

The [U.S. Department of Justice](#) (DOJ), [Office of Justice Programs](#) (OJP), [National Institute of Justice](#) (NIJ) is seeking applications for funding under the FY 2013 Paul Coverdell Forensic Science Improvement Grants Program. This program furthers the Department's mission by providing States and units of local government with tools needed to meet the challenges of crime and justice. Specifically, this program seeks to improve the quality and timeliness of forensic science and medical examiner services, including services provided by laboratories operated by States and units of local government.

Paul Coverdell Forensic Science Improvement Grants Program

Eligibility

Eligible applicants are limited to States (including territories) and units of local government. State Administering Agencies (SAAs) apply on behalf of States, including any State government entity. (See "Eligibility" on page 3.)

Deadline

Applicants must register in [OJP's Grants Management System](#) (GMS) prior to submitting an application for this funding opportunity. Select the "Apply Online" button associated with the solicitation title. (See "How to Apply," page 26.) All registrations and applications are due by 11:59 p.m. eastern time on **May 2, 2013**. (See "Deadlines: Registration and Application," page 3.)

Contact Information

For technical assistance with submitting an application, contact the Grants Management System Support Hotline at 888-549-9901, option 3 or via e-mail at GMS.HelpDesk@usdoj.gov.

Note: The [GMS](#) Support Hotline hours of operation are Monday – Friday from 6:00 a.m. to midnight eastern time, except federal holidays.

For assistance with any other requirements of this solicitation, contact Alan C. Spanbauer, Program Manager, by telephone at 202-305-2436, or by e-mail at Alan.Spanbauer@usdoj.gov.

Paul Coverdell Forensic Science Improvement Grants Program

CFDA No. 16.742

Overview

With this solicitation, NIJ seeks proposals for the Paul Coverdell Forensic Science Improvement Grants Program (the Coverdell program), which awards grants to States and units of local government to help improve the quality and timeliness of forensic science and medical examiner services. Among other things, funds may be used to eliminate a backlog in the analysis of forensic evidence and to train and employ forensic laboratory personnel, as needed, to eliminate such a backlog. State Administering Agencies (SAAs) may apply for both “base” (formula) and competitive funds. Units of local government may apply for competitive funds.

Authorizing Legislation: The Coverdell program is authorized by Title I of the Omnibus Safe Streets and Crime Control Act of 1968, Part BB, codified at 42 U.S.C. § 3797j-3797o (the Coverdell law).

IMPORTANT NOTE

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law. Applicants should be aware that as of the writing of this solicitation, no full-year appropriation for FY 2013 for the Department of Justice or the Coverdell program has been enacted. Please refer to “Available Funding” under “Program-Specific Information,” below.

Deadlines: Registration and Application

Applicants must register in GMS prior to submitting an application for this funding opportunity. The deadline to register in GMS is 11:59 p.m. eastern time on **May 2, 2013**, and the deadline to apply for funding under this announcement is 11:59 p.m. eastern time on **May 2, 2013**. See “How to Apply” on page 24 for details.

Eligibility

States¹ and units of local government may apply for FY 2013 Coverdell funds. States may be eligible for both “base” (formula) and competitive funds. Units of local government within States may be eligible for competitive funds and may apply directly to NIJ. Any State application for funding **MUST** be submitted by the Coverdell SAA (see list of SAAs on the OJP Web site at www.ojp.usdoj.gov/saa/index.htm). (Other interested State agencies or departments must coordinate with their respective SAAs.)

¹ For purposes of the Coverdell program, the term “State” means each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands. For certain purposes, American Samoa and the Northern Mariana Islands are treated as one State.

The Coverdell law (at 42 U.S.C. § 3797k) requires that, to request a grant, an applicant for Coverdell funds must submit:

1. **A certification and description regarding a plan for forensic science laboratories.** Each applicant must submit a certification that the State or unit of local government has developed a plan for forensic science laboratories under a program intended to improve the quality and timeliness of forensic science or medical examiner services in the State, including such services provided by the laboratories operated by the State and those operated by units of local government within the State. Applicants must also specifically describe the manner in which the grant will be used to carry out that plan.
2. **A certification regarding use of generally accepted laboratory practices.** Each applicant must submit a certification that any forensic laboratory system, medical examiner's office, or coroner's office in the State, including any laboratory operated by a unit of local government within the State, that will receive any portion of the grant amount (whether directly or through a subgrant) uses generally accepted laboratory practices and procedures established by accrediting organizations or appropriate certifying bodies.
3. **A certification and description regarding costs of new facilities.** Each applicant must submit a certification that the amount of the grant used for the costs of any new facility constructed as part of a program to improve the quality and timeliness of forensic science or medical examiner services will not exceed certain limitations set forth in the Coverdell law at 42 U.S.C. § 3797m(c). (See information on "permissible expenses" in the next section of this announcement.) Applicants must also specifically describe any new facility to be constructed as well as the estimated costs of the facility.
4. **A certification regarding external investigations into allegations of serious negligence or misconduct.** Each applicant must submit a certification that "a government entity exists and an appropriate process is in place to conduct independent external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors of any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount."

Applicants are expected to review the requirements of each certification carefully before determining whether the certification properly may be made. Any certification that is submitted must be executed by an official who is both familiar with the requirements of the certification and authorized to make the certification on behalf of the applicant agency (that is, the agency applying directly to NIJ). **Certifications must be submitted using the templates that appear in Appendix 2.**

Certifications made on behalf of subrecipients of award funds—rather than certifications made on behalf of the agency applying directly to NIJ—are **not** acceptable to satisfy the certification requirements.

In connection with the certification regarding external investigations (described above), applicants **must** provide, prior to receiving award funds, the name(s) of the existing “government entity” (or government entities). This information is to be provided as an attachment to the program narrative section of the application. See “What an Application Should Include,” below, and Appendix 3, which includes a template for the attachment.

Please note that funds will not be made available to applicant agencies that fail to provide the necessary information.

Important Note on Referrals in Connection With Allegations of Serious Negligence or Serious Misconduct

The highest standards of integrity in the practice of forensic science are critical to the enhancement of the administration of justice. We assume that recipients (and subrecipients) of Coverdell funds will make use of the process referenced in their certification as to external investigations and will refer allegations of serious negligence or misconduct substantially affecting the integrity of forensic results to government entities with an appropriate process in place to conduct independent external investigations, such as the government entities identified in the grant application.

For each fiscal year of an award made under this solicitation, recipients will be required to report to NIJ on an annual basis—

- 1) the number and nature of any such allegations;*
- 2) information on the referrals of such allegations (e.g., the government entity or entities to which referred, the date of referral);*
- 3) the outcome of such referrals (if known as of the date of the report); and*
- 4) if any such allegations were not referred, the reason(s) for the non-referral.*

Payments to recipients (including payments under future awards) may be withheld if the required information is not submitted on a timely basis.

Special Guidance on Certification Regarding External Investigations Into Allegations of Serious Negligence or Misconduct.

The certification regarding external investigations has a number of requirements, each of which must be satisfied before the certification may be made. The official authorized to make the certification on behalf of the applicant agency must review each of the statutory elements and this guidance carefully before determining whether a certification properly may be made. After reviewing the information and guidance provided here, the official, on behalf of the applicant agency, must determine whether:

- A government entity exists
- With an appropriate process in place
- To conduct independent, external investigations

- Into allegations of serious negligence or misconduct
- Substantially affecting the integrity of the forensic results
- Committed by employees or contractors
- Of any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount.

Note: In making this certification, the certifying official is certifying that these requirements are satisfied not only with respect to the applicant itself but also with respect to each entity that will receive a portion of the grant amount. Certifying officials are advised that: (1) a false statement in the certification or in the grant application that it supports may be the subject of criminal prosecution, including under 18 U.S.C. § 1001 and 42 U.S.C. § 3795a, and (2) Office of Justice Programs grants, including certifications provided in connection with such grants, are subject to review by the Office of Justice Programs and/or by the Department of Justice's Office of the Inspector General.

