

Utilizing the EEO Reporting Tool

Introduction

The Equal Employment Opportunity (EEO) Reporting Tool is designed to assist recipients of DOJ financial assistance with meeting some of their related civil rights reporting requirements. Compliance with various federal civil rights standards and reporting is a condition of accepting federal financial assistance. Failure to meet these requirements could result in loss of current and/or future funding. However, use of this tool to prepare and submit required reports, while encouraged, is voluntary.

The online EEO Reporting Tool enables users to establish accounts and login credentials so that they can set up organization profiles, create and submit their certifications and utilization reports (if required), and then access the saved information in subsequent logins.

Overview of the Process

When your organization accesses the EEO Reporting Tool, the following steps should be completed to set up an account, establish your organization's profile, and submit a certification:

1. Confirm if your organization does or does not have an existing organizational login account (i.e. ABC Police Department).
 - If your organization does not have an existing organizational login account, proceed to step 2.
 - If your organization does have an existing organizational login account, proceed to step 3.
