

The author(s) shown below used Federal funds provided by the U.S. Department of Justice and prepared the following final report:

Document Title: Utility of Postmortem X-ray Computed Tomography (CT) in Supplanting or Supplementing Medicolegal Autopsies

Author(s): Sarah L. Lathrop, D.V.M., Ph.D., Kurt B. Nolte, M.D.

Document No.: 249949

Date Received: June 2016

Award Number: 2010-DN-BX-K205

This report has not been published by the U.S. Department of Justice. To provide better customer service, NCJRS has made this federally funded grant report available electronically.

Opinions or points of view expressed are those of the author(s) and do not necessarily reflect the official position or policies of the U.S. Department of Justice.

Table of Contents

Executive summary	8
Introduction	17
Statement of the problem	17
Literature review	19
Statement of hypotheses	26
Research design and methods	28
Results	39
Statement of results	39
Blunt force injury cohort	39
Firearms fatalities cohort	43
Pediatric trauma deaths	48
Potential drug poisoning deaths	51
Tables	54
Blunt force injuries	54
Table 1 – Demographics	54
Table 2 – Mean age in years by gender	54
Table 3 – Manner of death	54
Table 4 – Mechanism of death	55
Table 5 – Cause of death comparison	55
Table 6 – Mean number of findings by region	55
Figure 1 – Number of findings AIS region	56
Table 7 – Injury counts by AIS region	57
Table 8 – Missed injury counts	57
Table 9 – Injury Severity Score (ISS) as assigned by autopsy and PMCT	58
Figure 2 – Comparison of ISS scores	58
Table 10 – Distribution of ISS scores	59
Figure 3 – Distribution of ISS scores	59
Table 11 – Kappa statistics by AIS region for Maximal AIS score	60
Table 12 – Findings most commonly missed on autopsy	60
Table 13 – Findings most commonly missed on PMCT	61
Figure 4 - Distribution of severity scores for missed findings	62
Firearms fatalities cohort	63
Table 14 – Demographics of all GSW decedents	63
Table 15 – Types of firearms used	63
Table 16 – Cause of death comparison	64
Table 17 – Injury Severity Scores (ISS) assigned by autopsy and PMCT	64
Table 18 – Kappa statistics for MAIS scores, all GSW decedents	64
Table 19 – Findings most commonly missed by autopsy	65
Table 20 – Findings most commonly missed by PMCT	65
