aware that the manual method of collecting the data for Philadelphia resulted in significantly lower figures in regard to dispositions and placements when compared to the information collected by the automated system in Philadelphia.

In 1984 delinquency dispositions in the State were down 10.5% from 1983. However, Allegheny County reported an increase of 1.6% while Philadelphia County reflected a decrease of 20.5%. Please note that the Philadelphia figures may be low. (See Preface) Aggregate dispositions in other counties of the Commonwealth were down by 7.6%. The following summary table shows delinquency dispositions for the five year period 1980 to 1984.

TABLE C: DELINQUENCY DISPOSITIONS, 1980 — 1984

The median time lapse from referral to disposition during 1984 was 40 days. This is an increase of 5 days or 12.5% above the 1983 figure. Complaint Withdrawn took the longest median time to dispose, while Referred to Another Agency took the least median time to dispose. The following table summarizes the mean and median time lapse for all dispositions by the specific type of disposition.
