GMS Report Prison Rape Elimination Act 2014-RP-BX-0013 Reporting Period: October 1 - December 31, 2014

This report is generated for the Corrections, Florida Department of grantee for federal award number 2014-RP-BX-0013. The award amount is \$ 497,835. The award has been reported as NOT OPERATIONAL during the period October 1 - December 31, 2014. Any funds reported only represent an estimate of dollars allocated or used for activities covered by this award.

Project Description

The Prison Rape Elimination Act (PREA) Program provides funding to states, units of local government, and federally recognized Indian tribes to support comprehensive approaches within state, tribal, and local adult and juvenile correctional facilities to prevent, detect, and respond to incidences of sexual victimization. The PREA Program provides funding to eligible applicants for demonstration projects within confinement settings, including adult prisons and jails; juvenile facilities; community corrections facilities; law enforcement lockups and other temporary holding facilities; and tribal detention facilities. Applicants must successfully communicate a comprehensive approach to the prevention, detection, and response to the incidence of sexual abuse and clearly prioritize gaps which are as of yet unaddressed, either programmatically or through changes in policy and procedures, as they relate to implementation of the PREA standards. The goal of this program is to assist local adult and juvenile facilities in implementing prevention, identification, and response mechanisms that will reduce the incidence of sexual abuse in confinement facilities. The Florida Department of Corrections will use awarded grant funds to provide a safe inmate environment and achieve compliance with PREA standards by addressing incidents of sexual victimization in its facilities statewide. Funding under this grant will target three high rate facilities for sexual victimization by providing additional video monitoring equipment, specialized investigator training, and PREA pre-audits to ensure that each facility is aware of what is expected and required for the official audits.