The following guidance, provided by way of examples for applicants' review, is designed to illustrate elements of the external investigation certification that the official authorized to make the certification on behalf of the applicant agency must take into account in determining whether the certification properly may be made.

Because it is not possible for NIJ to provide examples relating to every type of government entity with an appropriate process in place to conduct independent, external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors, this guidance should not be viewed as all inclusive. In addition, this guidance is not intended to constitute legal advice from NIJ on the question of whether the required certification properly may be made on behalf of the applicant. Such a determination must be made by an appropriate official based on the statutory requirements of the certification after review of this guidance.

Illustrative Examples:

1. The only government entity that will receive Coverdell award funds is a forensic laboratory that is a unit of a local law enforcement agency (e.g., a police department). The law enforcement agency has an Internal Affairs Division (IAD) that reports directly to the head of the law enforcement agency (the Police Chief) and the head of the unit of local government (the Mayor/City Commissioner). The IAD has the authority to conduct investigations into allegations of serious negligence or misconduct by laboratory employees **and** contractors.

Guidance: Execution of the certification might be appropriate under these facts. Nevertheless, the official authorized to make the certification on behalf of the applicant agency must be satisfied that the IAD at issue has the requisite authority to conduct independent investigations (for example, whether the IAD is completely free from

influence or supervision by laboratory management officials) into allegations relating to employees or contractors of the laboratory.

2. A State intends to distribute Coverdell award funds to State and local forensic laboratories and medical examiners' offices. There is an Office of the Inspector General (OIG) in the State with authority to conduct investigations into allegations of serious negligence or misconduct by employees and contractors of forensic laboratories and medical examiners' offices, both at the State and local levels.

Guidance: Execution of the certification might be appropriate under these facts. Nevertheless, the certifying official must be satisfied that the State IG's authority in this regard is not circumscribed in such a way that the IG's ability to conduct independent investigations is limited (for example, through a reporting hierarchy that does not provide for the IG to report directly to the chief executive officer or another equally independent State official or office).

3. A city has applied for a Coverdell award and all funds will go to the city's forensic laboratory. There is a process in place whereby the city's District Attorney (DA) may appoint an independent investigator to conduct an investigation into allegations concerning the city's forensic laboratory. If the DA appoints an independent investigator, the investigator will have authority to investigate allegations of serious negligence or misconduct by both laboratory employees and contractors.

Guidance: Execution of the certification might be appropriate under these facts. In this regard however, the certifying official must be satisfied that the process at issue (appointment of an independent investigator by the city DA) includes procedures under which allegations involving the laboratory are submitted to or are made known to the DA, and that the DA's authority and responsibility to appoint an independent investigator to conduct investigations of such allegations is sufficiently delineated in city policies and/or regulations so that the "appropriate process" in place is clearly defined.

4. An applicant agency determines that the forensics laboratory director (or some other individual in the chain of command at the laboratory) has sole responsibility to conduct investigations into allegations of serious negligence or misconduct committed by laboratory employees.

Guidance: Under these circumstances, execution of the certification would not be appropriate because there is no process in place to conduct independent, external investigations into allegations of serious negligence or misconduct committed by laboratory employees and contractors.

5. A State applicant intends to distribute Coverdell award funds to forensic laboratories at both the State and local level. An independent commission established by the Governor has authority to investigate allegations of serious negligence or misconduct by employees, including employees of units of local government within the State.

Guidance: Under these circumstances, the existence of this commission is not itself a sufficient basis for execution of the certification. In this regard, the commission does not

have authority to investigate allegations of serious negligence or misconduct by contractors of State and local government forensic laboratories that receive Coverdell funds. (If, however, some other government entity, distinct from the commission, has a process in place to conduct independent external investigations of allegations of serious negligence or misconduct by such contractors, execution of the certification might be appropriate depending on all the facts.)

6. A local forensic laboratory, which is intended to receive a portion of the funds from a Coverdell award to a State, notifies the State applicant that a quality assurance official is responsible for investigating allegations of serious negligence or misconduct by employees and contractors of the local forensic laboratory. The quality assurance official reports to the director of the forensic laboratory.

Guidance: Under these circumstances, execution of the certification would not be appropriate because the quality assurance official reports to the director of the forensic laboratory and, therefore, there is no process in place to conduct independent, external investigations of allegations against the forensics laboratory as required to make the certification.

7. An applicant agency (a forensics laboratory) intends to employ a contractor or a nongovernmental organization to conduct investigations into allegations of serious negligence or misconduct committed by laboratory employees.

Guidance: Under these circumstances, execution of the certification would not be appropriate, as there is neither a government entity nor an appropriate process in place to conduct independent, external investigations of allegations against the laboratory, whether alleged to be committed by laboratory employees and/or contractors, because the contractor or nongovernmental entity is employed by and responsible to the forensics laboratory.

8. An applicant agency is accredited by an independent accrediting or certifying organization such as CALEA, ASCLD-LAB, NAME, FQS, etc.

Guidance: In this situation, execution of the certification would not be appropriate. The fact of accreditation or certification by an outside entity on its own does not demonstrate that the agency has a process in place to investigate allegations of serious negligence or misconduct committed by employees or contractors. There is insufficient information to properly make the required certification in this situation.

Paul Coverdell Forensic Science Improvement Grants Program

Program-Specific Information

This solicitation seeks applications for funding to improve the quality and timeliness of forensic science and medical examiner services, including services provided by laboratories operated by States and/or units of local government. Among other things, funds may be used to eliminate backlogs in the analysis of general forensic evidence or to train and employ forensic laboratory personnel to eliminate such backlogs.

A. Available Funding

As of the writing of this solicitation, no full-year appropriation has been enacted for the Department of Justice for FY 2013 and thus the amount (if any) that will be made available for the Coverdell program is not known. The figures and calculations reflected in this solicitation (for example, the estimated minimum award to States and the estimated amount of “base” funds, by State) are based on an estimated total amount available of \$9,000,000, although the amount ultimately made available could be higher or lower (or even zero). Applicants are strongly advised to check for updates to the solicitation prior to submitting applications.

1. “Base” Funds for States

Approximately 75 percent of the funds available for Coverdell grants will be allocated among eligible States based on population (State “base” funds). The approximate amount each eligible State would receive if \$9,000,000 were made available for FY 2013 is listed in Appendix 1: “Estimated Amount of FY 2013 Base Funds, by State.”²

2. Competitive Funds for States and Units of Local Government

Twenty-five percent of the available funds will be allocated among States and units of local government through a competitive process. The average annual number of Part 1 violent crimes reported by each State to the Federal Bureau of Investigation for calendar years 2009, 2010, and 2011; existing resources; and current needs of the potential grant recipient will be considerations in award decisions. For FY 2013, the maximum amount a State or unit of local government may receive in competitive funds is **\$175,000**.

Units of local government that provide forensic science or medical examiner services (whether through a forensic science laboratory, medical examiner’s office, or coroner’s office) may apply directly to NIJ for competitive funds. A State may apply through its SAA for competitive funds for forensic sciences improvements **above and beyond** those it can accomplish with its estimated amount of base funds.

3. Minimum Awards to States

The Coverdell law sets a floor for the total amount an eligible applicant State will receive as its Coverdell grant. If \$9,000,000 were to become available for FY 2013, the minimum Coverdell grant to an eligible State would be not less than \$54,000.³ In that case, if the amount a State would otherwise receive as its total Coverdell grant (including both base funds and any competitive funds) is less than \$54,000, NIJ will increase that State’s total grant to \$54,000.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

B. Grant Purposes

A State or unit of local government that receives a Coverdell grant must use the grant for one or more of these three purposes:

² Under the provisions of the Coverdell law, several factors (including the number of eligible State applicants) affect “base” amounts.

