Completed robbery	75.5	68.5	4.5	12.4
Attempted robbery	51.5	36.2	14.8	10.5

NOTE: The data are based solely on weapons of types recognized by persons on the scene at the time of the incident. For each robbery in which more than one weapon was used, the identity of only the most lethal kind of weapon was recorded. Thus, the sum of the proportions of recognized types of the three categories of weapons equals the proportions of incidents in which weapons were used. Detail may not add to total shown because of rounding.

<sup>1</sup>Estimate, based on about 10 or fewer sample cases, is statistically unreliable.
