## COPS OFFICE FISCAL YEAR 2022 BUDGET REQUEST

- The Office of Community Oriented Policing Services (COPS Office) advances the practice of community policing by the nation's state and local law enforcement agencies through information sharing and grant resources. The COPS Office also provides expertise and other assistance in advancing public safety through the implementation of community policing strategies in jurisdictions of all sizes across the country.
- Community policing is a philosophy that promotes organizational strategies that support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, and fear of crime.

# ALIGNING WITH ADMINISTRATION PRIORITIES

In Fiscal Year 2022, the COPS Office will:

- Prioritize applications for jurisdictions that support Community Violence Intervention (CVI) programs, for jurisdictions that seek to hire officers that would engage directly with CVI teams and other community stakeholders to ensure those groups are involved in strategic operations and planning, and for jurisdictions seeking to implement hiring practices to help agencies mirror the racial diversity of the communities that they serve;
- Require hiring grant applicants to complete a comprehensive community policing plan that incorporates a problem solving component;
- Ask applicants to specify crime issues that they will target with hiring funding;
- Provide technical assistance on specific problems identified by grantees, such as Gun Violence, Building Legitimacy and Trust, Combating Hate and Domestic Extremism, and improving Police-Based Response to Persons in Crisis.