³ Minimum awards for America Samoa and the Commonwealth of the Northern Mariana Islands are lower.

1. To carry out all or a substantial part of a program intended to improve the quality and timeliness of forensic science or medical examiner services in the State, including those services provided by laboratories operated by the State and those operated by units of local government within the State.
2. To eliminate a backlog in the analysis of forensic science evidence,⁴ including, among other things, a backlog with respect to firearms examination, latent prints, toxicology, controlled substances, forensic pathology, questioned documents, and trace evidence.
3. To train, assist, and employ forensic laboratory personnel as needed to eliminate such a backlog.

C. Expected Results and Outcomes

The result of Coverdell grants to applicant States should be a demonstrated improvement over current operations in the quality and/or timeliness of forensic science or medical examiner services provided in the State, including services provided by laboratories operated by the State and services provided by laboratories operated by units of local government within the State. Reduction of forensic analysis backlogs is considered an improvement in timeliness of services. The result of Coverdell grants directly to units of local government should be a demonstrated improvement over current operations in the quality and/or timeliness of forensic science or medical examiner services provided by the local jurisdiction.

See “Performance Measures,” page 14, for additional information.

D. Grant Period

Coverdell grants generally are limited to a 12-month period. Applicants are asked to establish a project period of October 1, 2013, to September 30, 2014. Applicants should be aware that the total period of an award, including one that receives a project period extension, ordinarily will not exceed 3 years.

Budget Information

A. Permissible Expenses

The types of expenses listed below generally may be paid with Coverdell funds.

Note: The following list details the types of expenses allowed under the Coverdell program. These expenses should **NOT** be used as budget categories—instead they are to be incorporated into the appropriate standard OJP budget categories. For more information on OJP’s standard budget format, see the section titled “What an Application Should Include.”

1. **Personnel.** Funds may be used for forensic science or medical examiner personnel, overtime, fellowships, visiting scientists, interns, consultants, or contracted staff.

⁴ A backlog in the analysis of forensic science evidence exists if forensic evidence has been stored in a laboratory, medical examiner’s office, coroner’s office, law enforcement storage facility, or medical facility; and has not been subjected to all appropriate forensic testing because of lack of resources or personnel.

2. **Computerization.** Funds may be used to upgrade, replace, lease, or purchase computer hardware and software for forensic analyses and data management.
3. **Laboratory equipment.** Funds may be used to upgrade, lease, or purchase forensic laboratory or medical examiner equipment and instrumentation.
4. **Supplies.** Funds may be used to acquire forensic laboratory or medical examiner supplies.

Note: To help ensure compliance with the National Environmental Policy Act (NEPA) and Department of Justice regulations, Coverdell awardees that intend to use funds for activities involving the use or purchase of chemicals will be required to submit additional information. See the "Additional Requirements" section of this announcement.

Applicants should note that award recipients whose proposals involve the use or purchase of chemicals may encounter delays in the release of their award funds pending satisfactory completion of the NEPA review process.

5. **Accreditation.** Funds may be used to prepare for laboratory accreditation by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board (ASCLD-LAB), Forensic Quality Services (FQS), the National Association of Medical Examiners (NAME), the American Association for Laboratory Accreditation (A2LA), or other appropriate accrediting bodies. Funds also may be used for application and maintenance fees charged by appropriate accrediting bodies.
6. **Education, training, and certification.** Funds may be used for appropriate internal and external training of staff that are directly and substantially involved in providing forensic science or medical examiner services. In appropriate cases, funds also may be used for fees charged by appropriate certifying bodies for certification of staff in specific forensic discipline areas. All education, training, and certification activities must be designed to improve the quality and/or timeliness of forensic science or medical examiner services. The grant application should demonstrate that the proposed training or certification is directly related to the job position and duties of the individual(s) receiving the training or seeking certification.
7. **Facilities.** Funds may be used for program expenses relating to facilities, provided the expenses are directly attributable to improving the quality and/or timeliness of forensic science or medical examiner services. Funds also may be used for renovation and/or construction undertaken as part of the applicant's program to improve the quality and/or timeliness of forensic science or medical examiner services.

Limitations on use of funds for costs of new facility. The Coverdell law limits the amount of funds that may be used for the costs of a new facility or facilities. See 42 U.S.C. § 3797m(c). Maximum amounts are determined by the total amount of the Coverdell grant (including both base and competitive funds) and the total amount of funds available for Coverdell grants nationwide. The maximum amounts that may be used for costs of new facilities are as follows. (Estimates and calculations are based on the

assumption that the total available funds for Coverdell awards in FY 2013 will be \$9,000,000. Please refer to the discussion under "Available Funding" on page 9.)

- a. Grants that do not exceed 0.6 percent of the total available funds (estimated at \$54,000) for FY 2013. If the total Coverdell grant to an applicant State or unit of local government is less than or equal to 0.6 percent of the total available funds (estimated here at \$54,000), no more than 80 percent of the total grant may be used for the costs of any new facility.
- b. Grants that exceed 0.6 percent of the total available funds. If an applicant State receives a total grant that exceeds 0.6 percent of the total available funds (estimated here at \$54,000), the amount of the grant that can be used for the costs of any new facility cannot exceed the sum of 80 percent of 0.6 percent of the total available funds (such 80 percent estimated here at \$43,000) plus 40 percent of the amount of the grant in excess of 0.6 percent of the total available funds.

For example, if \$9,000,000 were to become available for Coverdell awards in FY 2013 and a State were to receive a total Coverdell grant of \$100,000, no more than \$61,600 may be used for the costs of any new facility.

A sample calculation for a \$100,000 grant would be as follows:

Eighty percent of 0.6 percent of the total available funds: $\$54,000 \times .80 = \$43,200$
Amount in excess of \$54,000: $\$100,000 - \$54,000 = \$46,000$
40 percent of amount in excess of \$54,000: $\$46,000 \times .40 = \$18,400$
Sum of \$43,200+ \$18,400 = \$61,600

Note: To help ensure compliance with NEPA and Department of Justice regulations, Coverdell awardees that intend to use funds for activities involving the renovation or construction of facilities will be required to submit additional information (see "Additional Requirements").

Applicants should note that award recipients whose proposals involve construction or renovation may encounter delays in the release of their award funds pending satisfactory completion of the NEPA review process.

8. **Administrative expenses.** Not more than 10 percent of the total amount of a Coverdell grant may be used for a recipient's administrative expenses.

B. Expenses That are not Permitted

1. Expenses other than those listed above (including expenses for general law enforcement functions or non-forensic investigatory functions).
2. Costs for any new facility that exceed the limits described above.
3. Recipient administrative expenses (direct or indirect) that exceed 10 percent of the total grant amount.

C. Minimization of Conference Costs

OJP encourages applicants to review the OJP guidance on conference approval, planning, and reporting that is available on the OJP Web site at www.ojp.gov/funding/confcost.htm. This guidance sets out the current OJP policy, which requires all funding recipients that propose to hold or sponsor conferences (including meetings, trainings, and other similar events) to minimize costs, requires OJP review and prior written approval of most conference costs for cooperative agreement recipients (and certain costs for grant recipients), and generally prohibits the use of OJP funding to provide food and beverages at conferences. The guidance also sets upper limits on many conference costs, including facility space, audio/visual services, logistical planning services, programmatic planning services, and food and beverages (in the rare cases where food and beverage costs are permitted at all).

Prior review and approval of conference costs can take time (see the guidance for specific deadlines), and applicants should take this into account when submitting proposals. Applicants also should understand that conference cost limits may change and that they should check the guidance for updates before incurring such costs.

Note on food and beverages: OJP may make exceptions to the general prohibition on using OJP funding for food and beverages, but will do so only in rare cases where food and beverages are not otherwise available (e.g., in extremely remote areas); the size of the event and capacity of nearby food and beverage vendors would make it impractical to not provide food and beverages; or a special presentation at a conference requires a plenary address where conference participants have no other time to obtain food and beverages. Any such exception requires OJP's prior written approval. The restriction on food and beverages does not apply to water provided at no cost, but does apply to any and all other refreshments, regardless of the size or nature of the meeting. Additionally, this restriction does not affect direct payment of per diem amounts to individuals in a travel status under your organization's travel policy.

D. Costs Associated with Language Assistance (if applicable)

If an applicant proposes a program or activity that would deliver services or benefits to individuals, the costs of taking reasonable steps to provide meaningful access to those services or benefits by individuals with limited English proficiency may be allowable costs. Reasonable steps to provide meaningful access to services or benefits may include interpretation or translation services where appropriate.

For additional information, see the "Civil Rights Compliance" section of the OJP "Other Requirements for OJP Applications" Web page (www.ojp.usdoj.gov/funding/other_requirements.htm).

E. Match Requirement

This solicitation does not require a match. If a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

Performance Measures

To assist the Department with fulfilling its responsibilities under the Government Performance and Results Act of 1993 (GPRA), Public Law 103-62, and the GPRA Modernization Act of 2010, Public Law 111-352, applicants that receive funding under this solicitation must provide data that measure the results of their work done under this solicitation. OJP will require any award recipient, post award, to provide the data requested in the “Data Grantee Provides” column so that OJP can calculate values for the “Performance Measures” column. Performance measures for this solicitation are as follows:

Objective	Performance Measure(s)	Data Grantee Provides
To improve the quality and timeliness of forensic services and to reduce the number of backlogged cases in forensic laboratories	Outcome Measure - Reduction in the average number of days from the submission of a sample to a forensic science laboratory to the delivery of test results to a requesting office or agency. - Percent reduction in the number of backlogged forensic cases. Output Measure - The number of forensic science or medical examiner personnel who completed appropriate training or educational opportunities with FY 2013 Coverdell funds (if applicable to the grant).	- Average number of days to process a sample at the beginning of the grant period. - Average number of days to process a sample at the end of the grant period. - Number of backlogged cases at the beginning of the grant period. - Number of backlogged cases at the end of the grant period. - Number of forensic science personnel attending training. - Number of medical examiner personnel attending training programs.

OJP does not require applicants to submit performance measures data with their applications. Instead, applicants should discuss in their application their proposed methods for collecting data for performance measures. Refer to the section “What an Application Should Include” on page 15 for additional information.

Note on Project Evaluations (if applicable)

Applicants that propose to use funds awarded through this solicitation to conduct project evaluations should be aware that certain project evaluations (such as systematic investigations designed to develop or contribute to generalizable knowledge) may constitute “research” for purposes of applicable DOJ human subjects protection regulations. However, project evaluations that are intended only to generate internal improvements to a program or service, or are conducted only to meet OJP’s performance measure data reporting requirements likely do not constitute “research.” Applicants should provide sufficient information for OJP to determine whether the particular project they propose would either intentionally or unintentionally collect and/or use information in such a way that it meets the DOJ regulatory definition of research.

Research, for the purposes of human subjects protections for OJP-funded programs, is defined as, “a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge” 28 C.F.R. § 46.102(d). For additional information on determining whether a proposed activity would constitute research, see the decision tree to assist applicants on the “Research and the Protection of Human Subjects” section of the OJP “Other Requirements for OJP Applications” Web page (www.ojp.usdoj.gov/funding/other_requirements.htm). Applicants whose proposals may involve a research or statistical component also should review the “Confidentiality” section on that Web page.

Notice of Post-Award FFATA Reporting Requirement

Applicants should anticipate that OJP will require all recipients (other than individuals) of awards of \$25,000 or more under this solicitation, consistent with the Federal Funding Accountability and Transparency Act of 2006 (FFATA), to report award information on any first-tier subawards totaling \$25,000 or more, and, in certain cases, to report information on the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients. Each applicant entity must ensure that it has the necessary processes and systems in place to comply with the reporting requirements should it receive funding. Reports regarding subawards will be made through the FFATA Subaward Reporting System (FSRS), found at www.fsrs.gov.

Please note also that applicants should anticipate that no subaward of an award made under this solicitation may be made to a subrecipient (other than an individual) unless the potential subrecipient acquires and provides a Data Universal Numbering System (DUNS) number.

What an Application Should Include

Applicants should anticipate that if they fail to submit an application that contains all of the specified elements, it may negatively affect the review of their application; and, should a decision be made to make an award, it may result in the inclusion of special conditions that preclude the recipient from accessing or using award funds pending satisfaction of the conditions.

Moreover, applicants that request competitive funds should anticipate that applications that are unresponsive to the scope of the solicitation, or that do not include application elements that NIJ has designated to be critical, will neither proceed to peer review nor receive further consideration. Under this solicitation, NIJ has designated, for requests for competitive funds, the following application elements as critical: program narrative, budget detail worksheet and budget narrative, and **all four** certifications required by the Coverdell law. Applicants may combine the Budget Narrative and the Budget Detail Worksheet in one document. However, if an applicant submits only one document, it must contain **both** narrative and detail information. (Requests for competitive funds from States must clearly differentiate between the information on program narrative and budget provided for the request for competitive funds and the information provided for the request for “base” funds.)

OJP strongly recommends that applicants use appropriately descriptive file names (e.g., “Program Narrative,” “Budget Detail Worksheet and Budget Narrative,” “Timelines,” “Memoranda of Understanding,” “Resumes”) for all attachments. Also, OJP recommends that applicants include resumes in a single file.

1. Information to complete the Application for Federal Assistance (SF-424)

The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. Grants.gov and GMS take information from the applicant’s profile to populate the fields on this form.

2. Abstract

Applications should include a high-quality “Project Abstract” that summarizes the proposed project in **250-400 words**. Project abstracts should be—

- Written for a general public audience.
- Submitted as a separate attachment with <Project Abstract> as part of its file name.
- Single-spaced, using a standard 12-point font (Times New Roman) with 1-inch margins.

As a separate attachment, the project abstract will **not** count against the page limit for the program narrative section of a request for competitive funds.

All project abstracts should follow the detailed template available at www.ojp.usdoj.gov/funding/Project_Abstract_Template.pdf.

The abstract is a critical part of your application, serving as an important introduction to your proposed project. NIJ uses the abstract for a number of purposes, including (for requests for competitive funds) assignment to the appropriate independent review panel. If your proposal is funded, the abstract typically will become public information and be used to describe your proposed work. The abstract should be 250–400 words and describe the proposed work succinctly and accurately.

Permission to Share Project Abstract with the Public: It is unlikely that NIJ will be able to fund all promising requests for competitive funds submitted under this solicitation, but it may have the opportunity to share information with the public regarding promising but unfunded applications, for example, through a listing on a webpage available to the public. The intent of this public posting would be to allow other possible funders to become aware of such proposals.

In the project abstract template, applicants are asked to indicate whether they give OJP permission to share their project abstract (including contact information) with the public. Granting (or failing to grant) this permission will not affect OJP’s funding decisions, and, if the application is not funded, granting permission will not guarantee that abstract information will be shared, nor will it guarantee funding from any other source.

Note: OJP may choose not to list a project that otherwise would have been included in a listing of promising but unfunded applications, should the abstract fail to meet the format and content requirements noted above and outlined in the project abstract template.

3. Program Narrative

Program Narrative Guidelines:

a. Main Body

The main body of the program narrative should address the project objectives, the expected results, and the implementation approach.

a. Formula (base) applications

- **State (base) applicants:** The program narrative must specifically describe the manner in which Coverdell grant funds will be used to carry out the State plan to improve the quality and/or timeliness of forensic science or medical examiner services over current operations. (Reduction of forensic analysis backlogs is considered an improvement in timeliness of services.) States are expected to consider the needs of laboratories operated by units of local government as well as those operated by the State.

If grant funds are requested for costs of a new facility, the program narrative must specifically describe the new facility to be constructed and the estimated costs of that facility.

b. Requests for competitive funds

The main body of the program narrative for a request for competitive funds should describe the project in depth. The following sections should be included as part of the main body of a program narrative:

- Statement of the Problem.
- Project/Program Design and Implementation.
- Capabilities/Competencies.
- Impact/Outcomes and Evaluation.
- Other/Part 1 violent crimes data (see page 21).
- **State (base/competitive) applicants:** A State that seeks competitive funds in addition to base funds should include a **separate** program narrative (as well as a separate proposed budget detail worksheet and budget narrative), which should describe how competitive funds will be used to support improvements in forensic science or medical examiner services **above and beyond** the improvements it will accomplish with its estimated amount of base funds. As noted earlier, existing resources and current needs will be considered in awarding competitive funds and should be addressed in any request for competitive funds. Requests for

competitive funds should specify the dollar amount requested, which should not exceed \$175,000.

If grant funds are requested for costs of a new facility, the program narrative must specifically describe the new facility to be constructed and the estimated costs of that facility.

Any State application for funding **MUST** be submitted by the Coverdell SAA (see list of SAAs on the OJP Web site at www.ojp.usdoj.gov/saa/index.htm). When applying for competitive funds, an SAA should consult with all interested State agencies to prepare a request for competitive funds. No more than one request for competitive funds per State (SAA) will be funded.

- **Unit of local government:** The program narrative must specifically describe the manner in which Coverdell grant funds will be used to carry out the unit of local government plan to improve the quality and/or timeliness of forensic science or medical examiner services over current operations. (Reduction of forensic analysis backlogs is considered an improvement in timeliness of services.) Existing resources and current needs will be considered in awarding competitive funds and should be addressed in any request for competitive funds. Requests for competitive funds should specify the dollar amount requested, which should not exceed \$175,000.

If grant funds are requested for costs of a new facility, the program narrative must specifically describe the new facility to be constructed and the estimated costs of that facility.

All interested components of a unit of local government should be consulted before preparing an application for competitive funds. No more than one application for competitive funds per unit of local government will be funded.

The program narrative section for a request for competitive funds should not exceed 20 double-spaced pages in 12-point font with 1-inch margins. Abstract, table of contents, charts, figures, appendices, and government forms do not count toward the 20-page limit for the narrative section.

If the program narrative for a request for competitive funds fails to comply with these length-related restrictions, noncompliance may be considered in peer review and in final award decisions

4. External Investigations Attachment to the Program Narrative

- All applicants are to provide—as an attachment to the program narrative—the name(s) of the existing “government entity” (or entities) that is the subject of the certification (see Appendix 2) that—

A government entity exists and an appropriate process is in place to conduct independent external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors of any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount.

- Appendix 3 includes a template for this attachment. Note that funds **will not be made available** to applicant agencies that fail to provide the necessary information.

5. Plan for Collecting the Data Required for this Solicitation's Performance Measures

NIJ does not require applicants to submit performance measures data with their application. Performance measures are included as an alert that NIJ will require successful applicants to submit specific data to NIJ as part of their reporting requirements. For the application ("base" and/or competitive), applicants should indicate an understanding of these requirements and discuss how they will gather the required data, should they receive funding.

6. Budget Detail Worksheet and Budget Narrative

a. Budget Detail Worksheet

A sample Budget Detail Worksheet can be found at www.ojp.gov/funding/forms/budget_detail.pdf. Applicants that submit their budget in a different format should include the budget categories listed in the sample budget worksheet.

For questions pertaining to budget and examples of allowable and unallowable costs, see the OJP Financial Guide at www.ojp.usdoj.gov/financialguide/index.htm.

b. Budget Narrative

The Budget Narrative should thoroughly and clearly describe every category of expense listed in the Budget Detail Worksheet. OJP expects proposed budgets to be complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities).

Applicants should demonstrate in their budget narratives how they will maximize cost effectiveness of grant expenditures. Budget narratives should generally describe cost effectiveness in relation to potential alternatives and the goals of the project. For example, a budget narrative should detail why planned in-person meetings are necessary, or how technology and collaboration with outside organizations could be used to reduce costs, without compromising quality.

The narrative should be mathematically sound and correspond with the information and figures provided in the Budget Detail Worksheet. The narrative should explain how the applicant estimated and calculated all costs, and how they are relevant to

the completion of the proposed project. The narrative may include tables for clarification purposes but need not be in a spreadsheet format. As with the Budget Detail Worksheet, the Budget Narrative should be broken down by year.

7. Indirect Cost Rate Agreement (if applicable)

Indirect costs are allowed only if the applicant has a federally approved indirect cost rate. (This requirement does not apply to units of local government.) Attach a copy of the federally approved indirect cost rate agreement to the application. Applicants that do not have an approved rate may request one through their cognizant federal agency, which will review all documentation and approve a rate for the applicant organization, or, if the applicant's accounting system permits, costs may be allocated in the direct cost categories. If DOJ is the cognizant federal agency, obtain information needed to submit an indirect cost rate proposal at www.ojp.usdoj.gov/funding/pdfs/indirect_costs.pdf.

8. Additional Attachments

a. Coverdell Statutory Certifications

As described above in the "Eligibility" section, the Coverdell law provides that, to request a grant, each applicant **must** submit **four** certifications specific to the Coverdell Program. A certification may only be completed by an official familiar with its requirements and authorized to certify on behalf of the applicant agency (i.e., the agency applying directly to NIJ). Templates for the statutory certifications appear in Appendix 2. (Note that there are two versions of the first template—one for State applicants, the other for applicant units of local government.) **All four** certifications **must** be completed using these templates. Certifications made on behalf of subrecipients of award funds—rather than certifications made on behalf of the agency applying directly to NIJ—are **not** acceptable to satisfy the certification requirements.

The four required Coverdell statutory certifications are as follows—

1. Certification as to Plan for Forensic Science Laboratories—Application from a State **or** Certification as to Plan for Forensic Science Laboratories—Application from a Unit of Local Government.
2. Certification as to Generally Accepted Laboratory Practices and Procedures.
3. Certification as to Use of Funds for New Facilities.
4. Certification as to External Investigations.

Please note: Specific information and guidance with respect to the "Certification as to External Investigations" are provided above, under "Eligibility." Certifying officials must read and review this information and guidance prior to executing the certification.

b. Applicant Disclosure of Pending Applications

Applicants are to disclose whether they have pending applications for federally funded assistance that include requests for funding to support the same project being proposed

under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation. The disclosure should include both direct applications for federal funding (e.g., applications to federal agencies) and indirect applications for such funding (e.g., applications to State agencies that will be subawarding federal funds).

OJP seeks this information to help avoid any inappropriate duplication of funding. Leveraging multiple funding sources in a complementary manner to implement comprehensive programs or projects is encouraged and is not seen as inappropriate duplication.

Applicants that have pending applications as described above are to provide the following information about pending applications submitted within the last 12 months:

- The Federal or State funding agency.
- The solicitation name/project name.
- The point of contact information at the applicable funding agency.

Federal or State Funding Agency	Solicitation Name/Project Name	Name/Phone/E-mail for Point of Contact at Funding Agency
DOJ/COPS	COPS Hiring Program	Jane Doe, 202/000-0000; jane.doe@usdoj.gov
HHS/ Substance Abuse & Mental Health Services Administration	Drug Free Communities Mentoring Program/ North County Youth Mentoring Program	John Doe, 202/000-0000; john.doe@hhs.gov

Applicants should include the table as a separate attachment, with the file name "Disclosure of Pending Applications," to their application. Applicants that do not have pending applications as described above are to include a statement to this effect in the separate attachment page (e.g., "[Applicant Name] does not have pending applications submitted within the last 12 months for federally funded assistance that include requests for funding to support the same project being proposed under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation.").

9 Other Standard Forms

Additional forms that OJP may require in connection with an award are available on OJP's funding page at www.ojp.usdoj.gov/funding/forms.htm. For successful applicants, receipt of funds may be contingent upon submission of all necessary forms. Note in particular the following forms.

- a. [Standard Assurances*](#)
Applicants must read, certify, and submit this form in GMS prior to the receipt of any award funds.
- b. [Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements*](#)
Applicants must read, certify, and submit in GMS prior to the receipt of any award funds.
- c. [Accounting System and Financial Capability Questionnaire](#)
Any applicant (other than an individual) that is a non-governmental entity and that has not received any award from OJP within the past 3 years must download, complete, and submit this form.

* These OJP Standard Assurances and Certifications are forms which applicants accept in GMS. They are not additional forms to be uploaded at the time of application submission.

Selection Criteria

Base funds and minimum awards

Subject to the availability of appropriated funds, States that satisfy the specific requirements (including eligibility requirements) outlined in this announcement, the general requirements for NIJ and OJP grants, and all other applicable legal requirements, may expect to be awarded "base" funds or minimum awards determined in accordance with the Coverdell law.

Requests for competitive funds

Each criterion is weighted according to the percentage listed below.

Statement of the Problem (Understanding of the problem and its importance)—15%

Project/Program Design and Implementation (Quality and technical merit)—15%

1. Soundness of the approach to reduce and/or eliminate a backlog.
2. Soundness of the approach to improve the quality of forensic services.
3. Soundness of the approach to train and employ forensic personnel to eliminate a backlog and increase capacity.
4. Innovation and creativity in the approach to reducing and/or eliminating a backlog and increasing capacity.
5. Feasibility of the proposed project and awareness of pitfalls.

Capabilities/Competencies (Capabilities, demonstrated productivity, and experience of applicants)—10%

1. Adequacy of the plan to manage the project, including how various tasks are subdivided and resources are used.
2. Successful past performance on NIJ grants and contracts (when applicable).
3. Demonstrated ability of the organization to manage the effort.

Budget—25%

NOTE: *The budget should be complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities.) Budget narratives should generally demonstrate how applicants will maximize cost effectiveness of grant expenditures. Budget narratives should demonstrate cost effectiveness in relation to potential alternatives and the goals of the project.*⁵

1. Total cost of the project relative to the perceived benefit.
2. Use of existing resources to conserve costs.
3. Cost effectiveness of proposed activities applicable to backlog reduction and/or timeliness of forensic science or medical examiner services.
4. Cost effectiveness of proposed activities applicable to improvement in the quality of forensic science or medical examiner services.
5. Cost effectiveness of education and training as related to quality and/or timeliness of forensic science or medical examiner services.

Impact/Outcomes and Evaluation/Plan for Collecting Data for Performance Measures (Relevance to policy and practice)—30%

1. Improvement in Quality and Timeliness
 - a. Anticipated reduction in backlog.
 - b. Anticipated improvement in quality and timeliness of forensic results.
 - c. Anticipated benefit of education and training to reduce backlog and improve timeliness of results.
 - d. Planned steps to achieve accreditation to positively impact quality and/or timeliness of forensic results.
2. Anticipated Impact of Eligible Project Activities
 - a. *Personnel*: If applicable, anticipated impact of requested personnel resources (e.g., overtime) on improvement in quality and/or timeliness of forensic science or medical examiner services.
 - b. *Equipment/Supplies*: If applicable, anticipated impact of requested equipment and supplies on improvement in quality and/or timeliness of forensic science or medical examiner services.
 - c. *Computerization*: If applicable, anticipated impact of requested computerization on improvement in quality and/or timeliness of forensic science or medical examiner services.
 - d. *Renovation/Construction of Facilities*: If applicable, anticipated impact of proposed action on improvement in quality and/or timeliness of forensic science or medical examiner services.

⁵ Generally speaking, a reasonable cost is a cost that, in its nature or amount, does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs.

3. Demonstrated plan for collection of the performance measure data as described in the solicitation.

Other—5%

Average annual number of Part I violent crimes reported to the Federal Bureau of Investigation for calendar years 2009, 2010, and 2011.

Review Process

OJP is committed to ensuring a fair and open process for awarding grants. NIJ reviews the application to make sure that the information presented is reasonable, understandable, measurable, and achievable, as well as consistent with the solicitation. NIJ will review applications for formula awards to ensure statutory requirements have been met.

Peer reviewers will review the requests for competitive funds submitted under this solicitation that meet basic minimum requirements. NIJ may use either internal peer reviewers, external peer reviewers, or a combination, to review these requests under this solicitation. An external peer reviewer is an expert in the subject matter of a given solicitation who is NOT a current DOJ employee. An internal reviewer is a current DOJ employee who is well-versed or has expertise in the subject matter of this solicitation. Eligible requests for competitive funds that meet basic minimum requirements will be evaluated, scored, and rated by a peer review panel. Peer reviewers' ratings and any resulting recommendations are advisory only. In addition to peer review ratings, considerations for award recommendations and decisions may include, but are not limited to, underserved populations, geographic diversity, strategic priorities, past performance, and available funding.

When appropriate, the Office of the Chief Financial Officer (OCFO), in consultation with NIJ, reviews requests for competitive funds to evaluate the fiscal integrity and financial capability of applicants; examines proposed costs to determine if the Budget Detail Worksheet and Budget Narrative accurately explain project costs; and determines whether costs are reasonable, necessary, and allowable under applicable federal cost principles and agency regulations.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General (AAG). With respect to requests for competitive funds, the AAG may also give consideration to factors including, but not limited to, underserved populations, geographic diversity, strategic priorities, past performance, and available funding when making awards.

All awards are subject to the availability of appropriated funds, and to any modifications or additional requirements that may be imposed by law.

Additional Requirements

Applicants selected for awards must agree to comply with additional legal requirements upon acceptance of an award. OJP encourages applicants to review the information pertaining to

these additional requirements prior to submitting an application. Additional information for each requirement can be found at www.ojp.usdoj.gov/funding/other_requirements.htm.

- Civil Rights Compliance
- Civil Rights Compliance Specific to State Administering Agencies
- Faith-Based and Other Community Organizations
- Confidentiality
- Research and the Protection of Human Subjects
- Anti-Lobbying Act
- Financial and Government Audit Requirements
- National Environmental Policy Act (NEPA)
- DOJ Information Technology Standards (if applicable)
- Single Point of Contact Review
- Non-Supplanting of State or Local Funds
- Criminal Penalty for False Statements
- Compliance with [Office of Justice Programs Financial Guide](#)
- Suspension or Termination of Funding
- Nonprofit Organizations
- For-profit Organizations
- Government Performance and Results Act (GPRA)
- Rights in Intellectual Property
- Federal Funding Accountability and Transparency Act of 2006 (FFATA)
- Awards in Excess of \$5,000,000 – Federal Taxes Certification Requirement
- Policy and Guidance for Conference Approval, Planning, and Reporting
- OJP Training Guiding Principles for Grantees and Subgrantees

Reporting

If a proposal is funded, the award recipient will be required to submit several reports and other materials, including:

Each grantee under the Coverdell program must submit semiannual progress reports, quarterly financial status reports, and, if applicable, an annual audit report in accordance with Office of Management and Budget Circular A–133. In addition, Coverdell grantees must submit a final report that must, among other things: (1) include a summary and assessment of the program carried out with FY 2013 grant funds, (2) identify the number and type of cases accepted during the FY 2013 award period by the forensic laboratory or laboratories that received FY 2013 grant funds, and (3) cite the specific improvements in the quality and/or timeliness of forensic science and medical examiner services (including any reduction in forensic analysis backlog) that occurred as a direct result of the FY 2013 grant award. Future awards and fund drawdowns may be withheld if reports are delinquent.

In addition, as noted earlier under “Eligibility,” for each fiscal year of an award, recipients will be required to report to NIJ on an annual basis—

- 1) the number and nature of any allegations of serious negligence or misconduct substantially affecting the integrity of forensic results;*
- 2) information on the referrals of such allegations (e.g., the government entity or entities to which referred, the date of referral);*
- 3) the outcome of such referrals (if known as of the date of the report); and*
- 4) if any such allegations were not referred, the reason(s) for the non-referral.*

Payments to recipients (including payments under future awards) may be withheld if the required information is not submitted on a timely basis.

The highest standards of integrity in the practice of forensic science are critical to the enhancement of the administration of justice. We assume that recipients (and subrecipients) of Coverdell funds will make use of the process referenced in their certification as to external investigations and will refer allegations of serious negligence or misconduct substantially affecting the integrity of forensic results to government entities with an appropriate process in place to conduct independent external investigations, such as the government entities identified in the grant application.

How to Apply

Applicants must submit applications through the Grants Management System ([GMS](#)), which provides cradle to grave support for the application, award, and management of awards at OJP. Applicants **must register in GMS for each specific funding opportunity**. Although the registration and submission deadlines are the same, OJP urges applicants to **register promptly**, especially if this is their first time using the system. Complete instructions on how to register and submit an application in GMS can be found at www.ojp.usdoj.gov/gmscbt/. Applicants that experience technical difficulties during this process should e-mail

GMS.HelpDesk@usdoj.gov or call 888-549-9901 (option 3), Monday – Friday from 6:00 a.m. to midnight eastern time, except federal holidays. OJP recommends that applicants **register promptly** to prevent delays in submitting an application package by the deadline.

All applicants should complete the following steps:

1. **Acquire a Data Universal Numbering System (DUNS) number.** In general, the Office of Management and Budget requires that all applicants (other than individuals) for federal funds include a DUNS number in their application for a new award or a supplement to an existing award. A DUNS number is a unique nine-digit sequence recognized as the universal standard for identifying and differentiating entities receiving federal funds. The identifier is used for tracking purposes and to validate address and point of contact information for federal assistance applicants, recipients, and subrecipients. The DUNS number will be used throughout the grant life cycle. Obtaining a DUNS number is a free, one-time activity. Call Dun and Bradstreet at 866-705-5711 to obtain a DUNS number or apply online at www.dnb.com. A DUNS number is usually received within 1-2 business days.
2. **Acquire registration with the System for Award Management (SAM). SAM replaces the Central Contractor Registration (CCR) database** as the repository for standard information about federal financial assistance applicants, recipients, and subrecipients. OJP requires that all applicants (other than individuals) for federal financial assistance maintain current registrations in the SAM database. Applicants must **update or renew their SAM registration annually** to maintain an active status.

Applicants that were previously registered in the CCR database must, at a minimum:

- Create a SAM account;
- Log in to SAM and migrate permissions to the SAM account (all the entity registrations and records should already have been migrated).

Information about SAM registration procedures can be accessed at www.sam.gov.

3. **Acquire a GMS username and password.** New users must create a GMS profile by selecting the “First Time User” link under the sign-in box of the GMS home page. For more information on how to register in GMS, go to www.ojp.usdoj.gov/gmscbt/.
4. **Verify the SAM registration in GMS, formerly CCR registration.** OJP requests that all applicants verify their SAM registration in GMS. Once logged into GMS, click the “CCR Claim” link on the left side of the default screen. Click the submit button to verify the SAM (formerly CCR) registration.
5. **Search for the funding opportunity on GMS.** After logging into GMS or completing the GMS profile for username and password, go to the “Funding Opportunities” link on the left side of the page. Select NIJ and the Paul Coverdell Forensic Science Improvement Grants Program.
6. **Register by selecting the “Apply Online” button associated with the solicitation title.** The search results from step 5 will display the solicitation title along with the

registration and application deadlines for this funding opportunity. Select the “Apply Online” button in the “Action” column to register for this solicitation and create an application in the system.

7. **Complete the Disclosure of Lobbying Activities.** All applicants must complete this information and submit the form in GMS. Applicants that expend any funds for lobbying activities must provide the detailed information requested on the form, *Disclosure of Lobbying Activities* (SF-LLL). Applicants that do not expend any funds for lobbying activities should enter “N/A” in the required highlighted fields. Access the form at www.ojp.gov/funding/forms/disclosure.pdf.
8. **Follow the directions in GMS to submit an application consistent with this solicitation.** Once submitted, GMS will display a confirmation screen stating the submission was successful. **Important:** In some instances, applicants must wait for GMS approval before they can submit an application. OJP urges applicants to submit the application **at least 72 hours prior** to the due date of the application.

Note: GMS does not accept executable file types as application attachments. These disallowed file types include, but are not limited to, the following extensions: “.com,” “.bat,” “.exe,” “.vbs,” “.cfg,” “.dat,” “.db,” “.dbf,” “.dll,” “.ini,” “.log,” “.ora,” “.sys,” and “.zip.”

Note: Duplicate Applications

If an applicant submits multiple versions of an application, NIJ will review the most recent version submitted.

Experiencing Unforeseen GMS Technical Issues

Applicants that experience unforeseen GMS technical issues beyond their control that prevent them from submitting their application by the deadline must e-mail the NIJ contact identified in the Contact Information section on the title page **within 24 hours after the application deadline** and request approval to submit their application. The e-mail must describe the technical difficulties and include a timeline of the applicant's submission efforts, the complete grant application, the applicant's DUNS number, and any GMS Help Desk or SAM tracking number(s). **Note: NIJ does not automatically approve requests.** After the program office reviews the submission, and contacts the GMS Help Desk to validate the reported technical issues, OJP will inform the applicant whether the request to submit a late application has been approved or denied. If the technical issues reported cannot be validated, the application will be rejected as untimely.

The following conditions are not valid reasons to permit late submissions: (1) failure to register in sufficient time, (2) failure to follow GMS instructions on how to register and apply as posted on its Web site, (3) failure to follow each instruction in the OJP solicitation, and (4) technical issues with the applicant's computer or information technology environment, including firewalls.

Notifications regarding known technical problems with GMS, if any, are posted at the top of the OJP funding Web page at www.ojp.usdoj.gov/funding/solicitations.htm.

Provide Feedback to OJP on This Solicitation

To assist OJP in improving its application and award processes, we encourage applicants to provide feedback on this solicitation, the application submission process, and/or the application review/peer review process. Feedback may be provided to

OJPSolicitationFeedback@usdoj.gov.

IMPORTANT: This email is for feedback and suggestions only. Replies are **not** sent from this mailbox. If you have specific questions on any program or technical aspect of the solicitation, **you must** directly contact the appropriate number or email listed on the front of this solicitation document. These contacts are provided to help ensure that you can directly reach an individual who can address your specific questions in a timely manner.

If you are interested in being a reviewer for other OJP grant applications, please email your resume to ojppeerreview@lmbps.com. The OJP Solicitation Feedback email account will not forward your resume. **Note:** Neither you nor anyone else from your organization can be a peer reviewer in a competition in which you or your organization have submitted an application.

Application Checklist

Paul Coverdell Forensic Science Improvement Grants Program

This application checklist has been created to assist in developing an application.

Eligibility Requirement:

- _____ Coverdell Statutory Certifications (see pages 4–8 and 20)
 - _____ Certification as to Plan for Forensic Science Laboratories—Application from a State **or** Certification as to Plan for Forensic Science Laboratories—Application from a Unit of Local Government
 - _____ Certification as to Generally Accepted Laboratory Practices and Procedures
 - _____ Certification as to Use of Funds for New Facilities
 - _____ Certification as to External Investigations

What an Application Should Include:

- _____ Application for Federal Assistance (SF–424) (see page 16)
- _____ Abstract (see page 16)
- _____ Program Narrative(s) (see page 17)
- _____ External Investigations Attachment to the Program Narrative (see page 18)
- _____ Plan for Collecting the Data Required for this Solicitation's Performance Measures (see page 19)
- _____ Budget Detail Worksheet(s) (see page 19)
- _____ Budget Narrative(s) (see page 19)
- _____ Disclosure of Lobbying Activities (SF-LLL) (see page 28)
- _____ Indirect Cost Rate Agreement (if applicable) (see page 20)
- _____ Additional Attachment
 - _____ Disclosure of Pending Applications (see page 20)
- _____ Other Standard Forms as applicable (see page 21)

Appendix 1. Estimated Amount of FY 2013 Base Funds, by State.⁶

***Note: If the amount a State would otherwise receive as its total Coverdell grant award, including both base funds and any competitive funds, is less than the minimum grant amount set by the Coverdell law, the total Coverdell grant award will be increased to the minimum grant amount, which is estimated to be not less than \$54,000. See “Available Funding” under “Program-Specific Information” for additional details.**

Alabama	\$ 94,019	Nevada*	\$ 53,795
Alaska*	\$ 15,527	New Hampshire*	\$ 28,036

⁶ Under the provisions of the Coverdell law, several factors (including the number of eligible State applicants) affect “base” amounts. Additionally, as noted in the text, as of the writing of this solicitation, the amount (if any) that will be made available for the Coverdell program for FY 2013 is not yet known. **All awards are subject to the availability of appropriated funds.**

⁷ The Coverdell law includes specific provisions with respect to allocations to American Samoa and the Commonwealth of the Northern Mariana Islands. Please contact NIJ for additional information on this allocation.

U.S. DEPARTMENT OF JUSTICE
OFFICE OF JUSTICE PROGRAMS
NATIONAL INSTITUTE OF JUSTICE

**FY 2013 Coverdell Forensic Science Improvement
Grants Program**

Certification as to Plan for Forensic Science Laboratories—
Application from a **State**

On behalf of the applicant agency named below, I certify the following to the National Institute of Justice, Office of Justice Programs, U.S. Department of Justice:

The State has developed a plan for forensic science laboratories under a program intended to improve the quality and timeliness of forensic science or medical examiner services in the State, including such services provided by the laboratories operated by the State and those operated by units of local government within the State.

I acknowledge that a false statement in this certification or in the grant application that it supports may be the subject of criminal prosecution, including under 18 U.S.C. § 1001 and 42 U.S.C. § 3795a. I also acknowledge that Office of Justice Programs grants, including certifications provided in connection with such grants, are subject to review by the Office of Justice Programs and/or by the Department of Justice's Office of the Inspector General.

I have authority to make this certification on behalf of the applicant agency (that is, the agency applying directly to the National Institute of Justice).

Grants Program**

Certification as to Plan for Forensic Science Laboratories—
Application from a **Unit of Local Government**

On behalf of the applicant agency named below, I certify the following to the National Institute of Justice, Office of Justice Programs, U.S. Department of Justice:

This unit of local government has developed a plan for forensic science laboratories under a program intended to improve the quality and timeliness of forensic science or medical examiner services provided by the laboratories operated by the applicant unit of local government and any other government-operated laboratories within the State that will receive a portion of the grant amount.

I acknowledge that a false statement in this certification or in the grant application that it supports may be the subject of criminal prosecution, including under 18 U.S.C. § 1001 and 42 U.S.C. § 3795a. I also acknowledge that Office of Justice Programs grants, including certifications provided in connection with such grants, are subject to review by the Office of Justice Programs and/or by the Department of Justice's Office of the Inspector General.

I have authority to make this certification on behalf of the applicant agency (that is, the agency applying directly to the National Institute of Justice).

Certification as to Generally Accepted Laboratory
Practices and Procedures

On behalf of the applicant agency named below, I certify the following to the National Institute of Justice, Office of Justice Programs, U.S. Department of Justice:

Any forensic science laboratory system, medical examiner's office, or coroner's office in the State, including any laboratory operated by a unit of local government within the State, that will receive any portion of the grant amount uses generally accepted laboratory practices and procedures, established by accrediting organizations or appropriate certifying bodies.

I acknowledge that a false statement in this certification or in the grant application that it supports may be the subject of criminal prosecution, including under 18 U.S.C. § 1001 and 42 U.S.C. § 3795a. I also acknowledge that Office of Justice Programs grants, including certifications provided in connection with such grants, are subject to review by the Office of Justice Programs and/or by the Department of Justice's Office of the Inspector General.

I have authority to make this certification on behalf of the applicant agency (that is, the agency applying directly to the National Institute of Justice).

**FY 2013 Coverdell Forensic Science Improvement
Grants Program**

Certification as to Use of Funds for New Facilities

On behalf of the applicant agency named below, I certify the following to the National Institute of Justice, Office of Justice Programs, U.S. Department of Justice:

The amount of the grant (if any) used for the costs of any new facility or facilities to be constructed as part of a program to improve the quality and timeliness of forensic science and medical examiner services will not exceed the limitations set forth at 42 U.S.C. § 3797m(c) and summarized in the FY 2013 Coverdell Forensic Science Improvement Grants Program Announcement.

I acknowledge that a false statement in this certification or in the grant application that it supports may be the subject of criminal prosecution, including under 18 U.S.C. § 1001 and 42 U.S.C. § 3795a. I also acknowledge that Office of Justice Programs grants, including certifications provided in connection with such grants, are subject to review by the Office of Justice Programs and/or by the Department of Justice's Office of the Inspector General.

I have authority to make this certification on behalf of the applicant agency (that is, the agency applying directly to the National Institute of Justice).

Grants Program**

Certification as to External Investigations

On behalf of the applicant agency named below, I certify the following to the National Institute of Justice, Office of Justice Programs, U.S. Department of Justice:

A government entity exists and an appropriate process is in place to conduct independent external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors of any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount.

I personally read and reviewed the section entitled "Eligibility" in the Fiscal Year 2013 program announcement for the Coverdell Forensic Science Improvement Grants Program. I acknowledge that a false statement in this certification or in the grant application that it supports may be the subject of criminal prosecution, including under 18 U.S.C. § 1001 and 42 U.S.C. § 3795a. I also acknowledge that Office of Justice Programs grants, including certifications provided in connection with such grants, are subject to review by the Office of Justice Programs and/or by the Department of Justice's Office of the Inspector General.

I have authority to make this certification on behalf of the applicant agency (that is, the agency applying directly to the National Institute of Justice).

Appendix 3. Template for “External Investigations” Attachment

(Instructions: Scan the completed document and submit image file electronically through GMS.)

FY 2013 Coverdell Forensic Science Improvement Grants Program

Attachment: External Investigations

The “Certification as to External Investigations” that is submitted on behalf of the applicant agency as part of this application certifies that—

A government entity exists and an appropriate process is in place to conduct independent external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors of any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount.

Prior to receiving funds, the applicant agency (that is, the agency applying directing to the National Institute of Justice) must provide—for each forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility that will receive a portion of the grant amount—the name of the “government entity” (or entities) that forms the basis for the certification. Please use the template below to provide this information. (Applicants may adapt this template if necessary, but should ensure that the adapted document provides all required information.)

IMPORTANT NOTE: If necessary for accuracy, list more than one entity with respect to each intended recipient of a portion of the grant amount. For example, if no single entity has an appropriate process in place with respect to allegations of serious negligence as well as serious misconduct, it will be necessary to list more than one entity. Similarly, if no single entity has an appropriate process in place with respect to allegations concerning contractors as well as employees, it will be necessary to list more than one entity.

Additional guidance regarding the “Certification as to External Investigations” appears in the “Eligibility” section of the program announcement for the FY 2013 Coverdell program.

Name of Applicant Agency (including Name of State or Unit of Local Government):

Date: _____

Name of any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility that will receive a portion of the grant amount

Existing government entity (entities) with an appropriate process in place to conduct independent external investigations
